TEAM FOR PREPARATION OF ECONOMIC SURVEY OF DELHI 2025-26

Team Leader

Sh. Santosh D. Vaidya, Pr. Secretary (Planning)
Sh. Yashpal Garg, Secretary (Planning)

Team Members

Sh. D. Varma	Spl. Secretary
Sh. D. B. Gupta	Director
Sh. C.K. Dutta	Director
Sh. Manish Dev	Jt. Director
Sh. Deepak Kumar	Jt. Director
Sh. Shan-E-Alam	Jt. Director
Sh. Dileep Gupta	Dy. Director
Sh. Anil Kumar	Dy. Director
Sh. Rawleen Kaur	Dy. Director
Sh. Kishor Chilkoti	Asst. Director
Sh. Didar Singh	Asst. Director
Ms. Sushma Sharma	Asst. Director
Sh. Anjali Oberoi	Asst. Director
Ms. Hema Gogia	Asst. Director
Sh. Devendra Kumar Yadav	Asst. Director
Sh. Inder Mohan Arora	Statistical Officer
Sh. Mukesh Narula	Statistical Officer
Sh. Amit Sharma	Statistical Officer
Sh. Munish Kumar	Statistical Officer
Dr. Shubham Gupta	Statistical Officer
Dr. JitendraKumar	Statistical Officer
Sh. Gajender Singh	Statistical Officer
Sh. Naveen Dubey	Statistical Officer
Sh.Vaibhav Anand	Statistical Officer
Ms. Richa Dimri	Statistical Officer
Sh. Dushyant Kumar	Statistical Officer
Sh. Naveen Dubey	Statistical Officer
Sh. Prateek Jain	Statistical Officer
Ms. Kavita	Statistical Officer
Ms. Krittika Bhattacharya	Statistical Officer

Statistical Assistants/ Technical Support

Sh. Nitin, Sh. Gaurav Kumar, Sh. Vikas, Ms. Shilpi Sinha, Sh. Aakash Kaushik, Sh. Kapil Agarwal, Ms. Manumita, Sh. Kanhaiya Gupta, Sh. Sunny, Sh. Ashish, Ms. Sambhawana, Ms. Nandini Agrawal, Sh. Atul Suneja, Sh. Ravi, Sh. Pradeep Sahu

ACKNOWLEDGEMENTS

The Economic Survey of Delhi is a result of teamwork and collaboration of Planning Department alongwith other departments of Government of NCT of Delhi. Contributions to the Economic Survey from the Planning Department and Dte. of Economic & Statistics (DES), GNCTD include the Secretary, Director, Spl. Secretary, Joint Directors, Deputy Directors, Assistant Directors, Statistical Officers and Statistical Assistants.

The Economic Survey has benefitted from the valuable inputs of the Hon'ble Minister (Planning), Govt. of NCT of Delhi.

Apart from this, the departments of Govt. of NCT of Delhi i.e. Finance, Development, Environment, Industries, Tourism, Power, Transport, PWD, Urban Development, Delhi Jal Board, Education, Health & Family Welfare, Social Welfare, Women & Child Development, Welfare of SC/ST/OBC/Minorities, Food & Civil Supplies, I&FC etc. made contributions in their respective sectors/chapters. The Economic Survey is gratified for the valuable time, engagement and contributions of the officers & officials of these departments especially Planning & Statistical Cadre, GNCTD. Administrative Support was given by the Administration and Accounts branch of the Planning Department, GNCTD.

Santosh D. Vaidya

Pr. Secretary (Planning)

Government of NCT of Delhi

ABBREVIATIONS

AAY	Antyodaya Anna Yojana
AE	Advance Estimates
AEGR	Annual Exponential Growth Rate
AFCS	Automatic Fare Collection System
AI	Artificial Intelligence
AMRUT	Atal Mission for Rejuvenation and Urban Transformation
ANC	Ante-Natal Check-up
APMC	Agricultural Produce Marketing Committee
AQMC	Air Quality Monitoring Committee
ART	Anti Retroviral Treatment
ASHA	Accredited Social Health Activists
ASSOCHAM	Associated Chambers of Commerce & Industry of India
ATC	Aadhar Transfer Complaint
AVTS	Automated Vehicle Tracking System
AWCs	Anganwadi Centres
AWHs	Anganwadi Helpers
AWWs	Anganwadi Workers
AYUSH	Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homeopathy
BCG	Bacillus Calmette-Guerin
BCM	Billion Cubic Meter
BE	Budget Estimates
BEE	Bureau of Energy Efficiency
BEVs	Battery Electric Vehicles
BIGRS	Bloomberg Initiative of Global Road Safety
BOD	Biochemical Oxygen Demand
BPL	Below Poverty line
BRPL	BSES Rajdhani Power Limited
BSES	Bombay Suburban Electric Supply
BSUP	Basic Services to the Urban Poor
BYPL	BSES Yamuna Power Limited
C&D	Construction & Demolition
CAAQMS	Continuous Ambient Air Quality Monitoring Stations
CAP	Comprehensive Action Plan
CATS	Centralized Accident & Trauma Services
CBWTF	Common Bio-Medical Waste Treatment Facilities
CCTV	Closed-Circuit Television
CDMO	Chief District Medical Officer
CDR	Child Death Review
CESL	Convergence Energy Service Limit
CETPs	Common Effluent Treatment Plants
CGTMSE	Credit Guarantee Fund Trust for Micro & Small Enterprises
CIC	Crisis Intervention Centers
CIRT	Central Institute of Road Transport
COD	Chemical Oxygen Demand
CPCB	Central Pollution Control Board
CPI	Consumer Price Index
CPI-IW	Consumer Price Index for Industrial Workers

CRS	Civil Registration System
CSO	Central Statistics Office
CSS	Centrally Sponsored Schemes
CST	Central Sales Tax
CSWAP	City Solid Waste Action Plan

WS	Water Sprinklers
WTE	Waste To Energy
WTP	Water Treatment Plant
WWH	Working Women's Hostel
YAP	Yamuna Action Plan
ZRO	Zonal Revenue Office

CHAPTER 1

INTRODUCTION

The National Capital Territory of Delhi, established under the Government of National Capital Territory of Delhi Act, 1991, continues to operate under a unique administrative framework with shared responsibilities between the Union Government and the elected State Government. The NCT comprises 13 districts and 39 sub-divisions, covering an area of 1,483 square kilometres. Delhi remains the core of the National Capital Region (NCR), an integrated inter-state planning region aimed at balanced regional development. Urban governance continues through the Municipal Corporation of Delhi, New Delhi Municipal Council, and Delhi Cantonment Board, with renewed focus on service delivery, digital administration, and fiscal efficiency.

2. Delhi Government is working continuously to fulfil the resolve of building a 'Viksit Delhi'. The government is not merely focused on governance, but on serving the people. Sustained efforts have been made at the grassroots level, with priority given to essential services such as healthcare, education, smooth transport connectivity and access to clean drinking water and clean air. Delhi Govt. is working 24x7 to combat pollution in the city & is committed to a zero pollution capital. Foundation has been laid for an 'ideal capital', prosperous, progressive, green and equipped with modern amenities..

3. Delhi continues to strengthen its position as one of India's most dynamic economic and administrative centres, supported by a diverse services-driven economy, strong infrastructure, strategic connectivity and a forward-looking governance framework. Steady growth in exports, rising FDI inflows, expanding real estate market and improving industrial ecosystem underline its growing economic resilience. Ongoing investments in transport, digital services, education, tourism, clean energy and urban renewal are reshaping the capital into a more efficient, sustainable and globally competitive metropolis. With ambitious long-term policies for industry, startups, logistics and infrastructure, Delhi is well placed to accelerate its development trajectory and reinforce its role as a leading hub for business, innovation and national governance.

4. Delhi's economic prospects for the fiscal year 2025–26 continue to reflect resilience and sustained growth momentum, supported by strong service-sector performance, expanding digital economy, and robust public infrastructure investment. Government initiatives aimed at formalisation, financial inclusion, and digital governance have further strengthened economic activity and widened access to opportunities. This comprehensive strategy is

expected to further unlock Delhi's economic potential and reinforce its path towards inclusive and sustainable prosperity.

5. As the capital of the world's largest democracy, Delhi remains one of India's foremost metropolitan economies and a major centre for governance, diplomacy, trade, culture, and knowledge industries. The economic structure remains predominantly service-led, with growing contributions from information technology, financial services, tourism, healthcare, education, and creative industries. Delhi also sustains its position as a leading tourist destination, supported by its heritage, diverse retail landscape, and vibrant culinary culture.

6. Delhi's urban renewal and heritage conservation initiatives continue to enhance its civic identity and tourism appeal. The National War Memorial stands as a symbol of national pride and remembrance. Kartavya Path, redeveloped as a people-centric ceremonial boulevard, reflects the evolving vision of participatory governance, public ownership, and urban design excellence. Ongoing investments in public spaces, transport corridors, riverfront development, and cultural infrastructure further strengthen Delhi's image as a modern capital rooted in history and democratic values.

STATE ECONOMY

7. Delhi's Per Capita Income (at Constant Prices) is estimated to be 2.5 times higher as compared to National level during 2025-26. The Per Capita Income of Delhi at current prices reached at the level of ₹ 492592 in 2024-25 as compared to ₹ 457708 in 2023-24. The Advance Estimate of Per Capita Income of Delhi at current prices during 2025-26 estimated at ₹ 531610 registering a growth of 7.92% over the previous year. The Per Capita Income of Delhi at constant prices estimated at ₹ 285207 in 2024-25 as compared to ₹ 272950 in 2023-24. The Advance Estimate of Per Capita Income of Delhi at constant prices during 2025-26 is estimated to reach at ₹ 305433, registering a growth of 7.09% over the previous year.

8. Delhi's economy has a predominant Service Sector with its share of contribution to Gross State Value Added (at current prices) at 86.32% during 2025-26 followed by contribution of Secondary Sector (12.88%) and Primary Sector (0.80%). The tertiary sector plays a pivotal role in the State economy both in terms of employment generation and contribution to State Income.

9. The Advance Estimate of GSDP of Delhi at current prices during 2025-26 is likely to attain a level of ₹ 13,27,055 crore which is at a growth of 9.42% over 2024-25. The Advance Estimate of GSDP of Delhi at constant prices during

2025-26 is recorded at ₹ 7,76,479 crore showed a growth of 8.53% over 2024-25.

10. With the economy's returning to normalcy brought closer by the successful mega vaccination drive in Delhi, hopes of a robust recovery in services sector, consumption and investment have been rekindled. Overall economic activity in Delhi has recovered. In the years 2021-22, 2022-23, 2023-24 & 2024-25 a recovery of real GSDP of Delhi with growth of 7.20%, 7.40%, 9.63% & 6.23% respectively is based on a low base effect and inherent strengths of the economy.

BUDGET FOR SCHEMES/ PROGRAMME/ PROJECTS

11. Govt. of NCT of Delhi has been working with an aim to transform Delhi to a world class city and to fulfill the aspiration of its citizen by making it an inclusive, equitable and livable globe city. Govt. has created excellent health, education, transport, civic infrastructure along-with socio-economic welfare of its citizens.

12. The Budget of 2025-26 ₹1,00,000 Crore out of which ₹59,300 Crore is allocated for schemes/ Programme/projects of GNCTD which focuses on key areas that includes Infrastructure Development, Industrial Development and Investment Promotion, Health and Education for all, Tourism, Art, Language and culture promotion, Seamless Connectivity, Efficient Irrigation and Flood Control, Sustainable Development, Green Growth etc. The Budget allocation of 2025-26 was increased by ₹20,300 Crore in comparison to ₹39,000 Crore in 2024-25 (BE).

13. The Budget allocation of schemes/ Programme/projects is distributed among different sectors. Details of sectors having major budget allocation are as under: -

14. TRANSPORT: - Highest budget allocation under schemes is in Transport Sector i.e. ₹11,964 Crore (i.e 20% of total Scheme Budget) out of which major allocation (i) ₹3061 Crore for Road & Bridges (ii) ₹2400 Crore for GIA to DTC for working deficit (iii) ₹800 Crore for Viability Gap funding towards Cluster Buses (iv) ₹230 Crore for Development of Bus Terminals/Depots etc.

15. SOCIAL SECURITY & WELFARE: - Social Security & Welfare Sector having budget allocation of ₹10110 Crore i.e. 17% of total Scheme Budget.

16. WATER SUPPLY & SANITATION: - Water Supply & Sanitation Sector having budget allocation of ₹9000 Crore i.e. 15% of total Scheme Budget and out of which major allocation of ₹2342 Crore under Water supply and ₹1100 Crore for Sewerage & Drainage System etc.

17. EDUCATION: -There is an allocation of ₹7648 Crore (i.e 13 % of total Scheme Budget) out of which major allocation is (i) ₹2294 Crore for MCD (ii) ₹848 Crore for Samagra Shiskha Abhiyan (iii) ₹300 Crore for construction of additional classrooms in the existing school buildings (iv) ₹370 Crore for Right to Education Act (v) ₹290 Crore for subsidy to school uniform etc.

18. MEDICAL & PUBLIC HEALTH: - Medical & Public Health Sector having budget allocation of ₹6874 Crore i.e. 12% of total Scheme Budget.

19. Housing, Urban Development having budget allocation of ₹3484 Crore i.e.6% of total Scheme Budget and out of which major allocation is (i) ₹611 Crore under AMRIT 2.0 (Atal Mission for Rejuvenation and Urban Transformation) (ii) ₹803 Crore under MCD (iii) ₹502 Crore for Providing Essential Services in Unauthorized Colonies

PUBLIC FINANCE

20. The Expenditure Budget of Government of NCT of Delhi is mainly financed from its own tax revenue (68.7% of Expenditure Budget in 2025-26 (BE), which includes revenue collection from GST, VAT, Excise, Stamp Duty and Motor Vehicle Tax. In addition, there is non-tax revenue and transfers from Government of India in the form of loan and grant under various items. It is important to highlight here that 71.3% of total Tax Revenue in 2025-26 (BE) will be from GST (including other taxes) & VAT, 10.2% from Excise, 13.1% from Stamp Duty and 5.4% from MVT.

21. Delhi has maintained its consistent Revenue Surplus; it recorded ₹ 12247.03 crore during 2024-25(Prov.) as compared to ₹ 6462.30 crore in 2023-24. The budgeted revenue surplus for 2025-26(BE) is ₹9661.31crore which is 0.73% of GSDP.

22. Govt. of NCT of Delhi is budgeted to have a Fiscal Deficit of ₹13,703 Crore in BE 2025-26, which is mainly on the account of increase of more than double (145%) in capital expenditure over 2024-25. The capital expenditure which was only ₹ 11,485 Crore in 2024-25(Prov.) has been increased to ₹ 28,115 Crore in 2025-26(BE). The Capital Expenditure is a developmental expenditure and it has been appropriately attuned to the needs of Capital City of India. The fiscal deficit is within the accepted limits of 3% of GSDP.

TRADE AND COMMERCE

23. Trade and commerce have played a pivotal role in promoting the growth of Delhi's economy by making a significant contribution in terms of tax revenues and providing gainful employment to a large section of society. Delhi is the biggest trade and consumption centre in North India. Delhi distinguishes itself

as a centre for entry port of trade which means that large part of its economic activity is concerned with the redistribution of goods produced elsewhere and imported for local sales as well as for export to other states i.e. interstate sales. It has attained the status of a major distribution centre by virtue of its geographical location and other historical factors, availability of infrastructure facilities etc.

24. The GSVA from trade, hotels and restaurants in Delhi constituted ₹1,38,826 Crore during 2025-26 (AE) at current prices, which is nearly 11.59% of GSVA of Delhi (the base year 2011-12). More clearly, this sector's contribution to GSVA of Delhi during the last 15 years was more than 11%.

PRICE TRENDS

25. Wholesale Price Index (WPI) is used to measure changes in prices of commodities in the wholesale market at the national level. The current series of WPI reflect the changes in wholesale Prices over a period to compare the base year (2011-12=100). Ministry of Commerce & Industry, Govt. of India compiles & releases the monthly Whole Sale Price Index (WPI).

26. Consumer Price Index (CPI-IW) is generally used for measuring the trends of retail prices of the most common items of daily consumption. From the month of September, 2020 the Labour Bureau has updated the Base of the Existing Series of CPI - IW 2001=100 to the New Base 2016=100. Under updated series, Labour Bureau, Chhandigarh has been compiling and releasing consumer prices index on a monthly basis for 88 selected centres/ markets in India, including Delhi.

27. The CPI (IW) is separately prepared for six groups and then combined by assigning weight to each group. Under updated series (2016=100), the highestweight is assigned to food & beverages group at 36.13%, followed by miscellaneous at 26.26%, housing at 24.29%, fuel & light at 7.05%, clothing & footwear at 5.43%, and pan, supari, tobacco and intoxicants at 0.84% respectively.
28. The annual average consumer price index for industrial workers in Delhi increased from 132.5 in year 2024 to 139.4 in year 2025 registering an increase of 6.9 points. The increase in CPI for industrial worker in Delhi was recorded at 5.2 % during 2025 over the previous year 2024.

AGRICULTURE AND RURAL DEVELOPMENT

29. The percentage distribution of Gross State Value Added (GSVA) of Delhi at 2011-12 prices showed a declining trend in agriculture and allied sector. More clearly, the percentage contribution of agriculture sector to GSVA of Delhi at

current prices reduced from 0.32% in 2023-24 to 0.28% in 2024-25. Farming is now primarily confined to peri-urban areas, Yamuna floodplains, and specific rural pockets, focusing on vegetable cultivation, wheat, and livestock.

30. The total gross cropped area in Delhi got increased to 47050 hectares in 2024-25 which was at 33069 hectares during 2023-24. Perhaps, the estimated gross cropped area in 2025-26 is 47040 hectares. The remaining areas of the Delhi are being used for various other uses such as non-agricultural purposes, forest, fallow land, uncultivable land, etc. The main reasons behind the reduction in agriculture area in Delhi are fast urbanization and the shift in occupational pattern, especially during the last two decades. Cropping intensity got increase from 151 in 2023-24 to 166 in 2024-25 and for year 2025-26 cropping intensity is estimated at 168.

31. Livestock is an important component in the agriculture sector which affects the development of the economy directly and indirectly. Delhi has become a consumer state wherein Livestock and livestock products are being supplied from other states.

32. There are 46 Govt. Veterinary hospitals, 25 Veterinary Dispensaries, 01 laboratory, 01 Farmers Information Centre and 03 Mobile Veterinary Units for providing veterinary facilities in Delhi. The number of animals treated in Govt. Veterinary Hospitals/ Dispensaries has increased from 4,15,986 during 2011-12 to 5,38,458 during 2024-25 and 5,45,754 up to March, 2026. It may be due to enhancement of education and awareness among the farmers.

33. 'Delhi Village Development Board (DVDB)' was reconstituted vide Order dated 18.09.2025 to advise the Government on issues connected with the infrastructural development works in rural and urban villages of Delhi.

ENVIRONMENTAL CONCERNS

34. The present Government in Delhi treated Environment as a moral responsibility by not just taking air pollution as a seasonal crisis, but as a structural challenge for which Government has implemented concrete solutions. To tackle air pollution effectively, the Delhi Government has implemented the Air Pollution Control Plan 2025, under which 100 Vayu Rakshak (Air Guardians) equipped with 35 GPS and CCTV have been deployed across the city. These Vayu Rakshak monitor dust pollution and vehicle emissions in real time and ensure quick action. Strengthening its commitment to pollution control, the Government has implemented various other measures as Clean Delhi, Green Delhi is no longer a vision but a measurable transformation.

35. Government has taken several steps in the recent past to improve the environment condition which includes massive focus on afforestation, installation of Anti-Smog Gun at construction sites, deployment of Mechanical Road Sweepers (MRS), Water Sprinklers (WS) and Mist Sprays at hotspots, Round the clock data-driven air monitoring across Delhi, Strict enforcement with smart technology, Reinventing road cleanliness across Delhi, e-mobility & clean energy push, implementation of Electric Vehicle Policy, ban on single use plastic, better management of solid waste, treatment of waste water, improvement of sewage system, stringent industrial emission norms etc.

36. Government of NCT of Delhi has taken initiatives to increase forests and tree cover area to keep the environment green in Delhi. As a result of the initiatives taken by the Government, forest and tree cover area increased to 371.31 sq km thereby increasing the share of forests in the total geographical area to 25.04% as per Indian state of forest Report, 2023.

37. During the Green Action Plan (GAP) 2025-26, the Department of Forests and Wildlife (GNCTD), in collaboration with 21 greening agencies, achieved a significant milestone by planting 53.70 lakh saplings as of January 2026. This achievement comprises 4.81 lakh trees, 41.82 lakh shrubs, and 2.03 lakh bamboos, complemented by the strategic distribution of 5.03 lakh seedlings to the public.

38. Delhi Parks and Gardens Society (DPGS) maintained greenery in 1,564 parks covering 452.944 acres through 341 RWAs/NGOs**,** with financial assistance of ₹965 lakh during 2025-26 (upto December, 2025)**,** and distributed 3,39,173 plant saplings free of cost to RWAs, institutions, armed forces, and the general public across Delhi. During financial year 2024-2025, financial assistance of ₹ 705.48 lacs for maintenance of parks and gardens was provided for an area measuring 436.00 acres with the participation of 329 RWAs /NGOs/Societies covering 1483 number of parks.

INDUSTRIES

39. Industrial development in the National Capital Territory (NCT) of Delhi is moving away from traditional chimneys toward “smart” production and characterized by a strategic shift from traditional heavy manufacturing to a sophisticated, service-oriented, and high technology ecosystem through knowledge-based, IT/ITeS, and small-scale sectors, driven by its service economy, trade hub status, and focus on sustainable, clean growth.

40. Delhi comes under Front Runner category in the country in SDG i.e., “SDG India Index and Dashboard 2023-24”as per NITI Aayog.

41. Good progress under the Business Reform Action Plan scheme came under "Emerging Business Ecosystems category" in 2022.

42. In the Logistics Ease Across Different States (LEADS) 2024 report, Delhi was recognized in the 'Achievers' Category among the Union Territories.

43. The GSVA from manufacturing has increased from ₹ 18907 Crore in 2011-12 to ₹ 50144 Crore in 2025-26. However, the percentage contribution of manufacturing to GSVA has decreased from 6.24% in 2011-12 to 4.19% in 2025-26. During the same period, the contribution of the secondary sector to the total GSVA of Delhi has also decreased from 13.09% in 2011-12 to 12.88% in 2025-26.

TOURISM IN DELHI

44. Delhi has a rich and unique cultural and architectural heritage offering numerous tourist attractions ranging from monuments, museums, shrines, gardens, biodiversity parks, entertainment spots with wide variety of shopping destinations & a wide range of culinary experiences. Delhi Tourism has been actively organizing number of fairs and festivals in Delhi with many cultural events such as Mango Festival, Children's Festival, Teej Mahotsav, Dandiya Festival, Diwali Celebration, Bhajan Clubbing, other Cultural Events, Musical concerts etc. to showcase this capital city as a tourist and cultural friendly destination not only for foreign tourists but also for domestic travelers and residents of Delhi.

45. Delhi, being the capital of India is one of the key arrival destinations for both foreign and domestic tourists. The state is among the top tourist destinations in the country. Approx. 32.25 lakh (38.85%) Foreign Tourist Arrivals (FTAs) in Delhi during 2024 have been recorded as per India Tourism Data Compendium 2025.

ENERGY

46. The power scenario in Delhi has improved considerably after the power sector reform in July 2002 compared to other states. However, Delhi's power sector reforms in 2025 with the focus on expanding solar energy (Surya Ghar Scheme), pilot underground cabling, improving EV infrastructure, ensuring consumers satisfaction through better infrastructure resilience.

47. Delhi has already achieved 100% electrification. Delhi, being an urban place with high load density, has seen the electricity consumption increasing from 29415.87 MUs in 2015-16 to 30996.29 MUs in 2025-26 (upto December, 2025). Delhi has its unique load pattern and peak load problem due to predominant share of domestic consumption and extreme weather conditions. Power sector of Delhi is different in comparison to other states, as other states have power deficit, whereas Delhi has tied up surplus power in order to cater to the increasing demand and peak load.

48. The total power purchase in Delhi is 43534.52 MUs in FY 2024-25. While 08.52% of total power purchase is sourced from own generation by Delhi Govt. Power Plants, 91.48% is purchased from Central Govt. and other sources. The peak demand increased from 5846 MW in 2015-16 to 8442 in 2025-26.

49. The distribution of electricity in Delhi to various categories of consumers increased from 24037 MU in 2015-16 to 33009 MU in 2024-25. During the same period, the number of consumers of electricity in Delhi increased from 52.62 lakh to 73.61 lakh thereby increase of 20.99 lakh consumers during this period. After reforms in power sector, AT&C losses in Delhi has reduced significantly from 52% in the pre-reform era in 2002 (before July 2002) to 5.90% in 2024-25.

50. As per the amendment to the Delhi Solar Energy Policy 2023 made via notification dt. 10.07.2025, the capital subsidy has been increased to ₹10,000/kW (capped at ₹30,000) and is now transferred directly to the consumer through DBT. The EE&REM Centre processes the disbursal of the subsidy strictly on the basis of verified consumer details available on the Delhi Solar Portal. As of January 2026, the total number of solar installations in Delhi stands at 21,915 consumers, with a cumulative capacity of 425 MW.

51. The Government of Delhi has established an Energy Efficiency and Renewable Energy Management Centre (EE&REMC). EE&REMC works as 'State Designated Agency (SDA)' in association with Bureau of Energy Efficiency (BEE), MoP, GoI and to carry out various Energy Efficiency and Energy Conservation activities in Delhi. EE&REM Centre as State Nodal Agency (SNA) implemented new and renewable energy projects in the city of Delhi in association with Ministry of New & Renewable Energy (MNRE), Govt. of India.

52. Total installed capacity of Renewable Energy is 509 MW (425 MW Solar Energy generations + 84 MW Waste to Energy generation) till January, 2026.

53. Drawing inspiration from modern power infrastructure in leading global cities, the conversion of the overhead electrical network to an underground power

distribution network is a first-of-its-kind pilot project at Shalimar Bagh aimed at transforming the current infrastructure into a model distribution network. It aims to create a scalable and replicable model for safe, efficient, and aesthetically improved urban power supply infrastructure that can be extended to other parts of Delhi.

TRANSPORT

54. The National Capital Territory of Delhi has a population of 16.78 million (2011 census). It is a hub of tourist, education and business activities. The Government of National Capital Territory of Delhi has been working to achieve sustainable public transport in the city by focusing on factors such as multi-modal and integrated transit systems comprising of pedestrians, bicycles, buses, metro & rails and Adoption of economical, sustainable & environment friendly technologies and fuels including air pollution and improve environmental outcomes (CNG, hybrids and electric vehicles).

55. Presently, the Delhi Metro network consists of about 352 Km., including 58.497 km of NCR, 22.909 km of Airport Line, and 2.008 km extension of Airport Line to Yashobhoomi. After completion of Phase IV, the total length metro lines including NCR lines will be about 463 km.

56. The total number of motor vehicles on road in NCT of Delhi as on 19th Mar, 2026 is 87.61 lakh, showing the increase by 7.93% compared to 2024-25. GNCTD has banned Diesel Vehicles more than 10-year-old and Petrol Vehicles of more than 15-year-old hence deregistered 66,20,160 vehicles upto 2025-26 (19th March 2026). Also, the number of vehicles per thousand population was 522 in 2025-26 (as on 19 March 2026).

57. Public Works Deptt. (PWD), GNCT of Delhi maintains approx. 1386 Kms of road network across Delhi (i.e. NH 26.28 Km & other roads 1359.90 Kms).

58. DTC is the largest public transport entity in the City & NCR transporting about 24.29 lakh passengers and covering 5.01 lakh km per day. As in March 2026, DTC & DoT has a fleet size of 6100 buses, comprising 1002 Non AC low floor (CNG) buses, 760 AC low floor (CNG) buses, 2750 AC low floor (Electric-12 Mt.) and 1588 AC low floor (Electric-9 Mt.) buses. DTC is also operating an International Bus Service on Delhi-Kathmandu route.

59. There are 86 numbers of buses on 27 routes for night bus service. 30 Ladies Special Buses are also being plied during peak hours on 30 routes. As on 28.02.2026, 2983 Bus Marshals (Home Guard) are deployed in DTC & FCMS Buses for the safety and security of women passengers.

60. The envisaged EV policy aims to encourage the rapid adoption of Electric Vehicles in Delhi and establishing a necessary charging infrastructure at an accelerated pace through implementation of purchase incentives, Scrapping incentive, waiver of road tax and registration fees and establishment of network of charging & swappable batteries stations. As on 31.03.2025, Delhi has 3,100 charging stations and 893 battery swapping stations across Delhi.

61. Further, travel for female commuters of all group/age is free (in DTC and Cluster Buses) in Delhi. During 2025-26(Till Feb-2026) 56.21 Crore women passengers travelled free in DTC & DoT buses and Rs. 562.17 Crore subsidy was given during the FY 2025-26.

WATER SUPPLY & SANITATION

62. One of the important Sustainable Goal under SDG-6 is “Availability and sustainable management of water and sanitation for all”. Based on SDG, Delhi Government is committed for providing safe, adequate and affordable potable drinking water, accessible and hygienic sanitation. These public services are required to be ensured for its citizen for a healthy life. Government has been consistently trying to ensure equitable clean water supply to all households, treatment of both waste water and solid waste to a high proportion of the volume generated, treatment of all industrial effluents.

63. The Delhi Government ensured free lifeline water up to 20 kilolitres to every household having metered water connection and around 18.91 lakhs consumers have been benefited under this scheme since its inception. Recently Government has started implementing the scheme for a limited period for providing regular sewer connection free of cost to keep the city and Yamuna clean by motivating unwilling residents in unauthorised colonies to connect their houses to the sewer lines. By exempting development charges required for taking sewer connection, more and more households are now being motivated to take sewer connection.

64. Delhi Jal Board has improved its governance and undertook a number of measures for proper demand-side planning, efficient management of water distribution and water audit and proper water accounting, a transparent tanker water distribution system using GPS/GPRS.

65. About 93.5% households of Delhi now have access to piped water supply. Water production during summer season is being maintained at about 1000 MGD consistently. Water is supplied to about 25 million population of Delhi through existing water supply network comprising of 15700 km long pipelines and more than 123 primary underground reservoirs (UGRs). Approx. 900 Nos. hired tankers and 150 Nos. departmental tankers are being deployed to supplement water supply in water deficit areas.

66. Delhi Jal Board has streamlined its system for obtaining water meters for metering of unmetered supply of water. The existing system of supply of water meter along with sanction of water connection has been amended and now consumers can purchase water meters of approved specifications from the open market. The consumers having Delhi Jal Board's defective meters have been allowed to get the defective meter replaced with private water meter and have been given option either to get the refund of meter security or get the same adjusted towards water charges in future.

67. Delhi Jal Board has initiated projects of installation of flow meters for water auditing. There are about 3007 Nos. of flow meters have been installed by DJB and taken care of water supply and its accounting. One Data/SCADA Center has been established at Jhandewalan, where online data is being received on real time basis. This is helping in real time monitoring and optimum distribution of water.

68. The installed capacity of DJB has been augmented by 21.64 % during last 17 years. The capacity, which was 790 MGD in 2009, has been increased to 961 in 2025.

69. The Water tariff is based on the principle of "use more pay more". Present water tariff policy acts as a deterrent for consumers consuming excessive water or having wastage of water. DJB had collected ₹1702.63 Crore during 2024-25. All domestic consumers of Delhi Jal Board consuming water up to 20 KL per month and having functional water meters are being given 100% subsidy and fully exempted from payment of water bill w.e.f. 01.03.2015.

70. Delhi Jal Board has set up a leak detection and investigation (LDI) cell to minimize leakage losses which helped to replace about 184.7 km length of the old, damaged and leaking water mains during 2025-26 (up to January, 2026).

71. Delhi Jal Board had carried out rejuvenation of 37 numbers of Water Bodies. Now DJB has returned the rejuvenated water bodies to the respective water body owning department.

72. Sewage treatment capacity of Delhi Jal Board increased from 402.40 MGD in 31st March 2001 to 764 MGD in 31st March 2025. Delhi Jal Board has a network of branching, peripheral sewers of about 11,040 kms, and a network of 200 kms of trunk sewers.

73. Delhi Jal Board supplies about 117 MGD of treated waste water to the Irrigation Department, Power Plants and for irrigation purposes by CPWD and in Rohini area by DDA & Flood Control and Irrigation Department. Efforts are being made to increase the treated waste water supply from 117 MGD in subsequent years.

HOUSING & URBAN DEVELOPMENT

74. Government of Delhi has a vision to make Delhi sustainable, inclusive and equal for all with a quality of life that is ecologically and culturally sustainable and accessible. The focus is on up-gradation of slums, provision of all basic amenities and universal access to adequate water, sanitation, health and decent housing. These are the essential constituents of good and healthy living for the citizen.

75. Delhi's housing market is complex where land, the basic input to housing is under the control of Central Government and has the responsibility of acquiring and developing lands through Delhi Development Authority and Co-operative Housing Societies. There is a wide gap in the supply and demand for housing which is largely met by the unregulated private sector. The housing scenario in Delhi is manifested through the features like substantial housing shortage, large number of household without access to any shelter or shelter with insufficient basic services, huge slum population, large proportion of household living in one room housing units etc.

76. In recent years, the thrust of the Government has remained focused to largely improve the basic services in un-served and under-served areas of Delhi. Huge public investment has been made in unauthorised colonies in a most transparent and efficient manner to continuously improve the living conditions of people by development of roads, drainage, and sanitation services. The In-situ slum rehabilitation housing projects are intended to provide "pucca" houses to people living in slums under the "Jahan Jhuggi Wahin Makan" scheme. With the launch of Jawahar Lal Nehru National Urban Renewal Mission (JNNURM), Delhi Government got engaged in the construction of houses for economically weaker sections (EWS) by DSIIDC and DUSIB to improve the housing stock. In order to cater to a projected population of 23 million by 2021, Delhi Master Plan Document (MPD-2021) is planning to add 20 lakh new dwelling units over the period 2001 to 2021, out of which 54% of the units would be for EWS category. Under Sub-Mission-II Basic Services to the Urban Poor (BSUP) of JNNURM, the Government of India has approved 8 Projects of DSIIDC, 6 Projects of DUSIB and one Project of NDMC with the revised cost of ₹2750.91 Crores for the construction of 52584 dwelling units. The constructions of 24524 flats have been completed and 28060 flats are under different stages of construction.

77. A comprehensive redevelopment plan has been prepared for maintaining the original heritage character and to improve the environment in the walled city area through Shahjahanabad Redevelopment Corporation. The corporation is to conserve the civic and urban heritage those are architecturally significant and are having socio-cultural value without any profit to do.

78. Under the MLALAD Scheme, which supports small development projects recommended by the Hon'ble Members of the Legislative Assembly to address

local needs, a total budget provision of ₹350.00 crore (₹5.00 crore per Assembly Constituency) was earmarked under BE 2025–26. As of 30.01.2026, the Urban Development Department has sanctioned 1,143 projects with an estimated total cost of ₹ 227.72 crore.

79. Under AMRUT 2.0, aimed at ensuring universal coverage of water supply and sewerage services in urban areas, 67 projects with a total project cost of ₹4898.33 crore are being implemented, against which Central Assistance of ₹2,490.073 crore has been allocated. As on date 23.01.2026, 23 projects with a project cost of ₹30.48 crore have been completed.

80. GNCTD has launched many initiatives under solid waste management like Collection of waste from household, segregation at source, decentralize waste plants and discouraging single use plastic etc. Solid waste of 13,000 MTPD (approx.) is collected and transported to three landfill sites and processing plants. Approximately 63% of the total generated waste is processed through Waste to Energy and Waste to Compost plants and rest is dumped in 3 Sanitary Landfill Sites (SLFs).

81. GNCTD had provided funds in compliance to NGT order for disposal of 'legacy' waste dumped at Bhalaswa, Ghajipur and Okhla dump sites, which were accumulated over a period of time in all these landfill sited adversely impacting public health and environment. This requires expeditiously scientific and environmentally safe disposal as per applicable rules. After removing legacy waste from the entire or part of the land, the recovered land may be used for integrated waste processing and treatment facility. At the periphery a bio-diversity park can be developed to improve the air quality and ambience.

82. The Atal canteen initiative as announced in the Budget speech 2025-26 aims to bolster food security and nutritional access for vulnerable populations in JJ Clusters via GNCTD-subsidized affordable meals. On 25 December 2025, the Hon'ble Chief Minister, accompanied by the Hon'ble Union Minister for Urban Development and Energy, the GNCTD Urban Development Minister, and the Hon'ble MLA, inaugurated the inaugural Atal Canteen at Nehru Nagar (Lajpat Nagar). At present, 73 Atal Canteens are operational across various locations in the National Capital Territory of Delhi.

EDUCATION

83. As per Census 2011, Delhi's literacy rate at 86.2% comprising male literacy rate of 90.9% and Female literacy rate of 80.8% is higher than the all India average of 73% with male literacy rate of 80.9% and Female literacy rate of 64.6%. In Delhi, the gender gap in literacy has declined moderately over the years from 12.62% in 2001 to 10.1% in 2011. As per 75th NSS report, Delhi stands at number two after Kerala with 88.7% literacy rate.

84. There are 5556 number of recognized schools in Delhi with approx enrolment of 44.91 Lakh students. Delhi Govt. has a total of 1270 government and government-aided schools under DoE in Delhi, which is 22.85% of the total schools running in Delhi, whereas, the share of enrolment in government and government-aided schools is 39.75% of total enrolment of all schools in Delhi during 2024-25.

85. As per UDISE+ Report 2024-25, the Gross Enrolment Ratio (GER) and Net Enrolment Ratio (NER) at all levels of education in Delhi is higher as compared to all India level.

86. Directorate of Education achieved commendable results both at 10th & 12th Levels in CBSE Boards.

87. The Government has established 75 CM SHRI Schools under the Directorate of Education from Academic Session 2025–26. It marks a transformative step towards educational excellence and equity. These are envisioned as pace-setting, future-ready institutions, aligned with NEP 2020 and the National Curriculum Frameworks of Foundational Stage and School Education. These schools will be model institutions, not just in infrastructure but in pedagogy, curriculum, assessments, student outcomes and future pathways to National, Global University or Industry.

88. Under aegis of Directorate of higher education, the “Merit-cum-Means Income Linked Financial Assistance Scheme” (Old Scheme) was implemented up to the financial year 2021–22. Subsequently, from the financial year 2022–23 onwards, the “Delhi Higher & Technical Education Support Scheme” (New Scheme) has been implemented under the Delhi Higher Education Aid Trust for students enrolled in graduate courses at Delhi-based State Government universities/colleges/institutions.

89. Delhi Skill and Entrepreneurship University was set up in August, 2020 to equip students with world class skill education and to impart skill oriented programmes to address the challenges of developing trained and employable human resource for national growth. During 2025-26, DSEU has intake capacity of 7225.

HEALTH & FAMILY WELFARE

90. Delhi is committed to provide equitable and affordable access of quality health care services to its residents and to reduce mobility and mortality rates with reduction in incidence of communicable and non communicable diseases.

91. Delhi Govt. is implementing 4 tier health care infrastructure model having Ayushman Arogaya Mandir and Polyclinics at tier-1 & tier-2 for providing primary and secondary health care services. As on 31st December 2025, there are 92 hospitals, 34 Primary Health Centres, 1501 dispensaries, 129 Maternity Homes & Sub Centres, 48 Polyclinics, 1181 Private Hospitals and Nursing

Homes, 503 Special Clinics and 20 Medical Colleges available in Delhi. The Delhi Government along is a significant contributor in case of health care services having 40 Multispecialty and Super Specialty Hospitals, 98 Allopathic Dispensaries, 64 Seed Primary Urban Health Centres, 370 Ayushman Arogaya Mandir, 57 Ayurvedic Dispensaries, 28 Unani Dispensaries, 121 Homeopathic Dispensaries and 36 School Health Clinics are providing preventive, promotive and curative health care services to the citizens of Delhi.

92. The govt. is providing facility of free radiological diagnostic services & free surgeries in empanelled private health centres through Delhi Arogya Kosh (DAK). Patients are being referred from Govt. Health Centres to empanelled private health centres for high end radiological diagnostics & Surgeries. Medical treatment of Road accident victims, acid attack/ thermal burn victims is also being carried out through DAK.

93. Based on SRS May 2023 issued by Registrar General of India, Important vital indicators like Infant Mortality Rate, Neo-Natal Mortality Rate, Under Five Mortality Rate in respect of Delhi stand at lower levels like 14, 9, and 16 in comparison to All India levels viz. 25, 19 and 29 respectively. Similarly, the total fertility rate (TFR) of 1.2 in Delhi stand at lower level in compare to All India level of 1.9, which indicates the achievement of the replacement rate.

94. The maternal & child health care services need to be strengthened to achieve 100 per cent institutional births. The proportion of institutional deliveries in 2024 was 96.09 per cent. All essential measures are being adopted to reach 100% achievement in these services.

95. Important health programmes under National Health Mission focused at reproductive and child health, control of TB, Leprosy, etc are being implemented in Delhi through Delhi State Health Mission. Delhi AIDS Control Society is implementing the programme of NACP. Directorate of AYUSH ensures the provision of health care services of ISM & Homeopathy.

SOCIAL WELFARE & SECURITY

96. To fulfill the objective of Article 41 and 42 of Constitution of India, the Government of NCT of Delhi is implementing large number of programmes/ schemes for Welfare of the Scheduled Castes, Scheduled Tribes, OBC, Senior Citizens, Women in Distress, Persons with Special Needs, Economically Weaker Section of society and other.

97. In 2025, Government of NCT of Delhi has announced several significant women-centric, senior citizen-centric and other vulnerable groups reforms/ programs, some of which are under process of execution, focusing heavily on financial empowerment, healthcare access, safety and mobility.

98. The allocation during 2025-26 for financial assistance schemes for Senior Citizen (4.40 lakh beneficiaries up to March, 2026), Women in Distress (4.09 lakh beneficiaries up to January, 2026) and persons with special needs (1.40 lakh beneficiaries up to March, 2026) is approximately of ₹3045 crore. The financial assistance of ₹2000/- per month for senior citizens of age 60-69 years and ₹ 2500/- per month for senior citizens of age 70 years & above is given. The financial assistance of ₹2500/- per month to 'persons with special needs' and 'women in distress' is also given. Under the scheme "Mukhyamantri Covid-19 Family Financial Assistance" financial assistance of ₹2500/- per month is provided to the surviving family of the bread earner who died due to Covid-19 pandemic, 11789 beneficiaries benefitted till March 2026 in CFY 2025-26.

99. The Integrated Child Development Scheme (ICDS) in Delhi has 95 projects with 10,897 Aanganwadi Centers, functioning in various parts of Delhi covering a population of approximately 6.67 lakh children, pregnant women and nursing mothers in year 2025-26 (up to January, 2026), who are economically deprived. In addition, Supplementary Nutrition (under ICDS) was given to approximately 5.97 lakh children and women in year 2025-26 (up to January, 2026) through 10897 Aanganwadi Centers.

100. Various Welfare schemes for Students belonging to SC/ST/OBC are being implemented by the Government like financial assistance, Mukhyamantri Vidhyarthi Pratibha Yojana, Reimbursement of tuition fees and scholarship to students etc. through the Department for the welfare of SC/ST/OBC/Minorities.

PUBLIC DISTRIBUTION SYSTEM

101. The Public Distribution System (PDS) in Delhi managed by the Department of Food Supplies and Consumer Affairs has efficiently been providing food grains, mainly rice, wheat & sugar to marginalized section of the society at a subsidized price. Delhi was one of the first states to implement the National Food Security Act, 2013 immediately after enactment of Act by Government of India.

102. Delhi Govt. implemented One Nation One Ration Card (ONORC) scheme w.e.f. 19.07.2021 through installation of e-POS devices at all Fair Price Shops (FPSs) to enhance transparency & accountability in the operation of PDS. Since its implementation, ration is being distributed in Delhi through biometric (Aadhar) based authentication of beneficiaries using e-POS devices. The scheme provides both Intra-State and Inter-State portability of Ration Cards and enables migrant beneficiaries to access PDS benefits under NFS Act 2013.

103. The Public Distribution Network of GNCTD comprising of around 1953 Fair Price Shops (FPSs) across Delhi, catering to 72.21 lakh beneficiaries through 17.18 lakh digital Food Security Ration Cards as on 31st March 2025. These food security cards are Aadhar enabled. Under the PDS scheme the Govt. of India provides 35 kg of food grains per month (28 kg wheat and 07 kg rice) to Antyodaya Anna Yojana (AAY) Household and 5 kg of food grains per month (4 kg wheat and 1 kg rice) to Priority Household (PHH) beneficiaries free of cost under Pradhan Mantri Garib Kalyan Anna Yojna (PMGKAY). Further, Delhi Government also provides 1 kg sugar free of cost to all Antyodaya Anna Yojana (AAY) cardholders.

DEMOGRAPHIC PROFILE

104. The total area of the NCT of Delhi is 1483 Km2. With the rapid pace of urbanization, rural population and rural area is continuously decreasing as confirmed by successive Census Reports. More than 97% of the population was in urban areas in 2011 as compared to 53% in 1901. This clearly indicates the fast growth of urbanization in the national capital. Delhi's rural population has decreased from 9.49 lakh in 1991 lakh, to 4.19 lakh in 2011. This pace of urbanization has reduced the number of rural villages in Delhi from 300 in 1961 to 165 in 2001 and 112 in 2011.

105. For the first time since 1951, the decadal growth rate of population in the NCT of Delhi has declined and recorded at 21.2% in 2011 as compared to 47.02% in 2001. This is a peculiar feature of Census 2011, as in all Censuses since 1951, the decadal growth rate of population was more than 50% except in 2001 when it was 47%. The rapid increase in population has raised the density of the population from 6352 persons per square kilometer in 1991 to 9340 persons per square kilometer in 2001 and to 11320 persons per square kilometer in 2011.

106. As per the 2011 Census, the density of population in Delhi approximated at 11320 persons per square kilometer as against the national level of 382 persons per square kilometer. Delhi's population density was the highest in all states and union territories during the year 2011.

POVERTY LINE IN DELHI

107. Poverty is a situation where the individual or communities lack resources, ability and environment to meet the basic needs of life. It indicates a status wherein a person fails to maintain the living standard adequate for a comfortable lifestyle. As per the Planning Commission Report based on NSS 68th Round, the poverty line was estimated at ₹ 1145 per capita per month for rural and ₹ 1134 per capita per month for Urban in Delhi, as against the national level of ₹ 816 for rural and ₹ 1000 for urban India respectively in the year 2011-12. The number of persons below poverty line in Delhi during 2011-12 was

estimated at 16.96 lakh and it worked out to 9.91% of the total population of Delhi.

108. Directorate of Economics and Statistics, Delhi is publishing a report titled "Level and Pattern of Household Consumer Expenditure of Delhi" on the basis of sample surveys conducted under National Sample Survey Organizations Rounds from time to time. As per NSS 68th round (July 2011 - June 2012) report, per capita expenditure in Delhi is ₹ 3726.66 comprising ₹ 1461.54 on food items and ₹ 2265.12 on non food items.

109. The Delhi Government is providing subsidies to the citizens of Delhi in the domains of healthcare, education, access to clean drinking water, electricity and women safety. Various Welfare Scheme / Programmeis being run by the Govt. for upliftment of poor people.

EMPLOYMENT AND UNEMPLOYMENT

110. As per Periodic Labour Force Survey conducted by Government of India, according to usual status (ps+ss) (Age group – All), Labour Force Participation Rate (in percent) in Delhi was 34.8 during July 2021-June 2022 &35.7 during July 2022-June 2023whereas worker population ratio (in percent) was 33.0 during July 2021-June 2022 & 35.0 during July 2022-June 2023.The unemployment rate (in percent) according to usual status(ps+ss) (age group-All) was 5.3 during July 2021-June 2022 & 1.9 during July 2022-June 2023.

CHAPTER 2

STATE ECONOMY

In India, the most highlighted measure of National Income has been the GDP at factor cost. The National Statistical Office (erstwhile Central Statistics Office (CSO)) , Ministry of Statistics & Programme Implementation, Government of India has been reporting the GDP at factor cost and at market prices. In its revision in January 2015 the CSO replaced GDP at factor cost with the GVA at basic prices, and the GDP at market prices, which is now called only GDP, is now the most highlighted measure. It is the value of total output produced in the economy less the value of intermediate consumption (the output which is used in production of output further, and not used in final consumption). The distinction between factor cost, basic prices and market prices is based on the distinction between net production taxes (production taxes less production subsidies) and net product taxes (product taxes less product subsidies). Production taxes and Production subsidies are paid or received in relation to production and are independent of the volume of production such as land revenues, stamp and registration fee. Product taxes and Product subsidies, on the other hand, are paid or received per unit or product, e.g., excise tax, service tax, GST, sales tax, export and import duties etc. Factor cost includes only the payment to factors of production, it does not include any tax. In order to arrive at the market prices, we have to add to the factor cost the total indirect taxes less total subsidies. The basic prices lie in between: they include the production taxes (less production subsidies) but not product taxes (less product subsidies). Therefore in order to arrive at market prices we have to add product taxes (less product subsidies) to the basic prices. As stated above, now the NSO/State DES releases GVA/GSVA at basic prices. Thus, it includes the net production taxes but not net product taxes. In order to arrive at the GDP/GSDP (at market prices) we need to add net product taxes to GVA at basic prices. Thus,

GVA at factor costs + Net production taxes = GVA at basic prices + Net product taxes = GDP at market prices

1.1 State Domestic Product (SDP), is the total value of goods and services produced during any financial year within the geographical boundaries of a state. Also called the state income, SDP is always calculated or estimated in monetary terms, and is instrumental in the evaluation of Per Capita Income. It serves as an indicator for measuring economic prosperity of the State and to study the structural changes taking place in the economy. SDP estimates over a period of time reveal the extent and direction of the changes in the level of economic development. The Sectoral Composition of Gross State Value Added (GSVA) gives an idea about the relative position of different sectors in the economy over a period of time, which not only indicates the real structural changes taking place in the economy, but also facilitates in formulation of the plans for overall economic development. The major share of income of National Capital Territory of Delhi is from the service sector which is treated as the growth engine for fast developing states in the Indian Union.

2. COVID-19's Impact on Economy and Sequential Recovery

2.1 To adopt strict social distancing and isolation measures to contain the spread of COVID-19 in NCT of Delhi, the Government of NCT of Delhi had issued the Delhi Epidemic Diseases, COVID-19 Regulations, 2020 under the Epidemic Diseases Act, 1897 for prevention and containment of COVID-19 and notified a lockdown in the whole of territorial jurisdiction of NCT of Delhi from 0600 hrs on Monday, 23rd March, 2020 to midnight of Tuesday, 31st March, 2020. Thereafter, a nationwide 'stringent' lockdown for 21 days was declared on March 24, 2020 and subsequently extended till May 31, 2020. India imposed a stringent nation-wide lockdown during the initial phase of the pandemic in March-April, 2020, followed by gradual unlocking and phasing out of the containment measures.

2.2 During the April- May, 2021, the nation witnessed the second wave of COVID-19 caused by Delta variant, a variant of concern classified by WHO on May 11, 2021 the dominant variant that was circulated globally. Delta spreads more easily than earlier strains of the virus and is responsible for more cases and deaths worldwide. During the December, 2021 and January, 2022 the third wave of COVID-19 spread across the nation, with the new variant called Omicron. This had also impacted the momentum of economic growth during the year 2021-22.

2.3 The pandemic affected three years had been difficult for the world economy on account of the COVID-19 pandemic. The years 2020, 2021 & 2022 witnessed unrivalled turmoil with the novel COVID-19 virus and the resultant pandemic emerging as the biggest threat to economic growth in a century. The pandemic had been unique in its wide-ranging effects on almost every section of the economy and the society. The pandemic impacted both supply and demand in the economy.

2.4 The public health measures, adopted to contain the spread, engendered sizeable immediate economic costs as they had led to almost full suspension of economic activity, curbed consumption and investment, as well as restricted labor supply and production. COVID-19, therefore had led the world to the predicament of saving 'lives' or 'livelihoods' as the steps taken to flatten the infection curve, steepened the macroeconomic recession curve.

2.5 The pandemic had been a unique economic shock that had triggered both supply and demand side shocks simultaneously across economies around the world. Increased uncertainty, lower confidence, loss of incomes, weaker growth prospects, fear of contagion, curtailment of spending options due to closure of all contact-sensitive activities, the triggering of precautionary savings, risk aversion among businesses and resultant fall in consumption and investment – leading to the first order demand shock. The supply chain disruptions caused by closure of economic activity and restricted movement of labour lead to the first order supply shocks. The first order supply side disruptions potentially created second round effects on both demand and supply. The initial supply shock, resulting in wage and income loss, impacted

aggregate demand and impair productive capacity leading to supply shocks. Vaccination has played a major role in minimizing loss of lives, boosting confidence in the economy towards reopening of activity and containing the sequential decline in output due to second wave.

2.6 Delhi's GSDP (in real terms) contraction of 8.96 per cent during 2020-21 reflect the unparalleled effect of the COVID-19 pandemic and the containment measures that were taken to control the pandemic. However, First Revised Estimates suggest that the Delhi's economy is expected to witness real GSDP expansion of 6.23 per cent in 2024-25 and 9.63 percent as per second revised estimates for the year 2023-24 after contracting in 2020-21. This implies that overall economic activity had recovered past the pre-pandemic levels. Further, as per Advance Estimates for the year 2025-26, the economy of Delhi has been scripting a recovery with a growth of 8.53 percent after the bruising impact of the pandemic. The sector wise position of growths observed in GSVA/GSDP of Delhi as compared to national level GVA/GDP is presented in Statement 2.1.

STATEMENT 2.1

SECTOR WISE GROWTH OF ECONOMY (AT CONSTANT PRICES)

(in %)

SECTORS	2019-20		2020-21		2021-22		2022-23		2023-24		2024-25		2025-26

2.7 With the economy's returning to normalcy brought closer by the successful mega vaccination drive, hopes of a robust recovery in services sector, consumption, and investment have been rekindled. Overall economic activity in Delhi has recovered. In the years 2021-22, 2022-23, 2023-24 & 2024-25 a recovery of real GSDP of Delhi with growth of 7.20%, 7.40%, 9.63% & 6.23% respectively is based on a low base effect and inherent strengths of the economy.

3. Estimates at Current Prices

3.1 Gross State Domestic Product (GSDP) of Delhi at current prices estimated at ₹ 792911 crore during 2019-20 showed a growth of 7.38 per cent over the preceding year. The GSDP of Delhi at current prices decreased to ₹ 744277 crore during 2020-21 indicating a contraction of 6.13 percent, increased to ₹ 870627 crore during 2021-22, ₹ 1000023 crore during 2022-23, 1113646 crore during 2023-24 & ₹ 1212851 crore during 2024-25 indicating an expansion of 16.98%, 14.86%, 11.36% & 8.91% over preceding years respectively. As per the Advance Estimates, the GSDP of Delhi during 2025-26 is likely to attain a level of ₹ 1327055 crore which is at a growth of 9.42 per cent over the year 2024-25. Net State Domestic Product (NSDP) of Delhi at current prices during 2019-20 was estimated at ₹ 712842 crore, recorded a growth of 7.06 per cent over the previous year. The NSDP of Delhi at current prices decreased to ₹ 657966 crore during 2020-21 which was at a contraction of 7.70 per cent, increased to ₹ 771350 crore during 2021-22, ₹ 884269 crore during 2022-23, ₹988101 crore during 2023-24 and ₹ 1082815 crore during 2024-25 shows an expansion of 17.23 per cent, 14.64 per cent, 11.74 percent & 9.59 percent respectively over the previous year. The Advance Estimates of NSDP of Delhi during 2025-26 suggested that the NSDP is likely to attain a level of ₹ 1189530 crore which is estimated to show a growth of 9.86 per cent over 2024-25.

3.2 As a general phenomenon observed in most of the urban economies, Delhi is also showing same trend of higher share in Service Sector. The percentage distribution of Gross State Value Added (GSVA) of Delhi at current prices over the years showed a declining trend of agriculture and allied sector with minor deviation in some years while mixed trend was noticed in secondary and tertiary sectors. Specifically, the percentage contribution of primary sector to GSVA of Delhi at current prices reduced from 3.49 per cent in 2011-12 to 0.80 per cent in 2025-26. During the same period, the contribution of secondary sector to GSVA of Delhi at current prices decreased from 13.09 per cent to 12.88 per cent and the percentage contribution of tertiary (service) sector to the GSVA of Delhi at current prices increased from 83.42 per cent in 2011-12 to 86.32 per cent in 2025-26.

4. Estimates at Constant Prices (Base Year 2011-12)

4.1 Gross State Domestic Product of Delhi (GSDP) at constant prices recorded at ₹ 586168 crore during 2019-20 showed a growth of 3.69 per cent over the preceding year. The GSDP of Delhi at constant prices decreased to ₹ 533634 crore during 2020-21 indicating a contraction of 8.96 per cent, increased to ₹ 572051 crores during 2021-22, ₹ 614371 crore during 2022-23, 673523 crore during 2023-24 and ₹ 715475 crore during 2024-25 indicating an expansion of 7.20 percent, 7.40 percent, 9.63 percent and 6.23 percent respectively. The Advance Estimates of GSDP of Delhi at

constant prices during 2025-26 was recorded at ₹ 776479 crore showing a growth of 8.53 per cent over 2024-25. Net State Domestic Product (NSDP) of Delhi at constant prices during 2019-20 was estimated at ₹ 522031 crore, recorded a growth of 3.10 per cent over the previous year. The NSDP of Delhi at constant prices decreased to ₹ 465770 crore during 2020-21 at a contraction of 10.78 percent, increased to ₹ 498852 crore during 2021-22, ₹ 536085 crore during 2022-23, ₹589244 crore during 2023-24 and ₹ 626942 crore during 2024-25 recorded an expansion of 7.10 percent, 7.46 percent, 9.92 percent and 6.40 percent respectively over the previous year. The Advance Estimate of NSDP of Delhi during 2025-26 at constant prices calculated at ₹ 683438 crore which is estimated to show a growth of 9.01 per cent over 2024-25.

4.2 The percentage distribution of Gross State Value Added (GSVA) of Delhi at 2011-12 prices showed a declining trend of agriculture and allied sector except minor deviation in few years whereas a mixed trend was observed in secondary and tertiary sectors over the years. More clearly, the percentage contribution of primary sector to GSVA of Delhi at 2011-12 prices (at constant prices) reduced from 3.49 per cent in 2011-12 to 0.90 per cent in 2025-26. During the same period, the contribution of secondary sector to GSVA of Delhi at constant prices increased from 13.09 per cent to 13.73 per cent. The percentage contribution of service sector to the GSVA of Delhi at 2011-12 prices increased from 83.42 per cent in 2011-12 to 85.37 per cent in 2025-26.

4.3 The information regarding the Gross State Domestic Product and Net State Domestic Product of Delhi during the last 14 years both at current and 2011-12 (constant) prices is presented in Statement 2.2.

4.6 Brief Methodology to Estimate State Domestic Product

4.6.1 **The Primary Sector** of the economy extracts or harvests products from the earth. The primary sector includes the production of raw materials and basic foods. Activities associated with the primary sector include agriculture (both subsistence and commercial), forestry, farming, grazing, hunting and gathering, fishing and mining & quarrying. The packaging and processing of the raw materials associated with this sector is also considered to be part of this sector. The estimates of GSVA for Agriculture, Forestry & Fishing are compiled by the production method. Estimates of GSVA in Mining & Quarrying industry are compiled from the annual financial statement of the companies for non-departmental enterprises and private corporate enterprises, extracted from MCA21 database for which production approach is followed.

4.6.2 **The Secondary Sector** of the economy includes those economic sectors that create a finished, usable product: manufacturing, construction and electricity, gas, water supply and other utility services. This sector generally takes the output of the primary sector and manufactures finished goods or where they are suitable for use by other businesses, for export, or sale to domestic consumers. For the purposes of estimation of GSVA, the entire manufacturing activities are classified into two broad segments, namely, Manufacturing-'Organised Manufacturing' and 'Unorganised Manufacturing'. Estimates for Organised Manufacturing have been derived using the annual accounts of Non-Departmental Enterprises (NDE), Private corporate sector from MCA data base and quasi-corporations as covered by ASI. The unorganised manufacturing consists of the household enterprises. The effective labour input method has been used for compilation category wise estimation of GVA of unincorporated manufacturing enterprises from the NSS 67th round Survey on Unincorporated Enterprises, 2010-11 and NSS 68th round Employment Unemployment Survey, 2011-12. The GSVA estimates in Electricity sub-sector (NDEs

& Private Corporate sectors) are prepared using the production method. The estimates are based on the analysis of annual accounts of State Electricity Boards and other electricity undertakings located in the State. The estimates of GSVA in respect of Gas are compiled through the Production approach. The estimates of GSVA for Water Supply are compiled for the public and private sectors separately following the production method in case of NDEs and Private corporate segments. The estimates of GSVA for Remediation and Other Utility Services have been compiled by aggregating the estimates for recycling, remediation, sewerage and other waste management services. The estimates of accounted construction for the entire economy are compiled first through the commodity flow approach. The estimates for private corporations are prepared using information on financial parameters of non-government companies from MCA21 database provided by Ministry of Corporate Affairs for which production approach is followed.

4.6.3 **The Tertiary Sector** has a pivotal role in the Delhi's economic development and constitutes a major part of the economy of the State both in terms of employment potential and its contribution to the State Income. The sector covers a wide range of activities from the most sophisticated in the field of Information and Communication Technology to simple services pursued by the unorganized/ informal sector workers, such as, vegetable sellers, hawkers, rickshaw pullers, etc. In terms of industrial categories, this sector inter-alia includes sub-sectors like Trade; Hotels and Restaurants; Transport; Storage; Communication; Financial Services; Real Estate, Ownership of Dwelling & Professional Services; Public Administration; and Other Services including Education, Medical & Public Health. The GSVA for Public Sector segment are obtained through economic analysis of budget documents and annual reports/accounts. The estimates of Private corporate have been compiled using MCA21 database and unorganized segments from NSS Surveys results.

5. Per Capita Income

5.1 The Per Capita Income of Delhi at current prices reached at the level of ₹ 492592 in 2024-25 as compared to ₹ 457708 in 2023-24, ₹ 417207 in 2022-23, ₹ 370824 in 2021-22, ₹ 322311 in 2020-21 and ₹ 355798 in 2019-20. The Advance Estimate of Per Capita Income of Delhi at current prices during 2025-26 estimated at ₹ 531610. The annual growth rate of Per Capita Income of Delhi at current prices during the last fourteen years (2012-2026) was worked out at 11.12 percent, 10.86 percent, 8.47 percent, 9.32 percent, 9.36 percent, 7.70 percent, 6.41 percent, 5.04 percent, (-) 9.41 percent, 15.05 percent, 12.51 percent, 9.71 percent, 7.62 percent and 7.92 percent over the previous year respectively.

5.2 The Per Capita Income of Delhi at constant prices estimated at ₹ 285207 in 2024-25 as compared to ₹ 272950 in 2023-24, registering an expansion of 4.49 percent. The Advance Estimate of Per Capita Income of Delhi at constant prices during

2025-26 is estimated to reach at ₹ 305433, registering a growth of 7.09 percent over the previous year.

5.3 Delhi's Per Capita Income (at constant prices) is estimated to be around 2.5 times higher as compared to National level during 2025-26. The information regarding Per Capita Income of Delhi and India during the last 15 years is presented in Statement 2.4.

STATEMENT 2.4

6. Sectoral Composition of GSVA

6.1 As a general phenomenon what is observed in most of urbanized cities in the world, Delhi is also showing the same result, that is the major contribution of income is from the service sector. The analysis of sector-wise contribution in the Gross State Value Added also clearly reveals this fact. The contribution of primary sector (comprising of agriculture, livestock, forestry, fishing, mining & quarrying) to the total GSVA is continuously showing a deteriorating trend during the last 14 years with some minor deviations. The contribution from secondary sector showed a mixed trend. The composition of GSVA at current and constant prices (2011-12) in three different

sectors viz, primary, secondary and service sectors of Delhi during 2011-12 to 2025-26 is presented in Statement 2.6.

Totals may not tally due to rounding off.

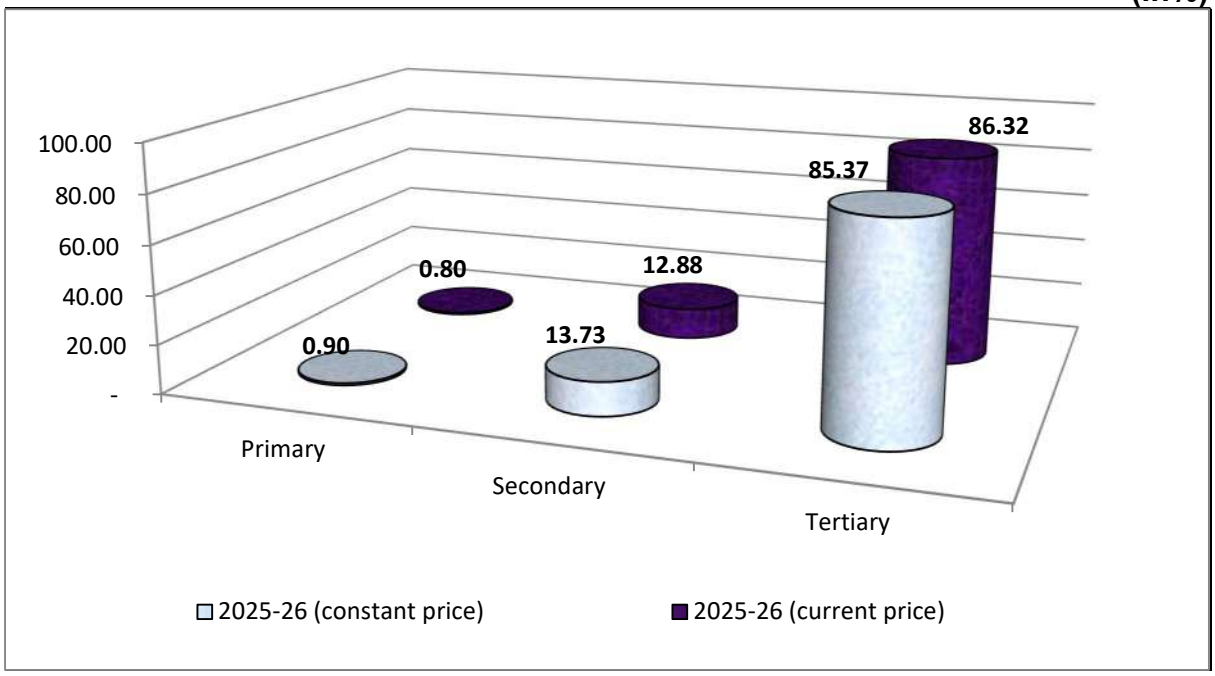

6.2 As evident from Statement 2.6 that more than 83 per cent of GSVA of Delhi was from service sector, less than 14 per cent from secondary sector and less than 4 percent from the primary sector during 2011-12. More clearly, the contribution of primary sector which was 3.49 per cent during 2011-12 has come down to 0.80 per cent in 2025-26 at current prices. Contrary to this, the contribution of tertiary sector recorded at 83.42 per cent in 2011-12 increased to 86.32 per cent in 2025-26 at current prices. The contribution of secondary sector to GSVA of Delhi decreased from 13.09 per cent in 2011-12 to 12.88 per cent in 2025-26.

6.3 The sectoral composition of Gross State Value Added of Delhi during 2025-26 at current and constant prices (2011-12) is depicted in Chart 2.3.

CHART 2.3

SECTOR-WISE COMPOSITION OF GSVA OF DELHI AT CURRENT AND CONSTANT (2011-12) PRICES

(in%)

6.4 Other statistical information pertaining to the Gross State Domestic Product of Delhi is presented in Table 2.1 to Table 2.4.

CHAPTER AT A GLANCE

➢	In its revision in January 2015 the CSO replaced GDP at factor cost with the GVA at basic prices, and the GDP at market prices, which is now called only GDP, is now the most highlighted measure.
➢	GVA at factor costs + Net production taxes = GVA at basic prices + Net product taxes = GDP at market prices
➢	The Advance Estimates suggest that the Delhi's economy is expected to witness real GSDP expansion of 8.53 per cent in 2025-26, 6.23% in 2024-25, 9.63% in 2023-24, 7.40% in 2022-23, 7.20% in 2021-22 after contracting in 2020-21. This implies that overall economic activity had recovered past the pre-pandemic levels.
➢	The Advance Estimate of GSDP of Delhi at current prices during 2025-26 is likely to attain a level of ₹ 1327055 crore which is at a growth of 9.42 per cent over 2024-25.
➢	The Advance Estimate of GSDP of Delhi at constant prices during 2025-26 is likely to attain a level of ₹ 776479 crore showed a growth of 8.53 percent over 2024-25.
➢	The Advance Estimate of Per Capita Income of Delhi at current prices during 2025-26 are estimated at ₹ 531610 and at constant prices is estimated to reach at ₹ 305433.
➢	Delhi's Per Capita Income (at constant prices) is estimated to be around 2.5 times higher as compared to National level during 2025-26.
➢	The contribution of primary sector which was 3.49% during 2011-12 has come down to 0.80% in 2025-26 at current prices whereas, the contribution of tertiary sector recorded at 83.42% in 2011-12 increased to 86.32% in 2025-26 at current prices. The contribution of secondary sector to GSVA of Delhi decreased from 13.09% in 2011-12 to 12.88% in 2025-26.

CHAPTER 3

BUDGET FOR SCHEMES/PROGRAMMES/PROJECTS

1. Govt. of NCT of Delhi has been working with an aim to transform Delhi to a world class city and to fulfill the aspiration of its citizen by making it an inclusive, equitable and livable globe city. Govt. has created excellent health, education, transport, civic infrastructure along-with socio-economic welfare of its citizens in general and with special emphasis on senior citizen, women, persons in need etc. The budget size of Delhi has increased from ₹ 76000 crore in 2024-25 to ₹ 100000 crore in 2025-26. The allocation of Budget under Schemes/ Programmes/ Projects has also seen excellent growth, increased from ₹ 39000 crore in 2024-25 to ₹ 59300 crore in 2025-26 (BE).

2. Hon'ble Chief Minister in the Budget 2025-26 of Govt. of NCT of Delhi announced number of new Schemes for the overall development of Delhi. Some of the major schemes introduced are namely:- Chief Minister Development Fund, Atal Canteen, Ayushman Bharat Yojana, PM Jan Arogya Yojana(PM-JAY),PM Surya Ghar Muft Bijli Yojana ,Deen Dayal Jan Aajeevika Yojana, CM young Visionaries Innovation Programme (Viksit Delhi CM Internship Programme) and Upgradation of IT services including AI, ML, Deep-learning computer vision.

3. As far as the allocation of funds and status of expenditure under Schemes/Programmes/Projects is concerned, this chapter provides data in different types of classification, like priority sectors, social sectors, agency wise etc. The Budget /expenditure upto 2016-17 was classified as Plan-Non Plan and only Plan part is discussed under this chapter. Since 2017-18, classification has been made under schemes and establishment expenditure. Only scheme expenditure is discussed for data of 2017-18 onwards in this chapter.

Five Year Plans

4. The approved plan outlay and expenditure of Government of National Capital Territory of Delhi under various Five-Year Plans are presented in Statement 3.1

STATEMENT 3.1

FIVE YEAR PLAN OUTLAY AND EXPENDITURE OF DELHI: 1951-2017

(₹Crore)

S.No	Plans	Plan Outlay	Total Expenditure	% of Exp. to Plan Outlay
1	1st Five Year Plan 1951-1956	6.30	4.70	74.60
2	2nd Five Year Plan 1956-1961	17.00	15.37	90.41
3	3rd Five Year Plan 1961-1966	99.33	93.10	93.73
4	4th Five Year Plan 1969-1974	168.77	155.16	91.94

S.No	Plans	Plan Outlay	Total Expenditure	% of Exp. to Plan Outlay
5	5th Five Year Plan 1974-1979	363.75	341.34	93.84
6	6th Five Year Plan 1980-1985	1039.38	1041.95	100.25
7	7th Five Year Plan 1985-1990	2537.34	2631.47	103.71
8	8th Five Year Plan 1992-1997	4500.00	6208.32	137.96
9	9th Five Year Plan 1997-2002	15541.28	13465.09	86.64
10	10th Five Year Plan 2002-2007	23000.00	22646.00	98.46
11	11th Five Year Plan 2007-2012	54799.15	53478.86	97.59
12	12th Five Year Plan 2012-2017	90000.00	70497.04	78.33

*Note: * Plan Outlay includes CSS w.e.f. 2014-15*

5. In 2017-18, NITI Aayog, GOI decided to do away the practice of five-yearplans after 12th Five Year Plan (2012-17). From 2017-18 onwards, Budgets are prepared under heading Establishment & Schemes categorized under Revenue & Capital heads.

Schemes/Programmes/Projects wise Budget Allocations

6. Budget Allocation & expenditure under Scheme/Programmes/Projects from 2017-18 onwards is presented in Statement 3.2

STATEMENT 3.2

SCHEMES/PROGRAMMES/PROJECTS OUTLAY ANDEXPENDITURE OF DELHI

(₹Crore)

S.No.	Year	Outlay (B.E.)	Outlay(R.E.)	Total Expenditure	% of Exp. to Outlay (R.E.)
1	2017-18	18500	16000	14387	89.9
2	2018-19	22000	18200	15672	86.1
3	2019-20	27000	22200	20307	91.5
4	2020-21	29500	23100	19259	83.4
5	2021-22	37800*	34600	30531	88.2
6	2022-23	43600	38700	32648	84.4
7.	2023-24	43700	39625	32914	83.1
8.	2024-25	39000	32850	26990	82.2
9.	2025-26	59300**	--	33805 (upto 18.03.2026)	63.75

**The Budget Allocation for Schemes/Programmes /Projects has significant increase in 2021-22 because, some Schemes/Programmes has been transferred to Schemes Budget from "Establishment Budget" (FD) consisting of subsidies and GIA in r/o Transport, Energy, Civil Supplies, Water Supply & Sanitation sectors.*

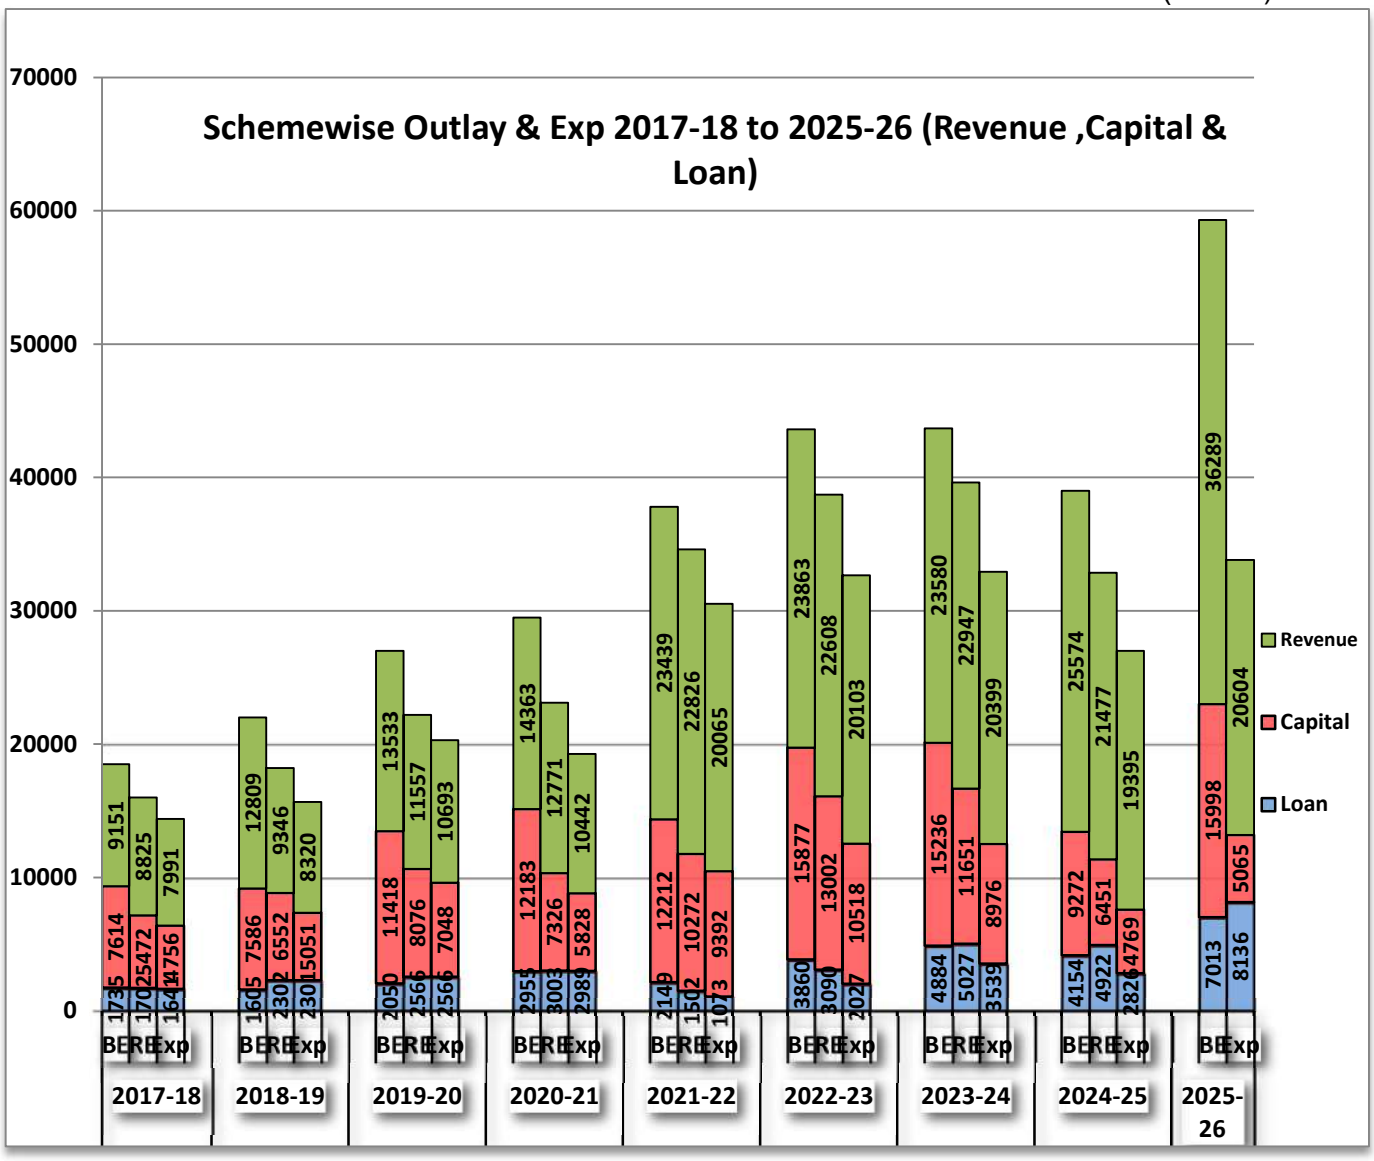

*** The Budget Allocation for Schemes/Programmes/Projects has significant increase in 2025-26 due to introduction of several new schemes.(i.e* Chief Minister Development Fund, Atal Canteen, Ayushman Bharat Yojana, PM Jan Arogya Yojana etc.).

7. Year wise allocation of Budget & Expenditure under Revenue, Capital and Loan Under Schemes /Programmes/Projects from 2017-18 to 2025-26 is presented in Graph 3.1

GRAPH 3.1

SCHEMES/ PROGRAMMES/ PROJECTS OUTLAY& EXPENDITURE (UNDER REVENUE, CAPITAL & LOAN) OF DELHI

(₹Crore)

Note: Capital Allocation of Schemes/Programmes/Projects may not tally with Detailed Demand for Grants (DDG) as the GIA capital is covered under the capital section in Schemes/ Programmes/ Projects whereas in DDG, GIA capital is covered under the Revenue section. In year 2025-26 for Schemes/Programes/Projects GIA capital is covered under the revenue section.

8. The Agency-wise expenditure for Schemes/Programmes/Projects is presented in Statement 3.3:

14. Budget allocation for Schemes /Programmes/ Projects in Social Service Sector:

The allocation in Social Sector has been on increasing trend from 2017-18 to 2024-25 w.r.t. RE (i.e from ₹ 12009 crore to ₹ 20796 crore). However, in terms of percentage, it has declined in 2021-22, 2022-23 and 2023-24. This is due to increase in total size of Budget for Schemes /Programmes /Projects as the Scheme Budget was realigned in 2021-22 due to transfer of GIA & Subsidies from Establishment Budget (FD) to Scheme Budget mainly in respect of some non-Social Sector (i.e Transport & Energy etc.).

15. Other statistical information relating to plan outlay and expenditure of Government of National Capital Territory of Delhi may be seen in the Table 3.1 to 3.12.

16. Govt. of Delhi has made huge investments in development of Delhi in recent years and garnered commendable economic progress and created a world class health, education, transport, civic infrastructure along-with socio-economic welfare of its citizen in general and with special emphasis on senior citizen, women, persons in need.

CHAPTER AT A GLANCE

➢	**The budget size of Delhi has increased from ₹ 76000 crore in 2024-25 to ₹ 100000 crore in 2025-26.**
➢	The allocation of Budget under Schemes/ Programmes/ Projects has also seen excellent growth, increased from ₹39000 crore in 2024-25 to ₹ 59300 crore in 2025-26 (BE).
➢	During 2025-26, the highest Budget Allocation is on the Transport Sector i.e.₹11964 crore (20%) followed by Social Security & Welfare ₹ 10110 Crore (17%) then Water Supply & Sanitation ₹ 9000 Crore (15%) then Education ₹ 7648 Crore (13%) & Medical & Public Health ₹ 6874 Crore (12%).

CHAPTER 4

PUBLIC FINANCE

1. As per the provision of Government of NCT of Delhi Act, 1991, a Consolidated Fund, separate from that of the Government of India had been constituted with effect from December,1993. All Revenue and Capital Receipts of Delhi Government are credited in to this Fund and all the Govt. expenditure is met out of this Fund. In the Current Financial Year 2025-26, with the approval of Ministry of Home Affairs, Govt. of India, a separate Public Account of GNCTD has been established w.e.f. 09.01.2026, empowering GNCTD to Borrow from Market through Reserve Bank of India.

2. The Expenditure Budget of Government of NCT of Delhi is mainly financed from its own tax revenue (68.7% of Expenditure Budget in 2025-26 BE), which includes revenue collection from GST, VAT, Excise, Stamp Duty and Motor Vehicle Tax. In addition, there is non-tax revenue and transfers from Government of India in the form of loan and grant under various items. It is important to highlight here that 71.3% of total Tax Revenue in 2025-26 (BE) will be from GST (including other taxes) & VAT, 10.2% from Excise, 13.1% from Stamp Duty and 5.4% from MVT.

3. Besides the tax revenue, there are transfers of Grants-in-Aid / Other receipts from the Centre, which mainly includes (i) Grants in lieu of Share in Central Taxes and duties***(now it has been clubbed with "Normal Central Assistance" from BE 2023-24 onwards)***, (ii) Compensation for implementation of GST *from Government of India,* (iii) Grant in Aid for Centrally Sponsored Schemes (iv) Normal Central Assistance (v) Contribution to Union Territory Disaster Response Fund (vi) Loan for Externally Aided Projects - WTP at Chandrawal (vii) Enhanced compensation to 1984 riot victims.

4. Similarly, Delhi Government's Capital Receipts mainly cover recovery of loans and advances from Local Bodies/Undertakings/Government Servants etc. and Small Savings Loan from National Small Savings Fund (NSSF).

5. The expenditure out of the Consolidated Fund of Delhi is broadly maintained under the Heads of Establishment and Scheme/Programme/Projects including Centrally Sponsored Scheme (CSS).Further, both Establishment and Scheme/Programme/Projects expenditure is maintained under the Heads of Revenue and Capital Account. The classification of expenditure into Plan and Non Plan was dispensed from financial year 2017-18 and now there is only Revenue and Capital Classification.

6. The Establishment Revenue expenditure of Delhi Government mainly covers the items like salary and office expenses, interest payment to Government of India, devolution of funds to Local Bodies, Grant-in-Aid to various Public Sector Enterprises (PSEs)/Institutions, Subsidies, if any, being provided by the Government to defray the cost of some items/ services under Revenue Establishment head etc. On the other hand, the Establishment Capital expenditure of the Delhi Government covers the repayment of loan to the Government of India, loans/advances to the Local Bodies/Government Servants, Public Sector Enterprises etc.

7. The Revenue Expenditure under scheme/programme/projects mainly covers cost of equipment's, grant-in-aid, and reimbursement of Service charges etc. On the other hand, the Capital expenditure under scheme/programme/ projects covers the Capital Outlay for various infrastructure projects being implemented by the Government Departments including Equity capital to the Public Sector Enterprises etc. and loans & advances being provided for remunerative schemes/projects of Local Bodies/PSEs, etc.

8. Delhi Legislative Assembly passed the State Goods and Services Act on 31st May 2017 and thus GST rolled out in Delhi w.e.f. 01-07-2017. As a result, erstwhile VAT (excluding items like petroleum, liquor etc)& other taxes viz. Entertainment tax, Luxury Tax and Cable TV tax subsumed in GST. Trade & Taxes Department, GNCTD made all efforts for smooth migration of all existing VAT dealers in new regime of Goods &Services Tax. Dissemination of related information through printed brochures, deployment of Sahayata Vahans, one to one contact, organizing camps in major markets, setting up of GST support committees in markets etc were such important steps taken by the Trade & Taxes Department.

9. Tax Collection of Delhi Government is budgeted in 2025-26 for a growth of 15.54% over 2024-25(Prov.). Stamps and Registration Tax (including land Revenue) has estimated growth of 17.63% in 2025-26. GST (including VAT and other taxes of Luxury and Entertainment etc.) budget for a growth of 14.31%. Tax collections under State Excise has a budgeted growth of 22.78%. Motor Vehicles Tax is proposed to increase at a rate of 14.16%.

10. On the other hand, as per Constitutional requirement, the Government of NCT of Delhi is making devolution of funds to its Local Bodies based on the recommendations of Delhi Finance Commission being set up from time to time. The formula for devolution of funds to Local Bodies in Delhi based on the recommendations of the Fifth Delhi Finance Commission.

11. Delhi has maintained its consistent Revenue Surplus; it recorded ₹12247.03 crore during 2024-25(Prov.) as compared to ₹ 6462.30 crore in 2023-24. The

budgeted revenue surplus for 2025-26(BE) is ₹ 9661.31 crore which is 0.73% of GSDP.

12. Delhi's outstanding debt at the end of March, 2025 was ₹30556.54 crore including the non-plan loan received during 2013-14 from Government of India for meeting the outstanding liabilities of DVB/DESU amount of ₹ 3326.39 crore and Chandrawal Water Treatment Plant (Delhi Water Supply Improvement Project Aided by JICA) amount of ₹ 447 crore. Thus, the outstanding debt of Delhi Government constitutes 2.30%of GSDP during 2025-26.

13. The flow of funds received from Govt. of India to GNCTD increased to the tune of ₹1864.03 crore in 2024-25 (Prov.) compared to ₹2093.14 crore in 2023-24.Grants under CSS has increased from ₹ 955.34 crore in 2023-24 to ₹ 1486.02 crore in 2024-25. Further, 'Grants in lieu of Share in Central Taxes' and 'Central Assistance to UTs' have been clubbed in 'Central Assistance to UTs' from financial year 2023-24 onwards with a budget provision of ₹ 951 Crore in FY 2025-26, which has been adjusted by Govt. of India towards JICA aided loans of Delhi Metro Projects (Phase-I, II, III & IV) by the way of book adjustment. The grants under compensation for implementation of GST is reduced from ₹1137.80 crore in 2023-24 to ₹ 363.00 crore in 2024-25.

14. Govt. of NCT of Delhi is budget to have a Fiscal Deficit of ₹13,703 Crore in BE 2025-26, which is mainly on the account of increase of more than double (145%) in capital expenditure over 2024-25. The capital expenditure which was only ₹ 11,485 Crore in 2024-25(Prov.) has been increased to ₹ 28,115 Crore in 2025-26(BE). The Capital Expenditure is a developmental expenditure and it has been appropriately attuned to the needs of Capital City of India. The fiscal deficit is within the accepted limits of 3% of GSDP.

15. SNA SPARSH

15.1 Govt. of NCT of Delhi has now matched the efforts of Govt. of India to bring about more efficiency in cash management at both Centre and States level, with introduction of a real-time "Just-in-Time" fund flow system named SNA - SPARSH for Centrally Sponsored Schemes (CSS) funds through an integrated framework of PFMS, State IFMIS and e-Kuber platform of Reserve Bank of India (RBI). In this regard, Ministry of Finance, GoI had issued guidelines/instructions vide their OM dated 13.07.2023.

15.2 Presently, there are total 59 State Linked Schemes (SLS) in Govt. of NCT of Delhi against 35 Centrally Sponsored Schemes (CSS). Drawing Accounts opened under all these 59 SLS in Reserve Bank of India. All the schemes

mapped and configured onto SNA SPARSH Platform through PFMS Portal of Ministry of Finance, GoI.

16. Revenue Receipts

16.1 Revenue receipts are broadly categorized as Tax Revenue, Non-Tax Revenue and Grants-in-aid and other receipts from the Central Government.The position of revenue receipts of Delhi Government is presented in Statement 4.1 and Charts 4.1 and 4.2.

CHART 4.5

REVENUEEXPENDITURE (PLAN & NON-PLAN) DURING 2014-15 TO 2016-17AND DURING 2017-18 to 2025-26(BE) (PROGRAMME/SCHEMES AND ESTABLISHMENT)

(₹ in crore)

Note: The Plan / Non Plan dichotomy was done away with as a Fiscal reform since F.Y. 2017-18.

23. Interest Payment to Government of India

23.1 The interest liability of a Government during a year depends on its outstanding debt in the previous year. The Delhi Government has made interest payment of ₹ 2666.08 crore in 2024-25 (Prov.) which is 4.48% of its own Tax Revenue during the year. Delhi's outstanding debt at the end of March 2025 was ₹ 30556.54 crore including the non plan loan received during 2013-14 from Government of India for meeting out the outstanding liabilities of DVB/DESU amounting to ₹3326.39 crore and Chandrawal Water Treatment Plant (Delhi Water Supply Improvement Project Aided by JICA) amount of ₹447 crore. The position of interest payment of Delhi Government as percentage of its Tax Revenue is shown in the following Statement 4.7.

STATEMENT 4.7

2. RBI – State Finances – A study of Budgets 2025-26.

24.3 It may be seen that Govt. of NCT of Delhi is budget to have a Fiscal Deficit of ₹ 13,703 Crore in BE 2025-26, which is mainly on the account of increase of more than double in capital expenditure over 2024-25. The capital expenditure which was only ₹ 11,485 Crore in 2024-25(Prov.) has been increased to ₹ 28,115 Crore in 2025-26(BE). The Capital Expenditure is a developmental expenditure and it has been attuned to the needs of Capital City of India. The fiscal deficit is within the accepted limits of 3% of GSDP.

2. Figures for 2024-25 (Prov.) are from Principal Account Office and 2025-26from Budget Documents, GNCTD.

25.2 During 2024-25 (Prov.) Delhi Government's Capital Receipt was ₹ 189.97 crore compared to ₹98.25 crore received during the previous year 2023-24.One of the main reasons for decline in Capital Receipts during 2024-25 (Prov.) was due to lower Recovery of Loan & Advances amounting to₹47.97 crore received compared to ₹98.25 crore during 2023-24. There is no receipt received of Small Saving Loans provided by Govt. of India in FY 2024-25 as well as FY 2023-24 and no any amount received in Block Loans- in lieu of GST compensation shortfall from Government of India. The budgeted capital receipts for 2025-26 (BE) is ₹ 15489.55 crore.

26. Capital Expenditure

26.1 The capital expenditure of Delhi Government is reported under Plan & Non-plan (up to 2016-17) and under Schemes/Projects and Establishment from 2017-18. The capital expenditure under Schemes/ Programs covers the

expenditure like capital outlay for various infrastructure projects of the Government and loans and advances to the Local Bodies/Undertakings for development projects/schemes while the Establishment capital expenditure includes repayment of loan to Government of India, and non plan loan, if any, provided to the Local Bodies etc. The Statement 4.10 and Chart 4.8 indicate the capital receipts and disbursement of Delhi Government.

10	2023-24	40322.55	0.00	4993.69	35328.86
11	2024-25 (Prov.)	35328.86	142.00	4914.32	30556.54

Source: Figures for 2014-15 to 2024.25 are from Detailed Demand for Grants 2025-26, GNCTD.

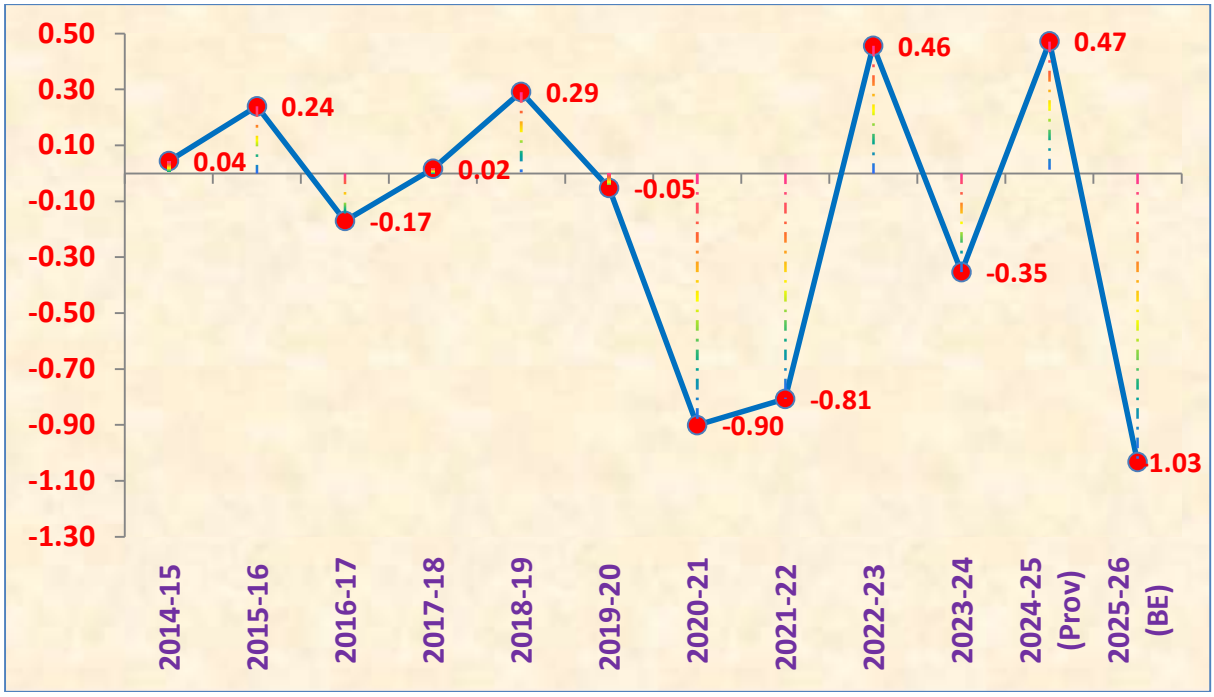

27.2 Such outstanding debt is mainly on account of Small Savings Loan from National Small Savings Fund (NSSF), Chandawal Water Treatment Plant (Delhi Water Supply Improvement Project Aided by JICA) and loan received from Ministry of Power, Govt. of India to settle outstanding liabilities of DESU/DVB received during 2013-14 from Ministry of Power, Government of India. As a result of above outstanding debt, the Delhi Government has paid an amount of ₹2,666.08 crore as interest and total ₹4,914.32 crore as repayment of principal to the Government of India during 2024-25.

28. Fiscal Deficit/ Surplus

28.1 The Fiscal Deficit is a summary of statistical measure that indicates the net borrowing requirement of the Government from all sources. The Delhi Government recorded a Fiscal Deficit of ₹3934.15 crore in FY2023-24 as compared to Fiscal Surplus of ₹ 5724.12 crore in 2024-25. **Chart-4.9** indicates the fiscal deficit/surplus as percentage of GSDP during 2014-15 to 2025-26 (BE). However, the Government has projected the fiscal deficit of ₹13702.95 crore during 2025-26(BE) which is 1.03% of GSDP. The fiscal deficit in 2025-26 (BE) is mainly on the account of increase of more than double (145%) in capital expenditure over 2024-25. The capital expenditure which was only ₹ 11,485 Crore in 2024-25(Prov.) has been increased to ₹ 28,115 Crore in 2025-26(BE). The Capital Expenditure is a developmental expenditure and it has been appropriately attuned to the needs of Capital City of India. The fiscal deficit is within the accepted limits of 3% of GSDP.

Chart 4.9

30. Devolution of funds to Local Bodies

30.1 Devolution of funds to Local Bodies in Delhi (i.e. MCD or its successor entities & NDMC) is being made as per the Government's decision based on the recommendations of Delhi Finance Commission (DFC). As decided by the Cabinet vide decision No. 2670 dated 01.01.2019, the net proceeds of tax revenue will be devolved to local bodies as per recommendations of 5th DFC. Thus, total devolution of funds shall be 12.5% of net tax collection. This consist of 6% Basic Tax Assignment and 6.5% sector specific grants i.e. Health, Education and Urban Development.

30.2 The details of Delhi Finance Commission wise devolution is given in the following statements:-

**** Note: The release for MDM includes Central Share of Grant***

30.6 During 2024-25 (Prov.) a total of ₹6231.79 was devolved to Local Bodies, of which an amount of ₹6182.20crore (99.20%) was devolved to Municipal

Corporation of Delhi, ₹29.42crore (0.47%) was devolved to NDMC and ₹ 20.17crore (0.33%) was devolved to Delhi Cantonment Board. In this FY 2025-26, ₹6897.01 crore was budgeted as devolution to local bodies.

CHAPTER AT A GLANCE

➢	All Revenue and Capital Receipts of Delhi Government are credited in to Consolidated Fund and all the Govt. expenditure is met out of this Fund.
➢	Around 71.3% of total Tax Revenue in 2025-26 (BE) will be from GST (including other taxes) & VAT, 10.2% from Excise, 13.1% from Stamp Duty and 5.4% from MVT.
➢	Tax Collection of Delhi Government is budgeted in 2025-26 for a growth of 15.54% over 2024-25(Prov.). Stamps and Registration Tax (including land Revenue) has estimated growth of 17.63% in 2025-26. GST (including VAT and other taxes of Luxury and Entertainment etc.) budget for a growth of 14.31%. Tax collections under State Excise has a budgeted growth of 22.78%. Motor Vehicles Tax is proposed to increase at a rate of 14.16%.
➢	Delhi has maintained its consistent Revenue Surplus; it recorded ₹12247.03 crore during 2024-25(Prov.)as compared to₹6462.30 crore in 2023-24. The budgeted revenue surplus for 2025-26(BE) is ₹9661.31crore which is 0.73% of GSDP.
➢	The total Capital Expenditure of Delhi Government during 2025-26 (BE) is ₹28115.48 crore which is 28.12% of the total expenditure of ₹100000 crore. Govt. of NCT of Delhi is budget to have a Fiscal Deficit of ₹13,703 Crore in 2025-26 (BE), which is mainly on the account of increase of more than double (145%) in capital expenditure over 2024-25. The capital expenditure which was only ₹ 11,485 Crore in 2024-25(Prov.) has been increased to ₹ 28,115 Crore in 2025-26(BE).

CHAPTER 5

TRADE AND COMMERCE

Trade and commerce have played a pivotal role in promoting the growth of Delhi's economy by making a significant contribution in terms of tax revenues and providing gainful employment to a large section of society. Delhi is the biggest trade and consumption centre in North India. Delhi distinguishes itself as a centre for entry port of trade which means that large part of its economic activity is concerned with the redistribution of goods produced elsewhere and imported for local sales as well as for export to other states i.e. interstate sales. It has attained the status of a major distribution centre by virtue of its geographical location and other historical factors, availability of infrastructure facilities etc. It is major distribution centre borne out by the fact that 49 per cent of the fuel, 47 per cent of food grains, 44 per cent of iron and steel and 78 per cent of fruit and vegetables imported to Delhi are re-exported to other parts of India as well as foreign nations also. The Master Plan of Delhi 2021 document clearly emphasizes the fact that the wholesale markets in Delhi deal with about 27 major commodities, covering all items especially textiles, auto parts and machinery, stationery, food items and iron and steel, etc.

2. Trade in Non-agricultural Products

2.1 The work of the Trade for Development Programme (TDP) on non-agricultural goods focuses on the implications of trade liberalization for developing countries' capacity to develop and sustain a robust industrial base, to diversify their economic structures, to participate in the dynamic sectors of world trade and generate industrial employment. This work also concentrates on the market access conditions met by developing countries exports in the international market and the ability to develop countries to use tariffs, subsidies, local content and performance requirements, export taxes and restrictions. Information available under the Value Added Tax (VAT), workforce data from population census and gross state domestic products estimates do provide some meaningful estimates on the relative importance of the sector. The GSVA from trade, hotels and restaurants in Delhi constituted ₹138826 crore during 2025-26 (AE) at current prices, which is nearly 11.59% of GSVA of Delhi (the base year 2011-12). More clearly, this sector's contribution to GSVA of Delhi during the last 15 years was more than 11%. The information regarding the number of registered dealers and receipts under / Delhi Value Added Tax in Delhi is presented in Statement 5.1(A) and 5.1(B).

2.2 It may be inferred from Statement 5.1(A) and 5.1(B) that the number of registered dealers 384020 (206359 under Local Act and 177661 under Central Act) in 2007-08 increased to 1629642 (3284 under DVAT and 1626358 under

GST) in 2024-25. During the same period, the revenue increased from ₹8744.39 Crore to ₹43929.45 Crore.

3. Economic Census

3.1 Economic Census is the complete enumeration of entrepreneurial activities operating in the geographical boundaries of State/Country at a given point of time to come out with the official count of enterprises and their characteristics. Entrepreneurial activities mean, all those economic activities dealing with the production and/or distribution of goods/services not solely for the purpose of own consumption. All economic activities - agricultural and non-agricultural, except those involved in crop production and plantation, public administration, Defence and compulsory social security, related to production and/or distribution of groups and/or services are covered. Non-agricultural field of activity covered by Economic Census operations includes mining & quarrying, manufacturing, electricity, gas & water supply, sewerage, waste management, construction, wholesale & retail trade, transport & storage, accommodation & food service, information & communication, financial & insurance, real estate, professional, scientific & technical, administrative & support service, education, human health & social work, arts; entertainment & recreation etc.

3.2 The Sixth Economic Census was a Central Sector scheme undertaken by Directorate of Economics & Statistics, Delhi conducted during 2013, covered all the entrepreneurial activities in the field of agricultural (except crop production,

plantation) and non-agricultural sectors operating in the geographical boundaries of Delhi. The total number of establishments found to be operating in NCT of Delhi during 2013 comes to 8,75,308. Out of them, only 1.42% was in rural areas and 98.58% in urban areas. Sixth Economic Census registered an annual growth rate of 1.94%, in absolute term, there is an increase of 1,17,565 establishments over the Fifth Economic Census conducted during 2005. The breakup of establishments in agricultural and non-agricultural reveals that 7,008 (0.80%) belong to the first category and 8,68,300 (99.20%) to second. Out of total establishments, 4,77,498 (54.55%) were Own Account Enterprises (OAE) and 3,97,810 (45.45%) were establishments with at least one hired worker (Estt (H)). The number of persons employed by type of establishment indicates that 30,19,781 persons were employed in 8,75,308 establishments with an average of 3.45 employees per establishment. Out of the total, 27,610 persons (0.91%) were employed in rural areas whereas, 29, 92,171 (99.09%) were engaged in urban Delhi. In the context of the type of establishment, 19.72% of workers were working in the establishments with no hired worker i.e.in OAE and remaining 80.28% were working in establishments with at least one hired worker. In the establishment of the hired worker, persons per establishment are worked out to 6.09 as against 1.25 in the case of OAE.

4. Role of Un-organized Sectors in Delhi

4.1 Trading Sector

Directorate of Economics and Statistics, Government of National Capital Territory of Delhi conducted a survey during 1997 on un-organized trading activity in Delhi under the 53rd National Sample Survey Round (State Sample)

sponsored by National Sample Survey Office (NSSO), Government of India. The coverage of the survey included two types of enterprises i.e. Own Account Trading Enterprises (OATEs) operated by household members without any hired workers and Non-Directory Trading Enterprises (NDTEs) run with at least one hired worker on a fairly regular basis but less than 6 workers including family members. The survey report mentioned that the number of un-organized trading enterprises in Delhi was at 1.99 lakh and the number of persons employed in these un-organized trading enterprises as 3.18 lakh. The contribution of this sector, which is measured in terms of Gross Value Added to the economy of Delhi, was estimated at 1.01 lakh per enterprise per annum. No further sample survey specially designed for trading sector only has been conducted after 1997.

4.2 Manufacturing Sector

Directorate of Economics and Statistics, Government of National Capital Territory of Delhi conducted a survey during 2005-06 on un-organized manufacturing enterprises in Delhi under the 62nd National Sample Survey Round (State sample) sponsored by National Sample Survey Office, Government of India. As per the report, the total number of un-organized manufacturing enterprises were estimated at 1.01 lakhs during 2005-06 and out of these 15040 (15 per cent) were Own Account Manufacturing Enterprises (without any hired worker) and 85700 (85 per cent) were Establishments operating with at least one hired worker. The total employment provided by the unorganized manufacturing sector was about 4.82 lakhs. The gross value added per annum per enterprise in the unorganized manufacturing sector was 3.26 lakh. The value added per worker in this sector was estimated at 0.68 lakh per year. The value added per enterprise in Own Account Enterprise was 0.81 lakh and that of the establishment was 3.69 lakh.

4.3 Service Sector

Directorate of Economics and Statistics, Government of NCT of Delhi conducted a survey between July 2006 and June 2007 on un-organized service sector activity in Delhi under the 63rd National Sample Survey Round (State Sample). The total number of enterprises were 239447 and out of these 147281 (61.51 per cent) were Own Account Enterprises (Enterprises operating without any hired worker) and 92166 (38.49 per cent) were Establishment operating with at least one hired worker. The total employment provided by the unorganized service sector was about 6.44 lakh. The gross value Added per annum per enterprises in the unorganized service sector was 2.87 lakh. The Value Added per worker in this sector was estimated at 106895 per year. Value added per worker in OAE's was 70372 and that of the establishment was 119996 per annum.

4.4 Survey of unincorporated Non-Agriculture Enterprises (Manufacturing, Trading & Service Sector)

According to the 73rd NSS survey conducted from July 2015 to June 2016 of unincorporated non-agriculture sector enterprises (Manufacturing, Trading & Service Sector), the number of enterprises were found to be 810722. The sector-wise break up is given as:

Broad Activity Category	Number of Enterprises								
	Rural			Urban			Delhi		
	OAE	Estt	All	OAE	Estt	All	OAE	Estt	All
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
Manufacturin	2950	160	3110	45154	69854	11500	48104	70014	11811
Trade	5553	231	7867	21456	20813	42269	22011	21044	43056
Other Service	7599	305	1065	16051	90877	25138	16811	93929	26204
Total	1610	552	2162	42023	36886	78909	43633	37438	81072
% of the total	1.99	0.68	2.67	51.83	45.50	97.33	53.82	46.18	100

The number of persons usually working in these enterprises was found to be 19.60 lakh. The sector-wise breakup is given as:

Broad activity category	Number of Worker by Enterprise type and sector for each broad activity Category								
	Rural			Urban			Delhi		
	OAE	Estt	All	OAE	Estt	All	OAE	Estt	All
(1)	**(2)**	**(3)**	**(4)**	**(5)**	**(6)**	**(7)**	**(8)**	**(9)**	**(10)**
Manufacturing	2957	1449	4405	60817	357028	417846	63774	358477	422251
Trade	5744	5783	11527	280090	664567	944657	285834	670350	956184
Other Service	7906	7191	15098	194957	371679	566636	202863	378870	581734

According to the survey, the sector-wise Gross Value Added (GVA) per enterprises and per worker at factor income and product approach (in ₹) is presented as follows:

Activity	Factor Income Approach		Product Approach	
	GVA/Enterprise	GVA/Worker	GVA/Enterprise	GVA/ Worker
Manufacturing	672626	188156	677522	189526
Trade	626532	271405	632173	273848
Other Service	480529	216411	484457	218180
All	573438	237151	578303	239163

5. Marketing of Agricultural Produce

5.1 In modern marketing, agricultural produce has to undergo a series of transfers or exchanges from one hand to another before it finally reaches the consumer. The National Commission on Agriculture defined agricultural marketing as a process which starts with a decision to produce a saleable farm commodity and it involves all aspects of the market structure of system, both functional and institutional, based on technical and economic considerations and includes pre and post-harvest operations, assembling, grading, storage, transportation and distribution. The Indian Council of Agricultural Research defined the involvement of three important functions, namely;

- Assembling (concentration)
- Preparation for Consumption (processing) and
- Distribution

5.2 Marketing of agricultural produce in Delhi is through a network of regulated markets. The Delhi Agricultural Marketing Board (DAMB) is the apex body established in 1977 under the Delhi Agricultural Produce Marketing (Regulation) Act 1976 which was replaced subsequently by a new Act in 1998. The Board exercises supervision and control over various agricultural produce markets and promotes better marketing of agricultural produce by developing infrastructure facilities. At present, there are seven principal markets functioning in Delhi and they are:

1. APMC, (MNI) Azadpur
2. APMC, Narela
3. APMC, Najafgarh
4. APMC Keshopur
5. APMC, Shahdara
6. FP&EMC, Gazipur
7. Flower Market, Mehrauli

6. Delhi Agricultural Marketing Board (DAMB)

6.1 DAMB was established in 1977 under the provisions of Delhi Agricultural Produce Marketing (Regulation) Act 1976 which has since been replaced by Delhi Agricultural Produce Marketing (Regulation) Act, 1998. The said Act was enacted for the better regulation of the purchase, sale, and storage and processing of agricultural produce and for the establishment of markets of agricultural produce in the National Capital Territory of Delhi and for markets connected therewith or incidental thereto. Under this Act organizational set up has been given to regulate the trading activity of the agricultural produce in the National Capital Territory of Delhi. Delhi Agricultural Marketing Board is an apex

body of this organizational setup and its main functions are to provide for general improvements in the markets for their respective areas and to provide facilities for grading and standardisation of agricultural produce. DAMB is in a healthy financial position and does not receive any financial assistance or grant from the Government of National Capital Territory of Delhi. The income and expenditure of DAMB over the last nine years is indicated in Statement 5.4.

STATEMENT 5.4

FINANCIAL POSITION OF DAMB DURING 2016-17 to 2024-25

(₹ In Lakh)

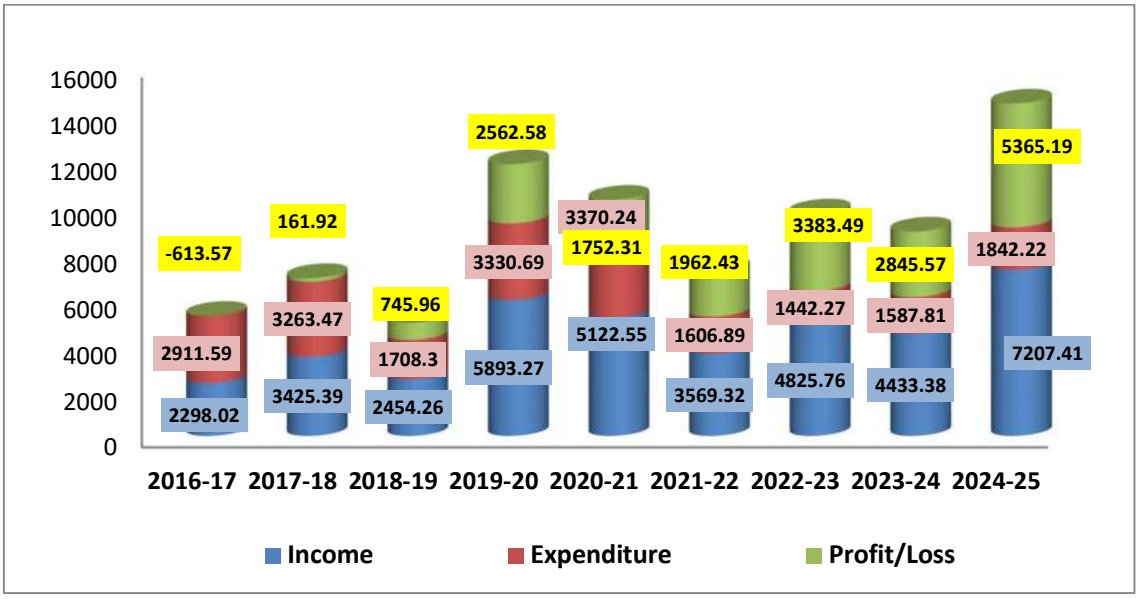

S. No.	Details	Years								
		2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
1.	Income	2298.02	3425.39	2454.26	5893.27	5122.55	3569.32	4825.76	4433.38	7207.41
2.	Expenditure	2911.59	3263.47	1708.30	3330.69	3370.24	1606.89	1442.27	1587.81	1842.22

6.2 It may be inferred from Statement 5.4 that the Income of the DAMB has increased to ₹72.07 crore in 2024-25 from ₹44.33 crore in previous year. Similarly, the profit has also increased to ₹53.65 Crore in 2024-25 from ₹28.46 in previous year. From the statement, it may be earmarked that market is continued in profit all the period except in 2016-17. The above financial statement shows the healthy position of market.

CHART 5.3

FINANCIAL POSITION OF DAMB DURING 2016-17 to 2024-25

(₹ in Lakh)

7. Agricultural Produce Marketing Committee (APMC) of MNI Azadpur

7.1 The Azadpur fruit and vegetable market under the agricultural produce marketing committee (APMC) of MNI Azadpur is the biggest fruit and vegetable market in Asia and one of the biggest in the world. The market acts as a national distribution centre for fruits like apple, banana, orange and mango and for vegetables like potato, onion, garlic and ginger, etc. The committee also provides a grower's shed where the producers can bring and sell their produce directly to purchasers thus abolishing the role of middlemen. The information regarding the financial position of APMC of MNI Azadpur during the last nine years is presented in Statement 5.5.

STATEMENT 5.5

FINANCIAL POSITION OF APMC AZADPUR DURING 2016-17 to 2024-25

(₹ in Lakh)

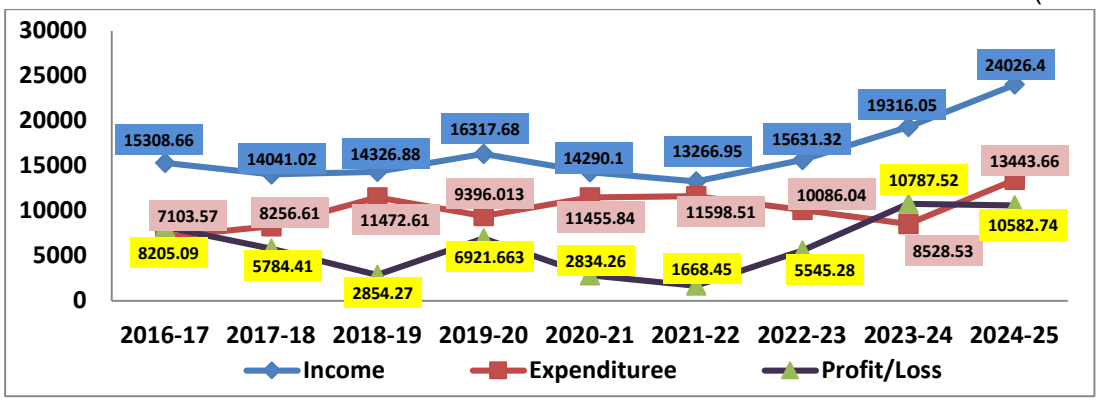

S. No.	Details	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

7.2 It may be observed from Statement 5.5 that the financial position of the market is healthy in all the period mentioned above. The Income of the Azadpur market has increased to ₹240.26 crore in 2024-25 from ₹193.16 crore in previous year. However, the profit of the market in 2024-25 has slightly decreased to ₹105.83 crore from ₹107.88 crore in previous year i.e. 2023-24. Also, total arrival of market in 2024-25 is nearly same as of previous year. This market has emerged as the most financially viable market committee in the National Capital Territory of Delhi.

CHART 5.4

FINANCIAL POSITION OF APMC (MNI) AZADPUR DURING 2016-17 to 2024-25

(₹ in Lakh)

8. Agriculture Produce Marketing Committee (APMC) of Narela

8.1 The Food Grain Market under APMC Narela, spread over an area of about 4 acres, was established in 1959 and is the biggest regulated market in Delhi for food grains. The notified commodities include paddy, wheat, gram, bajra, maize, jowar, gur, sugar, khandsari, etc. The arrivals in this mandi are mainly from Haryana, Uttar Pradesh, Punjab and Delhi. The notified market area of APMC Narela covers the entire area of NCT of Delhi excluding the market area of APMC, Shahdara and Najafgarh. The arrivals of food grains in APMC, Narela and financial position during the last nine years are presented in Statement 5.6.

STATEMENT 5.6

FINANCIAL POSITION OF APMC OF NARELA DURING 2016-17 to 2024-25

(₹ in Lakh)

S. No.	Details	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

2024-25	30746436	57965341	28325008

13.3 It may observed from the statement 5.13 that arrivals of flowers (in pieces) is continue increasing from 2016-17 to 2019-20 and it was decreased in 2020-21 and then again start increasing since 2021-22.The arrivals of flowers (in pieces) is 57965341 in year 2024-25. The financial position of FMC, Mehrauli during 2016-17 to 2024-25 is depicted in Chart 5.10.

CHART 5.10

FINANCIAL POSITION OF FMC, MEHRAULI- DURING 2016-17 to 2024-25

(₹ in Lakh)

CHAPTER AT A GLANCE

➢	The GSVA from trade, hotels and restaurants in Delhi constituted ₹138826 crore during 2025-26 (AE) at current prices, which is nearly 11.59 per cent of Gross State Value Added of Delhi (the base year 2011-12). This sector's contribution to Gross State Value Added of Delhi during the last 15 years was more than 11 per cent.
➢	The number of registered dealers 384020 (206359 under Local Act and 177661 under Central Act) in 2007-08 increased to 1629642 (3284 under DVAT and 1626358 under GST) in 2024-25. During the same period, the revenue increased from ₹8744.39 Crore to ₹43929.45 Crore.
➢	The Delhi Agricultural Marketing Board (DAMB) is the apex body established in 1977 under the Delhi Agricultural Produce Marketing (Regulation) Act 1976 which was replaced subsequently by a new Act in 1998.
➢	The Income of the DAMB has increased to ₹72.07 crore in 2024-25 from ₹44.33 crore in previous year. Similarly, the profit has also increased to ₹53.65 Crore in 2024-25 from ₹28.46 in previous year. From the statement, it may be earmarked that market is continued in profit all the period except in 2016-17.
➢	The Azadpur fruit and vegetable market under the agricultural produce marketing committee (APMC) of MNI Azadpur is the biggest fruit and vegetable market in Asia and one of the biggest in the world.

➢	The Food Grain Market under APMC Narela, spread over an area of about 4 acres, was established in 1959 and is the biggest regulated market in Delhi for food grains.
➢	APMC Najafgarh with the main market area of about 12 acres was established in 1959 and covers the food grains such as paddy, wheat, gram, bajra, maize, jowar, gur, sugar, khandsari etc.
➢	Agricultural Produce Marketing Committee (APMC) of Shahdara is having 37.03 Acres of the area is operating from Gazipur and covers fruits and vegetables, fodder, food grain, sugar and khandsari.
➢	Agricultural Produce Marketing Committee (APMC) of Keshopur established in 2001 with an area of 15.58 acres. It has 244 shops deals with fruits and vegetables.
➢	Fish, Poultry and Egg Marketing Committee, Gazipur established in 1992 dealt with fish, poultry and egg. At present, there are 88 shops for the poultry market and 196 shops for the fish market at Gazipur.

CHAPTER 6

PRICE TRENDS

Labour Bureau an attached office of Ministry of Labour and Employment, since itsinception has, inter-alia, been entrusted with the responsibility of compilation, maintenance and disseminating of the Consumer Price Index for Industrial Workers. The CPI-IW is compiled as per international best practices & guidelines of ILO and dissemination of CPI-IW is Special Data Dissemination Standard (SDDS) compliant. It is released on last working day of subsequent month. CPI (IW) are compiled and released by the Labour Bureau, Ministry of Labour and Employment and are specific to population segments.

1.1 Consumer Price Index for Industrial Workers (CPI-IW), one of the prominent economic indicators, which measures the relative changes in retail prices over a period of time in respect of a fixed set of goods and services consumed by an average working class family in a given area with reference to a base year. The CPI-IW is mainly used for regulating and determination of dearness allowance (DA) being paid to large number of Central/State Government employees and also to the workers in the industrial sectors besides fixation and revision of minimum wages in scheduled employments, hence, having significant financial implications to the Public Exchequer. Further, CPI numbers are widely used as macroeconomic indicator of inflation, and also as a tool by government and central banks for targeting inflation and monitoring price stability.

1.2 From the month of September, 2020 the Labour Bureau has updated the Base ofthe old Series of CPI -IW (2001=100) to the New Base 2016=100. The main components for constructing Consumer Price Index numbers are the weights and prices. Weights are the share of actual expenditure on each commodity duringthe base period and base prices are the annual average of item level prices during the 2016 in respect of items retained in the index basket.

1.3 The definition of price adopted for the compilation of CPI is the price which a consumer/industrial worker has to pay for the specified item/variety, for the specified unit, in the selected shop of the selected market. It includes all taxes like sales tax, etc., and excludes rebates and discounts, which are universally applicable for all the customers. It is the actual price prevailing in the open market at which transaction takes place between a buyer and a seller. The Black market or unauthorized prices are, however, not taken in the compilation of index numbers. In case of rationed commodities, the fair price is taken.

1.4 Consumer Price Index (CPI) is a reflection of changes in the retail prices of specified goods and services over a time period, whereas Wholesale Price index (WPI) accounts for changes in the general price level of goods at the

wholesale level. WPI is the primary measure used for ascertaining inflation as it accounts for changes in prices for a given class of goods or services in a given region, during a given interval of time. Price Indices have several potential uses. The index can be said to measure the movement in prices or a cost of living.

Some notable price indices are indicated below

I. Wholesale Price Index number-All India (WPI)
II. Consumer Price Index number for Industrial Workers (CPI-IW)
III. Consumer Price Index number for Agricultural Laborers (CPI-AL)
IV. Consumer Price Index number for Rural Laborers (CPI-RL)

1.5 The substantial change in prices of essential commodities affects both the quantum of production and the pattern of consumption. The change in prices also makes an impact on the living conditions of people in general and poor in particular. Therefore, it is absolutely essential to keep a constant watch on price behavior. Statistically index number of prices measures changes in prices over aperiod of time. The price indices are calculated at the wholesale level as well as at the retail level.

1.6 The Wholesale Price Index (WPI) is the only general index capturing price movement in a comprehensive way and is an indicator of movement in prices of commodities in all trade and transactions. It is generally taken as an indicator of the rate of inflation in the economy. The current series of WPI reflects the change in Wholesale Prices over a period as compared to the base year (2011-12=100). The information regarding the year-wise wholesale price index from 2018-19 to 2024-25 is presented in Table 6.1.

2. Methodology for Compilation of Whole Sale Price Index

2.1 Wholesale price represents the quoted price of the bulk transaction of a commodity generally at the primary stage. The revised (current) series of Index Numbers of Wholesale Prices in India with base 2011-12 had replaced the hitherto operated WPI with base 2004-05. The current series is calculated on the principle of weighted arithmetic mean.

2.2 The Price relatives are calculated as the percentage ratios, which current prices bear to those prevailing in the base period. In other words, the price relative for each variety/quotation is calculated by dividing the current price by the corresponding base period (2011-12) price and multiplying the resulting figure by 100. The commodity index is arrived at as the simple arithmetic average of the price relatives of varieties/quotations selected for that commodity. The indices forthe sub-groups/ groups/ major groups of commodities, in turn, are worked out as the weighted arithmetic mean of the indices of the items/ sub-groups/ groupsfalling under their respective heads. Being a representative of wholesale trade and transaction and also being available on a weekly basis, WPI is conventionally used as an indicator to measure the rate of inflation in

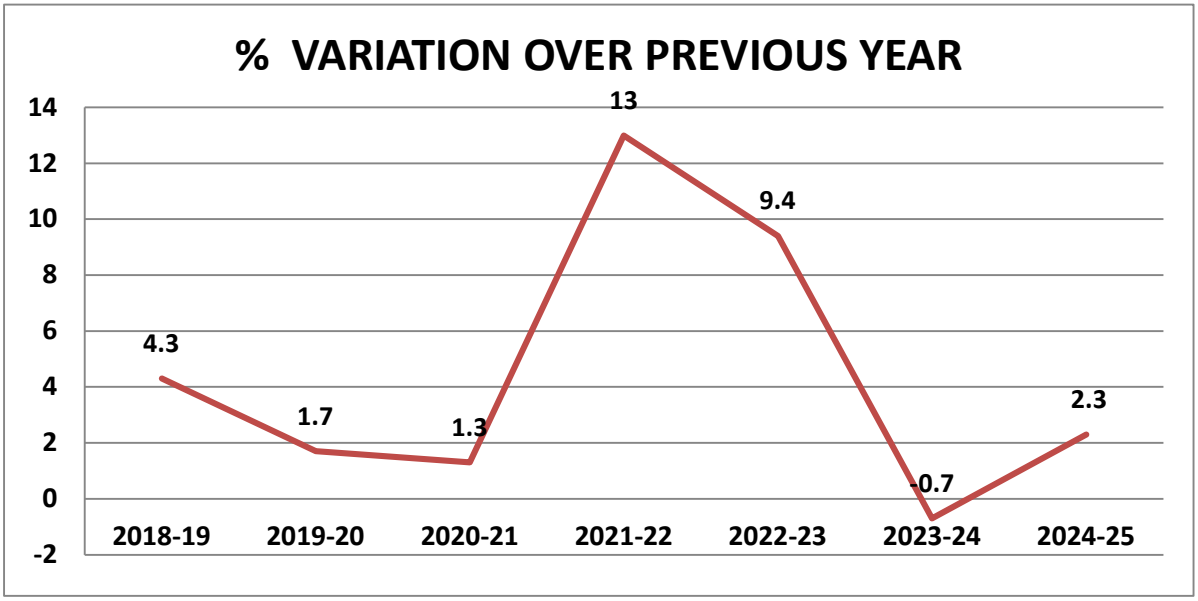

the economy.

2.3 The rate of inflation during the last seven years is depicted in chart 6.1.

CHART 6.1

THE RATE OF INFLATION IN ALL INDIA (WHOLESALE PRICE INDEX) 2018-19 TO 2024-25

(Percent)

2.4 Larger economic integration has allowed developments in international markets to trickle down to all corners of the world. At the same time, such integration has allowed developing nations to play ever more important roles in global markets.In this regard, the rise in commodity prices during this present decade highlights the growing importance of the developing world as its demand for food, energy and materials appears to have been fuelling the current commodity boom.

2.5 Food price inflation is one of the most talked about issues in the country today. The brunt of the same is being felt across India and across all sections of society.The farmer or the grower may not be benefited in the ratio of the rise in food prices as there are huge imperfections in the market. Demand-supply mismatches and inefficient supply mechanisms result in large price spreads between the growers and final consumers.

2.6 In addition to low production and productivity, the prevailing market inefficiencies -lack of coordinated efforts in public procurement, wastage due to inadequate storage facilities, etc. have been crucial in allowing food prices to rise sharply. The complex causes of the current food and agriculture crisis require a comprehensive response. The thrust of government activities is to concentrate on improving food production and productivity, increasing

investments in the agriculture sector, etc. Average wholesale prices of some essential commodities in Delhi from the Year 2018 to 2025 are presented in Statement 6.1

STATEMENT 6.1
AVERAGE WHOLESALE PRICES OF SELECTED COMMODITIES IN DELHI- 2018-2025

3. Consumer Price Index for Industrial Workers CPI (IW)

3.1 Consumer Price Indices are generally used for measuring the trends of retail prices of the most common items of daily consumption. The Directorate of Economics and Statistics, Government of NCT of Delhi collect retail prices of essential commodities from the selected markets viz Tilak Nagar, Subzi Mandi, Shahdara, Yamuna Vihar/ Bhajanpura, Mangol Puri, Azadpur, Bawana, Najafgarh, Kotla Mubarakpur Govindpuri/ Kalkaji and Samai Pur Badli on a weekly and monthly basis. These rates are provided to Labour Bureau, Chandigarh for the compilation of Consumer Price Index Number for industrial workers. Labour Bureau, Chandigarh has been compiling and releasing Consumer Price Index on a monthly basis for 88 selected centers in India, including Delhi. The base year of the current series of the CPI for industrial workers is 2016=100. The old series of base year 2001=100 was replaced by new series base 2016=100 since September 2020. The present series i.e. 2016=100 has included eleven selected markets in Delhi for data collection of CPI for industrial workers as mentioned above.

3.2 The Labour Bureau Chandigarh proposed the New Schedule for the replacement of old series base year 2001=100. For new Series base year 2016=100, the process for the collection of prices was started simultaneously. Five markets i.e. Bawana, Najafgarh, Tilak Nagar, Bhajanpura/ Yamuna Vihar and Kotla Mubarakpur were added and whereas two existing/old markets i.e. Rani Bagh and Moti Nagar were deleted for the new series 2016=100.

3.3 It is pertinent to mention that the Labour Bureau, Ministry of Labour & Employment, Chandigarh vide letter no.114/1/2013-CPI dated 03.11.2020 for, CPI (IW) on the New Base Year 2016=100 and consequent upon the advent of New Series 2016=100,the Old Series base year 2001=100 is discontinued w.e.f. 03.11.2020.

STATEMENT 6.2

CONSUMER PRICE INDEX FOR INDUSTRIAL WORKERS IN DELHI

(Base Year 2016=100)

S.NO.	Group	Weight (%)	2024	2025	Points Change	% Change
1	Food & Beverages	36.13	44.4	47.4	3.0	2.1
2	Pan, Supari,Tobacco & Intoxicants	0.84	43.9	51.0	7.1	4.9
3	Clothing & Footwear	5.43	61.5	64.9	3.4	2.1
4	Housing	24.29	26.8	30.2	3.4	2.7
5	Fuel & Light	7.05	97.0	99.1	2.1	2.2
6	Miscellaneous	26.26	24.4	42.1	17.7	14.2
General Index		100.0	32.5	39.4	6.9	5.2

Source: Labour Bureau, Chandigarh.

3.4 The Index is separately prepared for six groups and then combined by assigning weights to each group. The highest weight is assigned to food & beverages group at 36.13 percent, followed by miscellaneous at 26.26 percent, housing at 24.29 percent, fuel & light at 7.05 percent, clothing and footwear at 5.43 percent, and pan, supari, tobacco and intoxicants at 0.84 percent respectively. The consumer price index number for industrial workers in Delhi during 2024 and 2025 is presented in Statement 6.2.

3.5 It may be inferred from Statement 6.2 that the annual average consumer price index increased from 132.5 in 2024 to 139.4 in 2025 registering an increase of 6.9 points. The increase in CPI for industrial workers in Delhi was recorded at 5.2 percent during 2025 over the last year 2024.

3.6 The index for food & beverages group increased from 144.4 in 2024 to 147.4 in 2025 registering an increase of 2.1 percent. Index for pan, supari, tobacco & intoxicants increased from 143.9 in 2024 to 151.0 in 2025 registering an increase of 4.9 percent. Index for clothing and footwear group increased from 161.5 to 164.9 registering an increase of 2.1 percent. The index under housing has also increased from 126.8 to 130.2 recorded an increase of 2.7 percent. The index of fuel and light increased from 97.0 in 2024 to 99.1 in 2025 registering a increase of 2.2 percent. Under the miscellaneous group, there are certain items like Household Goods & Services, Health, Transport & Communication, Recreation & Entertainment, Education, and Personal Care & Effects. The index in this group increased from 124.4 to 142.1 registering an increase of 14.2 percent. Thus the maximum increase was in Miscellaneous Group, followed by Pan, Supari, Tobacco & Intoxicants, Housing and Fuel & Light.

4. Price Situation in Other Metros

4.1 Price rise has been the major issue for the majority of citizens in the country. Growth means a better life for our kids. In the last couple of years, prices of essential commodities have gone up. Barring seasonal fluctuations in some commodities like onion, potato and wheat due to decline in arrivals, inclement weather in major producing areas, transportation bottlenecks, increase in the costof movement and lower stocks, the retail prices of most of the essential commodities have exhibited a steady trend in all metro cities in India. The information regarding the consumer price index for industrial workers in metro cities in India during the year 2022 to 2025 is presented in Statement 6.3.

STATEMENT 6.3
CONSUMER PRICE INDEX FOR INDUSTRIAL WORKERS IN METRO CITIES IN INDIA – 2022 to 2025

(Average Annual Index)

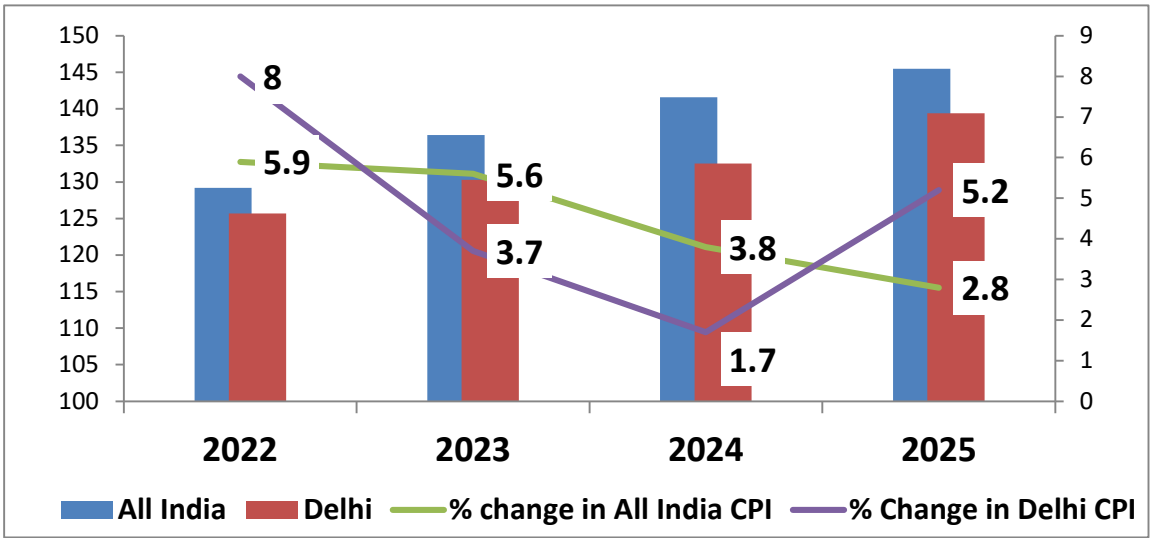

S.No.	Year	All India	% Change	Delhi	% Change	Kolkata	% Change	Chennai	% Change	Mumbai	% Change
1.	2022	129.2	5.9	125.7	8.0	137.4	9.0	127.3	3.9	122.7	5.2
2.	2023	136.4	5.6	130.3	3.7	139.6	1.6	135.1	6.1	127.7	4.1
3.	2024	141.6	3.8	132.5	1.7	144.4	3.4	137.2	1.6	131.5	3.0
4.	2025	145.5	2.8	139.4	5.2	147.0	1.8	137.6	0.3	135.2	2.8

Source: Labour Bureau, Chandigarh.

4.2 It may be observed from Statement 6.3 that the average consumer price index number (General) for the year 2025 in All India was recorded at 145.5. For Kolkata, it was 147.0 followed by Delhi 139.4, Chennai 137.6 and Mumbai 135.2 respectively. The group-wise Price index numbers for industrial workers of metro cities in India during 2025 is presented in table 6.2.

4.3 The CPI for industrial workers in Delhi and all India during the years from 2022 to 2025 is depicted in Chart 6.2.

CHART 6.2
CPI FOR INDUSTRIAL WORKERS IN DELHI & ALL INDIA 2022-2025

5. NEW SERIES OF CPI (IW) WITH BASE YEAR 2016=100

5.1 It may be observed from Statement 6.4 that as per new base year (2016=100), the Consumer Price Index Number (General) during the year 2024-25 among the metro cities, Delhi has lowest inflation rate (1.8%) whereas, Kolkata has highest inflation rate (3.6%) followed by Mumbai (3.0%) and no change in CPI(IW) has been observed in case of Chennai. At all India level inflation rate is 3.4% observed during the year 2024-25.

STATEMENT 6.4

CONSUMER PRICE INDEX FOR INDUSTRIAL WORKERS IN All INDIA AND METROCITIES (FINANCIAL YEAR WISE) (NEW BASE YEAR 2016=100)

	2023-24	2024-25	In %
All India	137.9	142.6	3.4
Delhi	130.9	133.2	1.8
Mumbai	128.7	132.5	3.0
Chennai	136.8	136.8	0
Kolkata	140.3	145.3	3.6

CONSUMER PRICE INDEX NUMBERS ON BASE 2012=100 RELEASED BY NATIONAL STATISTICAL OFFICE, MoSPI, GOVT. OF INDIA

5.2 The National Statistical Office (NSO), Ministry of Statistics and Programme Implementation is releasing CPI (Rural, Urban, and Combined) on Base 2012=100 every month. Month wise comparative picture of Inflation rates based on CPI (Combined) in Delhi and All India are depicted in Statement 6.5 (for the months of January, 2022 to December, 2022), in Statement 6.6 (for the months of January, 2023 to December, 2023), in Statement 6.7 (for the months of January, 2024 to December, 2024) & in Statement 6.8 (for the months of January, 2025 to December, 2025).

STATEMENT 6.5

INFLATION RATES BASED ON CONSUMER PRICE INDEX (COMBINED) IN DELHI AND ALL INDIA- FOR THE MONTHS OF JANUARY, 2022 TO DECEMBER, 2022 (WITH NEW BASE YEAR 2012)

Year	Month	DELHI (%)	ALL INDIA (%)

CHAPTER AT A GLANCE

➢	Consumer Price Index for Industrial Workers (CPI-IW) is one of the prominent economic indicators, which measures the relative changes in retail prices over a period of time in respect of a fixed set of goods and services consumed by an average working class family in a given area with reference to a base year.
➢	The definition of price adopted for the compilation of CPI is the price which a consumer/industrial worker has to pay for the specified item/variety, for the specified unit, in the selected shop of the selected market. It includes all taxes like sales tax, etc., and excludes rebates and discounts, which are universally applicable for all the customers.
➢	The Wholesale Price Index (WPI) is the only general index capturing price movement in a comprehensive way and is an indicator of movement in prices of commodities in all trade and transactions. It is generally taken as an indicator of the rate of inflation in the economy.
➢	From the month of September, 2020 the Labour Bureau has updated the Base of the old Series of CPI -IW (2001=100) to the New Base 2016=100.
➢	Consumer Price Index (CPI) is a reflection of changes in the retail prices of specified goods and services over a time period, whereas Wholesale Price index (WPI) accounts for changes in the general price level of goods at the wholesale level.

CHAPTER 7

AGRICULTURE & RURAL DEVELOPMENT

Agricultural activity in NCT of Delhi is being affected due to rapid urbanization and growth in other economic activities of trade & industry.

The percentage distribution of Gross State Value Added (GSVA) of Delhi at 2011-12 prices showed a declining trend of agriculture and the allied sector. More clearly, the percentage contribution of agriculture sector to GSVA of Delhi at current prices reduced from 0.32% in 2023-24 to 0.28% in 2024-25.

2. Land Use Pattern in Delhi

The total gross cropped area in Delhi got increased to 47050 hectares in 2024-25 which was at 33069 hectares during 2023-24. The estimated gross cropped area in 2025-26 is 47040 hectares. The remaining areas of the Delhi are being used for various other uses such as non-agricultural purposes, forest, fallow land, uncultivable land, etc. The information on land use pattern of Delhi is available at Table 7.1.

3. Crop Intensity

3.1 Crop intensity is an index of agriculture development. It is the percentage ratio of gross cropped area to net area sown which refers to raising a number of crops from the same field during one agricultural year. The index of crop intensity is 100 if one crop has been grown in a year and it is 200 if two crops are raised. Higher the index, greater is the efficiency of land use. The crop intensity has a direct correlation with assured irrigation which enables farmers to go in for multiple cropping and use a higher dose of fertilizers and HYV seeds. The information regarding the crop intensity of Delhi during the last 15 years is presented in Statement 7.1.

STATEMENT 7.1

CROP INTENSITY OF DELHI DURING 2011-12 TO 2025-26

(In Hectares)

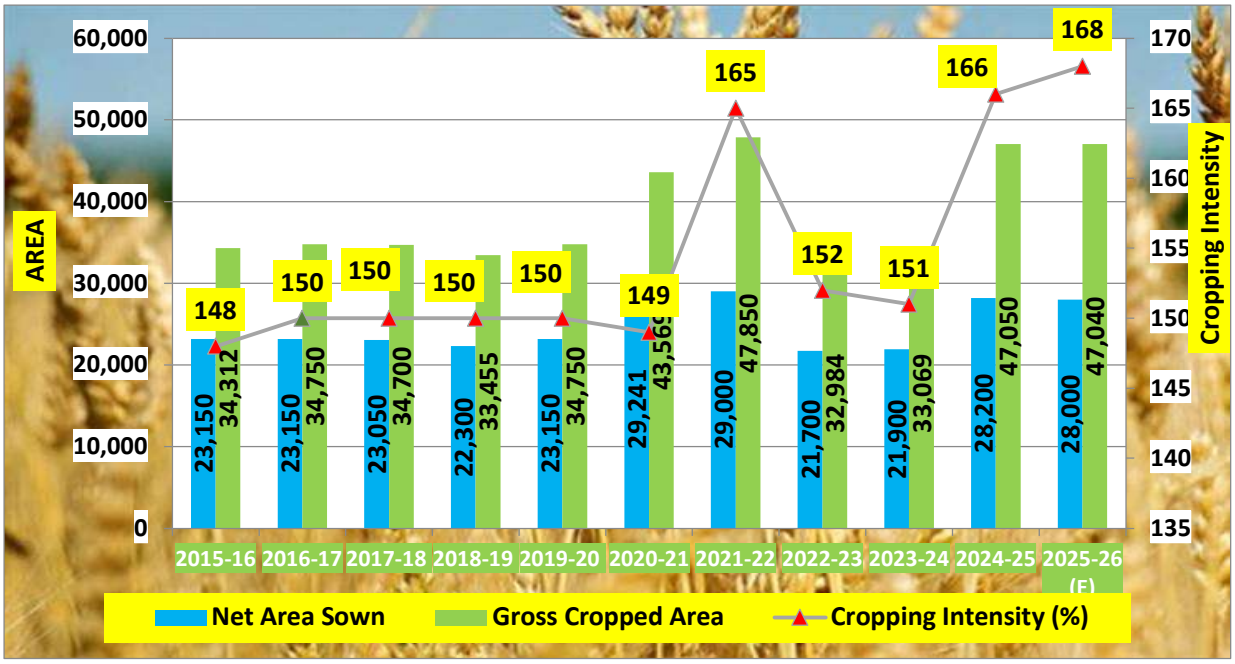

S.No.	Year	Net Area Sown	Gross Cropped Area	Cropping Intensity (%)
1	2011-12	22,885	36,445	159
2	2012-13	23,118	35,178	152
3	2013-14	23,150	34,312	148

S.No.	Year	Net Area Sown	Gross Cropped Area	Cropping Intensity (%)
4	2014-15	23,150	34,312	148
5	2015-16	23,150	34,312	148
6	2016-17	23,150	34,750	150
7	2017-18	23,050	34,700	150
8	2018-19	22,300	33,455	150
9	2019-20	23,150	34750	150
10	2020-21	29,241	43,569	149
11	2021-22	29000	47,850	165
12	2022-23	21700	32,984	152
13	2023-24	21900	33,069	151
14	2024-25	28200	47,050	166
15	2025-26 (Estimated)	28000	47,040	168

Source: Development Department, GNCTD and Delhi Statistical Handbook

CHART 7.1

CROPPING INTENSITY OF DELHI

3.2 It may be observed from Statement 7.1 that the cropping intensity got increase from 151 in 2023-24 to 166 in 2024-25 and for year 2025-26 cropping intensity

is estimated at 168. In addition, the area under the food-grain crops have been decreased during this period but the same in vegetables increase being one of the fast-growing mega cities in India, showing the importance of agriculture activity with the limited available land.

4. Cropping Pattern

4.1 Cropping pattern is the sequential arrangement of crops. Paddy, Jowar (Fodder), Bajra and Maize during Kharif and Wheat, Mustard, Barley, Gram crops during the Rabi seasons are the major crops in Delhi. The cultivation of vegetables is a continuous process throughout the year. The information regarding the area, production and yields of some of the selected crops in Delhi during 2024-25 and 2025-26 is presented in Statement 7.2 and 7.3 respectively.

STATEMENT 7.2

AREA, PRODUCTION & YIELD OF CROPS IN DELHI 2024-25

S.No.	Name of the Crops	Area (Hectare)	Production (Metric Ton)	Yield (Kg. per Hectare)
1.	Wheat	17180	79,890	4,650
2.	Barley	126	504	4,000
3.	Bajra	1560	4,992	3,200
4.	Maize	55	281	5,109
5.	Paddy	5430	22,806	4,200
6.	Gram	12	24	2,000
7.	Mustard	4570	7,312	1,600

Source: Development Department, Govt. of NCT of Delhi.

4.2 It may be observed from Statement 7.2 that wheat was the main food crop in Delhi during 2024-25. Area, Production and Yield of Wheat were recorded at 17180 hectares, 79890 MT and 4650 Kg/Hectare respectively. During 2024-25, the yield of Barley, Bajra, Maize, Paddy, and Mustard were at 4000, 3200, 5109, 4200 and 1600 kg per hectare respectively.

STATEMENT 7.3

AREA, PRODUCTION & YIELD OF CROPS IN DELHI 2025-26 (Estimated)

S. No.	Name of the Crops	Area (Hectare)	Production (Metric Ton)	Yield (Kg. per Hectare)
1.	Wheat	17,080	79,422 (estimated in April, 2026)	4,650 (estimated in April, 2026)
2.	Barley	120	480	4,000
3.	Bajra	1,510	4,530	3,000
4.	Maize	55	281	5,109

S. No.	Name of the Crops	Area (Hectare)	Production (Metric Ton)	Yield (Kg. per Hectare)
5.	Paddy	5,350	22,470	4,200
6.	Gram	12	24	2,000
7.	Mustard	4,520	7232	1,600

Source: Development Department, Govt. of NCT of Delhi.

4.3 Further, from Statement 7.3 it may be observed that wheat is the main food crop in Delhi during 2025-26. Area, Production and Yield of Wheat are estimated at 17080 hectares, 79422 MT and 4650 Kg/Hectare respectively. During 2025-26, the yield of Barley, Bajra, Maize, Paddy, and Mustard are estimated at 4000, 3000, 5109, 4200 and 1600 kg per hectare respectively.

4.4 The returns from traditional agriculture are presently less attractive as compared to the high value of commercial horticulture and other high value-added agriculture activities. The Govt. of NCT of Delhi is, therefore, encouraging farmers to take-up vegetables, floriculture production, mushroom cultivation etc.

5. Farmers Training

5.1 Under the programme of Framers Training and Education Centre, and Parali Training under Crop Residue Management, 1462 farmers provided training in 98 numbers of training & demonstration camps held during 2024-25. Furthermore, training is provided to 8659 farmers in 52 numbers of training & demonstration camps held during 2025-26 (upto March 2026).

5.2 Out of total 52 number of training, 45 number of training completed under Viksit Krishi Sankalp Abhiyan (03 training programmes per day conducted) and total 8519 farmers participated. Furthermore, 02 two day and 05 one day training completed at PUSA, New Delhi and total 140 farmers participated.

6. Soil Testing & Soil Reclamation

General services are being provided for testing of Soil & Water Samples of the farmers of NCT of Delhi. The following activities / parameters achieved during 2024-25 and 2025-26 (Achievement upto March, 2026) as mentioned in the Statement 7.4:

STATEMENT 7.4

SOIL TESTING AND ISSUANCE OF SOIL HEALTH CARDS

S. No.	Activity (in No's)	Achievement		
		2023-24	2024-25	2025-26 Upto March, 2026
1	Testing of Soil Samples	510	672	665
2	Testing of Water Samples	58	33	24
3	Soil Health Card Issued	1370	801	472

7. IRRIGATION IN DELHI

7.1 Irrigation in Delhi mainly depends upon groundwater and partly upon surface water. Irrigation from the groundwater is provided through the shallow cavity and the deep cavity state tube-wells, whereas surface irrigation provided by way of utilizing treated effluent available from existing sewage treatment plants located at coronation pillar, Okhla and Keshopur. Water from the Western Yamuna Canal system under the control of Haryana Govt. is also utilized for irrigation purpose.

7.2 The information regarding the source-wise irrigation and irrigated area in Delhi during the last Ten years is presented in Statement 7.5.

STATEMENT 7.5

SOURCE-WISE IRRIGATION & IRRIGATED AREA IN DELHI 2015-16 TO 2025-26

(Area in hectares)

S. No	Sources	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25	2025-26
1.	Canals	2240	2246	2236	2235	2235	2235	2235	2235	2235	2235
2.	Wells	19727	19777	19635	19635	20465	22465	22465	22465	22465	22465
3.	Area Irrigated	21967	22023	21871	21870	24700	24700	24700	24700	24700	24700
4.	Area Irrigated under more than one crop	7756	7775	7762	7760	14328	18850	18850	18850	18850	18850
5.	Gross Area Irrigated	29723	29798	29633	29630	39028	43550	43550	43550	43550	43550

Source: Revenue & Development Department, GNCTD
Delhi Statistical Handbook, DES, GNCTD

7.3 It may be inferred from the statement 7.6 that gross area irrigated is 43550 hectares in 2023-24 remain same during 2024-25. However, area irrigated through wells, which was the main source of irrigation, is also remains same at 22465 hectares during 2023-24, 2024-25 and in 2025-26.

7.4 Rainfall is also one of the other main sources of irrigation in Delhi. Generally, rainfall in Delhi is concentrated in three months viz. July, August and September.

8. Animal Husbandry

8.1 Livestock is an important component in the agriculture sector which affects the development of the economy directly and indirectly. Animal husbandry is the occupation which takes care of domestic animals that are used primarily as food and food products for protein source. Due to rapid urbanization and limited availability of feed/fodder/pasture land in NCT of Delhi, scope of Animal Husbandry is decreasing continuously. Delhi has become a consumer state wherein Livestock and livestock products are being supplied from other states. As per 20th Livestock Census, year 2019, number of livestock has reduced to 3,07,267 from 3,66,397 in 19th Livestock Census (2012). 21st Livestock census has been successfully completed, covering approximately 44.28 lakh households across 643 villages/Municipal wards in GNCTD. A total of 1,189 enumerators and 100 supervisors were engaged in this exercise. The data of the 21st Livestock Census is yet to be published by the GoI. Presently, Animal Husbandry Unit is providing Veterinary Healthcare services to the Livestock and companion animals through a network of 71 operational Veterinary Hospital / Dispensaries and 01 Disease Diagnostic Laboratory.

8.2 The information regarding the livestock Census in Delhi during 2012 and 2019 is presented in Statement 7.6.

STATEMENT 7.6

LIVESTOCK IN DELHI AND ITS GROWTH: 2012 and 2019

S. No	Livestock	Livestock Census (Number)			Growth (%) / Decline (%)
		2012	2019	% (during 2012-2019)	Compounded Annual Grow Rate (CAGR)
1.	Cow	86433	124638	44.20	5.37
2.	Buffalo	162142	157675	- 2.75	-0.40
3.	Sheep	932	2003	115	11.55*
4.	Goat	30470	17085	- 44	-7.93
5.	Others	86420	5866	- 93	-31.91
6.	**Total**	**366397**	**307267**	**-16.13**	**-2.48**

8.3 The population of Sheep has increased due to the fact that the rearing of sheep is relatively economical as compared to goat rearing by the poor farmers.

9. Veterinary Facilities

9.1 There are 46 Govt. Veterinary hospitals, 25 Veterinary Dispensaries, 01 laboratory, 01 Farmers Information Centre and 03 Mobile Veterinary Units for providing veterinary facilities in Delhi. The main objective is to control contagious/infectious diseases like Hemorrhagic Septicemia (Galghotu) and Foot and Mouth Disease (Muh-Khur), Rabies etc. Training camps are organized for livestock farmers. Animal disease diagnostic facility is available at disease diagnostic laboratory at Palam. Testing of samples is done free of cost. The number of animals treated in Govt. Veterinary Hospitals/ Dispensaries has increased from 4,15,986 during 2011-12 to 5,38,458 during 2024-25 and 5,45,754 up to March, 2026. The information regarding Veterinary services being provided in Delhi is presented in statement 7.7 & 7.8.

STATEMENT 7.7

VETERINARY SERVICES IN DELHI DURING 2011-12 TO 2025-26

S.No.	Years	Veterinary Facilities (No.)				Animals Treated
		Hospitals (inc. one vety. Poly clinic)	Dispensaries	Private Clinic	Lab. Research centres

Source: Animal Husbandry Unit of Development Department, GNCTD.

10. Autonomous / Grant in Aid Institutions

10.1 Grant in Aid to Delhi Animal Welfare Board (DAWB)

DAWB being the monitoring/ co-coordinating body for 13 district SPCAs, it will extend the financial support to them including the finances. The DAWB is also responsible for registration of Pet Shops and Dog breeding & marketing centers throughout NCT of Delhi. Further there is also provision for extending the financial support to the AWBI/DAWB recognized/ empanelled NGO/Animal Welfare Organizations who are practically involved in animal welfare activities.

10.2 Delhi Society Prevention of Cruelty to Animals (SPCA)

For proper enforcement of Prevention of Cruelty to Animals Act, 1960 and the rules framed therein, Delhi Government is running Delhi SPCA at Tis Hazari since a long time back. The DSPCA has one Veterinary Hospital with infirmary at Tis Hazari where sick / injured and abandoned animals are provided shelters, feeding and healthcare. The DSPCA also keeps case property animals. It also promotes awareness in public for love and compassion towards animals.

During 2024–25**,** a total of 494 challans were issued, 10,581 animals were rescued, and 78 vehicles were seized. A total revenue of ₹6,44,020 was collected from violators of the Act. In addition, 703 animals were treated in the infirmary of Delhi SPCA.

During the CFY 2025-26 (Upto March, 2026)**,** 64 challans have been issued, 3,732 animals have been rescued, and 32 vehicles have been seized. A total revenue of ₹3,08,320 has been collected from violators of the Act, and 288 animals have been treated in the infirmary of Delhi SPCA.

Now, in view of Prevention of Cruelty to Animals (Establishment and Regulation of Societies for Prevention of Cruelty to Animals) Rules, 2001 and reorganization of 13 revenue districts, 13 District SPCAs, one in each revenue district will be reconstituted and By-laws of the district societies will be framed accordingly.

11 Gaushala/ Gosadan

In pursuance of section 10 of the Delhi Agriculture Cattle Preservation Act 1994, Gaushalas/ Gausadans were established in year 1995. Presently, four Gausadans are functioning namely:-

(1) Shri Krishana Gausadan, Sultanpur Dabas
(2) Gopal Gausadan, Harewali
(3) Dabar Hare Krishna Gausadan, Surhera
(4) Manav Gausadan, Rewla Khanpur

These Gaushalas/ Gausadans are operational and 19,221 cows and their progeny were maintained during 2024–25. In the current financial year 2025–26 (up to December 2025)**,** 20,796 cows and their progeny are being maintained therein. Payment of GIA of ₹ 20/- per day per cattle is paid to NGOs for the purpose of maintenance of the health of the cattle and for proper feeding, watering, shelter etc. of the animals in the Gaushalas/ Gausadans by Govt. of NCT of Delhi.

12 RURAL DEVELOPMENT

Delhi Village Development Board

12.1 'Delhi Village Development Board (DVDB)' was reconstituted vide Order dated 18.09.2025 in accordance with Cabinet Decision No. 3237 dated 01.08.2025 and Cabinet Decision no. 3253, dated 03.09.2025 to advise the Government on issues connected with the infrastructural development works in rural and urban villages of Delhi.

Nature and extent of works permissible

12.2 The following nature of works may be recommended by the DVDB in the rural and urban Villages of NCT of Delhi in Lal Dora areas, sizra roads and public utilities on Govt. land including Gram Sabha Land except in unauthorized colonies of any status and resettlement colonies and JJ Bastis, falling under the jurisdiction of DUSIB:-

i. Construction of approach roads / link roads / village roads.
ii. Development of Ponds/Water Bodies.
iii. Development of Cremation Grounds, Parks, Playgrounds, Vyayamshalas, Village Libraries.
iv. Construction of drainage facilities.
v. Construction/repair/maintenance of Chaupals, Barat Ghars, Community Centres.
vi. Repair/maintenance of the assets.
vii. Any other capital work which shall be useful for the public.

12.3 So far, two meetings of the DVDB have been convened and the details of project Proposals of Hon'ble MPs/MLAs, recommended by the Board are given as under:

S. No.	Date of Meeting	Numbers of approved project proposals	Amount (₹ in Crore)
1.	25.09.2025	456	1114
2	14.11.2025	320	599
	Total	**776**	**1713**

Source: Development Department, Govt. of NCT of Delhi.

12.4 For the financial year 2025-26, ₹ 998.50 crore has been allotted to the RD Unit for Capital expenditure under IDRUV scheme. The RD Unit has issued administrative approvals in respect of 707 projects/schemes, amounting to

₹1,557.18 Crore (Aprox) and expenditure sanction i.e. 10% of estimated cost as 1st installment in respect of 705 projects/schemes amounting to ₹ 157.62 crore (approx.) during the year 2025-26. Further, the RD Unit has also issued 2nd installment of 50% of the awarded amount after adjusting 10% of the estimated cost in respect of 48 projects and authorized ₹ 29.19 Crores to the executing agencies.

CHAPTER AT GLANCE

➢	The percentage contribution of agriculture sector to GSVA of Delhi at current prices reduced from 0.32% in 2023-24 to 0.28% in 2024-25.
➢	Cropping intensity got increase from 151 in 2023-24 to 166 in 2024-25 and for year 2025-26 cropping intensity is estimated at 168.
➢	Under the programme of Framers Training and Education Centre, and Parali Training under Crop Residue Management, 1462 farmers provided training in 98 numbers of training & demonstration camps held during 2024-25. Furthermore, training is provided to 8659 farmers in 52 numbers of training & demonstration camps held during 2025-26 (upto March 2026).
➢	There are 46 Govt. Veterinary hospitals, 25 Veterinary Dispensaries, 01 laboratory, 01 Farmers Information Centre and 03 Mobile Veterinary Units for providing veterinary facilities in Delhi.
➢	21st Livestock census has been successfully completed, covering approximately 44.28 lakh households across 643 villages in GNCTD. The data of the 21st Livestock Census is yet to be published by the GoI.
➢	Delhi Village Development Board (DVDB)' was reconstituted vide Order dated 18.09.2025 in accordance with Cabinet Decision No. 3237 dated 01.08.2025 and Cabinet Decision no. 3253, dated 03.09.2025 to advise the Government on issues connected with the infrastructural development works in rural and urban villages of Delhi.
➢	During 2025-26, DVDB has approved 707 projects amounting to ₹1,557.18 Crore (Aprox) and E/S i.e. 10% of estimated cost as 1st installment in respect of 705 projects/schemes amounting to ₹ 157.62 crore (approx.) during 2025-2026. Further, the RD Unit has also issued 2nd installment of 50% of the awarded amount after adjusting 10% of the estimated cost in respect of 48 projects and authorized Rs. 29.19 Crores to the executing agencies.

CHAPTER 8

ENVIRONMENTAL CONCERNS

1.1 Environment and economy are intricately connected. Resources for the economy come from the environment, while economic activity has an impact on the environment. Economic development without environmental considerations can cause serious environmental damage in turn impairing the quality of life of present and future generations.

1.2 The present Government in Delhi treated Environment as a moral responsibility by not just taking air pollution as a seasonal crisis, but as a structural challenge for which Government has implemented concrete solutions such as e-mobility, bio-decomposers, waste-to- energy projects and new dust control equipment's. Further, long term and practical solutions have been adopted to ensure lasting impact.

1.3 The problem of pollution in Delhi is dealt by the Government through the domain of policy and science. Technology, strict enforcement, public participation and long-term investment form the four pillars of this model.

1.4 To tackle air pollution effectively, the Delhi Government has implemented the Air Pollution Control Plan 2025, under which 100 Vayu Rakshak (Air Guardians) equipped with 35 GPS and CCTV have been deployed across the city. These Vayu Rakshak monitor dust pollution and vehicle emissions in real time and ensure quick action. Strengthening its commitment to pollution control, the Government has implemented various other measures as Clean Delhi, Green Delhi is no longer a vision but a measurable transformation.

1.5 Government has taken several steps in the recent past to improve the environment condition which includes massive focus on afforestation, installation of Anti-Smog Gun at construction sites, deployment of Mechanical Road Sweepers (MRS), Water Sprinklers (WS) and Mist Sprays at hotspots, Round the clock data-driven air monitoring across Delhi, Strict enforcement with smart technology, Reinventing road cleanliness across Delhi, e-mobility &clean energy push, implementation of Electric Vehicle Policy, ban on single use plastic, better management of solid waste, treatment of waste water, improvement of sewage system, stringent industrial emission norms etc.

1.6 Govt. of Delhi has launched an innovative platform for submission of pollution-related grievances, which is monitored through the Green War Room called Green Delhi App, which is a user-friendly mobile-based app with 30 Government departments/ agencies of Delhi on one platform, both for Android and IOS mobile phone users.

1.7 To improve Delhi's air quality and create an entire supply-chain ecosystem for this new segment of vehicles, Delhi Govt. established a policy 'Delhi Electric Vehicles Policy, 2026. The policy aims to strengthen the adoption of electric vehicles and the development of supporting infrastructure effective from April, 2026 to March, 2030.

1.8 With concerted efforts of departments towards air pollution control, 'Good days' (good/satisfactory/moderate days together) have increased from 159 in 2018 to 200 in 2025.

1.9 As per the India State of Forest Report (ISFR), 2023 the total Forest and Tree cover of NCT of Delhi has become 25.04% (371.31 Sq. km) of its geographical area. The percentage of Forest and Tree cover of Delhi at 25.04% is almost equal to national average figure. The Green Cover has increased by 4.89 Sq., km from 2021 to 2023, which is attributed to increase in Tree Cover. It is pertinent to mention that among the seven major mega cities in India, Delhi is the greenest city and has largest forest cover of 195.28 Sq. km followed by Mumbai 110.84 Sq. km and Bengaluru 89.61 Sq. km (ISFR, 2023).

2. Ambient Air Quality

2.1 The city of Delhi has a complex urban environment with respect to air pollution and faces severe air pollution of PM_{10} and $PM_{2.5}$. Year- wise annual mean ambient air quality levels in Delhi during 2015 -2025* (till 9th December 2025) is presented in Statement 8.1.

STATEMENT 8.1
AMBIENT AIR QUALITY OF MAJOR POLLUTANTS IN DELHI: 2015-2025

DPCC CAAQMS Yearly City Average of Various Pollutants 2015 - 2025		
Year	**PM $_{10}$ (ug/m^3)**	**PM $_{2.5}$ (ug/m^3)**
Standard	**60 (ug/m^3)**	**40 (ug/m^3)**
2015	295	133
2016	303	137
2017	277	130
2018	277	128
2019	230	112
2020	187	101
2021	221	113
2022	223	103
2023	219	106
2024	225	110
2025	209	100

Chart 8.1

MONTHLY CITY AVERAGE OF CRITICAL POLLUTANTS IN DELHI 2025

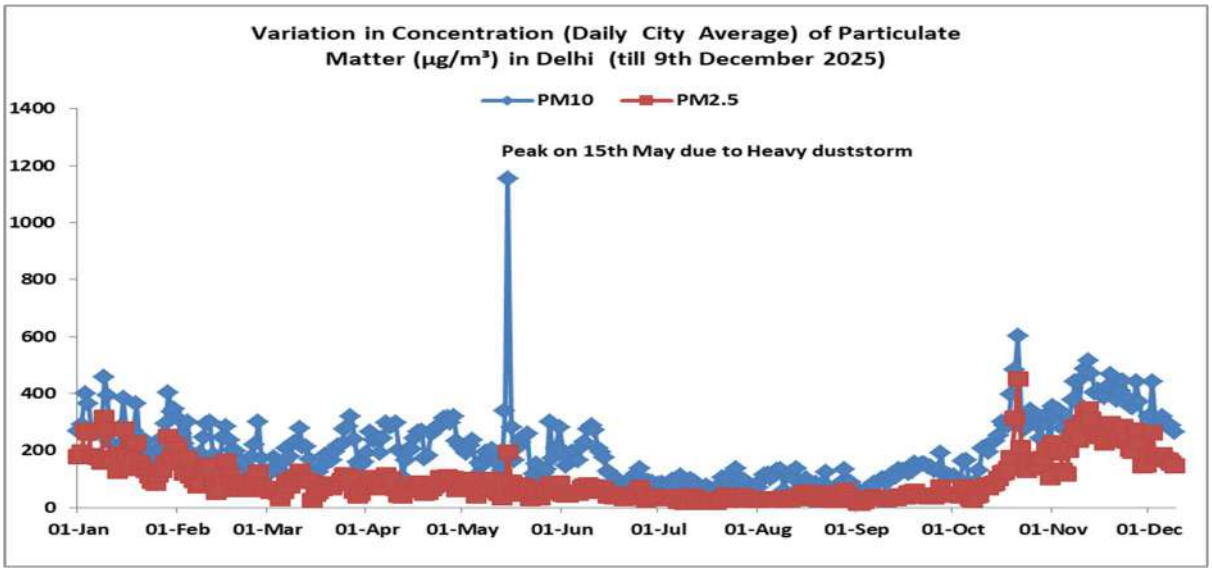

Source: Delhi Pollution Control Committee (DPCC)

2.2 Air Pollution Control

Chart 8.2 shows the variation in the concentration of $PM_{2.5}$ and PM_{10} from 1 January to 9th December 2025. The average concentration was 100 µg/m³ and 209 µg/m³ respectively for $PM_{2.5}$ and PM_{10}. The peak of PM_{10} was recorded on 15th May 2025, when the concentration of PM10 reached up to 1154 µg/m³ due to heavy dust storm. However, $PM_{2.5}$ reached up to 451 µg/m³ on the 21st Oct 2025 after Deepawali day.

CHART 8.2

VARIATION IN CONCENTRATION (DAILY CITY AVERAGE) OF PARTICULATE

Source: Delhi Pollution Control Committee (DPCC)

Furthermore, research studies like Source Apportionment Study of NCT of Delhi was carried out through IIT Kanpur in 2016 and The Energy, Research Institute (TERI) in 2018. Source apportionment of ambient particulate matter during winter season in Delhi (IIT- Madras) in 2018 and Carrying capacity of Air Environment, NCT Delhi (School of Planning and Architecture) in 2020 was also carried out. These studies have provided targeted information on various sources of pollution in Delhi, which is used to evolve pollution control and mitigation strategies.

2.3 Measures Taken to Control Air Pollution in Delhi:

2.3.1 **Launch of Air Pollution Mitigation Plan 2025:** To mitigate air pollution, the Government of NCT of Delhi launched the 25-Point Air Pollution Mitigation Plan 2025 on 03.06.2025 for year-round pollution control. Key actions are as follows:

1. **Mitigation of dust pollution from roads and open areas:**
   a) Innovation to control Pollution
   b) Sprinkling Water to curb dust
c) Repairing Roads for Dust Control
2. **Management of Construction and Demolition Waste:**
   a) Effective Monitoring of Compliances with C&D project using AI and Digital Interventions
   b) Ensuring 100% processing of C&D waste and promoting reuse of recycled products
   c) Cleaner Government Construction

3. **Control of Vehicular Pollution**:
   a) Getting End-of –Life vehicle out of Delhi
   b) Ensuring entry of cleaner goods vehicles in Delhi
   c) Easier seamless entry in Delhi to Control Pollution
   d) Revamping PUC Centers
   e) Promoting Electric Mobility
   f) Ensuring Cleaner Public Transport
   g) Abating Air Pollution Through Effective Road Traffic Management
   h) Curbing Air Pollution through DG sets
4. **Reducing Waste to Reduce Pollution:**
   a) Bio mining of legacy waste
   b) Managing waste
   c) Increasing Waste Processing Capacity to Ensure a Future without landfills
   d) Curbing Biomass Burning
5. **Monitoring Pollution for Effectively fight It:**
   a) New Monitoring Stations and Equipment,
   b) Re-inventorisation of major and minor air pollution source in all identified hotspots in Delhi.
6. **Abating industrial pollution**:
   a) Strict Enforcement against pollution industries and
   b) Improving Infrastructure in Industrial Areas
7. **Greening Delhi for healthy Delhi**:
   a) Comprehensive Greening Initiative
   b) Regulatory framework for Green Initiative
8. **Converting migration to mass movement**:
   a) Public Participation for spreading environmental awareness.

2.3.2 Annual Action Plan 2026 for Air Pollution Control in Delhi

a) In compliance to the directions of Hon'ble Supreme Court given on 17.11.2025, MoEF&CC had prepared short term and long-term measures to be undertaken in Delhi-NCR for control of air pollution along with State/UT specific short term

& long-term measures to be implemented for control of Air Pollution. GNCTD has submitted a progress report on short term and long-term measures for control and abatement of air pollution in Delhi to MoEF&CC on 04.12.2025. GNCTD has also filed the same in Hon'ble Supreme Court of India.

b) Annual Action Plan 2026 for air pollution control in Delhi, as per format provided by CAQM prepared by GNCTD based on inputs from stakeholder departments and is being implemented.

c) **Adoption and Implementation of Annual Action Plan 2025-2026 as City Action plan, GNCTD:** An Annual Action Plan for the calendar year 2025-26 for Control of Air Pollution as prepared by GNCTD (as per the prescribed format of CAQM) based on inputs from various stakeholder departments, has also been adopted as the City Action Plan for Delhi with additional 5 sub sections. The plan hence entails 9 sector wise action point to address various environmental concerns of the city as they are as follows:

1. **Air quality**
   a) Air quality monitoring station
   b) Air quality parameters
2. **Management of wheat straw and paddy straw**

(The following four Sections are included under each straw type)

   a) CRM Machines and storage capacity
   b) Monthly targets to fill the gap
   c) Ex-situ utilization in MMT
   d) Augmentation of ex-situ utilization facilities
3. **Vehicular pollution**
   a) Augmentation of public transport
   b) Last mile connectivity
   c) Augmentation of city bus services in major cities
   d) Promotion of electric mobility
   e) Enforcement against violating vehicles
   f) Action against pollution vehicles
4. **Construction and demolition (C&D) activities**
   a) Status of C&D waste generation and processing facilities
   b) C&D waste processing plant
   c) C&D processed waste off take plan
   d) Action against polluting C&D sites
5. **Dust from roads and open areas**
   a) Road length under jurisdiction
   b) GIS mapping of roads and establishment of Road Asset Management System (RAMS)
   c) Greening of central verges - total length of central verges
   d) Paving and greening of pathways – total length of pathways (km)
   e) Assessment of roads for mechanical sweeping

f) Mechanical road sweeping machines (MRSMs)
g) Disposal of road dust
h) Water sprinklers
i) Anti-smog guns
j) Road to be made dust free
k) Training programs for staff engaged in road dust control measures

6. **Municipal solid waste management**
   a) Action plan for processing of legacy waste at dumpsites/ SLF
   b) Augmentation of waste processing facilities
   c) Action against MSW dumping sites
   d) Open burning control
7. **Industries**
   a) Industries
   b) DG sets
   c) Strengthening of SPCBs
8. **IEC activities**
   a) Annual calendar 2025-26 for eco-club schools/ colleges
9. **Green cover augmentation**

2.3.3 Increasing Ground Enforcement by Stakeholder Departments:

Stakeholder department has constituted enforcement teams for air pollution control.

S. No.	Action Points	No. of Teams constituted (Day & Night)
1.	For Dust Control	536
2.	For Open Burning Control	622
3.	For Industrial Pollution Control	65
4.	For Vehicular Pollution Control	589
	Total	**1812**

To further strengthen the ground enforcement, district wise 82 Nos. of joint teams with 1165 officials of various stakeholder departments have been constituted.

For open burning control, Deputy Tehsildar and above in District Administration, Sanitary Inspector and above in MCD, Sanitary Inspector in NDMC have been authorized vide order dated 09.12.2025 to levy compensation for burning of leaves, garbage, plastic rubber etc. in open. Order issued for Constitution of 11 District wise cross functional teams for Air Pollution Control during winter season 2025-2026.

2.3.4 New Initiatives to curb road and open area dust

1. **Anti-Smog guns on high rise buildings:** Anti-Smog Guns on High Rise

Buildings: Directions u/s 5 of the Environment (Protection) Act, 1986 on mandatory installation of Anti-Smog Guns on high rise buildings (all commercial complexes, malls, hotels: having built up area more than 3,000 sq. m. and office buildings and other institutions (G+5 and above)) has been issued on 29.05.2025. So far 156 Nos of Anti-Smog Guns installed on identified high rise building.

2. **Installation of mist spray/similar system/technology agnostic spraying system on electric poles/other poles:** An administrative order dated 30.04.2025, to install mist spray/similar system/technology agnostic spraying system on electric poles/other poles in the central verge along the road stretch in Delhi. Installation in or around the 13 identified air pollution hotspots in Delhi namely: Okhla, Dwarka, Ashok Vihar, Bawana, Narela, Mundka, Punjabi Bagh, Wazirpur, Rohini, Vivek Vihar, Anand Vihar (including Mandoli), RK Puram, Jahangir Puri, is being undertaken in the first phase on priority basis by PWD, DDA, DSIIDC and DMRC, with other areas also in pipeline. So far Mist Spray Systems have been installed on 656 electric Poles.

3. **Increasing the number of construction and demolition waste collection sites:** MCD, NDMC and DCB already have 106, 25 and 1 Collection Points respectively where Malba/Debris in small quantities can be dumped by general public. MCD has identified and developing 19 new Malba Sites.

4. **Directions under EPA for doubling of parking charges:** Directions u/s 5 of the Environment Protection Act, 1986 issued on 04.02.2025 issued to ULBs to Double existing vehicle parking fee in Delhi upon invoking of Stage III (Severe) and Stage IV (Severe+) under Graded Response Action Plan (GRAP) in Delhi and ensure implementation of directions at authorized parking sites under their jurisdiction.

With amendment to above direction on 03.12.2025, the parking spaces owned and managed by DMRC, which provide essential public transport connectivity and park and ride facilities, have been exempted from the doubling of parking charges.

5. **Deployment of electric heaters for guards and RWAs:** Direction u/s 5 of the Environment Protection Act, 1986 issued on 24.12.2025 whereby open burning of biomass, leaves, municipal solid waste, plastic, rubber, or any other combustible material, whether for heating or for any other purpose, is strictly prohibited and every resident Welfare Association (RWA), housing society, institution, government or private establishment, contractor, agency, or any other entity engaging or deploying staff for security, sanitation, horticulture, or other miscellaneous services shall be responsible for ensuring effective supervision, monitoring, and preventive control such as adequate heating arrangements (via electric/approved fuels) to ensure that no person so engaged, employed, or deployed under their authority or control indulges in any such prohibited open burning, failing which liability shall be attracted in accordance with applicable provision of law.

To further strengthen the ground enforcement, Department of Revenue GNCTD to widely circulate and ensure the implementation of the direction.

a) Free Distribution of electric heaters for a total 1407 RWAs is being undertaken (2 heaters per RWA along with 20% spare for additional RWAs/ institutions) has been envisaged.
b) Heaters Distributed till date: 9468 Nos.

Additionally, letters have also been sent to Government Departments and Private Organizations i.e. ASSOCHAM, FICCI, PHD Chamber of Commerce and Industry for ensuring provision of Electric Heaters to their security staff.

6. **Pilot project of cloud seeding/ artificial rain:**

It is proposed to conduct a trial of pilot project for implementation of Cloud Seeding as a measure to Combat Episodic High Air Pollution in Delhi, as a short-term emergency measure for artificial rainfall generation to disperse and reduce ambient air pollution levels. Delhi Cabinet has approved a pilot project on Technology Demonstration and Evaluation of Cloud Seeding as alternative for Delhi NCR Pollution Mitigation and the same will be undertaken in collaboration with IIT Kanpur, based on cloud forecast by IMD, after monsoon. DGCA has provided the clearance for the month of October — November 2025. MOU has been signed on 25th September 2025 between IIT Kanpur and Department of Environment, GNCTD. So far trials have been conducted on 23.10.25 and 28.10.2025. Further trials will be conducted in consultation with IMD.

7. **Constitution of Expert Group and implementation Committee:**

Delhi continues to face severe and recurring episodes of air pollution due to multiple anthropogenic and natural factors. Addressing Air Pollution challenges requires a scientific, coordinated, and multi-sectoral strategy aligned with national frameworks, emerging technologies, and sector- specific interventions. To guide and support the Government of NCT of Delhi (GNCTD) in evidence-based decision-making, an “Expert Group on Air Pollution Mitigation” was constituted on 06.12.2025. An Implementation Committee on Control of Air Pollution (ICCAP) also constituted vide separate order on 06.12.2025 to implement recommendations of Expert Group.

2.3.5 Implementation of National Clean Air Programme (NCAP)

Delhi is part of National Clean Air Program (NCAP) launched by M/o Environment, Forest & Climate Change, Government of India, where a series of interventions in various sectors [transport/road dust/waste and biomass burning etc.] with respect to ambient air quality is being planned and implemented as part of air pollution mitigation measures. 40% reduction of Particulate Matter (PM_{10}) concentration is being targeted by March 2026.

An amount of ₹81.3 Crores had been released to Delhi Municipal Corporation of Delhi (MCD) for the purchase of Mechanical Road Sweepers, Water Sprinkler/Anti-Smog Gun and Road patch repair machine/Pot hole repair machine under NCAP. MCD so far has utilized ₹ 13.41 Crores only for Procurement and Operation & Maintenance of 28 water Sprinklers. An amount of ₹8.93 Crores for FY 2023-24 has been released to New Delhi Municipal Council (NDMC) for the End-to-End paving along the roads, Greening of traffic corridor and C&D waste management under NCAP. NDMC so far has utilized only ₹1.14 cr for air quality improvement.

2.4 Monitoring and Action against persons for burning of waste material /Garbage in open:

2.4.1 Open burning of biomass and solid waste is another significant contributor to air pollution especially during winters. National Green Tribunal vide, its various orders in OA 21 of 2014 titled "Vardhman Kaushik Vs Union of India & Ors", regarding air Pollution in Delhi has passed directions for controlling Air Pollution.

1. National Green Tribunal vide its order dated 28th April, 2015 has imposed compensation on burning of any kind of garbage leaves, waste plastic, rubber, self-moulding compound and such other material in open as under:
"the person who is found actually burning such material and/or responsible abating such burning would be liable to pay compensation in terms of Section 15 of the National Green Tribunal Act, 2010 for polluting environment and would be liable to pay a sum of ₹5,000 to be paid instantaneously."

2. Dedicated 622 patrolling teams have been deployed for prevention of open burning during winter 2025. Anti–open burning drive had been launched in coordination with stakeholder departments.

3. A detailed protocol is in place for controlling fire at landfill sites and as a result the numbers of landfill fires have come down from 159 in 2017 to 0 in 2025.

4. The total legacy waste present at all three dumpsites in year 2019 was 280 Lakh MT and Municipal Corporation of Delhi has bio-mined 204.94 Lakh MT till 16.11.2025. The timeline for 100% remediation of legacy waste is July 2026 for Okhla, December 2026 for Bhalswa & December 2027 for Ghazipur.

2.5 Monitoring and Action against violators of dust control measures:

2.5.1 In compliance to the CAQM directions no. 21 issued vide date 11.06.2021,12 number of "Dust Control & Management Cells" (DCMCs) i.e, MCD, PWD, DSIIDC, DDA, NCRTC, I&FCD, NDMC, DCB, CPWD, NHAI, DMRC and

DJB, have been constituted by Road Owning /maintaining/ construction agencies for monitoring and effective implementation of dust control measures in the National Capital Region. Monthly/ quarterly action taken report is being sent to CAQM.

2.5.2 About 76 Mechanized Road Sweeping (MRS), 283 water sprinklers/tankers in place for road dust mitigation and 406 Anti-Smog Guns deployed on roads and open areas to mitigate road dust re-suspension during winter 2025.

2.5.3 Dedicated 536 patrolling teams for inspecting violations at C&D Sites & open areas for dust violation. Anti–dust campaign had been launched in coordination with stakeholder departments.

2.5.4 In compliance to CAQM direction, a Web portal for Construction and Demolition sites of 500 sq.m and above plot area in the National Capital Region launched by DPCC in Sep 2021. Around 1742 construction sites of more than 500 Sqm are registered on C&D web portal (out of which 808 C&D sites are active) as on 20.01.2026 to help project proponents self- audit their own dust mitigation measures. There is deployment of 608 anti-smog guns at 281 nos. active construction sites having 5000+ sq.mt built up area projects.

Additionally, Dust mitigation measures for C&D activities have been issued regarding deployment of adequate numbers of anti- smog guns, in proportion to the area of the construction sites to all project proponents, contractors and other stakeholder departments as per CAQM policy.

2.5.5 Cabinet has vide decision no. 3281 dated 11.12.2025 approved proposal on GIA to MCD for Management of 106 Primary Construction & Demolition (C&D) waste collection sites, 70 Mechanical Road Sweepers (MRS), 1000 vacuum-base battery operated litter picker machine towards sanitation and 02 shift operation of 100 nos. of water sprinklers by MCD, under the Scheme “GIA to MCD for Engagement of MRS, WS and ASG”. Cost of project is ₹2510.73 Cr (for defined periods).

2.5.6 14 additional machines under the National Clean Air Programme to be deployed by MCD by 31 January 2026. To enhance coverage on narrow roads (less than 60ft roads) deployment of 70 additional MRSM machines has been approved by Delhi Govt. These machines will supplement existing MRSM machines. This initiative forms part of a ₹2,300 crore project, structured under a 10-year OPEX model, which also includes the deployment of 1,000-litter dust pickers to enhance the efficiency of road cleaning operations.

2.5.7 In addition, the Delhi Government will also be implementing two more major

projects for PWD roads with engagement of (i) Water Sprinkler cum Anti-Smog Guns (Project I) and (ii) Mechanical Road Sweeping Machines, Dust Dump vehicles, Water Tankers and Litter Pickers (Project II) by Public Works Department, Government of NCT of Delhi (GNCTD), for abatement of air pollution under Scheme "Pollution Control and Emergency Measures" on a 10- year OPEX Model.

2.5.8 A 'Breath of Change' workshop was held on 26.09.2025 in coordination with Raahgiri Foundation, under the guidance of CAQM, to discuss/train engineers of road owning agencies and other departments which was attended by around 200 engineers/officers.

2.6 Measures for road dust pollution control from roads & open areas:

2.6.1 **Comprehensive Road Redevelopment Action Plan:** As per direction from CAQM, a comprehensive road redevelopment action plan with a strategy to map all roads required to be re-developed and a detailed action plan as per framework for implementation of the paving and greening measures in Right of Way (RoW), with financial estimate had been prepared of ₹6,000 crore for comprehensive road improvement works. In Delhi total road length of about 3,300 km require resurfacing or improvement, this 3,300 km inter alia include 800 km of PWD roads, 1,200 km of MCD roads, and 1,000 km of roads in unauthorized colonies. The redevelopment will follow the CAQM framework with end-to-end paving and greening, greening of central verges, and end-to-end paving and greening of roads including broken areas in parks and road sides.

2.6.2 **Plan to pave/green all Roadways/ Central verges:**

For ensuring no suspension of roadside dust, greening and paving of central verges and road sides is being undertaken by road owning and maintaining agency. As on 31.12.2025, 1071.86 kms of roadside has been paved and 1093.91 km of central verges has been greened. Balance of 315.281 km roadside is targeted for paving and balance of 24.11 km of central verge is targeted to be greened by March 2026.

Under NCAP, DPCC has also transferred ₹19.3375 crore to MCD for undertaking activities as per Annual Action Plan 2024–25. The funds are to be utilized for end-to-end paving of roads along with black-topping and maintaining potholes free roads and greening of traffic corridors, open areas, gardens, community places, schools and housing societies.

2.7 Electric vehicle augmentation and action against polluting vehicles:

2.7.1 **Promotion of Electric Vehicles:** To further improve Delhi's air quality and create an entire supply-chain ecosystem for clean fuel/ electric vehicles, the Delhi Govt. will be notifying a policy, 'Delhi Electric Vehicles Policy 2026'. The policy intends to strengthen EV adoption with effect from 01.04.2026 to 31.03.2030. As on January 2026, Delhi has a total bus fleet of 5,525 buses, comprising 1,911 CNG and 3,614 electric buses, with plans to induct an additional 1,988 EV buses by March 2026 and 510 more by December 2026.

Additionally, 2,800 E-DRIVE buses (DTC Allocation: 1,380 E-buses & Cluster Allocation - 1,420 E-Buses) are proposed to be inducted under the PM E-Drive scheme.

2.7.2 **Imposition of charge on light and heavy-duty commercial vehicles entering Delhi:** In compliance with the order dated 09.10.2015 and 16.12.2015 of Hon'ble Supreme Court, Environment Compensation Charge (ECC) is levied on Delhi bound light and heavy-duty commercial goods vehicles**.** The Hon'ble Supreme Court of India has withdrawn the exemption on ECC that was allowed for commercial vehicles carrying essential goods (such as vegetables, fruits, milk, grains, eggs, poultry items, ice used for food and salt) to enter Delhi without paying the Environment Compensation Cess (ECC).

2.7.3 **Returning of non-destined goods vehicles:** Delhi Traffic Police ensure active cooperation with the toll plaza staff at border entry points for checking & returning of the goods vehicles not destined from Delhi, from the border entry points, in compliance to orders of the Hon'ble Supreme Court of India.

2.7.4 **Unauthorized Parking**: Unauthorized parking leads to encroachments and reduces road capacity, causing traffic congestion and prolonged idling of vehicles. This results in increased vehicular emissions, contributing significantly to urban air pollution, particularly $PM_{2.5}$ and NO_2 levels. Hence constant vigil is maintained by Delhi Traffic Police to check & control unauthorized / improper parking of vehicles. The violators are booked under section 122/177 of the Motor Vehicles Act, 1988. The vehicles found parked in obstructive manner are also towed away. Urban Local Bodies (ULBs) have been directed to develop and implement parking area management plan and parking pricing strategy.

2.7.5 **Unauthorized entry of vehicles:** Transport Dept., GNCT of Delhi and Delhi Traffic Police have imposed restriction on plying of goods vehicles on specified roads during specified timings such as 24 hrs. of the day, day time (7 AM to 11 PM), peak hours (7 AM to 11 AM & 5 PM to 11 PM) etc. with an objective to decongest the roads and consequential impact on air pollution. The violators are booked under section 194(1)/115 of the Motor Vehicles Act, 1988.

2.7.6 **Addressing the 62 traffic congestion points:** Delhi Traffic Police has identified 62 congestion points across the city, of which 30 priority locations have been taken up for immediate corrective interventions. Definite timelines ranging from three months to one year have been fixed for structural improvements at the remaining locations. 222 traffic police personnel are deployed. Strengthened through deployment of 1,200 additional personnel provided by the Government of Delhi from the Delhi Transport Corporation.

2.7.7 **End of Life Vehicles:** As per latest order dated 17.12.2025, in the matter regarding phasing out of End-of-Life vehicles (10 years diesel and 15 years petrol) the Hon'ble Supreme Court of India has directed not to take coercive steps on grounds of age of the BS-IV and above vehicles while the matter is still sub-judice.

2.8 Greening of the City:

In 2025-26, GNCTD has target to plant about 70, 82,058 including free distribution of 9.44 lakhs) Trees/Shrubs/bamboo by greening agencies. In 2025-26 (till 20th January 2026), 53.70 lakh trees/shrubs/bamboo planted (75.82% achieved). Additionally, 5.03 lakhs saplings have been distributed free against target of 9.44 lakhs (53.28% achieved). Regular compliance on Greening and plantation is being submitted to CAQM.

2.9 Implementation of Graded Response Action Plan (GRAP): GRAP for NCR now classified under 4 different stages of adverse air quality in Delhi as per revised GRAP order dated 21.11.2025, reflected through the AQI, are as follows:

GRAP I :	**POOR Category**	**201-300**
GRAP II :	**VERY POOR Category**	**301-400**
GRAP III :	**SEVERE Category**	**401-450**
GRAP IV :	**SEVERE + Category AQI**	**> 450**

Proactively implementing GRAP measures based on air quality forecasts, rather than retroactively implementing them once the acceptable levels are breached.

Implementation of the Graded Response Action Plan (GRAP) is being proactively implemented for all actions invoked under I-IV stages of the revised Graded Response Action Plan (GRAP) issued on 21.11.2025 and as & when directed by the Commission for Air Quality Management (CAQM) in NCR and Adjoining Areas; and is reviewed regularly at the highest level. This year GRAP is being

implemented since 14.10.2025.

The implementation is reviewed regularly at the highest level and daily reports are being sent to CAQM during GRAP.

During winter 2025-26, as per CAQM orders dated 14.10.2025, 19.10.2025, 11.11.2025, 27.11.2025, 13.12.2025, 25.12.2025, 03.01.2026, 16.01.2025, and 17.01.2026 the necessary actions envisaged under Stage I to Stage IV under GRAP had been implemented by the stakeholder departments in Delhi. Similarly further orders of CAQM are being implemented. Daily action taken report is being submitted to CAQM.

Additionally, various orders have been issued and actions are being taken in compliance of actions under Stage III and IV of GRAP and Hon'ble Supreme Court Directions in W P C 13029/1985.

a.) Department of Environment vide date 24.11.2025 issued directions under section 5 of the Environment (Protection) Act, 1986, to all Government Offices under GNCTD and all Private Offices operating within the National Capital Territory of Delhi, to work on 50% strength and the rest to work from home under Graded Response Action Plan (Stage-III).

b.) Order issued by GAD on staggered office timings for various departments/offices during the winter season of 2025-26 under Graded Response Action Plan (Stage-III):

Offices under Municipal Corporation of Delhi (MCD):	8:30 am to 5:00 pm
Offices under the GNCTD:	10:00 am to 6:30 p.m.

c.) Orders by Directorate of Education, GNCTD with regard to hybrid (physical and online mode) classes as per GRAP stage:

- Circular dated 11.11.2025 was issued by Directorate of Education for hybrid mode of classes up to class 5 under Graded Response Action Plan (Stage-III).
- Circular issued by Directorate of Education on 20.11.2025 and 13.12.2025 for postponing physical sports scheduled in the month of November and December 2025 keeping in view prevailing air quality trends.
- Circular issued by Directorate of Education on 13.12.2025 for conducting classes in schools for children upto class IX and XI in hybrid mode I, both physical and online mode, till further orders.
- Circular issued by Directorate of Education on 15.12.2025 directing discontinuation of all physical mode classes for students upto class V while rest of classes to continue as per previous order dated 13.12.2025.
- Circular issued by Directorate of Education on 24.12.2025 regarding

resumption of normal classes in Schools for Classes VI to IX &XI.

- Circular issued by Directorate of Education on 24.12.2025 regarding revocation of guidelines issued vide circular No. D.E.23 (28)/Sch.Br./2025/1071 dated 24.12.2025 regarding resumption of normal classes in Schools for Classes VI to IX &XI.
- Circular issued by Directorate of Education on 16.01.2025 for conducting classes in schools for children up to class V in hybrid mode i.e., both physical and online mode, till further orders.
- Circular issued by Directorate of Education on 17.01.2025 for conducting classes in schools for children up to class IX and XI in hybrid mode i.e., both physical and online mode, till further orders.

d.) Advisory issued by Labour Department, GNCTD, to all the Employers advising to stagger office timings in respect of their employees working in their premises in such a manner to ensure that maximum spread over does not exceed prescribed limit as per Factories Act, 1948 and Delhi Shops & Establishments Act, 1954. Further, employers should make best possible efforts to ensure that private vehicles are not used for commutation and as far as practicable shared transport facility be provided by the Employers to their employees. The purpose of issuing this advisory is to ensure that Employers should also take effective measures to curtail pollution in Delhi.

2.10 To Control local Sources of Air Pollution at source

13 Hotspots namely, Narela, Bawana, Mundka, Wazirpur, Rohini, R.K.Puram, Okhla, Jahangirpuri, Anand Vihar, Vivek Vihar, Punjabi Bagh, Ashok Vihar and Dwarka have been identified on the basis of Annual concentration of $PM_{2.5}$ & PM_{10} in Delhi. Specific action plans have been drawn up for identifying and mitigating the local sources of air pollution such as plastic & garbage, Malba / C&D waste removal, road patches and pot holes' repair, De-congestion of congested traffic points, Mechanical road sweeping and Water sprinkling of roads, Closure of polluting & unauthorized industries, Night patrolling to check violations with respect to Bio-mass burning, C&D waste dumping etc., greenery development etc.

Department of Environment and Delhi Pollution Control Committee has inventoried more than 5,857 pollution sources at 13 Hotspots and issues/ complaints raised have been on-boarded on Green Delhi App for enabling online redressal by concerned department and monitoring. Re-Inventorisation of major point sources of air pollution in all identified hotspots in Delhi has been carried out.

PWD had been directed to allocate Anti- Mobile Smog Guns (ASGs) specifically at all 13 hotspots for dust pollution control, with fund from Department of Environment.

2.11 Installation of Smog Tower: In compliance with this Hon'ble Supreme Court order dated 13.01.2020, Smog Towers have to be installed at Anand Vihar Bus Terminal and Baba Kharak Singh Marg, Connaught Place. Smog Tower at Connaught Place was made operational for pilot studies w.e.f 01.09.2021. IIT Bombay had conducted the pilot study for the assessment of outdoor air purification system (Smog Tower) and submitted its final report on 05.10.2023. As per report submitted by IIT-Bombay the overall efficiencies are around 48- 56% for 20m; 34-30% for 21- 99m; 12-13% for 100-199m; 13% for 200-399m; 13-14% for greater than 400m, also it has been suggested that smog tower reduces 13% of air pollutants in 500m radius during the winter season. Smog tower was a pilot study to assess the performance of outdoor air purification system in ambient environment

a) Smog towers at Connaught place were found to have limited effectiveness that is i.e zone of influence of filtered air jet is too small to ensure the effectiveness and efficacy of smog tower.
b) Performance of CP tower overall average % reduction calculated by including all data collected for two years i.e 2021-2023.

PERFORMANCE DATA

Site	Connaught Place (Urban Location) Percentage Reduction				
Distance Range(m)	0-20 m	21-99 m	100-199m	200-391m	>500m
$PM_{2.5}$	48	34	12	13	Nil
PM_{10}	56	30	13	13	Nil

Report of IIT Bombay has been filed by GNCTD before Hon'ble Supreme Court of India in WP(C) 13029/1985 on 30.10.2024 to pass direction with respect to further continuation of the operation of smog tower at Baba Kharak Singh Marg.

2.12 Industrial pollution control:

1. **Utilization of approved fuels:**

Implementation of Notification issued on Approved Fuel for Industries. Contribution by the industries to air pollution in National Capital Territory of Delhi is minimal compared to other sources. All the industries in National Capital Territory of Delhi, which have boiler/furnace, have been directed to convert to Piped Natural Gas (PNG).

Out of 2049 industries, 1890 industries converted to Piped Natural Gas (PNG) and use of unapproved fuels is effectively checked to curb air pollution due to industrial emissions. 67 are running on approved fuel i.e. LPG and are in

process of conversion to PNG too and the remaining 92 industries have moved out of Delhi.

2. **Sealing of polluting industries:**

First-ever survey of polluting industries conducted in notified industrial areas, redevelopment areas and non-confirming areas in Delhi. Based on the surveys, over 700 air/ water polluting units in conforming areas have been sealed by DPCC and more than 300 air/water polluting units in non-conforming areas by MCD.

2.13 Bio-decomposer Technology to control Stubble burning and preventive measures:

Institute of Agricultural and Research Institute (IARI) Pusa, has developed its own bio-decomposer technology for crop residue decomposition. In 2025-26, GNCTD has completed spraying of Bio decomposers in 3,655 Acres of non-basmati paddy agricultural fields at North, North-West, West, Central and South-West districts of Delhi. No case of stubble burning in Delhi has taken place in the present paddy harvesting season because of intense monitoring and awareness generated among paddy cultivators by the Development Department, Govt. of NCT of Delhi. All (05) burning incidents reported by CREAM in October and November 2025 within Delhi Territory have been physically verified, and none of them constitute stubble or paddy residue burning. The monitoring reporting and preventive actions taken are as follows:

a) Field Surveillance & Awareness: A total of 11 surveillance teams have been deployed round the clock across agricultural fields for continuous patrolling to prevent paddy residue burning and for conducting awareness drives among farmers.

b) Pusa Bio-Decomposer Application: The Pusa Bio-Decomposer has been sprayed over 3655 acres of agricultural land for eco-friendly decomposition of paddy residue till now since 14.10.2025.

c) Control Room: A dedicated Control Room has been operationalised in the Agriculture Unit for real-time monitoring of burning incidents and coordination of field teams.

d) Custom Hiring Centers (CHCs): Two Custom Hiring Centers, one each in North-West and South-West Districts of Delhi, are under establishment to ensure farmer access to machinery for residue management.

e) Demonstrations of Bio-Decomposer: A total of 97 demonstrations of the Pusa Bio-Decomposer in all the paddy cultivated area of Delhi have been conducted

to showcase effectiveness in residue decomposition and avoid the need for burning.

f) Farmer Training Programmes: Training programmes on paddy residue management have been conducted across districts covering all paddy growing farmers and educating them on sustainable and non-burning alternatives.

2.14 Use of IT for control of Pollution

1. **Green Delhi Application and Green War Room (GWR) for public grievance redressal:** Govt. of Delhi launched Green Delhi App having 30 agencies of Delhi on one platform. The grievances uploaded on Green Delhi. App is monitored through Green War Room. Further, the "Green Delhi" App was re-launched on 30th September 2024 for public grievances redressal. More than 1,00,840 complaints received through this app and resolution of more than 91% complaints is done.

2. **SAMEER App and social media:** All the complaints received through SAMEER App and social media are dealt with proper care on a daily basis. All the complaints are forwarded to relevant departments timely and their resolution is monitored at the senior level.

3. **Dust Pollution Control Self-Assessment Web portal:** DPCC developed a Dust Pollution Control Self-Assessment Web Portal for C&D projects on plot area 500sqm and more than 500sqm (dustcontroldpcc.delhi.gov.in) on 01.10.2021 which was formally launched on 07.10.2021, in compliance to directions of Commission for Air Quality Management dated 11.06.2021. Training and hearings for the effective management of portal as well as dust mitigation measures to be undertaken at project sites has been provided to above 400 project proponents and 1730 no. of projects registered themselves on the portal till 07.01.2026.

2.15 Public Awareness and Participation

Regular awareness programs/ Workshops / Campaigns involving RWAs/ MTAs/ Eco club Schools/ Colleges are being undertaken, with mass awareness through Print/ Social Media (**X**) and Radio Jingles. Some measures taken are as below:

- Social Media Platform Resolution of Complaint is being tagged to CAQM.
- Daily Environment Bulletin is being issued.
- Citizen Charter under GRAP is being publicized in Hindi and English, on weekly basis since 8.11.2025 in leading newspapers by DPCC.
- Series of Workshops are planned to be conducted with participation of RWAs, Eco club schools and colleges and stakeholder departments for

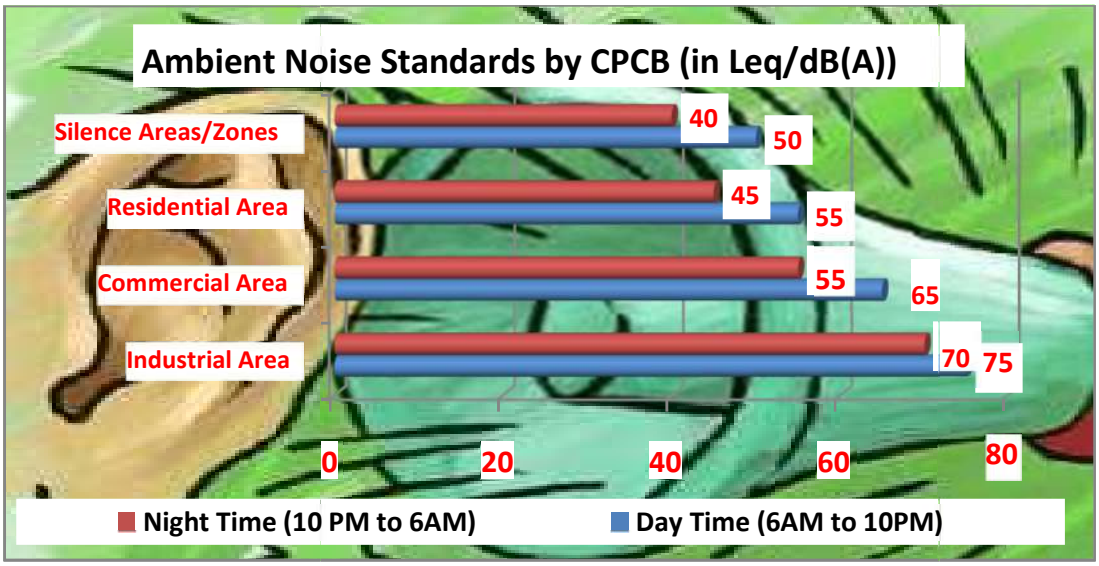

mass awareness on various environmental issues. Following workshops have been conducted so far:

a) Three workshops on 16, 17 and 18th October 2025 have been conducted in three different schools under the Environment Education Program on various environmental issues such as waste management, water conservation, elimination of single-use plastic, and air pollution mitigation.
b) Under the Sensitization Program, 200 workshops in the months of August, September and October 2025 have been conducted on biodiversity conservation and climate change.
c) Eco-clubs are also organizing model making, poster making, nukkad nataks, slogan writing, etc., every month on various environmental themes under the Eco-Club Scheme.
d) Workshop convened on 16th October 2025 regarding Empowering Citizens through ICT Tools for Pollution Control.
Workshop on Noise Pollution (Regulation and Control) Rules, 2000 was conducted on 07.11.2025.

3. Noise Pollution

3.1 Delhi witnesses excessive noise on account use of high sound loudspeakers during festivals and many social gatherings in public place directly increases the noise pollution in the affected areas. GNCTD has notified an area of 100 meters around the hospitals with 100 beds or more, educational institutions with 1000 students or more, all court complexes, all government complexes as Silence Areas/Zones. The Central Pollution Control Board published the information regarding permitted ambient noise levels in different areas. The prescribed ambient noise levels are as presented in Chart 8.3.

CHART 8.3
AMBIENT NOISE STANDARDS BY CPCB (IN Leq/ dB (A))

Source: Noise Pollution (Regulation and Control) Rules, 2000, Ministry of Environment, Forests and Climate Change Government of India.

Notes: 1. Day Time from 6 AM to 10 PM and Night Time from 10 PM to 6 AM.
2. Silence zone is an area comprising not less than 100 meters around hospitals, educational institutions, courts, religious places or any other areas which are declared as such by the competent authority.

3.2 DPCC recently strengthened the Noise Monitoring Network in Delhi with 31 (26 New + 5 Old) Noise monitoring stations. These stations were installed in different land use areas which are as:

- 7 Stations are situated in silence zone which include educational institute and hospital
- 11 Stations in commercial zone which include markets and stadiums
- 8 Stations are situated in residential zone
- 5 Stations in industrial area.

3.3 **Designated Noise Authorities under Noise Rules:** GNCTD vide its notification dated 18.08.2025 has designated following authorities for Noise Pollution Control:

1. All Deputy Commissioners (Revenue), Govt. of N.C.T. of Delhi.
2. All Sub Divisional Magistrates (Revenue), Govt. of N.C.T. of Delhi.
3. Asstt. Commissioners of Police Control Room.
4. All Sub Divisional Police Officers including Railways & Airports.
5. Additional Director (Engineering), Additional Director (Scientist 'E'), Senior Environmental Engineers, Scientist- D and Scientist- C of Delhi Pollution Control Committee.
6. Assistant Commissioners of Police (Traffic).
7. Assistant Commissioners of Municipal/ Local bodies of Delhi.

3.4 **Noise limiter notification:**

In compliance to Hon'ble National Green Tribunal directions; GNCTD issued Noise limiter Notification on 21st November 2019 under sub-rule (3) of rule 3 and sub-rule (3) of rule 5 read with clause (c) of rule 2 of the Noise Pollution (Regulation and Control) Rules, 2000, to ensure that no audio system or public address system shall be let out / installed without being fitted with Sound limiter in any function in the whole of National Capital Territory of Delhi.

3.5 **Noise Complaint lodging platform:**

If someone violates the noise rules and creates excessive noise, complaint may be lodged by citizen at following:

- Green Delhi App
- Website: ngms.delhi.gov.in
- Helpline number – 155271

4. WATER POLLUTION

4.1 The river Yamuna, the reason for Delhi's existence, has suffered heavily from Pollution which is due to the flow of untreated / partially treated sewage and Industrial effluents.

- About 48 KM Stretch in Delhi from Palla to Badarpur (Delhi-Haryana border).
- About 26 KM Stretch from Wazirabad (Downside of Wazirabad Barrage) to Asgarpur Village (after Okhla Barrage), which is less than 2% of the river Length, accounts for about major pollution load in the river.
- 22 Drains outfall into river Yamuna including waste water coming into Najafgarh Drain from Haryana and coming into Shahdara Drain from Uttar Pradesh.
- 10 Cumecs of Water is being released by the State of Haryana at Hathanikund during lean season. However, most of it evaporates or percolates before it reaches Wazirabad during the lean season and therefore it is highly inadequate to meet the dilution requirement to achieve the desired water Quality of BOD< 3 mg/l & DO >5 mg/l.

4.2 **Water Quality of River Yamuna**: Water quality of river Yamuna is monitored by DPCC on monthly basis at 8 Locations i.e. Palla, Wazirabad, ISBT Bridge, ITO Bridge, Nizamudin Bridge, Okhla Barrage, Agra Canal at Okhla Barrage, Asgarpur (After confluence of Shahdara & Tuglakabad drains).

4.3 DPCC has been conducting monthly water quality monitoring of river Yamuna (at 8 locations) and 27 drains including 2 drains (Indrapuri & Sahibabad Drains coming from Uttar Pradesh) discharging waste water into river Yamuna.

4.4 The highest average of DO is 7.4 mg/l at Palla and lowest is 1.6 mg/l at River Yamuna at Asgarpur (After confluence of Shahdara & Tuglakabad drains).

4.5 Water quality monitoring results of the drains indicate that most of the drains still have to meet the standards with respect to Biochemical Oxygen Demand (BOD), Chemical Oxygen Demand (COD) and Total Suspended Solids (TSS).

4.6 Status of Sewerage Network in Unauthorized Colonies

Delhi Jal Board has prepared a plan to provide sewerage facilities in unauthorized colonies. Coverage of sewerage network in NCT of Delhi is about 82% and remaining 18% area (mainly unauthorized colonies and JJ clusters) is unsewered. There are 1799 Unauthorized Colonies in Delhi. DJB has provided Timelines for laying sewerage network in unauthorized colonies not having sewerage system.

Status of Sewerage Network in Unauthorized Colonies, as provided by Delhi Jal Board is given in following Table:

S.No	Status	Commutative Status (as on 30.09.2025) (No.)
1	No. of Unauthorized Colonies where Sewer line laid	**1235**
2	No. of Unauthorized Colonies where sewer line work in progress	**145**
3	No. of Unauthorized Colonies where work is in Estimate / Tender / Award stage	**270**
4	No. of Unauthorized Colonies where NOC is awaited from (Forest / ASI / UD Deptt.)	**99**
5	No. of Unauthorized Colonies where sewer line will be laid after handing over possession of land for 2 DSTP	**33**
	Total	**1782**

4.7 Measures taken for Control of Pollution in River Yamuna-Sewage Treatment

- Estimated Sewage Generation – 3596 MLD (792 MGD (80% of 990 MGD Water Supply)
- Functional Sewage Treatment Plants (STPs) – 37 STPs (at 21 Locations)
- Installed Treatment Capacity of 37 Functional STPs – 3609.52 MLD (794 MGD % of Sewage generation)
- Capacity Utilization of existing 37 STPs – 3222 MLD (708.7 MGD)
- Gap in Treatment Capacity – NIL
- Gap in Treatment – 378.68 MLD (83.3 MGD) [792 – 708.7 MGD] (10.51%)

Enhancement of treatment capacity of STPs of DJB from 742 MGD in December, 2024 to 794.26 MGD in September, 2025

Proposed Sewage Treatment Capacity after completion of Proposed Projects [New 7 MGD STP at Sonia Vihar & 10 MGD at Delhi Gate and Rehabilitation / Upgradation of existing old STPs]	4384.6 MLD (964.5 MGD) * (By December, 2026)

*** Will be sufficient to treat the sewage of 924.8 MGD (80% of 1156 MGD Water Supply) in future.**

All the STPs (existing as well as new) with total capacity of 964.5 MGD are targeted to achieve standards prescribed by DPCC i.e BOD / TSS: 10/10 mg/l by December, 2026.

DETAILS OF THE EXISTING OPERATIONAL STPS OF DELHI JAL BOARD

S. No.	Name of STP	Capacity (in MGD)	Capacity being utilized (in MLD)	Capacity being utilized in September 2025 (in MGD)	Design Parameters BOD/TSS (in mg/l)
1.	Mehrauli	5	23.46	5.27	20/30
2.	Okhla Phase -V	16	39.43	8.67	30/50
3.	Okhla Phase -VI	30	71.69	15.77	20/30
4.	Molar Band	0.66	2.46	0.54	30/50

4.8 Proposed Sewage Treatment Plants (STPs)

Govt. of NCT of Delhi is primarily working on following 4 Sectors for augmenting the sewage treatment capacity in Delhi:

i. Rehabilitation of existing 3 STPs at Kondli Ph-II, Rithala Ph-I and Yamuna Vihar Ph –II (Rehabilitation Completed).
ii. Upgradation and increasing capacity of remaining 08 existing STPs.
iii. Construction of 3 New STPs at Okhla (Plant is commissioned and treating the sewage), Sonia Vihar (Completed & under stabilization) and Delhi Gate (10 MGD) (Land Allotted by DDA / MoHUA on 03.04.2025, Timeline – June, 2027).
iv. Construction of 40 DSTPs [26 DSTPs at various locations of Delhi and 14 DSTPs in Najafgarh Drainage Zone].

4.9 Details of upgradation of the existing STPs.

Out of 37 Operational STPs of DJB 12 are designed for BOD / TSS: 10/10 mg/l and status of 18 STPs which are being / proposed to be Rehabilitated / Upgraded / Capacity to be augmented to achieve standards prescribed by DPCC i.e BOD / TSS: 10/10 mg/l.

Status of 18 STPs which are being / proposed to be rehabilitated/ upgraded:

S. No.	Name of STP	Existing Capacity (In MGD)	Enhanced Capacity (In MGD)	Status (Cumulative Progress as on September 2025)	Timelines
1.	Rithala Phase –II	40	40	Completed	Completed
2.	Kondli Phase-IV	45	45	Completed	Completed and included in total capacity of 794 MGD.
3.	Rohini Sector 25	15	25	Completed	
4.	Narela	10	15	Completed	
5.	Najafgarh	5	5	Completed	
6.	Coronation Pillar	20	20	Completed

	Total	**343**	**456.5**	Addition of 68.5 MGD by December, 2027	

4.10 Interceptor Sewer Project (ISP)

Delhi Jal Board initiated the process of laying of interceptor sewers along 3 major drains (Najafgarh Drain, Supplementary Drain and Shahdara Drain) for trapping of 108 sub drains out falling into these drains. About 242 MGD of sewage generated from the colonies/ other sources & coming through the 108 sub drains will be trapped before reaching the above-mentioned major drains and the same would be diverted to the existing underutilized STPs / New STPs for treatment of sewage. Treatment of 242 MGD of sewage as planned will take place after construction / rehabilitation of Coronation Pillar & Rithala and Kondli STP under YAP-III.

Total flow to be trapped	Provision of trapping made during the month of Nov, 2024	Cumulative Status as in September, 2025 Provision of trapping made	Time line for completion of work	Remarks
1100.86 MLD **(242 MGD)**	-	1082 MLD **(238 MGD)**	Completed	YMC has got an independent assessment done through a team consisting of Sh. R.S Tyagi former Member (Dr) DJB and Prof Singh, Head of Department of Environmental Engineering, Delhi Technical University. Said team has confirmed that sewage trapping part of ISP has indeed been completed. However, treatment of 242 MGD of sewage as planned will take place after construction/ rehabilitation of Rithala & Kondli STP.

4.11 Trapping of Drains

There are 22 drains which are out falling into river Yamuna in the Delhi and brief is as follows:

- 10 Drains have been tapped.

- 02 Drains (Delhi Gate Drain & Sen Nursing Home Drain) are Partially Tapped.

- 02 Drains (Najafgarh & Shahdara) are large drains and technically not feasible to tap whole drain however these drains are included in the Interceptor Sewer Project where substantial flow of sub-drains under their command areas has been / will be tapped and treated after tapping of sub drains.

- Out of remaining 08 Drains, DJB has informed regarding tapping of Sonia Vihar Drain however flow was observed by DPCC Lab & sample was taken on 06.12.2024, 10.01.2025, 10.02.2025, 05.03.2025, 07.04.2025, 01.05.2025, 02.06.2025 & 01.07.2025. Flow is yet to be tapped / diverted to Sewer / STPs for treatment in case of remaining 08 drains.

STATEMENT 8.3

MAJOR DRAINS OUT FALLING IN TO THE RIVER YAMUNA

Major Drains Out falling into river Yamuna	22
Technically not feasible to tap	2 [Najafgarh and Shahdara,], covered under Interceptor Sewer Project for tapping sub drains
Drains Already Trapped / No flow observed	10 [Magazine Road, Sweeper Colony, Khyber Pass, Metcalf House, Tonga Stand, Moat Drain (Vijay Ghat), Civil Military, Drain No.14, Tehkhand & Sonia Vihar]
Remaining Drains to be Tapped	8 [Sen Nursing Home, Delhi Gate, ISBT Drain (Mori gate drain), Kailash Nagar Drain, Jaitpur Drain, Tuglakabad Drain, Shastri Park Dran, Barapullah Drain, Abul Fazal Drain & Maharani Bagh Drain]

a. **ISBT Drain (Qudsia Bagh/ Mori Gate Drain):** ISBT Drain (Qudsia Bagh/ Mori Gate Drain): Efforts are being made for partially tapping of drain in to Bela Road sewer line for further treatment at Okhla STP. As per NMCG, DSTP has been proposed at the mouth of Drain. Land identification is in Progress.

b. **Sonia Vihar Drain (On Eastern Bank of Yamuna):** DJB has informed regarding tapping of waste water of this drain and treatment in 7 MGD STP at Sonia Vihar which is under stabilization.
However, DPCC Lab observed Flow during its visits on 10.01.2025, 10.02.2025, 05.03.2025, 01.05.2025, 02.06.2025& 01.07.2025.

c. **Kailash Nagar Drain (On Eastern Bank of Yamuna):** Tapping is to be done by providing house sewer connections in the vicinity of the drain to the existing DJB sewerage system. During the inspection of DG NMCG on 24.04.2025, As per NMCG, DSTP is proposed at mouth of the drain to trap it before discharge into river Yamuna. Land identification is in progress.

d. **Shastri Park Drain (On Eastern Bank of Yamuna):** Tapping is to be done by providing 1200 nos approx house sewer connections in the vicinity of the drain to the existing DJB sewerage system. Estimate of House sewer connection framed by the maintenance division are under approval. During the inspection of DG NMCG on 24.04.2025, as per NMCG, DSTP is proposed at the mouth of the drain to trap it before discharge into river Yamuna. Land identification is in progress.

e. **Maharani Bagh Drain** The construction of I&D structure for tapping of Maharani Bagh drain is held up due to Hon'ble High Court and widening of Mahrani Bagh

Drain is under progress under the STF constituted by Delhi High Court. The completion of the scheme is targeted by March, 2026.

f. **Jaitpur Drain:** This drain is catering the discharge of NTPC, Ali Gaon, Madanpur Kadar and Jaitpur unsewered area and falls under Madanpur Khadar GOC Tajpur Pahari/ Badarpur GOC. In Madanpur Khadar GOC 03 colonies (out of 07 colonies) and in Tajpur Pahari/ Badarpur GOC 56 Colonies (out of 83 colonies) falls under O- Zone. After laying the sewerage network the flow sewage of these colonies shall be treated at Okhla WWTP and proposed 10 MGD DSTP at Tajpur Pahari. STP is required to be constructed at the mouth of the drain. Land identification is in progress.

g. **Tuglakabad Drain (Kalka Ji Drain merged in this drain):** Flow observed on 24.04.2024, 03.06.2024, 04.09.2024, 08.10.2024 & 06.11.2024 by DPCC Lab. However, Tuglakabad Drain Outfall into Agra canal.

h. **Barapullah Drain:** Work of Intercepting Barapullah drain flow by laying of interceptor sewer through micro tunnelling and conveying the flow to Okhla STP has been completed. The flow of Barapullah drain shall be taken in system after monsoon.

i. **Najafgarh Drain:** There is about 452MGD flow in the Najafgarh drain. Out of this at present 252 MGD comprises of treated effluent from STPs. Treated / untreated discharge of about 255 MGD is being discharged into river Yamuna in Delhi from Haryana through its drains. There are 126 sub-drains out falling in Najafgarh Drain including Supplementary drain. Out of 126 sub-drains, 20 sub-drains are un-tapped and these will be tapped soon. The balance 5 sub-drains which depend upon availability of land and 2 sub-drains are related to DDA.
There are 110 sub-drains out falling into Supplementary drain. Out of 110 sub-drains, one sub-drain is untapped and balance one will be tapped as estimate for installation of DSTP has been prepared and NIT is yet to be floated due to budget constraints

j. **Shahdara Drain:** Total discharge in Shahdara drain is about 104 MGD, out of which 58 MGD (about 36%) is treated / untreated sewage being discharged by UP through its drains (Sahibabad, Indirapuri, Banthala etc.) into river Yamuna in Delhi.

k. **RME 180 (Madanpur Khadar):** Newly Identified Drain

4.11.1 Rehabilitation / Up-gradation of Existing STPs & Construction of New STPs by DJB

S. No	Name of STP	Capacity Addition (in MGD)	Timelines
Sewage Treatment Plants			
1.	Okhla (New STP) of 124 MGD Capacity (Completed) Physical Progress: 100 %	30*	Completed Plant is commissioned and treating the sewage (already included in 764 MGD capacity)
2.	Sonia Vihar (New STP) of 7 MGD Capacity Physical Progress: 100 %	07*	Completed (Already included in 764 MGD capacity)
3.	Delhi Gate (New STP) of 10 MGD Capacity DDA/ MoHUA has allotted the land on 03.04.2025.	10	June, 2027
4.	Kondli Phase- II of 25 MGD Capacity Physical Progress: 100 % Liquid line started on 24.06.2023.		Completed (Already included in 764 MGD capacity)
5.	Rithala Phase – I of 40 MGD Capacity Physical Progress: 100 %		Completed (already included in 764 MGD capacity)
6.	Yamuna Vihar Ph-II (From 10 MGD to 15 MGD, Under Rehabilitation & Up-gradation, presently in operation with 15 MGD Capacity) Physical Progress: 100%	05*	Completed. (Already included in 764 MGD capacity)
	Total Addition in Capacity of STPs	10 MGD	
Status of 40 New Proposed Decentralized Sewage Treatment Plants (DSTPs) [92MGD]			
A. 26 DSTPs of total Capacity of 60 MGD			
24 DSTPs (Land already allotted)			38 DSTPs (87 MGD) – By December, 2027 02 DSTPs (5 MGD) – Land yet to be allotted by DDA / Revenue Department
Two DSTPs [Land is yet to be allotted for Proposed DSTPS at Nayabans & Maidan Garhi (Rajpur Khurd)]			
B. 14 DSTPs in Najafgarh Drainage Zone of total Capacity of 32 MGD			
14 DSTPs (Land already allotted)			
C. Up-gradation / Augmentation of Remaining 18 Existing STPs of total Capacity of 113.5 MGD		**78.5**	December, 2027

4.12 In-situ Bioremediation / Phytoremediation of Sewage in Drains

- Integrated Drain Management Cell (IDMC) headed by Worthy Chief Secretary, GNCTD has been constituted vide order dated 17.03.2020 issued by Urban Development Department, Govt. of NCT of Delhi pursuant to the order dated 05.03.2020 of Hon'ble National Green Tribunal in OA No. 06/ 2012 in the matter of Manoj Mishra Vs. Union of India & Ors, for remediation and management of all drains of Delhi.
- IDMC is having members from all the Drain Owning Agencies (DOAs).
- DOAs have submitted / are submitting their Action Plan with time line subject to availability of fund.
- IDMC is also taking action w.r.t directions of the Hon'ble High Court of Delhi in the order dated 08.04.2024 & subsequent orders passed in WP(C) No. 9617/2022 in the matter Court on its own Motion Vs Govt. of NCT of Delhi & Ors regarding Flooding in Delhi.

Measures taken by the Drain Owning Agencies in Delhi for In-situ Bioremediation/ Phytoremediation of sewage in their drains is briefed in following table:

S.No	Drain Owning Agencies	Measures Taken / Projects	Timeline
1	MCD	● Constructed Wetland / Treatment System of 3 MLD designed by NEERI at Jheel Park for treatment of waste water of Shadara Jheel completed. ● Pilot Project for phytoremediation in Chirag Delhi drainage system (Pushp Vihar main Nallah from MB Road to Press Enclave Road in a length of about 1.90 Km) completed. The project is currently in the phase of operation and maintenance which will last for 5 years from the date of completion. Decrease in BOD (~80%) and COD (~70%) observed. ● Waste water treatment of Qudsia Park drain (Type III Drain) having length of 350 meters with width and depth as 3.70 m X 1.75m,	Completed Completed Under Planning Stage

S.No	Drain Owning Agencies	Measures Taken / Projects	Timeline
		near Maharana Partap ISBT is still under planning stage.	
2	NDMC	Waste water in portion of Kushak Nallah falling under NDMC area is under Bio-remediation.	Functional
3	DCB	In-situ treatment in 6 Drains through chemical dosing since discharge is less (in the range of 1.5 MLD).	Functional
4	DDA	● Kalindi Biodiversity Park is being developed in 200 Hectares area in 6-kilometer length & 1-3 kilometer wide. The project has been awarded to CEMDE on 13.12.2019. ● 11 Constructed Wet Lands are being developed to treat sewage. 3 have been completed in available space. ● 2 Wetlands-one at Kilokari drain (10-12 MLD) and another at Dhobi ghat drain (12-15 MLD) have been constructed & are functional. ● The third Constructed Wet Land on Maharani Bagh drain is completed. Work of 8 Constructed Wet Lands held up due to construction of high-speed road of NHAI from Sarai Kale Khan to Faridabad. DJB is initiating a project to tap the drains.	02 out of 11 Constructed Wet Lands are Functional
5	PWD	● Bio-remediation Plant of 2.5 MLD capacity has been installed at Chattarpur. ● Work of installation of Bio-remediation Plant of 0.75 MLD capacity between main gate of Chattarsal Stadium and Azadpur Metro Station is under progress. ● Bio-remediation of remaining drains of PWD arenot feasible due to space constraint and smaller size of drains.	Completed
6	I&FC Deptt	As per the feasibility report of the consultants, Phyto / Bio remediation is not feasible in the two major drains (Najafgarh drain and Shahdara	

S.No	Drain Owning Agencies	Measures Taken / Projects	Timeline
		drain) under I&FC Dept. due to heavy discharge, land constraint etc.	
7	DSIIDC	Bioremediation/Phytoremediation is not possible for drains since smaller in size.	

4.13 Sewage and Fecal Sludge Management (Septage Management)

Delhi Water Board Septage Management Regulation 2018 were notified by the Urban Development Department, GNCTD on 12.11.2018 (published in Gazette on 21.11.2018) and necessary action is to be taken by Delhi Jal Board, District Magistrates and Local Bodies / Municipal Corporations as per the provisions of the said Notification.

Urban Development Department, GNCTD has issued "Delhi Water Board Septage Management (Amendment) Regulation, 2024" on 13.03.2024 including following amendments in the existing Regulations:

1. (a) Penalty for deposit of septage by unauthorized (unlicensed) entities shall be ₹ 50,000/- plus confiscation of vehicle.

(b) Penalty for disposal of Septage at places other than the designated places by authorized licensee shall be ₹ 50,000/- per violation.

(c) Penalty on a person who uses the services of unlicensed vendors/vehicles for discharging the septage shall be ₹ 10,000/- per violation.

2. An officer not lower than the rank of Naib Tehsildar in DM offices, JE in DJB/I&FC, Sub Inspector in Delhi Police and Sanitary Inspector in CD shall be competent to impose penalty.

Installation of GPS System - Each Vehicle used for transportation of septage shall be fitted with GPS device and access rights of the movement data shall be given to the Delhi Jal Board for tracking of such vehicles.

DJB has registered 164 licensed vendors (Emptiers) for collection and transportation of sewage from the septic tanks and has identified 86 designated SPS/ STPs for receiving the Septage.

Brief of septage (Septic Tank Effluent) collected & treated in September, 2025 is given in following Table:

No of Vehicles Authorized by DJB	No. of Functional SPSs for collection of septage from vendors	Septage collected & Treated in September, 2025	Cumulative Septage Treated by DJB (Upto September, 2025)
136	86	2.68 Crore Litres	254.4 Crore Litres

On an average about 8.93 Lakh liters septage per day was collected and treated at STPs of DJB in September, 2025.

4.14 Prevention of Dumping of Solid Waste in Drains and River Yamuna

For preventing the dumping of solid waste in the drains, all the concerned Departments/ Agencies have been directed vide order dated 09.01.2019 of Chief Secretary and Order dated 15.01.2019 of UD Department, GNCTD for taking necessary action against the violators including imposition of Environmental Compensation of ₹5000 on dumping of Pooja Material/ Flowers etc. and ₹ 50,000 on the dumping of Construction Material / Malba in River Yamuna.

4.15 Protection of Flood Plain of River Yamuna

As per the orders of Hon'ble NGT dated 13.01.2015, Flood Plain of River Yamuna is to be protected, Unauthorized Habitation/ Settlements/ Encroachment are to be removed by DDA and cultivation of Edible Crops are prohibited. Following action has been / is being taken by DDA for protection of Flood Plain of river Yamuna and prevention of Encroachment:

Demarcation of Flood plain and Removal of Illegal Encroachments:

(a) Demarcation of 1 in 100 years Flood Plains & Fixing up of Bollards
(b) Engagement of Private Security to stop illegal Dumping
(c) Installation of Electronic Surveillance System
(d) Removal of Encroachment from the Flood Plain
(e) Demolition Program
(f) Removal of C&D Waste
(g) Restoration and Rejuvenation of the Floodplains of River Yamuna.

4.17 Ban on Idol Immersion

DPCC issued Directions under Section 33A of the Water (Prevention and Control of Pollution) Act, 1974 on 26.08.2025, prohibiting idol immersion in the River Yamuna and allowing only eco-friendly, earthen idols for Durga Puja, Ganesh Utsav, and other festivals. The Department of Environment published awareness advertisements in

national dailies, and the District Administration created designated temporary immersion sites to facilitate eco-friendly practices and prevent pollution.

4.18 Effluent Management

- No. of Industries / Units in 28 Approved Industrial Areas: 24169
- No. of Industries / Units in 17 Approved Industrial Areas (out of 28 Approved Industrial Areas) connected with 13 CETPs: 21819

4.19 High Level Committee (HLC) for Rejuvenation of River Yamuna

As per the directions of the Hon'ble NGT in OA No. 673 / 2018 Dated 20.09.2018, polluted river stretches are to be rejuvenated at least for bathing purpose with quality of river as given below:

Quality Parameter	Standards to be Achieved
BOD	≤ 3 mg/l
Dissolved Oxygen (DO)	≥ 5.0 mg/l.
Faecal Coliform	≤500 MPN/100ml.

The matter related to control of pollution in river Yamuna is being monitored by Chief Secretary through various meetings. Urban Development Department, Govt. of NCT of Delhi vide order dated 22.05.2025 has constituted a committee headed by Chief Secretary, GNCTD to work upon Yamuna River under the project called "Urban River Management Plan (URMP).

Vide order dated 02.07.2025, Urban Development Department, Govt. of NCT of Delhi has constituted High Level Committee (HLC) for Rejuvenation of River Yamuna under the Chairpersonship of Hon'ble Chief Minister, Hon'ble Minister (Water), is Co-Chairperson and Chief Secretary of GNCTD is Convener of HLC. Secretary Ministry of Jal Shakti and Secretary, Ministry of Housing & Urban Affairs (MoHUA), Government of India and HODs of various Departments / Organisations are members in the HLC, Secretary, CEO, DJB is Member Secretary / Nodal Officer of HLC. The HLC will oversee and guide the rejuvenation of Yamuna River in Delhi ensuring a comprehensive and sustainable approach to restore its ecological health and aesthetic value.

Vide another order dated 02.07.2025, issued by the Urban Development Department, Govt. of NCT of Delhi, an Executive Committee for Rejuvenation of River Yamuna under the chairmanship of Chief Secretary, GNCTD has been constituted for execution of the directions of above mentioned of HLC Chaired by Hon'ble Chief Minister, Delhi.

4.20 Agencies/ Departments involved / responsible for implementation of the Action Plan for Yamuna

Ministry of Jal Shakti, MoHUA, Government of India, Delhi Development Authority (DDA), Delhi Jal Board (DJB), Irrigation and Flood Control Department (IFCD), NMCG, CPCB, Delhi Pollution Control Committee (DPCC), DUSIB, CGWB, Public Works Department (PWD), Industries Department, Urban Development Department of GNCTD, Local Authorities & Municipal Corporation of Delhi.

5. WASTE MANAGEMENT

5.1 Municipal Solid Waste Management

Municipal Solid Waste is to be managed as per the provisions of Solid Waste Management Rules, 2016. Duties and responsibilities of Local Authorities & Village Panchayats, Urban Development Department, Waste Generators, District Magistrates, and other Departments / Agencies / Ministries are mentioned in the said Rules. 3 Local Bodies / Municipal Corporations in Delhi are responsible for the proper Solid Waste Management including its collection, processing & disposal. The detail of generation, processing and disposal of the municipal solid waste is briefed in the statement 8.4:

STATEMENT 8.4

MUNICIPAL SOLID WASTE GENERATION, PROCESSING AND DISPOSAL

7.	Disposal through Compost Pits (257 No)				558 TPD
8.	Recycling through MRFs Capacity				293 TPD
9.	Gap in MSW Processing Capacity				4221 TPD (35.6 %)
10.	Gap in MSW Processing				4401.8 TPD (37.1 %)
11.	Capacity of 4 Existing WTE Plants (Power generation capacity – 84 MW)				6550 TPD
	Note: Most of the Five- & Four-Star Hotels and Major Hospitals having 50 Beds or more have installed Organic Waste Convertor.				

(a) Municipal Solid Waste Processing and Disposal Facilities

There is one Integrated Solid Waste Management Facility at Bawana for processing of 2000 TPD of municipal solid waste having Waste to Energy Plant, Compost Plant and Engineered Sanitary Landfill. One Engineered Sanitary Landfill of MCD has been commissioned at Tehkhand on 12.03.2024.

(b) Waste to Energy Plants

Delhi has 4 Waste to Energy Plants (WTE Plants) of capacity 6550 TPD at 4 different locations in Delhi namely Okhla, Ghazipur, Bawana and Tehkhand. One new Waste to Energy Plant of capacity of 3000 TPD was proposed at Narela-Bawana. Public Hearing of the said proposed plant at Narela-Bawana was held on 27.12.2024. Environment Clearance (EC) accorded by MoEFCC on 18.06.2025. The 03 numbers of 400 KV transmission lines have to be shifted from the proposed sites. Necessary payment of shifting amounting to Rs 23.27 crore has been made to power grid on 19.06.2025. Work of shifting of transmission lines is likely to be completed by 30.06.2026. After shifting of the transmission lines the work at site can be taken up by the concessionaire who will require 2 years time to setup the plant.

Expansion of existing WTE at Okhla from 1950 TPD to 2950 TPD (from 23 to 40 MW Capacity) is proposed. Public Hearing for Expansion of existing WTE at Okhla was held on 16.08.2022 and Environmental Clearance has been issued by MOEF&CC. EC for expansion was accorded on 09.03.2023. DERC has accorded the approval of revised tariff on 09.07.2024 and directed the agency to approach for VGF funding. Accordingly, the department has requested for sanctioning of VGF amount of ₹ 50 Crores from GNCTD for providing lower Tariff for the consumer. MoHUA vide letter dated 01.07.2025 has conveyed that ₹ 50 Crore VGF will be met out of total SWM allocation of ₹ 1152.60 Crore earmarked for Delhi. To cover the project under SBM (U) 2.0, UT Govt has been advised to submit its CSWAP duly approved by SLTC. MCD has already submitted its CSWAP to Delhi Govt. The signing of supplementary agreement is under process and thereafter, 18 months time would be required for the commissioning of the plant.

Another waste to energy plant of 2000 TPD is also proposed at Ghazipur with timeline of December, 2027. After commissioning of above-mentioned proposed projects, the capacity of WTE Plants will enhance from 6550 TPD to 12550 TPD by 2027. MCD has finalized the tender documents and filed a petition before DERC in June 2023 seeking approval of the bidding process prior to inviting tenders. The matter was last heard on 01.05.2025. DERC vide order dated 06.06.2025 has permitted MCD to proceed with the transparent bidding process as per the laid down guidelines referred in Section 63 of the Electricity Act, 2003. Thereafter, approx. 3 years would be required to complete the setting up of WTE plant.

In case of Expansion of Existing Waste to Energy Plant at Tehkhand approval accorded by the Corporation and conveyed to the Concessionaire. The Concessionaire has filed application for ToR on 28.10.2024 in MoEFCC. The revised ToR application was filed on 21-07-2025. The ToR presentation was conducted on 12-08-2025, in front of the Expert Appraisal Committee (EAC). TOR was issued by MoEFCC on 16.09.2025. Public Consultation notice issued from DPCC for public suggestions by 29.10.2025. The EC is likely to be issued within 3 months. After obtaining EC, the Concessionaire will approach to DERC for tariff determination. Thereafter, a Supplementary Concession and Land Lease Agreements will be signed.

The brief of the existing operational Waste to Energy Plants in Delhi is given in the statement 8.5:

STATEMENT 8.5

Existing Operational Waste to Energy Plants In Delhi

S.No	Waste to Energy Plant & Name of Operator	Existing Capacity	
		Waste Processing (in TPD)	Electricity Generation Capacity(in MW)
1.	**Waste to Energy Plant at Okhla** (Operated by M/s Timarpur Okhla Waste Management Company Ltd.,Old NDMC Compost Site, Okhla)	1950	23
2.	**Waste to Energy Plant at Ghazipur** (Operated by M/s East Delhi Waste Processing Company Ltd., Ghazipur)	1300	12
3.	**Waste to Energy Plant at Bawana** (Operated by M/s Delhi MSW Solutions Ltd., Narela Bawana Road, Bawana)	1300	24
4.	**Tehkhand Waste to Electricity Project Limited,** Tehkhand, Delhi	2000	25
	Total	**6550**	**84**

STATEMENT 8.6

Proposed Waste Processing & Disposal Facilities in Delhi

S. No.	MSW Facility	No(s)	Location	Local Body	Capacity Addition (in TPD)	Timeline for Completion
1.	New Waste to Energy Plant at Narela-Bawana	1	Narela-Bawana	MCD	3000	December, 2027
2	New Waste to Energy Plant at Ghazipur	1	Ghazipur	MCD	2000	December, 2028
3	Expansion of Existing Waste to Energy Plant at Okhla	1	Okhla	MCD	1000 (From 1950 TPD to 2950 TPD)	March, 2027

S. No.	MSW Facility	No(s)	Location	Local Body	Capacity Addition (in TPD)	Timeline for Completion
4.	Expansion of Existing Waste to Energy Plant at Tehkhand	1	Tehkhand	MCD	1000 (From 2000 TPD to 3000 TPD)	December 2027
5.	Bio CNG Plant	1	Okhla	MCD	300 TPD (In place of existing Closed Compost plant of 200 TPD to 300 TPD)	December, 2026
6.	Compressed Bio Gas (CBG) Plant	1	Ghogha Dairy	MCD	100 TPD	Inaugurated on 26th September 2025.
7.	Compressed Bio Gas (CBG) Plant	1	Ghazipur	MCD	350 TPD	December, 2026 (The Change of Land Use (CLU) has been notified by MOHUA on 30.06.2025. The physical possession of land is awaited from DDA)
	Total	**7**			**7750 TPD**	

Note: 1**.** Bio-CNG Plants at Nangli Dairy (215 TPD, Inaugurated on 20th September 2025) and Goyla Dairy (215 TPD, Timeline for Completion: December, 2025) & Ghogha Dairy (290 TPD, Timeline for Completion: March, 2026). (These Plants are mainly for the Waste generated from Dairies and not included in total MSW Generation of 11000 TPD of MCD.
2. One Engineered Sanitary Landfill (SLF) at Tehkhand is commissioned on 12.03.2024.

5.2 (i) Compliance of Municipal Solid Waste Management Rules, 2016

Solid Waste Monitoring Committee (SWMC) headed by Hon'ble Lt. Governor, Delhi has been constituted by the Hon'ble National Green Tribunal vide order dated 16.02.2023 in OA No. 606/2018 in the matter of "Compliance of Municipal Solid Waste Management Rules, 2016, and Other Environmental issues." Chief Secretary, Delhi is Convener and Secretaries/HODs of various Ministries / Departments of Govt. of India / Delhi are members of the said Committee.

An Action Plan for Solid Waste Management in Delhi has been prepared and an order dated 06.04.2023 has also been issued by Worthy Chief Secretary, Delhi.

(ii) Remediation of Legacy Waste (Old MSW) from the 3 Dumpsites in Delhi

There are 3 Dumpsites at Ghazipur, Bhalaswa and Okhla in Delhi where Municipal Solid Waste have been dumped in the past for several years accumulating legacy waste of 280 Lakh Tons.

STATEMENT 8.7

Status of Bio-Mining of Legacy Waste at 3 Dumpsites at Okhla, Ghazipur & Bhalaswa

S.No	Dumpsite	Legacy Waste (Volumetric Assessment through Drone Survey, June 2022) Above Ground	FY 2022-23 (July 2022 - March 2023)			FY 2023-24 (April 2023 - March 2024)			FY 2024-25 (April 2024 - March 2025)			FY 2025-26 (April 2025 - Feb 2026)		
			Fresh Waste Disposal	Legacy Waste Remediated	Balanced Quantity	Fresh Waste Disposal	Legacy Waste Remediated	Balanced Quantity	Fresh Waste Disposal	Legacy Waste Remediated	Balanced Quantity	Fresh Waste Disposal	Legacy Waste Remediated	Balanced Quantity
1	*Bhalswa*	73	5.80	6.70	72.10	10.56	31.30	51.36	11.99	14.27	49.08	12.54	31.43	30.19
2	*Ghazipur*	85	5.10	6.40	83.70	6.60	7.10	83.20	6.50	5.00	84.70	6.72	17.24	74.18
3	*Okhla*	45	4.70	8.80	40.90	5.98	15.94	30.94	10.14	10.67	30.41	11.48	25.44	16.45
TOTAL		**203**	**15.60**	**21.90**	**196.70**	**23.14**	**54.34**	**165.50**	**28.62**	**29.93**	**164.19**	**30.74**	**74.11**	**120.82**

i. The legacy waste remediation activity being implemented by the Urban Development Department, GNCTD, at Bhalswa, Ghazipur and Okhla dumpsites has demonstrated steady progress since the baseline assessment of 203 lakh metric tonnes (LMT) established through a drone survey in June 2022. The interventions undertaken over successive financial years indicate a clear shift towards systematic reduction of accumulated waste. A distinct improvement is observed in FY 2025–26 (April 2025 to February 2026), which marks the most substantial progress to date. During this period, 74.11 LMT of legacy waste has been remediated, representing the highest annual processing achieved so far. This accelerated pace has resulted in a sharp reduction of the balance quantity to 120.82 LMT, even after accounting for 30.74 LMT of fresh waste disposed during the same period. The magnitude of reduction achieved within a single year highlights a marked strengthening of execution capacity and operational efficiency. The data reflects that the remediation programme has entered a phase of accelerated impact, with the most recent year contributing significantly to overall reduction in legacy waste. Bhalswa and Okhla dumpsites continue to show substantial decline in pending waste, while Ghazipur has also registered steady progress. The deployment of 62 trommels across the three sites has supported this enhanced performance by augmenting processing capacity and enabling sustained operations.

5.3 Biomedical Waste

5.3.1 Total Bio-medical Waste Generation : 33.62056 TPD
No. of Hospitals and Health Care Facilities : 11133
No. of Beds with HCEs : 63450
Status of Treatment Facility/ CBMWTF : Treatment & Disposal through existing 2 CBMWTFs (Common Bio-medical Waste Treatment Facilities)

There are following 2 CBMWTFs having Capacity of 62.8 TPD for collection and Treatment of the Bio-medical waste generated from the Health Care Establishments in Delhi:

- M/s Biotic Waste Solutions Pvt. Ltd., 46-47, SSI Industrial Area, G.T. Karnal Road, Delhi -110033
- M/s SMS Water Grace BMW Pvt. Ltd., Nilothi Sewage Treatment Plant Complex of DJB, Nilothi, Delhi -110041.

5.3.2 Both the CBMWTFs are having Incinerators, Autoclaves & Shredders for the treatment of Bio Medical Waste collected from the Health Care Establishments in Delhi and have installed Air Pollution Control System and Online Monitoring System. Bio-medical Waste including COVID – 19 waste is being dealt as per the provisions of the Bio Medical Waste Management Rules, 2016 and Guidelines issued by CPCB from time to time.

5.4 Electronic Waste

5.4.1 As per the E-Waste (Management) Rules, 2022, which came into effect on 1st April 2023, entities falling under the categories of Manufacturer, Producer, Refurbisher and Recycler are required to register on the Central Pollution Control Board (CPCB) Extended Producer Responsibility (EPR) portal. There is no such recycling facility in Delhi. Only Bulk Consumers are being pursued for disposal of e-waste, through scientific manner by having MoU/Agreement with CPCB registered recyclers.

5.4.2 3 Dismantlers and 13 Refurbishes have been issued consent/authorization by DPCC as per E-Waste rules and CPCB guidelines.

5.4.3 The Government of NCT of Delhi, through DSIIDC as the executing agency, is developing an E-waste Eco Park in Holambi Kalan to manage E-waste in the region. M/s E&Y Co. LLP was appointed as the Project Management Consultant (PMC) via an open E-tender and their preliminary report was approved by the Steering Committee on 13.12.2023. The Eco Park will be developed on a PPP model, and a request to change the land use from residential to utility has been submitted to DDA. Land for establishing the E-Waste Eco Park at Holambi Kalan has been allotted by DDA to the Department of Environment. MoHUA,

vide notification dated 18th June 2025, has approved the change of land use from residential to utility. The Department of Environment has also requested DDA to formally hand over the site so that the project can be initiated.

5.5 Plastic Waste

The plastic menace poses a significant environmental challenge in Delhi, with single-use plastics contributing heavily to pollution and health risks for humans, animals, and plants. Globally, single-use plastics, made primarily from fossil fuels, account for one-third of all plastic produced. India has completely banned single-use plastics, with penalties of up to ₹15 lakh or imprisonment for violations under the Environment Protection Act, 1986.

Plastic Waste Management Rules, 2016 as amended in 2018 issued by MoEF& CC, GOI

The rules cast responsibilities on various stakeholders including generators, producers, Urban Local Bodies, Urban Development Department, Local Administration and the Pollution Control Board/ Committee.

Prescribed Authority	Mandate
The State Pollution Control Board and Pollution Control Committee	Registration, Manufacturing & Recycling
The concerned Secretary-in-charge of Urban Development Department of States / UTs	Waste Generator, Use of plastic Carry bags, sheets or like etc.
The concerned Gram Panchayat shall be the authority in the villages	Waste Generator, Use of plastic Carry bags, sheets or like etc.
District Magistrates	Assisting above authorities in enforcement of the PWM Rules within territorial limits.

Status of Plastic Waste generation: 1155.7 Tons/day (approx)

5.6 Ban on Single-Use Plastics

As per Condition No. 4(2)(a & b) of the Plastic Waste Management (Amendment) Rules, 2021 (notified on 12.08.2021), the manufacture, import, stocking, distribution, sale and use of 19 specified single-use plastic items— including plastic sticks (earbuds, balloons, flags, candy, ice-cream), polystyrene/thermocol for decoration, and items such as plates, cups, glasses, cutlery, straws, trays, wrapping films for sweet boxes, invitation cards and cigarette packets, plastic/PVC banners below 100 microns, and stirrers (except compostable plastic)—stand prohibited from 1st July 2022.

Action Taken by Department of Environment to eliminate Single Use Plastic & to promote alternatives to SUPs in Delhi:

Special Task Force: Department of Environment, Government of National Capital Territory of Delhi constituted the Special Task Force under the Chairmanship of Chief Secretary, Delhi which is reviewing the implementation of PWM rules and making efforts for eliminating single use plastic from Delhi.

Information, Education and Communication (IEC) Plan: IEC plan for different stakeholders was prepared for execution by all stakeholder departments including education, Urban Local Bodies (ULBs), Department of Environment, Delhi Pollution Control Committee (DPCC) etc.

Advisory on phasing out SUP items: The Advisory on phasing out SUP items was issued dated 28th Feb, 2025 for government offices of Govt. of NCT of Delhi. Department of Environment requested to the Directorate of Education and Directorate of Training & Technical Education, GNCTD to initiate and give wider publicity among school & college students.

Training and Sensitization Programmes on Single Use Plastics and Plastic Waste Management (Amendment) Rules, 2022:

Various training and sensitization programmes were conducted with ULBs, Eco-Clubs (schools and colleges), the Revenue Department, DPCC enforcement teams, and Market Traders' Associations from April 2025 to December 2025. Under the EEP Scheme of MoEF&CC, the Department of Environment organised multiple workshops through Eco-Club schools during the current FY. Additionally, a sensitization programme was assigned to TERI to sensitize school and college students on biodiversity, climate change, and prevention of plastic pollution.

The Government of Delhi imposed a ban on the manufacture, sale, storage, use, import, and transport of all plastic carry bags in the NCT of Delhi vide Notification dated 23.10.2012. This notification was challenged before the Hon'ble Delhi High Court by the All India Plastic Industries Association (WPC 7012/2012). On 05.12.2016, the Hon'ble High Court transferred the matter to the Hon'ble NGT, which, through an interim order dated 10.08.2017, directed a complete prohibition on the use of non-compostable plastic carry bags of less than 50 microns, along with an Environmental Compensation of ₹5,000 per violation. Subsequent amendments to the PWM Rules, 2022 permitted plastic carry bags of more than 120 microns thickness across India.

Implementation of the Ban on Single-Use Plastics (SUP)

Till 2025, 4,540 hotspots (commercial establishments/institutions) were identified, and 44 industries manufacturing banned SUP items were shut down. Fines ₹ 26, 30,000/- were imposed and 38.65 tonnes of banned SUP items were seized, with disposal through co-processing. Seized over 8739 kg of banned plastic items and issued 383 no. of challans during the collection drives or campaigns.

Research & Development Study: Research & Development Study:

The Department of Environment conducted three R&D studies to assess the current status of water pollution and the impact of plastic waste, with the objective of generating reliable data to support effective pollution-control measures in Delhi. The studies undertaken are:

- Study on Single-Use Plastic in Delhi
- Study on Yamuna Frothing in Delhi
- Study on Micro plastics in Yamuna River and Ground Water in Delhi

5.7 CONSRUCTION AND DEMOLITION WASTE MANAGEMENT

- Existing operational C&D Waste - 4 (Capacity - 5000 TPD
- Proposed New C&D Waste - 1 (Capacity - 1000 TPD)
- Existing operational C&D Waste Processing Facilities are located at

- Jahangirpuri (Burari) - 2000 TPD
- Rani Khera - 1000TPD
- Shastri Park - 1000 TPD
- Bakkarwala - 1000 TPD
- Rani Khera (Mundka of DMRC) - 150 TPD

- **Proposed C&D Waste Processing Facility (One No):**

One C&D Processing Facility of 1000 TPD capacity in 7 acres of reclaimed land at Okhla Dumpsite for 2 zones i.e. Central and South is proposed. The bids have been received and after completion of technical evaluation, the financial bid opened on 30.10.2024 and Rate & Agency has been approved by the Competent Authority and Letter of Intent has been given to the Agency. The Likely date of commissioning will be December 2026.

Processed construction and demolition material is used for making tiles/ pavement blocks and also for ready-mix concrete, aggregates etc.

5.8 **Hazardous Waste –**

- Total Hazardous Waste Generation : 4260.587MT/year (11.67 TPD)
- No. of Industries generating Hazardous Waste : 2714
- Treatment Capacity of all TSDF : 1,13,000 MT
  (There is only one TSDF in Delhi at Bawana) : 55,000 MT
  (Initially Cell 2 was put in operation and has filled-up): 58,000 MT

Particular	2024-2025 (in MT)	Hazardous Waste Received at TSDF (September, 2025)
Landfillable Hazardous Waste Disposed in SLF	12124.152	334.25 MT (Average – 11.14 MT/Day)
Incinerable Hazardous Waste Disposed through Incinerator	355.730	

TSDF for Hazardous Waste at Bawana:

Delhi Govt. has set up the TSDF for disposal of hazardous waste of Delhi at Bawana. DSIIDC had been assigned the task of setting up of TSDF through M/s Tamil Nadu Waste Management Ltd. M/s Tamil Nadu Waste Management Ltd. has been granted Consent to Establish by DPCC on 31.12.2020.Consent to Operate under the Air & Water Acts and authorization under the Hazardous and Other Wastes (Management and Trans boundary Movement) Rules, 2016 have been issued by DPCC to the Project Proponent on 04.03.2022 for Secured Land Fill (SLF), Incinerator and Associated Activities. TSDF is in operational.

6. Climate Change Mitigation Measures

6.1 In order to address the challenges of climate change, Delhi Government has finalized Delhi Climate Change Action Plan which is aligned with National action plan on climate change.

6.2 Following sectors have been identified as critical to the impact of climate change and comprehensive strategies have been drawn in State action plan on climate change.

a) Enhanced Energy Efficiency
b) Sustainable Habitat
c) Green India
d) Water Mission
e) Strategic Knowledge
f) Solar Mission

6.3 Department of Environment has engaged Deutsche Gesellschaft fur International

Zusammenarbeit (GIZ-India) for the revision of State Action Plan on Climate Change Delhi (SAPCC) as per the common framework guidelines for Revision of SAPCC provided by MoEF&CC, GOI. Revision of State Action Plan on Climate Change (SAPCC) for Delhi is in alignment with India's Nationally Determined Contributions (NDCs) under the Paris Agreement, the Sustainable Development Goals (SDGs), and prevalent national policies and missions. Revised SAPCC also known as SAPCC 2.0 outlines key initiatives and strategies reflecting our state's commitments and proposed actions to address climate change vulnerabilities across key identified sectors, including Energy. Urban Planning, Water Resources, Forests and Biodiversity, Transport, Health, Agriculture and Horticulture. It envisions a sustainable, inclusive, and climate-resilient low-carbon development pathway, with a focus on both adaptation and mitigation, while ensuring the protection of vulnerable communities from the adverse effects of climate change. The SAPCC 2.0 has been finalized, approved by the Delhi Government, and submitted to MoEF&CC for final approval.

7. Green Delhi App

7.1 Green Delhi app has been developed for information, awareness and redressal of grievances of the citizens at single platform. Govt. of Delhi launched Green Delhi App having 30 agencies of Delhi on one platform. The grievances uploaded on Green Delhi App are monitored through Green War Room. Further, the "Green Delhi" App developed by Department of Environment and Forests. More than 1,00,840 complaints received through this app and resolution of more than 91% complaints is done.

For efficient functioning of the GWR, the following five stakeholders are responsible:

1. In charge GWR: to carry out overall operation of the GWR.
2. DPCC Trainees: to carry out day to day operation of GWR.
3. Nodal officers of Agencies: for timely resolution of complaints within their Departments.
4. DPCC Engineers: Cell In charge(s) of DPCC are responsible for taking action on the complaints including imposing EDC on the agencies responsible for redressal of complaints, in case of default.
5. Green Delhi App IT Team (DPCC): Responsible to manage Green Delhi App Dashboard and other IT requirements of the GWR.

8. DELHI PARKS AND GARDENS SOCIETY (DPGS)

8.1 Delhi Parks and Gardens Society (DPGS) maintain parks and gardens of Delhi. DPGS involves RWAs /NGOs, in maintaining and developing parks of Delhi with the objective to increase the greenery in Delhi. It provides financial

assistance to RWAs /NGOs/Societies and financial assistance was increased w.e.f. 02.11.2020 from ₹ 2.00 lakhs per acre to ₹ 2.55 lakhs per acre per year for maintenance of parks and gardens without STPs and ₹ 2.80 lakhs per acre including STPs, ₹ 3.55 lakhs per acre for creation / development of new parks without maintenance cost of STPs. One-time financial assistance for setting up of decentralized STPs increased from ₹ 2.00 lakhs to ₹ 3.50 lakhs per acre in Delhi, based on the NOC from the concerned land-owning agency, Delhi Jal Board and the area MLA.

8.2 The Wetland Authority of Delhi was constituted on 23rd April 2019 under the Department of Environment and Forests, GNCTD. The Authority in coordination with seventeen water body owning agencies.

8.3 Water bodies are spread over the entire area of Delhi. These water bodies are under the management and control of different authorities which have ownership of the land on which such water bodies exist.

8.4 Achievements

A. Delhi Parks and Garden Society

DPGS maintained greenery in **1,564 parks covering 452.944 acres** through **341 RWAs/NGOs**, with financial assistance of **₹965 lakh** during **01.04.2025–31.12.2025**, and distributed **3,39,173 plant saplings free of cost** to RWAs, institutions, armed forces, and the general public across Delhi.

During financial year 2024-2025, financial assistance of ₹ 705.48 lacs for maintenance of parks and gardens was provided for an area measuring 436.00 acres with the participation of 329 RWAs /NGOs/Societies covering 1483 number of parks and distributed **2,93,148 plant saplings free of cost** to RWAs, institutions, armed forces, and the general public across Delhi.

B. Wetland Authority of Delhi

Wetland Authority of Delhi has inventoried and reconciled 1080 water bodies in Delhi through coordination with 17 water body owning agencies. Prepared statutory **brief documents for 744 wetlands**, engaged **134 Wetland Mitras**, protected **30 wetlands in Reserve Forests**, and initiated notification of **Welcome Jheel**.

9 FOREST IN DELHI

9.1 Delhi has the unique distinction as the greenest city in the country with 25.04% of total geographical area of the state under Green Cover (*India State of Forest Report, 2023)*. The Delhi government is making sustained efforts to enhance the green cover in Delhi with aim to maintain a balance between ecology and development.

9.2 As per Champion and Seth classification the forest types of Delhi fall broadly into two groups: (i) 5B/C2 Northern dry mixed deciduous forest and (ii) 6B/C2 Ravine thorn forest. The vegetation of Delhi is thorny scrub, which is found in the arid and semi-arid zone

9.3 The green cover of Delhi is increasing year after year on the lines of National Forest Policy, 1988 which stipulates that a minimum of 1/3rd of the total land area of the country should be under forest or tree cover. Taking the above in view, the Govt. of NCT of Delhi is making all endeavors to meet the national goal as set by the Central Govt. and is constantly adding to the green cover of the State Government. As a result of the initiatives taken by the Government of NCT of Delhi, forest and tree cover area has been increasing since last ten years which is reflected in the change in forest and tree cover given in statement 8.8:

STATEMENT 8.8

FOREST AND TREE COVER AREA OF DELHI 1997-2023

(Area in Sq. Km)

S.No.	Year	Forest and Tree Cover	Absolute Increase in Area	% of Total Area
1.	1997	26	--	1.75
2.	1999	88	62	5.93
3.	2001	151	63	10.20
4.	2003	268	117	18.07
5.	2005	283	15	19.09
6.	2009	299.58	16.58	20.20
7.	2011	296.20	-3.38	19.97

10. Water Conservation by Wetland Authority of Delhi

10.1 The Wetland Authority of Delhi was constituted on 23rd April 2019 under the Department of Environment and Forests, GNCTD. The Authority in coordination with sixteen water body owning agencies

10.2 Inventorisation and reconciliation of 1040 water bodies in Delhi is completed through coordination with 17 water body owning agencies.

10.3 Seven Districts has been identified model ponds (North, North West, South, South West, New Delhi, North East and West). Bench marks for Model Ponds prepared and sent to all District Magistrates by Wetland Authority of Delhi.

10.4 Brief Documents in prescribed format of Ministry of Environment Forest and Climate Change, Government of India, is a statutory requirement under Wetland Rules, 2017. This crucial document which contains ecological

attributes and management challenges of the water body has been prepared in respect of 685 water bodies of Delhi.

10.5 Hon'ble NGT had directed preparation of action plans for restoration of all wetlands. These action plans which propose conservation actions to be done in each water body have been completed in respect of 685 water bodies.

10.6 Citizen engagement and public participation in the conservation of wetlands is planned through declaring wetland mitras, who can assist the authority in protection and restoration of wetlands.

10.7 In pursuance of Wetlands (Conservation and Management) Rules, 2017 a Technical Committee under Chairmanship of Dr. Madhu Verma, Chief Economist at the World Resources Institute at Delhi consisting of six wetland experts formed on 01.07.2021.

10.8 In pursuance of Wetlands (Conservation and Management) Rules, 2017 a "Grievance Committee under Wetland Authority of Delhi was constituted on 01.07.2021 as a mechanism for hearing and forwarding grievances raised by the public to the Wetland Authority on Wetlands falling under their respective jurisdiction.

10.9 The future plan of the Wetland Authority is to prepare a protocol for catchment area management, evolving low-cost restoration techniques, and actively engage, coordinate and help land owning agencies to prioritize wetlands based on the brief documents prepared and notify them, thus ensuring long term protection and conservation of wetlands in Delhi.

10.10 **Fire Prone Forest Classes**

Geographical area GNCTD having only less fire prone forest cover of 197.67 sq km including scrub (ISFR 2023).

11. Asola Bhatti Wild Life Sanctuary

11.1 Asola Bhatti Wildlife Sanctuary is located in South Delhi, close to Tughlakabad Fort. The Wildlife Sanctuary harbors diverse flora and fauna and offers a vital green space in the city. It was founded in 1992 with the purpose to safeguard the wildlife in the area between Delhi and Surajkund (Delhi-Haryana border). The Southern Ridge's legal status was deemed unclear until 1986, when the villages of Asola, Sahurpur and Maidangari received notification of their community land (2679.29 acres), followed by notifications of the land of Bhatti village area (2166.28 acres) in 1991 and the land of Tughlakabad village area (29.64 acres) in 1992.

11.2 Asola Bhatti Wildlife Sanctuary is home to a diverse range of flora and fauna. The sanctuary is known for its rich avian diversity, with over 200 species of birds recorded, including the Indian Peafowl, Eurasian thick-knee, and Indian Eagle-Owl. During winters, the Neeli Jheel is visited by migratory species such black-winged stilts and tufted ducks. Asola Bhati is home to several mammals such as the Indian Leopard (Panthera Pardus), Striped Hyena (Hyeana Hyeana), Nilgai (Boselaphys Tragocamelus), Golden Jackal (Canis Aureus), and Indian Porcupine (Hystrix Indica). Camera trapping studies have helped identify at least 8 resident leopards in the sanctuary. Reptiles like the Bengal Monitor Lizard (Varanus Bengalensis), Indian Rock Python (Python Molarus), Indian Cobra (Naja Naja), Leopard Gecko (Eublepharis Macularius) can be found here as well. Asola Bhatti's varied habitats, includes scrubland, grassland, and rocky terrain which support the rich biodiversity, making it a valuable conservation area amidst the urban landscape of Delhi.

11.3 The Forest Department has enhanced eco-tourism at the sanctuary. Visitors can immerse themselves in the sanctuary's diverse habitats, while encountering a rich variety of flora and fauna. The Neeli Jheel is an ideal peaceful retreat offering birding and nature gazing space. Nature walking trails, cycling tracks and Conservation Education Centre have been functioning to help the visitors make their visit both fun and educational. The Asola Bhati Butterfly Park, inhabited by a variety of butterflies such as the common Pierot, Red Pierot, Danaid Eggfly, Blue Pansy etc. Three nurseries growing a wide variety of plants ranging from fruiting, medicinal to aesthetics and flowering ones have been developed at Asola Bhati.

11.4 The sanctuary's serene surroundings provide a perfect solace from city life, making it an ideal destination for nature enthusiasts and eco-conscious travelers seeking to connect with Delhi's natural heritage while contributing to its preservation.

11.5 **Details of City Forests under Department of Forest & Wildlife, GNCTD:**

Keeping the objective of having more green/tree cover in Delhi and resultant benefit on environment, Department of Forest and Wildlife, Govt. of NCT of Delhi has created and planned to create City Forests at following sites:

CITY FORESTS DEVELOPED IN DELHI

S. No.	Name of City Forest
1.	Mitraon City Forest-Pkt A
2.	Mitraon City Forest-Pkt B
3.	Nasirpur City Forest
4.	Alipur City Forest
5.	Mukhmelpur City Forest

12. Major Achievements of F.Y 2025-26:

12.1 The Department of Forests and Wildlife, GNCTD is working actively to increase and protect the green cover and the wildlife of the city state. To increase the green cover of the State, annual plantation drives are being carried out every year under Green Action Plan (GAP). GAP is implemented by Department of Forests and Wildlife, Govt. of NCT of Delhi, being the Nodal Agency in collaboration with more than 20 other Greening Agencies of the State. Every year the target for annual Green Action Plan is decided after consultation with all the Greening agencies.

12.2 During 2024-25 the Department of Forest and Wildlife, Govt. of NCT of Delhi with other greening agencies have planted 57.55 lakh saplings (including plantation of 13.48 lakh trees, 37.56 lakh shrubs and 6.51 lakh bamboos and free distribution of 10.43 lakh seedlings) against the plantation and distribution target of 64.14 lakh saplings.

12.3 During the Green Action Plan (GAP) 2025-26, the Department of Forests and Wildlife (GNCTD), in collaboration with 21 greening agencies, achieved a significant milestone by planting 53.70 lakh saplings as of January 2026. This achievement comprises 4.81 lakh trees, 41.82 lakh shrubs, and 2.03 lakh bamboos, complemented by the strategic distribution of 5.03 lakh seedlings to the public.

STATEMENT 8.12

Plantation Work (including free distribution of saplings) in Last 10 Years by all the Greening Agencies of Delhi (including Forest Department)

S. No.	Year	Plantation	Distribution	Total
1.	2016-17	21,04,246	3,71,419	24,75,665
2.	2017-18	16,08,105	3,74,000	19,82,105
3.	2018-19	24,59,730	4,36,086	28,95,816
4.	2019-20	23,45,274	5,24,242	28,69,516
5.	2020-21	25,80,144	6,60,678	32,40,822
6.	2021-22	27,75,539	7,20,109	34,95,648
7.	2022-23	38,60,955	9,03,261	47,64,216

10.	2025-26 (up to 15th Jan 2026)	48,67,314	5,03,672	53,70,986

STATEMENT 8.13

PLANTATION BY FOREST DEPARTMENT FROM 2016-17 TO 2025-26

S. No.	Year	Plantation by Forest Department (in Lakhs)
1.	2016-17	2.96
2.	2017-18	1.29
3.	2018-19	4.51
4.	2019-20	5.21
5.	2020-21	5.48
6.	2021-22	5.67
7.	2022-23	10.80
8.	2023-24	16.38
9.	2024-25	14.11
10	2025-26 (Till 15th Jan 2026)	1.08

12.4 The Department of Forests and Wildlife, GNCTD has achieved a significant milestone by notifying 4080.82 ha of Southern Ridge as Reserve Forest under the Indian Forest Act, 1927 on 24.10.2025. This expansion of the Reserved Forest (RF) area to 4,176.98 ha, fundamentally reinforces the legal framework and long-term efficacy of institutional conservation efforts.

12.5 The department issued key Gazette Notifications related to the Delhi Preservation of Trees Act (DPTA), 1994. On 24.04.2025, the Standard Operating Procedure (SOP) for tree felling/transplantation was issued. On 02.05.2025, the SOP for tending and pruning of trees as per the provisions of the DPTA, 1994 was notified. Further, on 06.06.2025, a notification was issued giving Directions to Tree Officers under Section 33 of the Act regarding Section 8 of the DPTA, 1994.

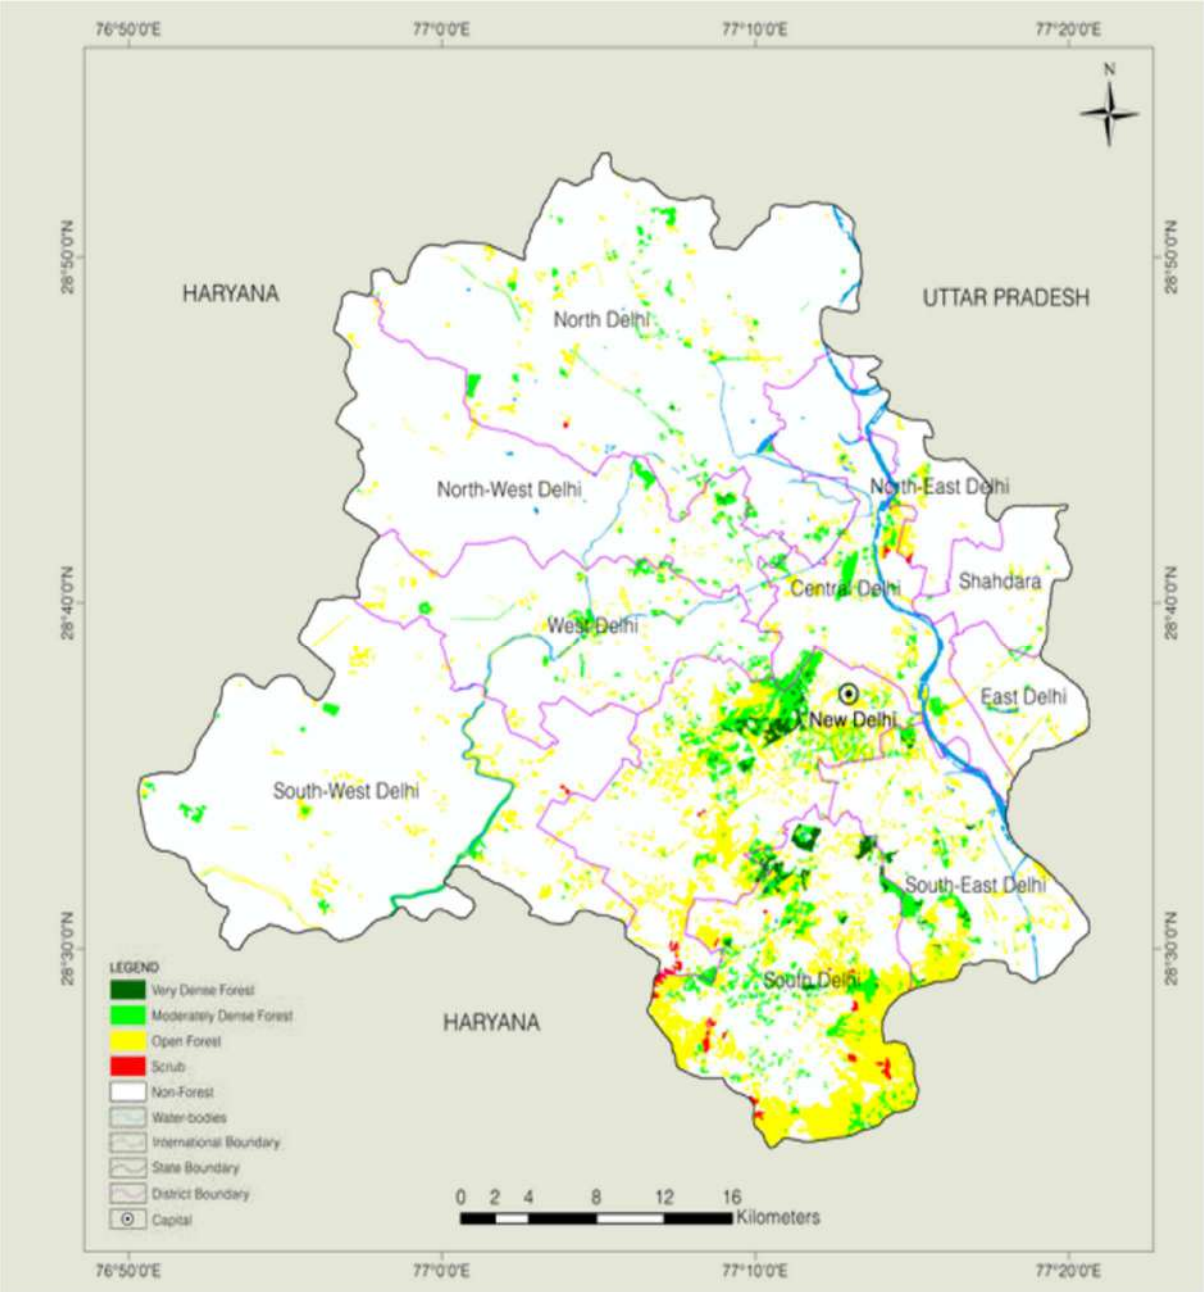

12.6 The Working Plan for the Forests of Delhi (2026–27 to 2035–36) has been prepared for the first time by the Forest Research Institute (FRI), Dehradun, marking a significant achievement for the department. It has been approved by the Regional Office of MoEF&CC, Lucknow on 08.11.2025.

12.7 (i) Van Mahotsav 2025: The Department of Forests and Wildlife (GNCTD) organised a month-long plantation campaign for Van Mahotsav 2025, launched by the Hon'ble Chief Minister on July 3rd at the Central Ridge. A key achievement was large-scale exhibition at Bharat Mandapam featuring 25 nurseries stalls and 72 specialized stalls, with participation from renowned organizations like WWF and TERI.

(ii) From July 5–31, the Department organized daily thematic plantation drives across 14 locations, involving Hon'ble Ministers, MPs, MLAs, and the general public. A major highlight was the VVIP plantation drive at PBG Polo Ground, where the Hon'ble Chief Justice of India and other judges of Hon'ble Supreme Court and Delhi High Court, and members of the NGT participated in the "Ek Ped Maa Ke Naam" initiative. Through the strategic involvement of religious institutions, Padma awardees, and business leaders, the Department successfully institutionalized the plantation drive as a comprehensive state-wide movement.

12.8 On September 18, 2025, the Department of Forests and Wildlife (GNCTD), in collaboration with the MEA and MoEF&CC, coordinated a landmark international plantation drive with participation of diplomats from 71 countries. The event was attended by Hon'ble Union Minister Shri Bhupender Yadav, Hon'ble Chief Minister Smt. Rekha Gupta, and Hon'ble Environment Minister Sh. Sardar Manjinder Singh Sirsa, underscoring India's global sustainability goals.

CHART 8.7
FOREST COVER MAP OF DELHI

Source: India State of Forest Report, 2023

CHAPTER AT A GLANCE

➢	The present Government in Delhi treated Environment as a moral responsibility by not just taking air pollution as a seasonal crisis, but as a structural challenge for which Government has implemented concrete solutions such as e-mobility, bio-decomposers, waste-to- energy projects and new dust control equipment's. Further, long term and practical solutions have been adopted to ensure lasting impact.
➢	With concerted efforts of departments towards air pollution control, 'Good days' (good/satisfactory/moderate days together) have increased from 159 in 2018 to 200 in 2025.
➢	Delhi Parks and Gardens Society (DPGS) maintained greenery in 1,564 parks covering 452.944 acres through 341 RWAs/NGOs, with financial assistance of ₹965 lakh during 2025-26 (upto December, 2025), and distributed 3,39,173 plant saplings free of cost to RWAs, institutions, armed forces, and the general public across Delhi. During financial year 2024-2025, financial assistance of ₹ 705.48 lacs for maintenance of parks and gardens was provided for an area measuring 436.00 acres with the participation of 329 RWAs /NGOs/Societies covering 1483 number of parks.
➢	As per the India State of Forest Report (ISFR), 2023 the total Forest and Tree cover of NCT of Delhi has become 25.04% (371.31 Sq km) of its geographical area. The percentage of Forest and Tree cover of Delhi at 25.04% is almost equal to national average figure. The Green Cover has increased by 4.89 Sq., km from 2021 to 2023, which is attributed to increase in Tree Cover.
➢	The Department of Forests and Wildlife, GNCTD has achieved a significant milestone by notifying 4080.82 ha of Southern Ridge as Reserve Forest under the Indian Forest Act, 1927 on 24.10.2025. This expansion of the Reserved Forest (RF) area to 4,176.98 ha, fundamentally reinforces the legal framework and long-term efficacy of institutional conservation efforts.
➢	During the Green Action Plan (GAP) 2025-26, the Forest Department, GNCTD, in collaboration with 21 greening agencies, achieved a significant milestone by planting 53.70 lakh saplings as of January 2026. This achievement comprises 4.81 lakh trees, 41.82 lakh shrubs, and 2.03 lakh bamboos, complemented by the strategic distribution of 5.03 lakh seedlings to the public. Through the strategic involvement of religious institutions, Padma awardees, and business leaders, the Department successfully institutionalized the plantation drive as a comprehensive state-wide movement.
➢	Various environmental events were celebrated during CFY 2025-26 which included World Earth Day, World Biodiversity Day, World Environment Day (as Harith Uthsav), Van Mahotsav.

****

CHAPTER 9

INDUSTRIAL DEVELOPMENT

Industrial development in the National Capital Territory (NCT) of Delhi is moving away from traditional chimneys toward “smart” production and characterized by a strategic shift from traditional heavy manufacturing to a sophisticated, service-oriented, and high technology ecosystem through knowledge-based, IT/ITeS, and small-scale sectors, driven by its service economy, trade hub status, and focus on sustainable, clean growth.

Delhi State Industrial and Infrastructure Development Corporation (DSIIDC) is developing modern estates and flatted factories, aiming for "walk-to-work" environments and supporting skill development. Delhi is one of the largest centers for small industries in the country, manufacturing a diverse range of goods including textiles, automobile parts, electronics, and software. This Sector has a proven vast potential to play a leading role in the overall development of the national economy. Delhi has a service-led economy, strong in professional, IT, and trade services with majorly focus on frontier technologies like Artificial Intelligence (AI), robotics, biotechnology, and green energy. Industrial policy promotes high-tech, knowledge-based, and non-polluting industries.

1. Growth statistics:

- Delhi comes under Front Runner category in the country in SDG i.e., “SDG India Index and Dashboard 2023-24”as per NITI Aayog.
- Good progress under the Business Reform Action Plan scheme came under “Emerging Business Ecosystems category” in 2022.
- In the Logistics Ease Across Different States (LEADS) 2024 report, Delhi was recognized in the ‘Achievers’ Category among the Union Territories

2. Infrastructure Details:

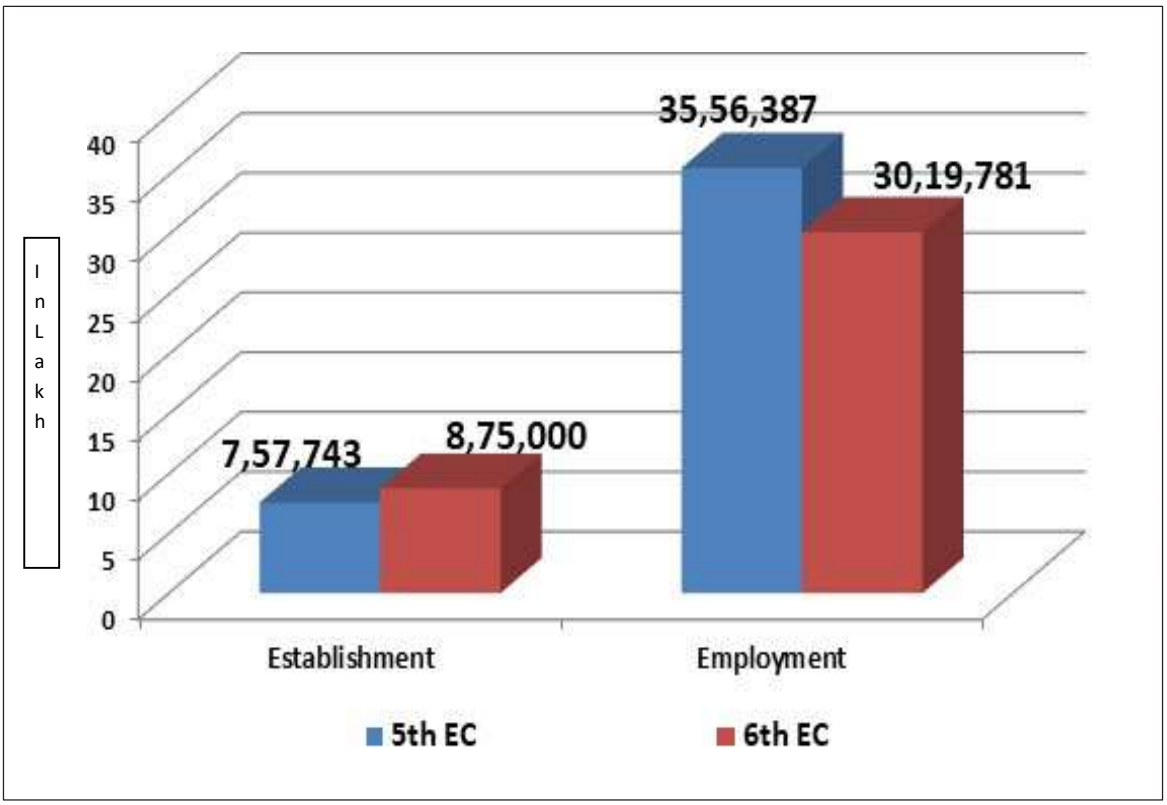

- Infrastructure and institutional setup is created & redeveloped through redevelopment of conforming and non-conforming industrial areas through Delhi State Industrial & Infrastructure Development Corporation Limited (DSIIDC) & Delhi Development Authority (DDA) in some of the industrial areas across the City.
- There are 29 planned Industrial Areas and 4 flatted factory complexes in Delhi. Additionally, the Government of India and State Government have notified 27 non-conforming industrial/godown clusters for redevelopment as per norms for redevelopment mentioned in MPD-2021/ draft MPD-2041.

3. Growth of Establishment and Employment in Delhi as per 6th Economic Census

3.1 As per 6thEconomic Census 2013, 8.75 Lakh establishments were operating in Delhi, 1.42% were in rural areas and 98.58% in urban areas. Sixth Economic Census registered an annual growth rate of 1.94%, and a total of 1.18 lakh more establishments were added in the 6th Economic Census 2013 over 5th Economic Census 2005. Out of the total establishment, 54.55% were Own Account Enterprises (OAE) and 45.45% were establishments with at least one hired worker {Estt(H)}. 30.20 lakh persons were employed in 8.75 lakh establishments with an average of 3.45 employees per establishment. Out of the total, 0.9% persons were employed in rural areas, whereas, 99.1% were engaged in urban areas of Delhi. 8.05 % of the total establishments were managed by women entrepreneurs.

3.2 The Chart 9.1 captures numbers of establishments and persons employed as per the Fifth Economic Census (2005) & Sixth Economic Census (2013).

CHART 9.1
GROWTH OF ESTABLISHMENT AND EMPLOYMENT

From the above, it may be seen that number of establishments, 5th Economic Census to 6th Economic Census, have increased from 7,57,743

to 8,75,000 but the number of persons employed have gone down from 35,56,387 to 30,19,781. It is mainly because of establishments with large scale employment has shifted from Delhi to other neighboring areas/ states due to various reasons including stricter pollution norms.

3.3 District wise number of establishments and number of persons employed as per 6th economic Census is as under:-

STATEMENT 9.1

Districts	No. of Establishments	No. of Persons employed
Central	1,50,671	5,99,058
West	1,06,726	3,13,574
North-West	93,297	2,86,189
North-East	86,597	1,83,313
East	80,061	2,15,979
South-East	75,049	3,52,562
North	73,724	3,18,960
Shahdara	71,738	2,29,663
South	57,126	1,45,304
South-West	42,166	1,05,954
New Delhi	38,153	2,69,225
Total	**8,75,308**	**30,19,781**

STATEMENT9.2

SECTORAL COMPOSITION OF GROSS STATE VALUE ADDED (GSVA) AT CURRENT PRICES

Years	% Share of Primary Sector	% Share of Secondary Sector	% Share of Tertiary Sector
2011-12	3.49	13.09	83.42
2012-13	2.93	14.17	82.90
2013-14	3.29	14.07	82.64
2014-15	2.79	12.26	84.95
2015-16	2.09	13.62	84.29
2016-17	1.70	13.48	84.82
2017-18	1.67	13.80	84.53
2018-19	2.08	13.45	84.47
2019-20	1.95	12.54	85.51
2020-21	1.89	12.73	85.38
2021-22	1.70	13.08	85.22

Years	% Share of Primary Sector	% Share of Secondary Sector	% Share of Tertiary Sector
2022-23 (3rd RE)	1.00	13.11	85.89
2023-24 (2nd RE)	0.91	12.95	86.14
2024-25 (1st RE)	0.85	13.02	86.13
2025-26 (AE)	0.80	12.88	86.32

Note :(3rdRE)-Third Revised Estimates,(2ndRE)-Second Revised Estimates, (1stRE)- First Revised Estimates and (AE)- Advance Estimates.

3.4 The 1stRevised Estimates and Advance Estimates of GSVA at current prices for the year 2024-25 & 2025-26 shows that contribution of Primary Sector (comprising of Crops, Livestock, Forestry and Logging, Fishing, Mining and Quarrying) in the economy of Delhi has decreased to 0.85% and to 0.80% for both the years respectively from 3.49% share in the base year 2011-12.

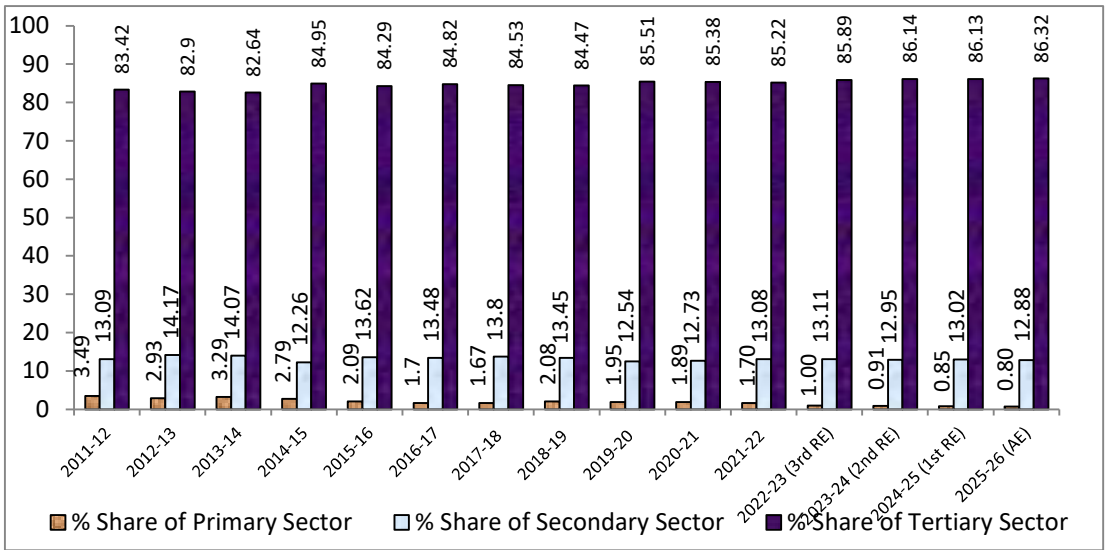

3.5 GSVA at current prices reveals the fact that contribution of Secondary Sector (comprising of Manufacturing, Electricity, Gas, Water Supply & Other Utility Services and Construction) in the economy has decreasedfrom 13.09% during the base year 2011-12to 13.02% during 2024-25 (1st Revised Estimates) and further decreased to 12.88% during 2025-26 (Advance Estimates) respectively.

3.6 Contribution of Tertiary Sector (comprising of Trade, Hotels & Restaurants, Railways, Transport, Storage, Communication, Financial Services, Real Estate, Health services and Other Services) in the economy is increasing marginally. GSVA at current prices shows that the contribution of tertiary sector in the economy was 83.42% during the base year 2011-12 and has increased to 86.13% during 2024-25 (1st Revised Estimates) and 86.32% during 2025-26(Advance Estimates).

CHART 9.2

PERCENTAGE SHARE OF PRIMARY, SECONDARY AND TERTIARY SECTOR TO STATE ECONOMY

(Gross State Value Added at Current Prices)

4. Gross State Value Added (GSVA) by Manufacturing Sector

4.1 Manufacturing sub-sector is one of the major contributor in the secondary sector in the economy of Delhi. GSVA from manufacturing is estimated at ₹45930Crores and ₹50144 Crores at current prices during 2024-25and 2025-26 respectively with respect to annual growths of 6.30% and 9.18% over previous year's estimates. Similarly, GSVA at constant prices is to the tune of ₹33651Crores and ₹36466Crores during 2024-25 and 2025-26 respectively registering annual growths of 5.88% and 8.37% over previous years. As per estimates for 2024-25, NSVA is to the tune of ₹39377 Crores with an annual growth of 7.11% over previous year at current prices and₹29287 Crores with growth of 6.10% over previous year at constant prices. As per advance estimates for 2025-26, NSVA was to the tune of ₹42799 Crores with an expansion of 8.69% over previous year at current prices and ₹31917 Crores with an expansion of 8.98% over previous year at constant prices respectively.

4.2 The Gross State Value Added at **current prices** regarding the manufacturing sector is presented in Statement 9.3:

Statement 9.3

(₹inCrore)

Year	Manu-facturing	Secondary Sector	Total GSVA at Basic Prices	Total GSDP at Market Prices	%age share of Manufacturing in		%age share of Secondary Sector in GSVA

Source: Estimation of GSVA by DES,
Note: (3rd RE)- Third Revised Estimates, (2nd RE)- Second Revised Estimates,(1st RE)- First Revised Estimates,(AE)- Advance Estimates

4.3 It is evident from the Statement 9.3 that the GSVA from manufacturing has increased from ₹18907 Crores in 2011-12 to ₹50144 Crores in 2025-26. The percentage contribution of manufacturing to GSVA has decreased from 6.24%

in 2011-12 to 4.19% in 2025-26. During the same period, the contribution of secondary sector to the total GSVA of Delhi has decreased from 13.09% in 2011-12 to 12.88% in 2025-26.

5. Micro,Small&MediumEnterprise(MSME):

The total number of enterprises registered in NCT of Delhi in UDYAM portal are 10,15,158 out of which 9,84,096 are Micro enterprises, 28,313 are Small enterprises and 2,749 are Medium Enterprises as on 31.12.2025.

Source: Office of the Commissioner of industries, GNCTD

6. WorkingFactories

The number of registered factories and estimated workers employed in these factories during the last fourteen years is presented in statement 9.4:

STATEMENT 9.4

FACTORIES AND ESTIMATED WORKERS EMPLOYED

S. No.	Years	Factories	Estimated Workers Employed
1.	2011	8,219	3,78,361
2.	2012	8,557	3,92,270
3.	2013	8,821	4,03,270
4.	2014	8,968	4,16,927
5.	2015	8,954	4,15,278
6.	2016	8,978	4,16,833
7.	2017	9,059	4,20,156
8.	2018	9,121	4,19,578
9.	2019	8,622	4,03,517
10.	2020	8,643	4,04,602
11.	2021	8,613	4,02,733
12	2022	8,690	4,04,169
13.	2023	8,750	4,06,947
14.	2024	8,869	4,14,201

Source: Office of the Labour Commissioner,GNCTD and Delhi Statistical Handbook.

Statement 9.4 indicates that the number of working factories in Delhi increased from 8,219 in 2011 to 8,869 in 2024. Likewise, the estimated workers employed in these factories increased from 3,78,361 in 2011 to 4,14,201 in 2024. On an average of 47 persons were working in each factory in Delhi.

6.1 Due to the introduction of various environmental norms by the Central Pollution Control Board and Delhi Pollution Control Committee, industrial units in Delhi are not meeting with the safety standards which automatically results into the closure of these units or shifting these industries to the neighboring states. Due to this, the estimated number of workers employed in these industries increased at a stagnant rate.

6.2 Industry-wise number of factories and estimated workers in factories registered during the years 2020 to 2024 may be seen from statement 9.5:

Source:OfficeoftheLabourCommissioner,GNCTD and DelhiStatisticalHandbook.

6.3 It can be seen from the above statement that the maximum number of factories in Delhi are registered in three Major Industry groups (i)Textiles product,(ii)Rubber, Plastic, Petroleum Coal Products, followed by (iii) Metal products and Parts Machinery& Transport Equipment.

7. Annual Surveyof Industries

As per provisions of the FactoriesAct, 1948, a factory is registered under sections 2m (i) having 10 or more workers and using power and registered under section 2m (ii) employing 20 or more workers but not using power. Annual Survey of Industries is conducted for the registered factories under the above provisions.

8. IndustrialEstates

8.1 **Operation & Maintenance of Industrial Estates/Area:** Delhi has 29 planned Industrial Areas and 4 flatted factories complex. Additionally, 03 greenfield industrial projects are being developed at Ranikhera, Kanjhawla and Baprola.These areas are notified under the Delhi Industrial Development, Operation and Maintenance (DIDOM) Act, 2010 notified on 28thMarch 2011 to place all Industrial Areas under DSIIDC. In addition, 27 non-conforming Industrial/Godown clusters have been notified for development.

8.2 Out of these 33 Industrial Areas (excluding 03greenfield industrial

areas) including 4 flatted factories complex, 24 Industrial Areas/Estates have been handed over to DSIIDC for maintenance and up-gradation of development activities. Further, out of 24 Industrial Area, lease Administration of 12 Industrial Areas is with DSIIDC and another 12 Industrial Areas are lease administrated by DDA (as the same have not yet been transferred to DSIIDC). Rest of 09 industrial areas are managed by Private Societies/ MCD.

8.3 The lease Administration work is of its 12 Industrial Area/Estates/FFCs is primarily looked after by Industrial Estate Management Division DSIIDC. Narela & Bawana Areas are being managed by DSIIDC under PPP mode through two concessionaires for providing development and all types of services during the maintenance period of 13 years (2013-14 to 2026).

8.4 To relocate the Industries from residential areas to the Industrial Areas, 2nd phase of Bawana Industrial Area has been developed by DSIIDC at Bhorgarh in an area measuring 430.98 Acres in the year 2010 comprising of 4660 plots varying from 100 sq.mtr. to 250 sq.mtr. Out of 4660 industrial plots, 3576 plots have been handed over to the allottees.

8.5 Towards improving roads, drain and sewage network in notified industrial areas of Delhi, DSIIDC is undertaking works of 52.89 km CC roads and Storm Water drains at cost of Rs 624.38 crores for 16 Industrial Areas. Separately, development of roads and drains in Bawana Phase-II (Bhorgarh) shall be undertaken on concessionaire/annuity mode for which DSIIDC may invite a PPP of 142 crore for the development of the area. Improving Industrial Workers Housing (Lal Flats, Bawana) conditions and repair of roads, drains, sewer system and street lighting shall also be undertaken. Also, for improving safety and security, 4032 streetlights in 12 DDA lease administered Industrial Areas shall be made operational.

8.6 Govt of India has formulated the scheme of Micro Small Enterprise-Cluster Development Programme (MSE-CDP) to promote clusters of Micro and Small Enterprises.Establishing CFCs at Bawana and Badli has been approved by Cabinet on 21.01.2026 towards utilizing Ministry of MSME scheme to help local industries reduce capital costs. Budgetary support of Rs 36 Crore shall be provided for setting up these two and other such Common Facility Centres in Industrial Areas of Delhi.

9. Development of Industrial Clusters in Non-Conforming Areas

9.1 The respective society/association of 27 non-conforming areas with industrial concentration was to develop these areas within 3 years after notification of the MPD-21. The plan includes subsidizing the preparation and approval of layout plans by local bodies.

9.2 The Cabinet has approved a scheme for grant of 90% subsidy to Industrial Association for preparation of Layout for plan for redevelopment of notified non-conforming Industrial/Godown clusters of Delhi through expert agency empanelled by DSIIDC on their behalf and once the layout plan is prepared,

it will be required to be submitted by the respective society of the notified industrial/godown clusters to MCD (Local Body) for its approval submission of the same to the local body (i.e. MCD) for approval through DSIIDC Ltd.

9.3 Layout Plans for 21 non-confirming redevelopment areas has been submitted to Municipal Council of Delhi for approval. For remaining areas also, layout plan has been prepared and with concurrence of concerned Industrial Area Associations, the same shall also be submitted to MCD soon. The extension of deadline by till 31st March 2026 for submitting the redevelopment layout plan to MCD is under consideration by DDA.

10. Delhi Financial Corporation (DFC)

10.1 Delhi Financial Corporation (DFC) is an under taking and established under the act of parliament. DFC caters to financial needs of industries located in the National Capital Territory of Delhi and Union Territory of Chandigarh.

10.2 The loans are available to new industrial units as well as existing units for starting expansion modernization diversification and rehabilitation.

12 Construction of Common Effluent Treatment Plants(CETPs)

In compliance with the order of the Hon'ble Supreme Court of India, DSIIDC has executed this project in coordination with the Delhi Pollution Control Committee (DPCC) and the National Environmental Engineering Research Institute (NEERI).

DSIIDC has constructed 13 CETPs at Wazirpur, Mangolpuri, Lawrence Road, Narela, Bawana, Jhilmil, Badli, Mayapuri, Nangloi, Okhla, GTK Industrial Area (Ashok Vihar), SMA Rajasthani Udyog Nagar (Jahangirpuri) and Naraina.

CETP Societies are in process to up-grade the technology of their existing CETPs for present/future requirement in consultation with NEERI and it is likely to be completed by the end of December, 2026.

13 Setting Up of Hazardous Waste Management Facility

Secured Landfill (SLF) incineration and Associated atives (valid till 23.02.2026) for complete project i.e. Treatment, Storage and Disposal Facility (TSDF) was granted by DPCC on 04.03.2022 and TSDF facility is fully operational by M/s Ramky for hazardous waste since October, 2021 at land measuring 14 acre having Latitude 28°47'54.0"N Longitude 77°03'46.0"E, as of now known as part of Sector 5, Bawana, adjacent to Delhi Municipal Solid Waste Solutions Limited Waste to Energy Plant, Delhi-110039.

14 Delhi Khadi and Village Industries Board(DKVIB)

14.1 Delhi Khadi & Village Industries Board (DKVIB) is a statutory body in GNCTD, formed in 1983 by extending Himachal Pradesh Khadi & Village Industries Board Act, 1966.The main aim of the Board is to promote and

popularize Khadi & Village Industries products and create awareness among the masses and also to generate employment in both rural and urban areas of Delhi.

The Board was implementing two employment generation schemes, namely (i) Rajiv Gandhi Swavlamban Rozgar Yojna (RGSRY) of Govt. of Delhi (ii) Prime Minister Employment Generation Programme (PMEGP) of KVIC, Govt. of India. However, the scheme of RGSRY has been withdrawn by the government vide Cabinet decision No. 3255 dt. 18-09-2025.

i. **Rajiv Gandhi Swavlamban Rozgar Yojna (RGSRY):**This scheme was introduced with financial support of Govt. of NCT of Delhi and Delhi Khadi & Village Industries Board was nominated as the implementing agency for this Scheme. The purpose of this scheme was to provide sustainable self-employment opportunities to the school and college dropouts above the age of 18 years to individual entrepreneurs, trade professionals, artisans etc. Under this scheme financial assistance in the shape of loan up to Rs. 3.00 lakh was being provided with 15% subsidy component of the project cost subject to a ceiling of Rs. 7,500/- per entrepreneur.

STATEMENT 9.9

ii. **Prime Minister Employment Generation Programme (PMEGP):** This schemewas introduced by the Ministry of Medium Small & Marginal Enterprises (MSME), Govt. of India with a view to generate employment opportunities in the country. The Khadi & Village Industries Commission is being appointed as Nodal Agency for implementation of scheme in the country as a whole and State KVIB's have been nominated as State

implementing agency along with KVIC and DIC's. In Delhi, Khadi & Village Industries Board is nominated as nodal agency to implement the scheme in the rural as well as in urban areas along with State Office, KVIC. The maximum cost of the project/unit admissible for Margin Money subsidy under manufacturing sector is Rs. 50.00 lakh and Rs. 20.00 lakh under business/service Sector. If the total project costs exceed the balance amount may be provided by Banks. The details are as under:-

Categories of beneficiaries under PMEGP	Beneficiary's contribution(of project cost)	Rate of subsidy (of project Cost)		Term loan
Area(Locationof project/ Unit)		Urban	Rural	
Generalcategory	10%	15%	25%	The balance amount of the total project cost will be provided by Banks as term loan
Special Category (including SC/ ST/ OBC, Physically Handicapped, Minorities/ Woman/ Ex Servicemen etc.)	05%	25%	35%	

Source: Delhi Khadi & Village Industries Board (DKVIB)

The State/District level implementing agencies viz. KVIC, KVIB and DICs after receiving the applications will scrutinize the applications preliminary, examine the personal and factual details mentioned in the application/projects reports and the corrected and complete applications along with the detailed project reports be forwarded by the implementing agencies directly to the Banks within three weeks of receipt of applications by the implementing agency for taking credit decision. Banks are presently examining the applications both technically and financially and sanction the applications as per their rules and norms. Banks will directly receive applications from the implementing agencies, examine them and sanction loan as per existing procedures.

The detail of targets and physical and financial achievement under PMEGP in Delhi during 2023-24 and 2024-25 is as under:-

14.2 Marketing Activities/ Exhibition: Board is providing marketing platform to the artisans / individual entrepreneurs for setting up of their units under employment generation schemes being implemented by the Board. The Board is also providing marketing platform to the units set up under KVI activities anywhere in India. Delhi is a well developing marketing Centre. The Board was having 02 departmental sales outlets one at Udyog Sadan, Patparganj, and another at Delhi Secretariat, I.P. Estate, New Delhi. However, the outlet at Udyog Sadan, Patparganj has been closed wef 21-10-2024.

Financial achievement of sales outlets is as under:

(₹ In lakh)

Sl. No.	Year	Udyog Sadan	Delhi Sectt.	Total
1.	2023-24	2.30	3.91	6.21
2.	2024-25	1.05 (This outlet has been closed wef21-10-2024)	4.33	5.38

15. Developmentof New IndustrialAreas/Hubs

15.1 Delhi Govt. has about 1143 acres of land available for greenfield industrial development in the following areas:

1. Ranikhera, Mundka – 147 acres
2. Baprola – 81 acres
3. Kanjhawla – 915 acres

15.2 These greenfield industrial estates in Delhi present a unique opportunity to

create next-generation, future-ready economic hubs that align with sustainability and innovation goals. The vision focuses on developing smart, clean, and high-value industrial ecosystems anchored in sectors such as electronics, EVs, frontier technology, AI, Biotechnology, R&D etc. Cabinet note for development of these areas is under active consideration before the state govt.

15.3 These estates will be designed as integrated industrial townships with modern infrastructure, digital connectivity, renewable energy integration, water recycling, and efficient logistics. Emphasis should be placed on non-polluting industries, circular economy principles, and worker-friendly amenities. Positioning these estates as globally competitive, environmentally sustainable, and innovation-driven clusters can significantly enhance Delhi's industrial profile.

16. Ease of Doing Business

16.1 India's performance in Doing of Business Report is based on the assessment of two Indian cities i.e. Delhi and Mumbai. Due to improvement in the business environment of Delhi, it has helped India jump to 63rd place in the World Bank's Doing Business ranking in 2020 from 130 in DBR 2017, a rare feat for any large and diverse country of the size of India.

16.2 GNCTD has focused on undertaking series of business reforms with the aim of creating a conducive business environment and boost investor confidence by streamlining regulatory structures and creating an investor-friendly business climate.

16.3 Delhi's performance in DBR 2020 has been better than Mumbai in indicators such as starting a business, dealing with construction permits, getting electricity and paying taxes, whereas Mumbai has done better in the registering property indicator.

17. Business Reforms Action Plan (BRAP)

17.1 The Department for Promotion of Industry and Internal Trade (DPIIT), in its endeavour to improve the country's business and regulatory environment, has been releasing a series of reforms through the Business Reforms Action Plan (BRAP) exercise. These reforms have been implemented in partnership with the State Governments and Industries Department is coordinating the BRAP exercise in GNCTD.

17.2 The Business Reform Action Plan, under EoDB, has been introduced in 2014, and 6 Assessments have been conducted so far, where assessment of 2024 has been released. According to the BRAP 2022 rankings, Delhi is under the "Emerging Business Ecosystems" category.

17.3 In 2024, Delhi implemented 267 reforms, out of which 80% were accepted by DPIIT. Some of the key areas where the reforms were implemented in Delhi under the BRAP exercise are:

a) "Delhi–Central Inspection System (Delhi-CIS)"

b) Investment, Environment registration, Labour Regulations, Construction Permit Enablers

c) Integrated Portal is developed for real-time access to updated data

d) ESLA Mechanism has been developed for implementing the Delhi (Right of Citizen to Time Bound Delivery of Services) Act

e) 51 Licenses pertaining to Delhi Fire Service, Labour, Power, DPCC, MCD, PWD, Trade & Taxes, Excise and Weights & Measures Department have been integrated with Single Window System. GNCTD is in the process of integrating more services related to the other Departments on the Single Window System, with the aim to allow investors to apply for various pre-operations and approvals, promote sector specific reforms and schemes, reduce gestation period of projects, and promote ease of starting and doing business in NCT of Delhi.

f) Information related to approvals pertaining to Delhi has been integrated with the National Single Window System (NSWS), streamlining access and enhancing efficiency.

17.4 Compliance Reduction & Deregulation Exercise

The Deregulation Cell of GNCTD, in coordination with the Government of India, is actively working and has reduced compliance burdens across all 23 priority areas, making Delhi a more agile and business-friendly destination. Phase-II of the Deregulation Exercise has also been started and will be implemented soon.

Some of the key reforms implemented in Delhi under the Deregulation exercise are:

a) Adopt a flexible zoning framework that allows for mixed-use development activities. Simplify and digitize the process for land use change by developing a comprehensive list of required documents for CLU and enabling an online application process

b) GIS data bank for Industrial Land integrated with IILB.

c) Amend building regulations to reduce land loss in industrial and commercial plots

d) Increase the role of empanelled third parties in building approvals and joint

inspections.

e) Remove prohibitions on women from working in certain 'hazardous' industries. Allow night-time employment of women (7 PM–6 AM) in all occupations.

f) Revise the working hours limit for factories and commercial establishments.

g) Simplify approval and renewal of Factory License/Trade License by reducing documentation steps and enable online registration under Shops & Establishments Act.

h) Expedite electricity and water connections, including groundwater use permissions, through an online system for application, payment, and tracking.

i) The Jan vishwas (Amendment of Provisions) Bill 2026 has been passed in Delhi Legislative Assembly and awaiting presidential assent.

18. Export Promotion

The Export play a vital role in the economic growth of the country and it is felt that this sector needs to be encouraged through export promotion in order to boost exports. The Export Promotion status and major points of the ongoing schemes are given below:

a) One District One Product (ODOP): Under the ODOP initiative, Industries Department is coordinating for implementation of the ODOP initiative, for this purpose, district wise capacity building workshop are required to organized for product enhancement and quality upliftment of the identified manufacturers/sellers/exporters of ODOP products. Two such workshops have already been organized in District- Shahdara and District-West. It is also being planned to conduct a one day seminar/workshop for better understanding of the ODOP scheme by inviting all the districts on a single platform to enhance the scalability, modernization of the small-scale enterprises, fostering innovation, new better designs, packaging, marketing, product diversification, and enhancing business.

19. PM Formalization of Micro Food Processing Enterprises Scheme:

M/o Food Processing Industries, GoI, launched a Scheme, namely, Pradhan Mantri Formalisation of Micro Food Processing Enterprises (PMFME) Scheme in the year 2020 underAtmanirbhar BharatAbhiyan to support micro level food entrepreneurs, FPOs/SAGs/cooperatives. In Delhi,

the scheme is implemented through DSIIDC. The Funding pattern of scheme in Delhi is 60:40 i.e., Centre: State/UT.The progress of the scheme in Delhi as on 20.03.2026 is as follows:

- Total Registrations: 1997
- Applications Submitted: 1347
- Applications Forwarded to Banks: 1097
- Loan Sanctioned: 351
- Beneficiaries Trained: 844
- Subsidies Released: 220 applicants
- Total Subsidy Amount Released: ₹6,19,89,499/-

20. Promotionof Start up

20.1 GNCTD prioritizes innovation and startups, earning recognition as a top hub in India. For this GNCTD has formulated Delhi Startup Policy with aim to foster an innovative ecosystem by offering diverse support to budding entrepreneurs, starting from early education. The Policy is designed to cater for the following key areas:

20.2 Education and Education Technology, Healthcare and Health Technology, Tourism and Hospitality, Transportation & Logistics, Automotive (Electric Vehicle, Autonomous Cars and Connected Vehicles), e-Governance for business and citizen connect, Fintech, e-Waste Management, Robotics &Automation, Green Technology, Bio-pharma and Medical Devices, IT & ITES,Artificial Intelligence (AI), Machine Learning (ML), Internet of Things (IoT), Software-as-a-Service (SaaS), Biotechnology, Augmented Reality, Emerging areas of energy such as Hydrogen, etc. Under this policy, among others, following is planned:-

a) Infrastructure and Support like Incubator hub network, R&D centres, fabrication lab network, and network of co-working spaces and developing a Startup Portal which will act as a one-stop-shop for individuals, startups and incubators seeking information or incentives under the Delhi Startup Policy.

b) Awareness and Outreach- GNCTD also plans to organize and support city- wide events such as startup festival to create awareness and excitement around entrepreneurship in public. Various events and competitions will be organized in State to stimulate and provide national and international exposure to the startup ecosystem.

20.3 The Industrial Ideathon 2025 was a collaborative initiative led by the Department of Industries GNCTD, Delhi State Industrial and Infrastructure Development

Corporation (DSIIDC), in partnership with Netaji Subhash University of Technology (NSUT) and NSUT Innovation and Incubation Foundation (NSUT IIF). The event gave participants the opportunity to showcase their technical, managerial and analytical skills. The participants could choose from various domains of real-world problems and compete in either of the domains.

In a significant push to channel youth innovation into real-world industrial challenges, the Grand Finale of the Industrial Ideathon 2025 marked the culmination of a month-long innovation journey that began with nearly 1,200 registrations, narrowed to 652 valid entries, 124 preliminary qualifiers, 40 finalists, and finally 12 winners.

Giving away awards to 12 winning teams at Industrial Ideathon 2025, The Hon'ble Chief Minister of Delhi said that the government is committed to working with young individuals, providing direction and strength to their innovative ideas, and taking the city to new heights of progress.

21. Notification of Industrial clusters as Notified Industrial area for re-development

The following industrial cluster has been notified for redevelopment as notified industrial area during the year 2023-24 & 2024-25:

a) Approx. 915 Acres of Kanjhawla Industrial Area has been notified as industrial area under section 2(k) of DIDOM Act, 2010 vide Delhi Gazette notification no. 7/EM(BN)/CI/12-13/Pt.-1/548-558 dated 20.07.2023.

b) Approx. 147 acres of Rani Khera Industrial Area (consisting of 28.19 Acres of Village Ranikhera and 118.56 Acres of Village Mundka) has been notified as industrial area to be developed by DSIIDC under the provisions of MPD-2021 and section 2(k) of DIDOM Act, 2010 vide Delhi Gazette 7/EM(BN)/CI/12-13/Pt.-1/348-359 dated 29.02.2024.

c) A total of 54.89 Hectare of Baprola Industrial Area was re-notified to be developed as an 'Industrial Park' as per land use mentioned in the notification no. SO 3716(E) dated 20.12.2013 issued by Ministry of Urban Development (Delhi Division), Govt. of India and under the provisions of Section 2(k) of Delhi Industrial Development, Operation & Maintenance (DIDOM) Act, 2010 vide Delhi Gazette Notification no. 7/EM(BN)/CI/12-13/Pt.-1/1198-1208 dated 09.09.2024.

22. PM Gati Shakti NMP

Industries Department, GNCTD, is facilitating updation of required Layers on the PM Gati Shakti Portal in coordination with BISAG-N and other stakeholder departments.

Further, GNCTD has already created administrative structures, i.e., the

Empowered Group of Secretaries (EGoS), Networking Planning Group (NPG), and Technical Support Unit (TSU). The 28 data layers, including land revenue, have been updated on the PM Gati Shakti NMP portal. The SOP is being prepared for PM Gati Shakti-State Mater Plan Portal. Various Departments of GNCTD have started planning through the PM Gati Shakti Portal for efficient and better planning of projects.

23. Handicraft and Handloom Sector

Initiatives, achievements and new policy measures undertaken by the GNCT of Delhi for the Handicraft and Handloom Sector are as under:-

a) **Delhi State Award Scheme:** The Government has been implementing the State Award Scheme for recognizing excellence in handicraft and handloom products. The number of State Awards and the award amount has been increase to encourage artisans. The State award amount for handicraft activities has been increasefrom ₹30,000to ₹1,00,000 and State merit award increased from Rs. 20,000 to Rs. 75,000 to enable participation of diverse and larger craft clusters.

b) **Skill Development & Training:** Students sponsored by GNCTD for handloom courses at IIHT Jodhpur are supported through State stipend. The stipend amount has been enhanced to provide improved academic and subsistence support.

c) **Insurance & Welfare Coverage:** Delhi artisans are facilitated for enrolment under PMJJBY (Life Insurance) and PMSBY (Accident Insurance) for basic risk coverage at subsidized premium.

d) **Central Sector Schemes for Handloom Weavers:** Delhi weavers also benefit from CSS programmes such as:

   i. National Handloom Development Programme (NHDP)
   ii. Handloom Weavers' Comprehensive Welfare Scheme

24. The following Schemes are introduced in Budget Speech 2025-26:-

a) **Grant-in-Aid to DKVIB for Skill Enhancement:** 2025-26 Govt. approved Rs. 50 Crores in BE which has been reduced to Rs. 8.95 crores in RE for imparting skill in Recognized Prior (RPL) to 3728 candidates under 'Delhi Khadi Kaushal Vikas Yojna. The above scheme was approved by Cabinet on 16-02-2026.

Traders Welfare Board : The Objective of the Scheme with Budget amounting Rs. 10 Crore to addressing the issues and concerns of traders and act as a bridge between traders and the state government, ensuring social security and financial coverage for traders, promoting investment and employment opportunities in the state, analyzing the terms and conditions

of various departments related to traders and to give suggestions to the government for their equalization as well as to constitute a Traders Welfare Board.

b) **Grant-in-Aid to DSIIDC for New Industrial Policy & Warehousing Policy :** The Objective of the Scheme with Budget amounting Rs. 10 Crore are as under:

   i. **Grant-in-Aid to DSIIDC for New Industrial Policy:** The objective of the New Industrial Policy is to transform the state into a globally competitive, innovation-driven, and sustainable urban economy by fostering innovation, startups, and digital enterprises to enhance the city's economic profile. This policy aims to address existing economic challenges and leverage Delhi's inherent strengths.

   ii. **Grant-in-Aid to DSIIDC for Warehousing Policy:** The aim of Warehousing Policy is to decongest Delhi and facilitating trade through Ease of doing business and engaging stakeholders in the NCR Region thereby improving the quality of life for its residents.

c) **Credit Guarantee Fund Trust for Micro & Small Enterprises:** The Objective of the Scheme with Budget amounting Rs. 5 Crore to strengthen the credit delivery system and to facilitate smooth flow of credit to MSE sector from Money Lending Institutions (MLIs). This collaboration aims to facilitate an increase in credit off take in the MSE sector, migrating MLIs risk, and employment generation, reduce regional imbalance in NCT Delhi region with MSE sector exploring the untapped potential in the fields of Green Energy, Lithium ion batteries and other conducive to NCT of Delhi Region.

CHAPTER AT A GLANCE

- Delhi is categorized as a Front Runner among State/UTs in the country in terms of SDG performance i.e., "SDG India Index and Dashboard 2023-24" as per NITI Aayog.
- Delhi has 29 planned Industrial Areas and 4 flatted factories complex. 3 green field Industrial areas are being developed at Ranikhera, Kanjhawala and Baprola. In addition, 27 non-conforming Industrial/Godown clusters have been notified for redevelopment.
- Manufacturing sub-sector is the largest contributor in the secondary sector in the economy of Delhi.
- Delhi has a total of 10,15,158 MSME registered, out of which Micro enterprises are 9,84,096, Small enterprises are 28,313 and Medium Enterprises are 2,749.
- Due to improvement in the business environment of Delhi, it has helped India jump to 63rdplace in the World Bank's Doing Business ranking in 2020 from 130 in DBR 2017, a rare feat for any large and diverse country of the size of India.
- Delhi implemented 267 reforms, out of which 80% were accepted by DPIIT.
- The Deregulation Cell of GNCTD, in coordination with the Government of India, is actively working and has reduced compliance burdens across all 23 priority areas, making Delhi a more agile and business-friendly destination.
- GNCTD through the One District One Product (ODOP) initiative, has identified district wise capacity building workshop are required to organized for product enhancement and quality upliftment of the identified manufacturers/ sellers/ exporters of ODOP products. Two such workshops have already been organized in District- Shahdara and District-West.
- Delhi Govt. has formulated draft Delhi Startup Policy with aim to foster an innovative ecosystem by offering diverse support to budding entrepreneurs, starting from early education.

CHAPTER 10

TOURISM

Delhi has a rich and unique cultural and architectural heritage, harboring the true pan-India character and is an incredible destination for all. Delhi offers numerous tourist attractions ranging from monuments, museums, shrines, wide variety of shopping destinations & a wide range of culinary experience.

1.1 Some prominent places to visit and events to cherish are as under:

Pradhan Mantri Sangrahalaya (Prime Ministers' Museum): A modern museum showcasing the contributions of India's Prime Ministers since independence, located at Teen Murti Bhavan. Opened in 2022, it features interactive displays, personal artifacts, and highlights the nation's democratic journey, offering a comprehensive look at each PM's tenure, with options for unique experiences like taking a selfie with the Hon'ble Prime Minister.

Kartavya Path: Kartavya Path is a grand ceremonial boulevard in New Delhi that stretches from Rashtrapati Bhavan to India Gate, serving as a symbol of India's governance and national pride. Originally designed by British architects Edwin Lutyens and Herbert Baker, it was earlier known as Rajpath and was renamed in 2022 to emphasize the idea of duty ("kartavya"). The avenue is famous for hosting the annual Republic Day Parade and has been recently redeveloped with improved pathways, greenery, and public facilities, making it a popular spot for both tourists and locals.

New Parliament House: The new Parliament House of India is a striking triangular, four-storey legislative complex built as part of the Central Vista redevelopment to replace the old, cramped colonial-era building and better serve the needs of a modern, growing democracy. Spanning about 64,500 sq m with three grand entrances—Gyan Dwar, Shakti Dwar, and Karma Dwar—it houses enlarged Lok Sabha and Rajya Sabha chambers with significantly higher seating capacity, modern digital systems, and numerous committee rooms, offices, a Constitution Hall and museum spaces that reflect India's cultural heritage while improving functionality and sustainability with energy-efficient design and green features.

Heritage Tourism

Red Fort: A UNESCO World Heritage Site in Delhi popularly known as Lal Quila, it is the pride of the nation. It is a historic fort, situated in the older part of the city. Lal Quila served as the primary residence for Mughal Emperors who ruled the city for about 200 years. It was until 1856 that the Mughals had resided in Lal Quila. The historical monument also served as the political center of the Mughals. Red Fort was built under the reign of Mughal emperor Shah Jahan in the year 1639. It was made on the lines of Shah Jahan's palace in his fortified capital Shahjahanabad. It was called Red Fort because of its massive closed walls built in red stone. The palace not only showcases

the architectural brilliance of Shah Jahan but also gives a reasonably good picture of Islamic architecture of those times.

Qutab-Minar: It is a towering approx 73-meter-high minaret and one of India's most iconic monuments, built in the early 13th century by Qutb-ud-din Aibak and completed by his successor Iltutmish. Made of red sandstone and marble, it features intricate carvings and inscriptions in Arabic, representing Indo-Islamic architecture. The minar, along with the surrounding Qutub complex, is a UNESCO World Heritage Site and attracts tourists for its historical significance, architectural grandeur, and towering presence in the heart of Delhi.

Agrasen ki Baoli: Agrasen ki Baoli, a 14th-century step well, is a hidden gem showcasing Delhi's rich architectural heritage and ancient water conservation techniques. As a historic monument, it reflects the ingenuity and craftsmanship of medieval India, attracting history buffs and architecture enthusiasts with its intricate design and serene ambiance.

Jantar Mantar: Jantar Mantar, a historic astronomical observatory built in 1724, is a testament to India's rich scientific heritage and the ingenuity of medieval Indian astronomers. It showcases the country's contributions to astronomy and mathematics, attracting visitors with its unique instruments and architectural grandeur.

Purana Quila: Purana Qila, one of India's oldest forts, is a testament to Delhi's rich and turbulent history, showcasing the city's ancient roots and architectural evolution. As a historic monument, it features remnants of the 16th-century fort, including the Qila-i-Kuhna Mosque, attracting history enthusiasts and architecture aficionados with its grandeur and significance.

Mehrauli Archeological Park: Mehrauli Archaeological Park, a treasure trove of Delhi's ancient history, is home to over 100 historic monuments, showcasing the city's rich cultural heritage spanning over 1,000 years. As a protected site, it features notable landmarks like the Qutub Minar complex, Rajon ki Baoli, and the tomb of Balban, attracting history buffs and archaeology enthusiasts with its ancient ruins and serene ambiance.

Heritage Market

- **Chandni Chowk**, a historic market built in 1650, is a vibrant testament to Delhi's rich cultural heritage, showcasing the city's Mughal past and traditional Indian commerce

- **Meena Bazar**, located within the Red Fort, is a charming market that once hosted royal shopping excursions, offering exquisite handicrafts and jewellery, and reflecting the opulence of the Mughal era.

Spiritual Tourism

The Lotus Temple: It also known as the Bahá'í House of Worship, opened in 1986, is a modern spiritual monument shaped like a blooming lotus. It is open to people of all faiths and promotes peace, unity, and silent meditation.

Akshardham Temple: It is one of the largest Hindu temple complexes in the world. Dedicated to Bhagwan Swaminarayan, built by BAPS Swaminarayan Sanstha in 2005, it is famous for its beautiful carvings, exhibitions, and spiritual messages that highlight Indian culture, values, and devotion.

Gurudwara Bangla Sahib: It is Associated with Guru Har Krishan Sahib Ji, the eighth Sikh Guru. It is well known for its holy pond (Sarovar) and the community kitchen (Langar), where free meals are served to all, symbolizing equality and selfless service.

Sacred Heart Cathedral: A very important Christian church located near Connaught Place. Built in 1935, it is admired for its peaceful environment and featuring a red-brick façade, Italian-style interiors and serves as a major place of worship for Delhi's Christian community.

The ISKCON Temple: This temple, located in East of Kailash is dedicated to Lord Krishna and Radha. It spreads the teachings of Bhakti Yoga and is famous for devotional singing, spiritual lectures, and meditation sessions.

Kalkaji Mandir: Kalkaji Mandir is one of the oldest temples of Delhi and is dedicated to Goddess Kali. Situated near the rocky Aravalli region, it becomes a major pilgrimage centre during the Navratri festival and represents ancient Shakti worship traditions.

Prachin Hanuman Mandir : Prachin Hanuman Mandir, located at Connaught Place, is believed to be one of the oldest Hanuman temples in the country. The idol of Lord Hanuman here is said to grow naturally in size, and the temple is especially crowded on Tuesdays and Saturdays.

Gurudwara Sis Ganj Sahib: It is situated in Chandni Chowk, stands at the place where Guru Tegh BahadurJi was martyred. It is a highly sacred Sikh shrine and symbolizes sacrifice, courage, and the protection of religious freedom.

Lakshmi Narayan Temple: It also known as Birla Temple, This Temple inaugurated by Mahatma Gandhi on condition of open for people of all cast and religions, Temple dedicated to lord Vishnu and Godess laksmi, temple made in Orissan style of architecture

Eco - Tourism

Amrit Udyan: The gardens at Rashtrapati Bhawan along with other beautiful gardens in Delhi maintain the ecological balance. In winters Delhi becomes home to a large number of migratory birds which add to eco-tourism angle.

Sunder Nursery: Sunder Nursery, a 90-acre heritage park, is a hidden gem in Delhi, featuring lush gardens, wetlands, and over 300 tree species, adjacent to Humayun's

Tomb. This beautifully restored nursery showcases Delhi's rich horticultural heritage and offers a serene escape from the city's bustle.

Asita Park: Asita Park is a sprawling new biodiversity and riverfront green space and recreational park with millions of native grasses, thousands of trees, wetlands and habitats for nearly 200 species of birds, making it a vibrant public destination for walks, picnics and nature experiences, and even hosting amenities like riverside cafés and event lawns.

Baansera Park: Baansera Park is an eco-themed urban park. It is the city's first bamboo-themed recreational and ecological space, featuring dense bamboo groves with thousands of plants of various varieties, bamboo-built kiosks, seating, pathways, water bodies, musical fountains, children's play areas, and picnic lawns designed to blend nature with leisure and environmental restoration, making it a relaxing green destination for families and visitors.

Garden of Five Senses: The Garden of Five Senses, is a unique sensory garden designed to engage visitors' senses, featuring aromatic plants, textured pathways, and vibrant flowers. This tranquil oasis offers a peaceful retreat from the city's chaos, inviting visitors to explore and connect with nature.

Asola bhati Wildlife Sanctuary: Asola Bhatti Wildlife Sanctuary, located in Delhi's southern outskirts, is a home for wildlife, including nilgai, and over 200 bird species, offering a unique opportunity to connect with nature. The sanctuary features scenic trails, grasslands, and forests, making it perfect for nature walks, bird watching, and escaping the city's urban bustle.

Okhla Bird Sanctuary: Okhla Bird Sanctuary, located on the Delhi-Noida border, is a vital stopover for migratory birds and a haven for birdwatchers, with over 250 bird species, including painted storks and sarus cranes. This 3.5 km sanctuary features wetlands, grasslands, and water bodies, making it perfect for bird watching, nature photography, and serene walks.

Yamuna Biodiversity Park: Yamuna Biodiversity Park, a 457-acre nature reserve in Delhi, is a thriving ecosystem with diverse flora and fauna, featuring wetlands, grasslands, and forests, supporting over 1,500 plant species and 200 bird species. This ecological heaven offers guided nature walks, bird watching, and opportunities to connect with nature, amidst the city's urban landscape.

Sanjay Van: Sanjay Van, an approx 785 acre forest in Delhi, is an eco-tourism gem, offering scenic trails, diverse flora and fauna, perfect for nature walks, bird watching, and cycling. This tranquil oasis amidst the city's urban landscape invites visitors to connect with nature and experience Delhi's natural beauty.

Raj Ghat: Raj Ghat, a memorial to Mahatma Gandhi, is a serene spot in Delhi with lush gardens and scenic pathways, often visited for its historical and cultural significance. While not a traditional eco-tourism site, its tranquil atmosphere and green spaces make it a peaceful spot for relaxation and reflection, aligning with eco-tourism's focus on nature and sustainability.

MICE Tourism

Bharat Mandapam: A state-of-the-art convention and exhibition centre located at Pragati Maidan, New Delhi. Renowned for hosting landmark global events such as the G20 Summit, it features large halls with a combined capacity of around 7,000, world-class facilities for conferences, exhibitions, and cultural programs, and striking Indian-inspired architecture, including the iconic Shankha-shaped design and rich cultural motifs.

The venue reflects India's modern infrastructure capabilities while celebrating its civilizational heritage. It stands as a powerful symbol of India's emergence as a leading global destination for international dialogue, exhibitions, and mega events.

Vigyan Bhawan: Vigyan Bhawan is located in Central New Delhi, near Rajpath (Kartavya Path). Vigyan Bhawan is one of India's most prestigious and iconic MICE venues, primarily used for high-level meetings, international conferences, government summits, and diplomatic events. It has played a central role in hosting national policy discussions, global conventions, and international delegations, making it a cornerstone of Delhi's MICE tourism landscape.

India Habitat Centre: It is located at Lodhi Road, Central New Delhi, close to government institutions, embassies, and cultural landmark. India Habitat Centre is a premier venue for conferences, seminars, workshops, and intellectual forums, playing a significant role in Delhi's MICE tourism, especially for policy discussions, academic conferences, corporate meetings, and cultural events. It is known for hosting national and international conferences focused on governance, sustainability, arts, and social development.

Yashobhoomi: It is officially known as the India International Convention and Expo Centre (IICC), is a world-class convention and exhibition complex located in Dwarka, New Delhi. Conceived as a modern platform for global meetings, exhibitions, and cultural exchanges, it reflects India's growing stature on the world stage. Equipped with state-of-the-art infrastructure and expansive exhibition facilities, Yashobhoomi is envisioned as a landmark destination for international conferences and large-scale events. It was inaugurated on 17 September 2023 by the Hon'ble Prime Minister of India.

Memorials

Guru Tegh Bahadur Memorial: This complex has been constructed at Singhu Border in an area of 11.87 acres. The 24 meter high central pylon with petals at the base represents the Guru & his strength. The three "C" arches denote his three followers and the monoliths represent the 10 Sikh Gurus with their sayings inscribed on them.

Kalam Memorial: Kalam Memorial located at INA Dilli Haat is a befitting testimony of our undying love for the 'People's President', as he was fondly called.

Azad Hind Gram Tourist Complex at Tikri Kalan: The Complex was developed by Delhi Tourism in memory of Netaji Subhash Chandra Bose to create quality leisure space and wayside amenities for citizens.

National War Memorial (NWM): The National War memorial is a symbol of victory and national pride of Citizens. The memorial a National monument built to honor and remember soldiers of the Indian military who fought in armed conflicts of independent India.

Dilli Haats:-

Dilli Haats (INA, Janakpuri & Pitampura): Dilli Haat is a socio-cultural complex with a 'bazaar' feel to it. It is an urban version of the traditional weekly market, with a delightful mix of craft, food and culture. A number of festivals are organized in these 3 Haats.

1.2 OTHER PLACES IN DELHI WHICH ATTRACT TOURISTS ARE:

Rashtrapati Bhavan, Jama Masjid, Humayun's Tomb, Safdurjung Tomb, National Police Memorial, Signature Bridge etc.

1.3 ENTERTAINMENT SPOTS, GARDENS AND BIODIVERSITY PARKS IN DELHI:

Entertainment spots: Museums in Delhi, Movie Theatres, Theaters and Auditoria, Art Galleries, Soft Adventure Sports, various Gardens etc.

Gardens: Central Park Rajiv Chowk, Deer Park, Buddha Jayanti Park, Indraprastha Park, Talkatora Garden, Swarn Jayanti Park and Nehru Park, Lodhi Garden etc.

Biodiversity Parks: Yamuna Biodiversity Park, Aravalli Biodiversity Park, Kamla Nehru Biodiversity Park, Tilpath Valley Biodiversity Park, Neela Hauz.

1.4 OTHER ACTIVITIES

- **WATER SPORTS ACTIVITIES:**
  DTTDC provides water sports activities at 03 lakes in Delhi:
  i. Naini Lake (Model Town) (Boating)
  ii. Bhalaswa Lake (Boating)
  iii. Sanjay Lake (Soft Adventure Park)

- **EVENTS AND FESTIVALS:**

Promotion of cultural tourism is an important component of the tourism landscape. Accordingly, the rich heritage of our country in general and Delhi in particular has been projected from time to time through various festivals & events such as Mango Festival, Children's Theatre Festival, Teej Mahotsav, Dandiya Festival, Diwali Celebration, Bhajan Clubbing, other Cultural Events, Musical Concert etc.

2. Performance of Delhi Tourism

The capital of India is one of the key arrival destinations for both foreign and domestic tourists. The state is among the top tourist destinations in the country. Approx. 32.25 lakh (38.85%) Foreign Tourist Arrivals (FTAs) in Delhi during 2024 have been recorded as per India Tourism Data Compendium 2025. State/ UT wise number of Foreign Tourist Arrivals (FTAs) in India in 2024 is given in statement 10.1:

AZAD HIND GRAM

Delhi is known for its rich heritage and culture. To promote experiential tourism, various Haunted and Heritage walks are being organized by DTTDC, which are as follows:-

1. Dilli ka Dil aur worship places
2. Ek sham Shaheedon ke Naam
3. Roshan-e-dilli
4. Nawabo Ki Akhiri Nishani
5. Walk of hauz khas
6. Walk of Qutub minar & Mehrauli Archeological park.
7. Food walk (Old delhi)
8. Walk of Shahjanabad(Old Delhi)
9. Dilli ka Dil Dekho
10. Dekho apna CP
11. Haunted Heritage walk (Feroz Shah Kotla Monument

Delhi Tourism organizes Delhi Tourism Heritage Walk Festival to celebrate Delhi's rich heritage and invited participants to explore the city's historical treasures through a series of guided walks. The aim of the festival is to boast a diverse range of walks, each highlighting a unique aspect of Delhi's vibrant history and culture.

5. TRAVEL DIVISION OF DTTDC:

Travel Division of DTTDC was set up by DTTDC in November 1996 and started regular operations in ticketing. The Travel Division became a member of the International Air Transport Association (IATA) for the purpose of issuing international air tickets. Further DTTDC is authorized agency for booking of air tickets for domestic and international tours for employees of Govt. of NCT of Delhi.

5.1 Development of Mobile App "Dekho Meri Dilli":

Delhi Tourism mobile app provides a new paradigm to the tourism sector. It offers tourists, visitors, all stakeholders and people across the globe, in their hands, an easy access to not just tourism destinations in Delhi but also engages them in a constructive manner.

It is an informative all-in-one App for all facets of tourism in Delhi. It enables ticket booking for all monuments of ASI and Delhi Tourism projects. Recently, Baansera Park and Asita Park developed by DDA and Bharat Darshan park, Waste to Wonder Park developed by MCD have been added in this mobile app. This mobile App proves to be a Handy Guide for the National and International Tourists provides authentic information about Delhi. Its integration with Google Maps help tourists to smoothly navigate to the tourist places.

5.2 Delhi Film Policy:

Delhi Tourism has notified and launched Delhi Film Policy (DFP) 2022, on 13.05.2022 to brand the national and international profile of Delhi through films. DFP 2022 includes a unique feature i.e. e-Film Clearance, a completely online single window clearance mechanism for film shooting facilitation in Delhi to accord the approvals online from 20+ stakeholders departments in a seamless, transparent and stipulated time manner, in line with the vision and objective of ease of doing business in Delhi.

Since its inception **278 applications** for film shooting have been received and **50** Film projects have been facilitated through e-film clearance portal. A repository of 550+ Filmic locations is also available on the portal, which are being enhanced further as per requests of Production House for more film shooting locations. This policy is being promoted at National and International platforms with the aim of making Delhi a preferred filmic destination and ease of doing film business in Delhi.

CHAPTER AT A GLANCE

- The capital of India is one of the key arrival destinations for both foreign and domestic tourists. The state is among the top tourist destinations in the country. Approx. 32.25 lakh (38.85%) Foreign Tourist Arrivals (FTAs) in Delhi during 2024 have been recorded as per India Tourism Data Compendium 2025.
- Delhi secured 6th rank in Total Foreign Tourist Visits in 2024 with a share of 1.999 million FTVs (9.55 %) out of total 18.621 million FTVs among Top 10 States/UTs of India. (India Tourism Data Compendium 2025).

CHAPTER 11

ENERGY

The power scenario in Delhi has improved considerably after the power sector reform in July 2002 compared to other states. However, Delhi's power sector reforms in 2025 with the focus on expanding solar energy (Surya Ghar Scheme), pilot underground cabling, improving EV infrastructure, ensuring consumers satisfaction through better infrastructure resilience.

1.1 Key Reforms & Initiatives taken by the Government in 2025-26:

I. Infrastructure Resilience:

i. **Strengthening Transmission and Distribution networks** to handle increasing power demand. Allotment of land to Power Utilities for construction/ expansion of power related infrastructure like electric sub-station, power plants etc.

ii. **Underground Cabling:** Launched pilot projects, like in Shalimar Bagh, to convert overhead wires to underground networks for better reliability.

II. Renewable Energy:

i. **Surya Ghar Scheme & Solar Energy Policy:** Integrating solar power, a key pillar for Delhi's clean energy future, under the national scheme PM Surya Ghar scheme and state Government initiative to provide state Top-up on this national scheme. With the amendment to the Delhi Solar Energy Policy 2023, the capital subsidy has been increased to ₹10,000/kW (capped at ₹30,000/-).

III. Regulatory & Policy Framework:

i. **Financial Discipline:** Aims to prevent DISCOM losses and increase accountability, while safeguarding subsidies for the poor.

IV. Future-Proofing & Resilience:

i. **Peak Demand Management:** Focused efforts on ensuring uninterrupted power supply and enhancing service quality in the distribution sector as power demand rises due to population, AC usage, and EVs etc.

ii. **Clean Energy Transition:** Efforts on increasing reliance on solar power and promoting electric mobility.

2.1 Delhi being the national capital and hub of commercial activities in the Northern Region has very high demand for power. Prosperity of its population generates diversified demand for electricity covering every facet of life. The domestic power tariff in Delhi is the lowest amongst all the metros in the country. The growth in power consumption can also be attributed to large-scale regularization of unauthorized colonies leading to both horizontal and vertical load growth. Better road transport, telecommunication, regular power supply and economic policies have attracted industrial activities and services, thereby raising the demand for power. The priority in the energy sector in Delhi is mainly to maintain uninterrupted power supply and to take care of the increasing power demand. During 2024-25, there were about 47.58 lakh (monthly average) households, getting electricity subsidy in Delhi (more than 80.09% of the total domestic electricity consumers).

2.2 Delhi has already achieved 100% electrification. Delhi, being an urban place with high load density, has seen the electricity consumption increasing from 29415.87 MUs in 2015-16 to 30996.29 MUs in 2025-26 (upto December, 2025). Delhi has its unique load pattern and peak load problem due to predominant share of domestic consumption and extreme weather conditions. Power sector of Delhi is different in comparison to other states, as other states have power deficit, whereas Delhi has tied up surplus power in order to cater to the increasing demand and peak load.

3 The power scenario in Delhi has improved considerably after the power sector reform in Delhi compared to other states. In order to continue the 24X7 uninterrupted power supply and to maintain the power tariff at a stable level and to make electricity affordable for every consumer, various steps have been taken, like containing the load-shedding and by subsidizing electricity of the domestic consumers, Agricultural consumers (farmers), Special subsidy to 1984 Sikh Riots Victims and Lawyers chambers within the premises of the Court Complex in NCT of Delhi, irrespective of the load. Load shedding has dropped to the lowest level in last two decades as low as 0.014 % of the total consumption.

4. Power Generation

4.1 Indraprastha Power Generation Company Limited (IPGCL) and Pragati Power Corporation Limited (PPCL) are managing following power plants in Delhi having a total installed generation capacity of 1791.2 MW. Two coal based power plants IP Station and Rajghat power house have been commercially shut

down and are not functional due to environment concern. Further, Power Purchase Agreement of GTPS got expired in March,2021 but considering the strategic importance of the station, DERC vide Order dt. 24.03.2021, allowed GTPS to generate 90 MW.

4.2 There is 1500 MW Coal Based Indira Gandhi Super Thermal Power Plant setup in Jhajjar, Haryana by Aravali Power Company Private Limited, which is a joint Venture of NTPC Limited, IPGCL and Haryana Power Generation Corporation Limited with equity participation in the ratio of 50:25:25 respectively. The power generated is being shared equally by Delhi and Haryana. The plant was fully declared for commercial operation on 26th April 2013. The Plant, under Stage-I, has 3 units of 500 MW capacity, and all the units have been fully commissioned. There is a future provision of augmenting the capacity by 1320 MW (2 x 660 MW) under Stage-II.

4.3 A new 750 MW Gas Based Combined Cycle Gas Turbine (CCGT) Pragati-II Power Project at Bamnauli was proposed to be set up by Pragati Power Corporation Limited (PPCL) but had been kept on hold by the Government due to non-availability of gas. So, now it is planned to establish Solar based battery energy storage system there.

STATEMENT 11.1

INSTALLED CAPACITY OF POWER GENERATION IN DELHI

(As on 28th February 2026)

S. No.	Companies/Station	Fuel	Units
1.	Indraprastha Power Generation Company Limited (IPGCL)		
	a. Gas Turbine Power Station (GTPS)	Gas	2 x 30 MW (GTs) + 1 x 30 MW (STGs) = 90 MW
2.	Pragati Power Corporation Limited (PPCL)		
	a. Pragati-I Power Station	Gas	2 x 104 MW (GTs) + 1 x 122 MW (STGs) = 330 MW
	b. Pragati-III Power Station, Bawana	Gas	4 x 216 MW (GTs) + 2 x 253.6 MW(STGs) = 1371.2 MW
	Total	--	**1791.2 MW**

Source: Indraprastha Power Generation Company Limited and Pragati Power Corporation Ltd.

5 Plant Load Factor

5.1 In the electricity industry, plant load factor is a measure of the gross output of a power plant compared to the maximum output it could produce. The performance of the generation stations owned by Delhi Government in terms of Plant Load Factor and Availability Factor is as under:

STATEMENT 11.2

PLANT LOAD FACTOR / AVAILABILITY FACTOR OF POWER PLANTS IN DELHI 2015-16 to 2025-26

(Percentage)

S. No	Year	Rajghat Power House	Gas Turbine Plants	Pragati-I Power Station	Pragati-III Power Station	Average
1.	2015-16	23.57* (55.88) *	19.69 (74.81)	53.11 (90.25)	15.87 (64.55)	21.77 (72.88)
2.	2016-17	decommissioned	29.41 (82.84)	62.46 (90.62)	17.04 (80.70)	26.31 (82.94)
3.	2017-18	-do-	24.48 (83.07)	67.63 (92.64)	24.60 (74.11)	31.79 (78.25)
4.	2018-19	-do-	25.35 (81.29)	52.43 (88.36)	30.14 (71.99)	33.22 (76.02)
5.	2019-20	-do-	21.15 (86.46)	52.76 (96.95)	33.33 (89.26)	34.91 (90.16)
6.	2020-21	-do-	19.39 (87.17)	53.26 (93.24)	27.60 (92.54)	30.77 (91.92)
7.	2021-22	-do-	28.07 (52.52)	52.70 (93.83)	26.68 (93.12)	31.55 (91.21)
8.	2022-23	-do-	42.07 (91.79)	29.59 (91.06)	21.63 (91.91)	24.12 (91.75)
9.	2023-24	-do-	32.89 (83.22)	29.04 (98.61)	22.05 (92.52)	20.97 (93.17)
10.	2024-25	-do-	32.74 (88.91)	25.83 (96.33)	23.94 (89.97)	24.73 (91.08)
11.	2025-26 (upto Feb., 2026)	-do-	42.08 (89.74)	36.42 (94.28)	12.64 (55.98)	18.50 (64.73)

Sources: Indraprastha Power Generation Company Limited and Pragati Power Corporation Limited.

*Data as per the DERC order dated 21.10.2021 for 90 MW on APM gas only

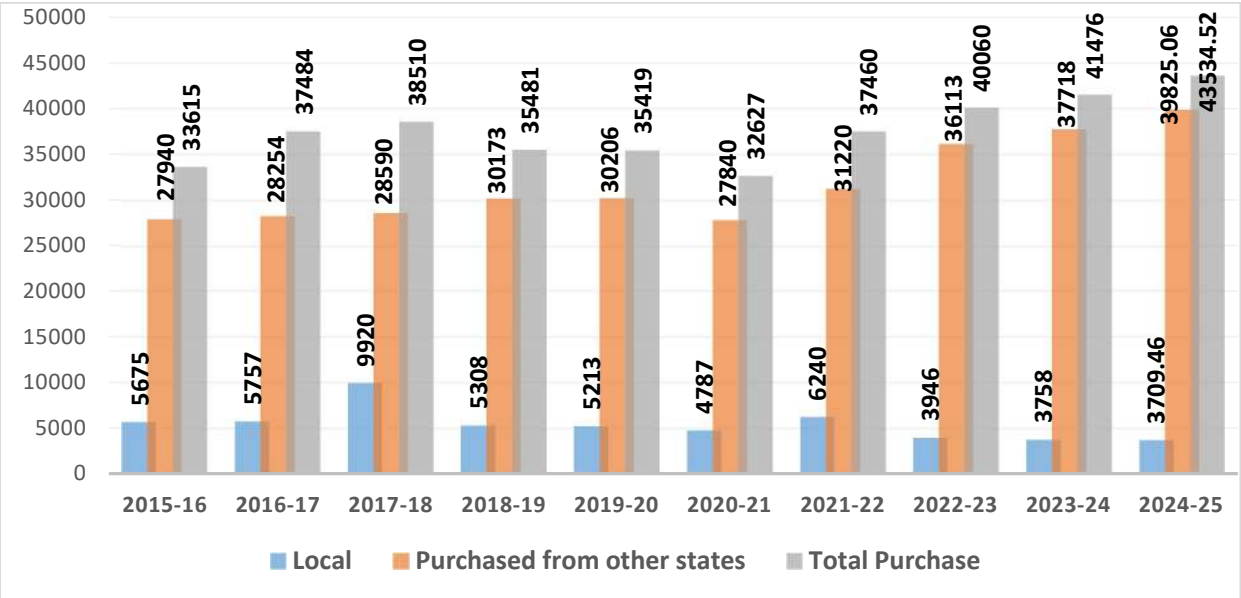

5.2 It may be inferred from statement 11.2 that the power stations of IPGCL & PPCL have achieved more than 91% average availability during FY 2024-25. However, the reason for low plant load factor attributed to low scheduled received from System control due to low availability of cheaper domestic gas & high rate imported RLNG.

Further, it is to mention that Availability and PLF of PPS-III, Bawana is low due for the FY 2025-26 (upto February 26) due to complete disruption of gas supply to PPS-III, Bawana, caused by the damage to GAIL's 20" Gauna–Bawana pipeline on 16th August 2025. The incident necessitated isolation of the affected section, resulting in a total shutdown of generation at PPS-III, Bawana since then. The gas supply is expected to be resumed by 15th December'2025.

6. Power Purchase

The total power purchase in Delhi is 43534.52 MUs in FY 2024-25. While 08.52% of total power purchase is sourced from own generation by Delhi Govt. Power Plants, 91.48% is purchased from Central Govt. and other sources. The information regarding power purchase in Delhi in last 10 years is presented in Chart 11.1.

CHART 11.1
POWER PURCHASE IN DELHI (IN MUs)

7. Power Distribution

The distribution of electricity in Delhi to various categories of consumers increased from 24037 million units in 2015-16 to 33009 million units in 2024-25. Category wise consumption of electricity in Delhi during 2015-16to 2024-25 is presented in statement 11.3 and Chart 11.2.

8. Aggregate Technical and Commercial Losses (AT&C)

Aggregate Technical and Commercial Losses (AT&C) is the difference between energy units put into the system and the units for which the payment is collected. After reforms in power sector, AT&C losses in Delhi has reduced significantly from 52% in the pre-reform era in 2002 (before July 2002) to 5.90% in 2024-25. Transmission and distribution loss do not capture losses on account of non-realization of payments. AT&C loss is the actual measure of overall efficiency of the distribution business as it measures both technical as well as commercial losses.

The scenario of reduction of AT&C losses is depicted in Statement 11.4.

STATEMENT 11.4

9. Capital Investment made by DISCOMs on infrastructure

As the demand for power increases, the demand for improved infrastructure for power also increases. For improving the power conditions in Delhi, all the three companies are augmenting infrastructure like power transformers, EHV cables, installation and 11 KV feeders shunt capacitors, etc. The capital investment made by the three distribution companies since FY 2015-16 is presented in Statement 11.5.

10. Power Transmission

10.1 Delhi Transco Limited is the State Transmission Utility of the National Capital Territory of Delhi. It is responsible for transmission of power at 220KV and 400KV level, besides up gradation operation and maintenance of EHV Network as per system requirements. After the enactment of Electricity Act 2003, a new department: State Load Dispatch Centre (SLDC) under Delhi Transco Limited was created, as an Apex body to ensure integrated operation of the power system in Delhi. Earlier the SLDC was part of O&M Department of Delhi Transco Ltd / Delhi Vidyut Board. SLDC Delhi started its function on the 1st of January 2004. SLDC is responsible for the real time Load Dispatch function, SCADA System and Energy Accounting. Its mission is to facilitate intra and interstate transfer of power in coordination with NRLDC (Northern Regional Load Dispatch Centre) with Reliability, Security and Economy on sound commercial principles.

10.2 Delhi Transco Limited has established power transmission network consisting of four number of 400 KV and forty three 220 KV substations and associated with transmission lines. The existing network consists of 400 KV ring around the periphery of Delhi interlinked with the 220 KV network spread all over Delhi. The Delhi Transmission Utility network as of the end of 2024–25 is presented in Statement 11.6.

STATEMENT 11.6

NETWORK OF DELHI TRANSMISSION UTILITY: 2024-25

S. No.	Details	400 KV Level	220 KV Level
1.	Number of Sub Stations	4	43
2.	Transformation Capacity (in MVA)	5410	14780
3.	Transmission Lines (Length in Ckt. Km.)	249.19	925.37

Source: Delhi Transco Limited

10.3 The performance of the transmission utility during the last 11 years, system has improved mainly in system availability, reduction in transmission losses, significant reduction of load shedding etc. The performance of Delhi Transco Limited is presented in Statement 11.7.

STATEMENT 11.7

PERFORMANCE OF DELHITRANSCOLIMITED 2015-16 to 2025-26

S. No	Details	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25	2025-26

Source: Delhi Transco Limited/SLDC.

10.4 It may be observed from Statement 11.7 that the peak demand increased from 5846 MW in 2015-16 to 8442 in 2025-26. Energy consumption recorded an average annual growth of approx. 3.15% for 2015-16 to 2024-25. The Average System availability for the period 2015-16 to 2024-25 is 99.06%. The information regarding peak demand met in MW is depicted in Charts 11.5.

CHART 11.5

PEAK DEMAND IN MW

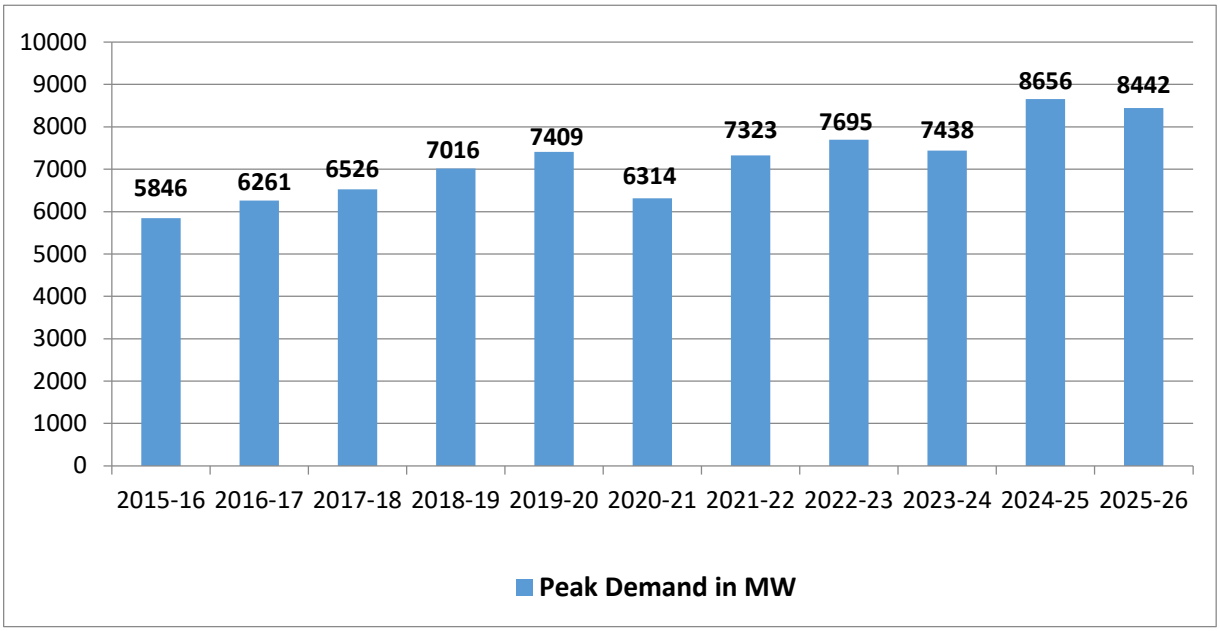

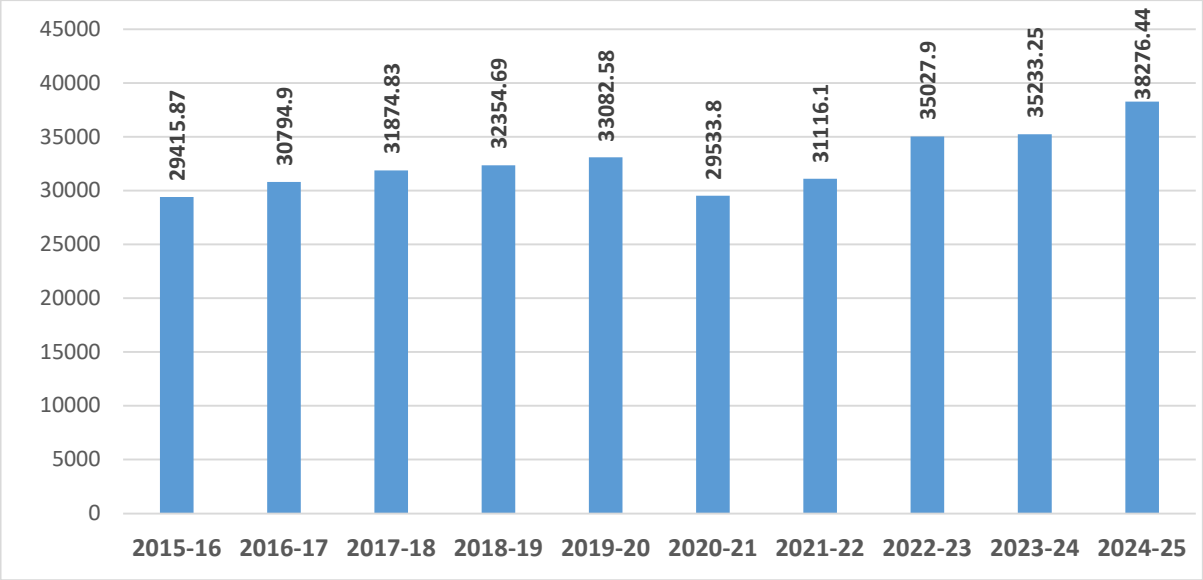

CHART 11.6

ENERGY CONSUMPTION IN DELHI: 2015-16 to 2024-25 (IN MUs)

10.5 Volume III of 20th Electric Power Survey (EPS) of India Report covers the demand forecast of National Capital Region (NCR). Central Electricity Authority, Ministry of Energy, Government of India, in the report of 20th Electric Power Survey had projected maximum demand of electricity in Delhi to be 9000 MW by the end of March-2025 but it actually recorded 8656 MW. The forecast of energy requirement made in the report indicated that the total demand may go-up to 9000 MW by 2025-26 but considering the present scenario the peak demand for summer 2025 was observed as 8442 MW on 12.06.2025.

Energy Requirement and Peak Load Forecast for NCR- 19th EPS & 20th EPS

	2023-24 (Actual)	2024-25 (Actual)	2025-26 (Actual)	2026-27 (Anticipated)
Energy Requirement (MU)	35233.25	38276.44	30996.29 (Till 31st Dec 2025)	41250
Peak Load (MW)	7438	8656	8442	9100

11 Major Transmission Projects

To facilitate constant access to real-time data of the entire network, Supervisory Control and Data Acquisition system (SCADA) has been

implemented. In order to meet the future requirement of power in Delhi in reliable and efficient manner, various new and augmentation transmission network projects (400/200KV) costing approx. ₹200 Crore for adding 200 MVA transformation capacity and 28 Ckt Kms Transmission Line/Cable etc works at 220KV level and no capacity addition at 400KV level envisaged in Business Plan for the period 2023-24 for improving of power supply in Delhi.

12 Renewable Energy

12.1 Delhi Solar Energy Policy

To promote the use of green power through solar energy in Delhi, the Government of NCT of Delhi approved the "Delhi Solar Energy Policy – 2023" on 14.03.2024, with a target to install a cumulative 750 MW of solar capacity during the policy period. Under this policy, a provision was made for a capital subsidy of ₹2,000/kW, capped at ₹10,000 per consumer. Subsequently, the policy was amended via notification dated 10 July 2025.

As per the amendment to the Delhi Solar Energy Policy 2023, the capital subsidy has been increased to ₹10,000/kW (capped at ₹30,000) and is now transferred directly to the consumer through DBT. The EE&REM Centre processes the disbursal of the subsidy strictly on the basis of verified consumer details available on the Delhi Solar Portal.

As of January 2026, the total number of solar installations in Delhi stands at 21,915 consumers, with a cumulative capacity of 425 MW. During the solar policy period (14 March 2024 to January 2026), approximately 12,556 installations were completed, adding a cumulative capacity of around 166.71 MW.

The Solar policy also includes a provision mandating solar installations on all Government buildings with a rooftop area of 500 sq. m or above.

As per the Building Bylaws of Delhi, installation of solar systems is mandatory for all buildings with a plot area of 105 square metres or above.

Capital Subsidy

State Capital Subsidy: GNCTD will provide a subsidy for all solar projects at the rate of ₹ 10,000/-per KW upto 3 KW per consumer (capped at ₹ 30000), as given below:

Category	Capital Subsidy
Residential Households	1.) Under PM Surya Ghar Muft Bijili Yojana, consumers get ₹ 30,000/- per kW with a ceiling of ₹ 78,000/- for 3 kW. 2.) Under Delhi Solar Energy Policy, 2023 consumers get ₹ 10,000 per kW with a ceiling limit of ₹ 30,000/-(3 kW solar plants)
Group Housing Society/Resident Welfare Association (GHS/RWA)	₹ 2,000 per kW for common facilities, including EV charging, up to 500 kW Capacity (@3 kW per house) with the upper limit being inclusive of individual rooftop plants installed by individual residents in the GHS/RWA

12.2 PM Surya Ghar (PMSG) Muft Bijli Yojana

The Government of India (GoI) launched the PM Surya Ghar (PMSG) Muft Bijli Yojana in February 2024 to promote residential rooftop solar installations across India, targeting 1 crore installations by March 2027. Under the PMSG scheme, GoI provides the Capital subsidy of ₹ 78,000 for 3 KW solar system. The target allocated to Delhi under the PMSG scheme is 2.3 lakh residential rooftop solar installations by March 2027.

Approximately 6,735 solar installations have been done under PMSG in Delhi.

12.3 Energy Efficiency & Energy Conservation:

The Energy Efficiency and Renewable Energy Management Centre (EE&REMC) functions as the State Designated Agency (SDA) in association with the Bureau of Energy Efficiency (BEE), Ministry of Power, Government of India, to carry out various energy efficiency and conservation activities in Delhi. Key initiatives include:

- The EE&REM Centre issued a notification dated 07.03.2025 mandating the use of energy-efficient BLDC fans, 5-star or above air conditioners, and other star-rated efficient appliances in Government buildings and Government-aided institutions/Boards/Corporations.
- The Energy Conservation Building Code (ECBC) has been upgraded and launched as the Energy Conservation and Sustainable Building Code (ECSBC), incorporating sustainability parameters in addition to energy-

efficiency requirements for commercial buildings. It will be incorporated into the unified building bylaws of the DDA.

12.4 As the State Nodal Agency (SNA), the EE&REM Centre is responsible for implementing new and renewable energy projects in Delhi in association with the Ministry of New & Renewable Energy (MNRE), Government of India.

12.5 Waste-to-Energy (WtE)

Disposal of municipal solid waste is a major challenge. To address this, cumulative capacity of 84 MW Waste-to-Energy (WtE) plants are set up at various locations in Delhi to generate electricity from waste.

Waste to Energy	84 MW	**WtE Plants at:-**
		Timarpur-Okhla (23MW)
		Ghazipur (12MW)
		Narela-Bawana (24 MW)
		Tehkhand- 25 MW

12.6 Renewable Energy Generation

Total Renewable Energy Generation in Delhi for FY 2025–26 is as under:

Renewable Energy Technology	Installed Capacity (up to Jan. 2026)	Renewable Energy Generation
Waste-to-Energy	84 MW	473.90 MUs
Rooftop Solar	425 MW	279.50 MUs
Total	**509 MW**	**753.44 MUs**

13. Government investment in Energy Sector

13.1 Investment in energy sector by the Government of Delhi is for augmentation of transmission and transformation capacity and power generation and also in making electricity tariff affordable to the consumers. Investment by the government in this sector during the last five year showed an up and downward trend. The share of investment in energy sector from 2015-16 to 2024-25 is present in Statement 11.8.

STATEMENT 11.8
GOVT. EXPENDITURE IN ENERGY SECTOR

(₹ in Crore)

S. No.	Years	Expenditure on Schemes & Projects		
		Total Expenditure	Energy Sector	% of Energy Exp to Total Plan Exp.
1	2015-16	14960.54	235.52	1.57
2	2016-17	14355.03	187.77	1.31
3	2017-18	14401.00	221.85	1.54
4	2018-19	15672.03	413.18	2.64
5	2019-20	20307.02	52.86	0.26
6	2020-21	19223.29	5.72	0.03
7	2021-22	30346.33	3274.32	10.79

14. Shifting of HT/LT line

14.1 Shifting of HT (66000/33000V/11000V)/LT (400V) Electricity transmission line posing threat to human life.

Drawing inspiration from modern power infrastructure in leading global cities, the conversion of the overhead electrical network to an underground power distribution network is a first-of-its-kind pilot project at BH Block Colony, Janta Flats, Shalimar Bagh aimed at transforming the current infrastructure into a model distribution network. It aims to create a scalable and replicable model for safe, efficient, and aesthetically improved urban power supply infrastructure that can be extended to other parts of Delhi.

With the execution of scheme consumer will get 24x7 supply, even during adverse weather conditions. The conversion will improve the reliability of the power supply by reducing the interruptions caused by faults in overhead networks, enhance safety, particularly in densely populated and encroached areas, where bare overhead conductors pose serious risks. It will help ensure minimal disruption in power supply, as the underground system offers better fault isolation in LT sections. Free up space above ground, allowing for better land use in urban areas and reducing obstruction for trees, buildings, and traffic thereby improving the appearance of streets, neighbourhoods, and public spaces. Currently, cities across India grapple with tangled overhead wires, frequent outages during storms, blocked vehicular movement due to low-hanging lines, and lack of backup power sources in feeder pillars. This initiative directly addresses these issues and sets a new benchmark in urban power distribution. With the successful implementation of this pilot, the model may be extended across other colonies and districts, making Delhi a benchmark city for modern, sustainable, and citizen-centric utility services

Areas covered in the policy

i. Colonies set up under 20-point programme in the rural area.
ii. Rural areas, like Lal Dora areas and extended Lal Dora areas.
iii. In respect of farmers other than farmhouse owners.
iv. In respect of 'regularized unauthorized colonies' including urbanized village and resettlement colonies.
v. In case of HT/LT line passing through Govt. Institutions, public authority buildings, public schools, public hospitals, colleges of public nature and which are owned by the govt. (under intimation to the land owning agency concerned).

Total 15 works / proposals of Shifting/ Re-routing of HT Lines at different locations are under execution in the FY 2025-26.

15. Purchase of land for Power Utilities:

Allotment of land to Power Utilities for construction/ expansion of power related infrastructure like electric sub-station, power plants etc.

15.1 Payment released to land owning agency/ IPGCIL

S.No.	Proposal	Amount released (₹ in Crore)
1.	Land measuring 2171 sqm sqm at Mubarkpur Dabas for establishment of 66/11kV Grid Sub-Station by TPDDL	8.20
2.	Land measuring 1153.53 sqm at Rajokri for establishment of 66/11kV Grid Sub-Station by BRPL	2.90
3.	Land measuring 1500 sqm. (50m x 30m) at Sector A1-A4 Narela for establishment of 66/11kV Grid Sub-Station by TPDDL	3.78
4.	Transfer of land portion of 220kV Sub-Station at Sector-5, Dwarka and Tughlakabad from PGCIL to DTL	10.00
Total		24.89

CHAPTER AT A GLANCE

➢	The priority in the energy sector in Delhi is mainly to maintain uninterrupted power supply and to take care of the increasing power demand.
➢	Government of NCT of Delhi has initiated power sector reforms in 2025 with the focus on expanding solar energy (Surya Ghar Scheme), pilot underground cabling, improving EV infrastructure, ensuring consumers satisfaction through better infrastructure resilience.
➢	Delhi, being an urban place with high load density, has seen the electricity consumption increasing from 29416 MUs in 2015-16 to 38276 MUs in 2024-25. For the FY 2025-26, the electricity consumption is 30996.29 MUs (upto December, 2025)
➢	The total power purchase in Delhi is 43534.52 MUs in FY 2024-25. While 8.52% of total power purchase is sourced from own generation by Delhi Govt. Power Plants, 91.48 % is purchased from Central Govt. and other sources.
➢	Delhi Transco Limited has established power transmission network consisting of four number of 400 KV and forty three 220 KV substations and associated with transmission lines.
➢	The peak demand increased from 5846 MW in 2015-16 to 8656 MW in 2024-25. However, the peak demand of FY 2025-26 was 8442 MW.
➢	During the period 2015-16 to 2024-25, the number of consumers of electricity in Delhi increased from 52.62 lakh to 73.61 lakh.
➢	After reforms in power sector, AT&C losses in Delhi has reduced significantly from 52% in the pre-reform era in 2002 (before July 2002) to 5.90% in 2024-25.
➢	Total installed capacity of Renewable Energy is 509 MW (425 MW Solar Energy generations + 84 MW Waste to Energy generation) till January, 2026.
➢	For the FY 2025-26 (Till Nov. 2025), an amount of ₹24.89 crore has been released to purchase land for expansion of power related infrastructure.

CHAPTER 12

TRANSPORT

Introduction:

The transportation sector is growing exponentially in India. Particularly in Delhi, there is a huge pressure on this sector. Hence, it has become utmost important task of planners to take overview of all-inclusive set of indicators for developing an integrated and sustainable urban transport system. Delhi's unplanned urban expansion and unparalleled growth in motorization, there is need of increased focus on sustainable modes of mass transit systems like metro rails and bus based public transportation. An integrated transportation strategy is most needed so that various modes of transport are integrated efficiently to facilitate the sustainable transportation. The vision of transport planning is to provide easy access to safe, affordable, quick, comfortable, reliable and sustainable mobility for all sections of the society in our cities. For transportation to be sustainable, it is equally important to understand the social, economic and environmental sustainability of each of these sub-systems.

1.1 Due to lack of last mile connectivity in the most of the part of Delhi, lack of proper integration, socio economic diversity in Delhi, large portion of population is still not using Public Transport. As a result, growing uses of personal Cars & two wheelers has led to tremendous decline in air quality and traffic safety. In many urban areas of city road/street congestion have increased a lot, and Delhi is already amongst the India's largest producer of greenhouse gas (GHG) emissions. Hence, promoting uses and improving efficiency and effectiveness of Public transport is most desirable in Delhi.

1.2 To achieve sustainable public transport in the cities, following factors are crucial:

- Public transportation is enabled as a priority for mass mobility,
- A multi-modal and integrated transit systems comprising of pedestrians, bicycles, buses, metro, and rails to be created
- Adopting more economical, sustainable and environment friendly technologies/fuels to mitigate air quality problems (CNG vehicles, hybrids, electric vehicles, etc.).

2. Transport Infrastructure

2.1 Road Network

i. Public Works Department (PWD), Government of NCT of Delhi (GNCTD) maintains approx. 1386 kms of road network across Delhi. The Department is implementing a comprehensive 'End-to-End' development initiative. End to End

development would include entire right of way under hard surface gap between road and footpath and construction/repair of footpath.

ii. PWD has recently taken over Signature Bridge over Yamuna from Tourism Department and appointed the consultant for undertaking necessary repair, maintenance and refurbishing.

iii. After a gap of fifty years, new Drainage Master Plan has been prepared by PWD for entire Delhi through consultants. This will be implemented over a period of five years at an estimated cost of Rs. 56000 crores. All relevant agencies will undertake the required construction/rejuvenation of drains in accordance with the master plan which will substantially reduce urban flooding and water logging. The work has already been taken up by PWD and other implementing agencies in accordance with the recommendations of the Drainage Master Plan.

iv. The Government has also sanctioned M.B. Road drain project in December 2025, with project cost of Rs. 387.84 Crore, which will provide long term relief from water logging in at least five Assembly Constituencies.

v. Dust pollution is also one of the Government's top priorities. In this regard, PWD has already executed the installation of 350 mist poles on central verges, in areas with high vehicular movement and dust pollution.

vi. Further, 200 Anti-Smog Guns (ASGs) are being operated regularly on PWD roads for washing trees, footpaths, central verges, and carriageways across the entire right of way. This helps removal of dust and effectively reduces pollution in the city.

vii. For the first time, PWD is installing 06 green-waste plants at various locations to convert green waste into manure. This initiative is a step toward a sustainable environment and is in line with environmental conservation.

viii. The road network in Delhi is being developed and maintained by multiple agencies including the Municipal Corporations of Delhi (MCD), New Delhi Municipal Council (NDMC), Delhi State Industrial and Infrastructure Development Corporation (DSIIDC), Irrigation & Flood Control (I&FC) and Public Works Department (PWD). The road length maintained by different agencies in NCT of Delhi is presented in Statement 12.1.

STATEMENT 12.1

STATUS OF ROAD NETWORK IN DELHI - AGENCY-WISE

(As on 31st March 2025 in Lane KM)

S. No	Agency	Road Length
1.	Municipal Corporation of Delhi (MCD)	12703.95
2.	New Delhi Municipal Council (NDMC)	1290
3.	Delhi State Industrial and Infrastructure Development Corporation (DSIIDC)	2763.50
4.	Irrigation & Flood Control (I&FC)	360.15

Source: Delhi Statistical Hand Book 2025

PEDESTRIAN FACILITIES – FOOT OVER BRIDGES (FOBs):

Delhi is one of the fastest growing cities in the world both in terms of population and vehicular density. With increasing urban population, there are corresponding increases in pedestrian movement as well as vehicle density on the roads, leading to higher demand for appropriate infrastructure and facilitation in terms of walkways for smooth flow of traffic both along as well as across the roads. In Delhi, a large number of foot over bridges have been constructed to avoid conflict between movements of vehicles and pedestrians, and to facilitate accident-free movement of vehicles and pedestrians without interruptions. The existing Foot-Over Bridges is being refurbished and made aesthetically pleasant.

(A) The following project are under execution and are targeted for completion during FY 2026-27:

I. Lift work at FOB – Hauz Khas near Church/Mosque on Sri Aurobindo Marg is in progress.

II. Construction of FOB at Gurudwara Majnu ka Tila on Road No. 45, New Delhi.

III. Construction of FOB at Monastery Market Budh Vihar on Ring Road near ISBT Kashmere Gate, New Delhi.

IV. Construction of FOB at Mandir Gate–RRRC to Training Area at Ring Road.

V. Construction of FOB at Monastery Majnu ka Tila near Petrol Pump on Road No. 45, New Delhi.

VI. Construction of FOB at IT Park on Eastern Approach Road, Delhi.

VII. FOB at Samaypur Badli.

VIII. Construction of FOB at Metro Pillar No. 299 to 298 at Miyawali, Udyog Nagar, Rohtak Road.

IX. Construction of FOB in Trans Yamuna (Shahdara District) on PWD Roads at the Junction of Road No. 68 & Road No. 69 near D.C. Office, Nand Nagri, Delhi.

X. FOB (in M.S. tabular framework) with staircase, escalators & lift etc. on Road No. 56 near Anand Vihar ISBT, New Delhi.

XI. Construction of FOB at Ring Road from Hanuman Mandir (Marghatwale Baba Mandir) near MCD Park.

XII. Near Welcome Metro and Dwarka dheesh Mandir, Welcome.

XIII. Construction of FOB at Uttam Nagar East Metro Station Metro Pillar No. 638 to Pankha Road (Traffic Zone-II), New Delhi.

XIV. Construction of FOB in front of Moment Mall at Kirti Nagar, Delhi.

XV. FOB near Okhla Sabzi Mandi on Captain Gaur Marg.

XVI. FOB at Birla Vidya Niketan Crossing on Lal Bahadur Shastri Marg BRT Corridor.

FLYOVERS & BRIDGES:

Flyovers and corridor bridges/bridges are often constructed where there is heavy traffic congestion or where roads intersect at different levels. These structures facilitate uninterrupted vehicular movement, reduce travel time, enhance safety by minimize conflict points and improve overall traffic efficiency. A number of transport infrastructure projects along Ring Road and Outer Ring Road have been undertaken to encourage the use of public transport in Delhi.

Recently, PWD has completed a flyover at Nand Nagri inaugurated in September 2025. This has helped dozens of locality of Trans Yamuna in faster connectivity to both Delhi and NCR.

1. **Construction of Elevated Road of Barapulla Phase-III from Sarai Kale Khan to Mayur Vihar.**

The Elevated Corridor Barapulla Phase-III will connect Noida/Ghaziabad and East Delhi to Central Delhi and reduce traffic congestion at Sarai Kale Khan T-Junction. The stretch from Sarai Kale Khan to Mayur Vihar Phase-III was sanctioned for ₹1260.63 Crore. Approx. 95% work has been completed and the balance work is likely to be completed by 30.06.2026. The Government of NCT of Delhi has accorded approval for the revised project cost of ₹1635.03 Crore vide Cabinet Decision No.3314 dated 16.03.2026.

2. **Integrated Transit Corridor Development and Street Network between Punjabi Bagh Flyover and Raja Garden Flyover.**

Sanctioned cost of the project is ₹352.32 Crore. Tender cost is ₹228.27 Crore. 100% work was completed in March, 2025 and opened for public uses. Expenditure incurred up to December, 2025 is ₹281.23 Crore.

3. **Underpass by Jack Pushing Pre-cast RCC Box at ORR New Mukarba Chowk.**

Mukarba Chowk is the entry point into the city from Singhu Border and is a major junction on the Outer Ring Road and entry-exit point for heavy vehicles. This proposal has been prepared to decongest road traffic near Mukarba Chowk and Haiderpur Metro Station. Sanctioned cost of the project is ₹59 Crore. Tender cost is ₹43.30 Crore. An expenditure of ₹36.00 Crore has been incurred till December, 2025 and 70% work has been completed. The balance work will be completed in FY 2025-26.

4. **Slip Road Bridge (on Kondli Bridge) over Ghazipur Drain/Hindon Canal from Ghazipur Drain to Shamshan Ghat, Ghazipur Dairy Farm Road, Delhi.**

Providing slip road bridges on both sides will give relief to users and save precious time. Pollution emission levels will also decrease after construction of this slip road bridge. Project cost is ₹25.43 Crore. Approx. 95% work has been completed. An expenditure of ₹27.62 Crore has been incurred till December, 2025. Revised sanction of ₹37.08 Crore was received on 27.06.2025. The work will be completed by 30.04.2026.

5. **Flyover at Nand Nagri & Gagan Cinema Junction and Underpass at Loni Chowk of Mangal Pandey Marg including Road Signages, Electrical Works, Drainage, RWH and allied works.**

Mangal Pandey Marg is a critical component of the transport network in Shahdara, East Delhi, connecting Ghaziabad to Ring Road via Signature Bridge. Due to heavy traffic volume on this stretch, this project aims to improve flow and reduce congestion. Sanction amount is ₹341.20 Crore. An expenditure of ₹174.76 Crore has been incurred till December, 2025. The work was completed on 30.09.2025 and opened for public use. Due to completion of this flyover, the stretch from Bhajanpura to Bhopura Border has become signal-free and decongested.

6. **Flyover at Karawal Nagar, Gonda & Brijpuri Junction of Mangal Pandey Marg including Elevated Corridor (DMRC).**

The flyover at Karawal Nagar–Gokulpuri is being constructed by DMRC along with construction of the Metro Line (cost of flyover to be borne by Delhi Government). The flyover of PWD is at lower deck and Metro line is at upper deck. A MoU was signed between PWD and DMRC in February, 2021 for execution of the project. Sanctioned cost of the project is ₹220.10 Crore. An expenditure of ₹207.40 Crore has been incurred till December, 2025. Approx. 80% work has been completed and the balance work is to be completed in financial year 2026-27 by DMRC.

7. **Elevated Road on G.T. Road from Azadpur to Intersection of Rani Jhansi Road – Integration of PWD Flyover with DMRC Metro Corridor from Azadpur to Tripolia Gate to Intersection of Rani Jhansi Road (DMRC).**

Due to heavy traffic congestion from Rani Jhansi Road Junction to Azadpur, a feasibility study proposed for construction of flyovers/elevated corridors. Total length of the proposed flyover is 2.334 km. Sanction cost of the project is ₹266.89 Crore. An expenditure of ₹226.04 Crore has been incurred till December, 2025. Approx. 80% work has been completed and the balance work is to be completed in financial year 2026-27 by DMRC.

8. **Integrated 6-Lane Elevated Road and Underpass of PWD coming in the alignment of DMRC Corridor on MB Road from Saket G-Block to Pul Prahladpur (DMRC).**

   The Government of NCT of Delhi vide Cabinet Decision No. 3315 dated 16.03.2026 has approved the project amounting to ₹1471.14 Crore in January, 2026. The entire work is being executed by DMRC as deposit work. Approx. 30% of the work has been completed.

9. **Integration of Elevated Road along Yamuna River parallel to Ring Road between Wazirabad Flyover (Signature Bridge) with Metro Corridor, Maujpur–Majlis Park (Phase-IV), Soorghat Metro Station (DMRC).**

   Estimated cost of the project is ₹129.11 Crore. A/A & E/S is awaited, but the work has been started by DMRC in anticipation of sanction. Approx. 50% work has been completed

10. **Construction of Flyovers at Modi Mill and Savitri Cinema Intersections on Outer Ring Road, Delhi.**
    EFC has approved the project amounting to ₹371.75 Crore in its 5th meeting for the financial year 2025-26 held on 23.12.2025. The project work is likely to start soon.

11. **Improvement of Drainage System at M.B. Road under Division South Road-I & South East Road-II (Construction of Pre-cast RCC Box Drain at M.B. Road from Lado Sarai to RUB Pul Prahladpur).**

    EFC has approved the project amounting to ₹387.84 Crore in its 5th meeting for the financial year 2025-26 held on 23.12.2025. The Project work is likely to start. The project has been taken up for improvement of drainage system at Mehrauli–Badarpur Road to provide adequate drainage and reduce water logging in the area. Key points on this arterial road are prone to water logging every monsoon due to inadequate drainage. After commencement of this work, the problem of water logging will be resolved to the maximum extent.

12. **Construction of Skywalk/FOB at Madhuban Chowk (on ORR) connecting Pitampura Metro Station and Rohini Court (Payment to DMRC).**

    Administrative Approval (A/A) & Expenditure Sanction (E/S) of ₹9.62 crore was issued on 03.02.2026. The process of signing of MoU between the PWD and DMRC is under process. The project work has already been initiated.

2.2.3 Bus Terminals and Depots:

The objective of the project is to create and develop infrastructure for the benefit of

the bus commuters. As in Feb'2026 , DTC has 24 depots in operation and DoT has 22 depots in operation. Further, there are 16 bus terminals in operation in Delhi.

2.2.4 Inter State Bus Terminals (ISBTs):

At present, three Inter State Bus Terminals (ISBTs) are functioning in GNCTD, namely at Kashmere Gate, Sarai Kale Khan & Anand Vihar. The Kashmere Gate ISBT has been renovated and made operational with state of the art facilities. The Sarai Kale Khan ISBT is under process to be redeveloped under PPP mode.

2.3. Namo Bharat Regional Rapid Transit System

To address the issues, meet organic future travel demand and cater to as well as the mobility requirement for unlocking economic potential of the NCR, National Capital Region Planning Board (NCRPB) has recommended development of a multi-modal transport system with special emphasis on eight rail-based high-speed, high-frequency Namo Bharat Regional Rapid Transit System (Namo Bharat RRTS) for connecting major regional centres in the Functional Plan on Transport for National Capital Region-2032.

The Namo Bharat RRTS initiative aims to provide an integrated mobility solution for the National Capital Region (NCR) supported by multimodal integration. It will bring significant direct and indirect economic benefits including saving arising from reduced pollution level, travel time, vehicle-operating costs, road stress and accidents. Additionally, the project will contribute to increased modal share of public transport; generate agglomeration benefits, improved productivity output of labour and industries, indirect employment opportunity and lead to an overall increase in GDP of NCR. The three prioritised Namo Bharat RRTS corridors are planned to originate from a common elevated terminus station, at Sarai Kale Khan in Delhi. Such a common terminus station will facilitate inter-connectivity and interoperability among the three corridors. The details of Namo Bharat RRTS corridors proposed in National Capital Region are given below:

<table>
<tr>
<td> 
</td>
<td><u>Phase-I</u>:
1. Delhi-Ghaziabad-Meerut (82.15 km)
2. Delhi-Gurugram-Bawal – (93.12 km) (Part of Delhi-Alwar)
3. Delhi-Panipat-Karnal (136.30 km)</td>
</tr>
</table>

Delhi-Meerut Namo Bharat RRTS Corridor:

The Delhi-Meerut Namo Bharat RRTS corridor is 82.15 km long corridor with 25 Namo Bharat RRTS Stations (Including Meerut Metro). Delhi portion of this corridor spans approx. 13 km with 03 Namo Bharat RRTS stations. The total project cost is Rs. 30,274 Crore and contribution of GNCTD is Rs. 1260 Crore which has already been released to NCRTC. Project got sanctioned and approved by GoI in Mar, 2019.

STATEMENT 12.2

YEAR-WISE FUND RELEASED FOR DELHI- MEERUT NAMO BHARAT RRTS CORRIDOR BY GNCTD

(Rs. In Crore)

S. No.	Particulars	Fund Released in 2018-19	Fund Released in 2023-24	Total
1.	Grant in Lieu of Equity	86	179	265
2.	Subordinate Debt in Lieu of Equity	172	358	530
3.	Subordinate Debt (Central Tax)	03	137	140
4.	Subordinate Debt (State Tax)	04	226	230
5.	Subordinate Debt (Govt. Land)	00	95	95
	Total	265	995	1260*

Source: NCRTC

*Out of Rs. 1260 Crore, Rs. 765 Crore has been released from ECC fund.

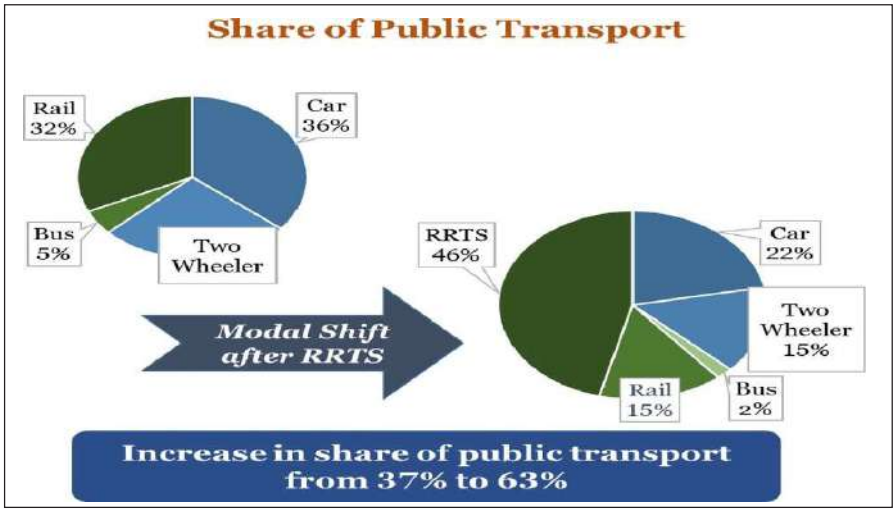

This corridor will connect city centres of Delhi, Ghaziabad, Guldhar, Duhai, Muradnagar, Modinagar and Meerut, thereby significantly reducing travel time and providing travelling comfort to the commuters.

The Priority Section of 17 km from Sahibabad to Duhai Depot was made operational on 20 October 2023. Subsequently, the Hon'ble Prime Minister remotely inaugurated the 17 km section from Duhai to Modinagar North Namo Bharat RRTS Station on 06 March 2024. A further 8 km section from Modinagar North to Meerut South was operationalised on 18 August 2024. Thereafter, the Hon'ble Prime Minister inaugurated an additional 13 km section from Sahibabad to New Ashok Nagar on 05 January 2025. Subsequently, balance section of Namo Bharat RRTS was inaugurated on 22 February 2026.

The 82.15 km Delhi-Meerut "Namo Bharat RRTS" which is India's first semi-high-speed regional rail (Namo Bharat RRTS) is open for public use from Sarai Kale Khan to Meerut. With a design speed of 180 km/h and Make in India trains, this service enables travel between Delhi and Meerut in less than one hour. Considering

projections that Delhi will become the world's most populous city by 2030, this Namo Bharat RRTS service will revolutionize mobility in the NCR, reduce traffic congestion, and significantly lower air pollution.

It is expected that Delhi-Meerut Namo Bharat RRTS will increase public transport share from 37% to 63% along the corridor, as shown in the figure below:

Delhi-Gurgaon-Bawal (Part of Delhi – Alwar) Corridor:

Delhi (Sarai Kale Khan) - Bawal Namo Bharat RRTS Corridor (Part of Delhi-Gurgaon-Rewari-Alwar) is proposed with a total route of 93.12 km. The corridor starts at Sarai Kale Khan goes underground through INA, Munirka, and Aerocity stations, and then enters Haryana near NH-48. It passes through Cyber City crossing NH-48 at multiple locations, based on terrain conditions and urban constraints, the key stations include IFFCO Chowk, Rajiv Chowk, Hero Honda Chowk, Kherki Daula, Manesar, Panchgaon, Bilaspur Chowk, Dharuhera, and finally Bawal with provision for future extension to Rajasthan. Future stations at MBIR and Rewari are also planned. Once Sanctioned, the project is programmed to be completed within 6 Years.

The original DPR of Delhi-SNB Namo Bharat RRTS corridor with project cost of ₹37,987 Cr. and GNCTD share of ₹3,261 Cr. has already been approved by the concerned State Governments viz., Govt. of Haryana in Feb 2019, Govt. of NCT of Delhi in March 2024 and Govt. of Rajasthan in June 2019. Subsequently a Revised DPR with an updated cost of ₹32,327.08 Cr. and revised GNCTD share of ₹ 2,432.72 Cr. was sent to GNCTD on 28.04.2025 for further action. The route length as per the original DPR was 107 Km with 16 Namo Bharat RRTS stations whereas in revised DPR, the route length is 93.12 Km with 13 Namo Bharat RRTS stations {8 underground and 5 elevated (3 in Delhi all underground, 10 in Haryana) with provision of 2 future stations. Of all the stations, three Stations namely INA, Munirka and Aerocity, are planned in Delhi area. All stations have been planned and

constructed for Multi Modal Integration with other modes of transport. INA and Munirka Namo Bharat RRTS Stations have been planned for Multi Modal Integration with adjacent Delhi Metro Rail Network whereas Aerocity Station is planned for Multi Modal Integration with Indira Gandhi international Airport.

GNCTD has released an amount of ₹335.00 crore. Out of this, ₹118 crore has been incurred up to February 2026 towards pre-construction activities.

Delhi-Panipat-Karnal Namo Bharat RRTS Corridor:

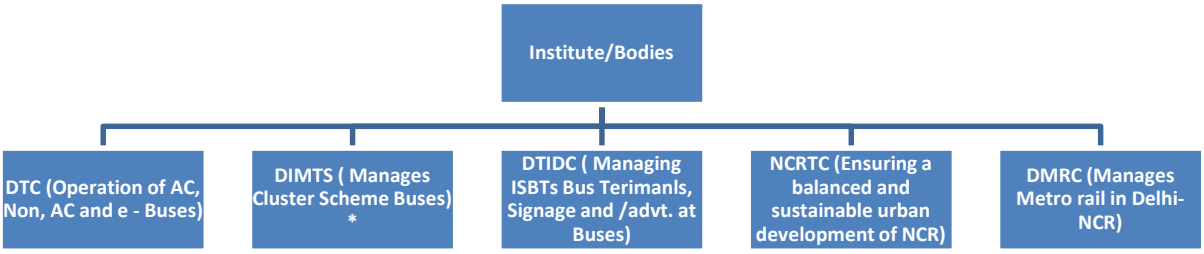

The prioritized Delhi- Panipat Namo Bharat RRTS Corridor has been extended up to Karnal as per the discussions held with MoHUA and the Government of Haryana consequent upon Karnal being included as a part of NCR. This corridor also originates from Sarai Kale Khan (SKK) in Delhi and terminates at Karnal in Haryana, having a total route length of 136.3 km with 21 Namo Bharat RRTS Stations {15 elevated and 02 underground (including provision of 4 future stations and excluding Sarai Kale Khan)}. The proposed alignment passes through dense development area of Delhi, Ganaur, Samalkha, Panipat and Karnal corridor.

The Detailed Project Report (DPR) of Delhi-Panipat corridor has already been approved by the concerned State Government viz., Govt. of Haryana in December 2020 and Govt. of NCT of Delhi in March 2024. The original DPR of Delhi-Panipat corridor had a project cost of ₹29,389 Cr. with GNCTD share of ₹2,443.25 Cr. The Revised DPR has a project cost of ₹33,051.15 Cr. with revised GNCTD share of ₹2,298.59 Cr. which was sent to GNCTD on 28.04.2025 for further action. The route length as per original DPR was 103.02 Km with 17 Namo Bharat RRTS stations. In the revised DPR, the route length is 136.30 Km with 17 Nos. of Namo Bharat stations (06 in Delhi, 05 elevated and 01 underground and 11 in Haryana along with and a provision of 4 future stations. Once sanctioned, the project is programmed to be completed within a period of 05 Years.

Six Namo Bharat RRTS Stations on the said corridor namely Indraprastha (elevated), Kashmiri Gate (underground), Jharoda Majra (elevated), Bhalaswa (elevated), Alipur (elevated) and Narela (elevated) are situated in Delhi. Out of these four Stations, Indraprastha, Kashmiri Gate, Jharoda Majra and Bhalaswa have been planned for Multi-Modal Integration (MMI) with the adjacent Delhi Metro Rail Network whereas Kashmiri Gate Namo Bharat Station is also integrated with Inter-State Bus Terminal (ISBT).

GNCTD has released an amount of ₹162.00 crore. Out of this, ₹55.00 crore has been incurred up to February 2026 towards pre-construction activities.

3. Institutes and Bodies engaged in Public Transport System

3.1 Mass Rapid Transit System (MRTS):

The Mass Rapid Transit System (MRTS) is an ambitious project aimed at providing a non-polluting and efficient rail-based transport system, properly integrated with the road transport system.

Delhi Metro Rail Corporation Limited (DMRC) was registered on 3rd May 1995 under the Companies Act, 1956 with equal equity participation of the Government of the National Capital Territory of Delhi (GNCTD) and the Govt. of India. The work of Phase I, II and III have been completed and Phase IV is in progress. Presently, the Delhi Metro network consists approximately 352 Km., including 58.497 km of NCR, 22.909 km of Airport Line, and 2.008 km extension of Airport Line to Yashobhoomi.

The phase wise details are as under:-

➢ **DMRC – PHASE I:**

- The construction of Phase-I of DMRC commenced in the year 1998 and was completed in 2006 at a total project cost of Rs. **11,252** Cr which includes GNCTD share of Rs. **1896.50** Cr, which has been released to DMRC.

- Total length of Phase-I is 64.751 Km with 59 stations.

➢ **DMRC - PHASE II:**

- Construction of Phase-II of DMRC commenced in the year 2006 and was completed in the 2012 at a total project cost of Rs. **26,264.66** Cr (including NCR,

Dwarka & Airport Line), The GNCTD share is Rs. **5,376.32** Cr., which has been released to DMRC.

- Total length of Phase-II is 123.3 km which includes 22.909 km High Speed Airport Metro Express Line and 16.315 kms of NCR lines with a total of 86 stations, of which 13 are on NCR Line.

➢ **DMRC – PHASE III:**

- Construction of Phase-III of DMRC commenced in the year 2011 and was completed in the 2022 (**excluding Dwarka Sec 21 to Yashobhoom iDwarka Sec 25 section which was implemented as Deposit Work of DPIIT concurrently with Phase III**) at a total project cost of Rs.51,654.05 Cr. (including Metro Extension to NCR).
- Total length of Phase-III is 162.375 km (including 42.182 km of NCR length) and has total 111 stations including 30 stations of NCR. Details of DMRC-Phase-III are depicted in Statement 12.3.

➢ **DMRC - Phase IV :**

- Phase-IV of DMRC comprises six corridors spanning approximately 112 km. In the first part, construction of 3 priority corridors started in 2019-20 at a total project cost Rs. 24,948.65 Cr. The share of GNCTD is Rs.5,886.95 Cr. which includes cost of additional 244 Metro cars.
- As on date 19.03.2026, physical progress of Phase IV-3 Priority Corridors is **75.69%.**

- Remaining 3 Corridors, namely: (i) Lajpat Nagar – Saket (G) block (**8.385** km), (ii) Inderlok – Indraprastha (12.377 km) and (iii) Rithala-Kundli ((26.463 km) were accorded sanction on 28.03.2024 for (i) & (ii) and 03.01.2025 for (iii). Tendering is in progress. Total Project Cost of remaining 3 corridors is Rs. 14,630.80 crore. The share of GNCTD is Rs 3,386.18 Crore.

- Remaining 3 Corridors as below:
  (i) Lajpat Nagar – Saket (G) block (**8.385** km).
  (ii) Inderlok – Indraprastha (12.377 km
  (iii) Rithala – Kundli (26.463 km)

3.2 Delhi Transport Corporation (DTC)

Govt. of NCT of Delhi release equity capital for procurement of buses and for development of infrastructural facilities to DTC. As in Feb'2026 , DTC has 24 depots are in operation and DoT

has 22 depots are in operation. Further, there are 16 bus terminals in operation in Delhi.

As in March 2026, DTC & DoT has a fleet size of 6100 buses, comprising 1002 Non AC low floor (CNG) buses, 760 AC low floor (CNG) buses, 2750 AC low floor (Electric-12 Mt.) and 1588 AC low floor (Electric-9 Mt.) buses. DTC is the largest public transport entity in the City & NCR transporting about 24.29 lakh passengers and covering 5.01 lakh km per day. DTC operates 32,525 (Average) trips per day on about 517 city routes and 15 NCR routes. DTC is also operating International Bus Service on Delhi-Kathmandu. The performance of DTC is presented in Statement 12.7 and activity wise status of DTC is presented in Statement 12.8.

Source: DTC

GNCTD is providing concession bus passes to various categories of passengers like students, senior citizens, disabled, freedom fighters etc for DTC and Cluster Buses. The concession amount is reimbursed by GNCTD. Further, travel for female commuters of all group/age is free (in DTC and Cluster Buses) in Delhi.

Installation of CCTV Cameras in DTC and Cluster Buses:-

New Electric Buses: - DTC has inducted 2662 Electric Buses in its fleet and all the inducted Electric Buses are pre-fitted with ITS system (IP CCTV Cameras, Panic buttons, GPS etc.)

Augmentation of DTC Night bus service (11PM–5AM):

Gender Sensitization Program for bus crew undertaken by DTC is also being conducted on a regular basis for safety of women passengers. 86 buses are running on 27 routes. 30 Ladies Special Buses are also being plied during peak hours on 30 routes. 25% seats have been reserved for women in stage carriage buses (i.e. Low floor buses –10 seats, & standard floor buses–12 seats. Comparative detail for the years 2020-21 to 2025-26 is presented in Statement 12.8.

CHART SHOWING NUMBER OF ELECTRIC BUSES (YEAR WISE)

3.2. Delhi Integrated Multi-modal Transit System Ltd (DIMTS):

GNCTD initiated the Scheme in 2011-12 for Corporatization of Private Stage Carriage Service to replace the erstwhile Blue line private stage carriage system under Public Private Partnership (PPP) model, popularly known as Cluster Scheme. The Cluster Scheme is based on Gross-Cost Model (OPEXMODEL), where fleet owners are remunerated on the basis of operational parameters irrespective of the fare box inflow. Initially, under this scheme, 657 Stage Carriage bus routes of Delhi have been divided into 17 distinct Clusters.

.

The performance data of the cluster buses is given below.

STATEMENT 12.9

PERFORMANCE OF CLUSTER BUSES

S. No.	Years	Fleet (No. of Buses)	Fleet Utilization (in %)	Vehicle Utilization (Km/Bus/Day)	Load Factor *(in %)	Passenger Carried per bus daily	Daily Average Passengers (in Lakh)

* LF is calculated using Central Institute of Road Transport (CIRT) Formula.

3.3. Delhi Transport Infrastructure Development Corporation Limited (DTIDC):

This Corporation has been established with the objectives of development, implementation, operation and maintenance of urban transport infrastructure. At present, three existing operational ISBTs namely Kashmere Gate, Anand Vihar and Sarai Kale Khan are controlled by DTIDC. Further 1,993 Bus Queue Shelters (BQS) are being maintained by DTIDC. All depots under Transport Department and other civil and electrical infrastructure are also being maintained by DTIDC.

3.4. National Capital Region Transport Corporation (NCRTC):

A Memorandum of Understanding (MoU) was signed in 2011 between Government of India and State Governments of National Capital Territory of Delhi, Haryana, Rajasthan and Uttar Pradesh (UP) for implementation of Namo Bharat RRTS in NCR.

National Capital Region Transport Corporation (NCRTC) was incorporated as a joint venture company of Govt of India (50%) and States of Delhi (12.5%), Haryana (12.5%), Rajasthan (12.5%) and Uttar Pradesh (12.5%), under the administrative control of

Ministry of Housing and Urban Affairs, is mandated for implementing the Namo Bharat project across the NCR of India, ensuring a balanced and sustainable urban development through better connectivity and access.

4. Achievement/Progress of Major leading indicators

Motor Vehicles:

The total number of motor vehicles on road in NCT of Delhi as on 19th Mar, 2026 is 87.61 lakh, showing the increase by 7.93% compared to 2024-25. GNCTD has banned Diesel Vehicles more than 10-year-old and Petrol Vehicles of more than 15-year-old hence deregistered 66,20,160 vehicles upto 2025-26(19th March 2026). The category-wise growth of motor vehicles in Delhi is presented in statement 12.11.

CHART 12.2

TRANSPORT TRENDS

- Delhi is a hub for personal motorized vehicles in India. Total requested motorized vehicles in Delhi are 87.61 lakh. Car and jeeps accounted for around 24% of the total registered motorized vehicles, whereas two wheelers are about 68% of total registered vehicles. Percentage of vehicles in Delhi during 2025-26(19th march 2026) is depicted in Chart 12.3.

STATEMENT12.13

CHART 12.3

PERCENTAGE OF VEHICLES POPULATION 2025-26(Till 19th March)

5. Ongoing schemes and new Initiatives:

5.1 Electric Vehicle (EV) Policy:

The envisaged EV policy aims to encourage the rapid adoption of Electric Vehicles in Delhi and establishing a necessary charging infrastructure at an accelerated pace through implementation of purchase incentives, Scrapping incentive, waiver of road tax and registration fees and establishment of network of charging & swappable batteries stations. Software application has been launched for disbursal of purchase incentive & scrapping incentive. The draft of New EV Policy is in advanced stage.

5.2 Sale of EVs:

As on 19.03.2026, a total of 470104 Electric Vehicles have been registered in NCT of Delhi.

5.3 Subsidy of Electric Vehicle:

As per the Delhi EV incentive portal, the total number of 91031 beneficiaries have received subsidy amounting to Rs. 203.35 Cr in march 2026.

5.4 Delhi Motor Vehicle Aggregator & Delivery Service Provider -2023:

The Delhi Motor Vehicle Aggregator & Delivery Service Provider Scheme 2023 aims to license and regulate any aggregator, Delhi Service Provider and e-commerce entity using a digital intermediary and having more than 25 vehicles in their fleet (operating in the National Capital Territory of Delhi). The Scheme was notified on 21 November 2023, and Delhi Aggregator Portal was launched on 16 March 2024. A total of 62 Aggregator, Delhi Service Provider and E-commerce entity license has been issued by Transport Department and more than 4 lakhs vehicles have been on-boarded by the license holder on the portal (myfleet.delhi.gov.in) as on 31.03.2025.

5.5 Status of Charging Infrastructure:

As on 31.03.2025, Delhi has 3,100 charging stations and 893 battery swapping stations across Delhi.

5.7 Electric Buses:

In March 2026, the total number of electric buses including DTC + DOT are 4338. Further, 1610 buses (including 50 metro feeder) will be inducted by 2026-27.

Further, a demand of 2,800 EV buses (1380 for DTC and 1420 for DoT) has been placed under PM E-DRIVE Scheme.

Additionally, 3,330 EV buses have also been requested under PM E-DRIVE.

6. Free Travel for Women:

The free travel facility for women in DTC and Cluster buses has been implemented by GNCTD with provision of Pink Saheli Smart Card/NCMC Card. A single journey pass of face value of ₹10/- for both AC and Non-AC buses is being issued.

During 2025-26(Till Feb-2026) 56.21 Crore women passengers travelled free in DTC & DoT buses and Rs. 562.17 Crore subsidy was given during the FY 2025-26.

7. Reform Package of Transport Services:

The Transport Department has taken up a major initiative to provide public services in faceless manner. The applicants will be required to have physical visit only for the purpose of taking a driving test or fitness of vehicle. It has resulted in minimizing the Department's manual inter face with public.

7.1. Faceless Services: A presently, 47 services (12 RC services, 17 Permit & Fitness Services, 16 DL related services in First Phase) along with 2 services, i.e. (a) Issuance of Letter of Intent (Lol) for replacement of Vehic and (b) No Dues Certificate for PSV replacement, which has completely switched to faceless delivery mode. More than 70 lakh applicants have been benefitted from this programme during Feb-2021 to 19th March 2026.

7.2. Online Learner License test and issuance of e-learner license are conducted on the spot after clearing the on-line test. Dealers of Private Vehicles (2 wheelers and 4 wheelers) have been empowered as registering authorities enabling instant issuance of RC at the time of delivery of new vehicles. Total number of E-Learner License Application status during 19th Feb-2021 to 19th March 2026 for all Transport Department Offices is 11,82,384. Further all the Registration Certificates and Driving Licenses have been made available in electronic form through mParivahan mobile app and in DigiLocker.

7.3. Induction of Women Drivers: Transport Department is providing free training of women drivers for Heavy Motor Vehicles (HMV) for induction into DTC and Cluster bus fleet and many women drivers have been inducted into DTC. Similarly, sanctions have been accorded for providing free LMV training to women for induction as driver with Cab aggregators such as Blue Smart, Ola, Uber etc. Target of engaging 100 female drivers was assigned to DTC under Mission 2023-2024. At present 82 female drivers are deployed across various DTC depots. Of the remaining candidates, 03 did not join DTC, 01 was terminated following a fatal accident case and 06 have resigned from service.

7.4. Automated Driving Test Tracks (ADTTs): ADTTs have been established for coducting Driving Skill Tests of the DL applicants which are fully equipped with CCTVs, sensors etc. There is no human intervention in these Driving Skill Tests. 13 driving test tracks in Delhi have already gone automatic, namely Shakur Basti, Raja Garden, MayurVihar, Rohini Sector 28, Hari Nagar, two centres at Burari, Loni Road, Dwarka Sector 22, Jharoda Kalan, Vishwas Nagar, SaraiKale Khan and Lado Sarai.

7.5 Automated Testing Stations (ATS)

The Construction work of two automated testing Station at Nand Nagri and Tehkhand are at advanced stage. Further, the process of setting up of ATS and redevelopment of old lanes at VIU Burari to ATS is under progress.

8. Transport Plan Outlay & Revenue:

The budget allocation for Transport Sector during the year 2025-26 is Rs. 12111 Crore out of which Rs. 10341 Crore (i.e. 85.38 % of total budget allocation) has been utilized till 20 March 2026.

CHAPTER AT A GLANCE

1.	At present, Delhi has a fleet of 6100 Buses comprising 4338 E- buses. -29. Further, 16 buses (including 50 metro feeder) will be inducted by 2026-27. Further, a demand of 2,800 EV buses (1380 for DTC and 1420 for DoT)has been pl under PM E-DRIVE Scheme. Additionally, 3,330 EV buses have also been requested under PM E-DRIVE.
2.	Delhi is a major junction on the rail map of India linked with the entire major metropolitan cities directly. There are five main railway stations viz. at New Delhi, Old Delhi, Hazrat Nizamuddin, Sarai Rohila and Anand Vihar, besides Container Depots at Patparganj and Tuglakabad.
3.	The Mass Rapid Transit System (MRTS) is an ambitious project that is providing a non-polluting and efficient rail-based transport system, properly integrated with the road transport system. Presently, the Delhi Metro network consists of about 352 Km., including 58.497 km of NCR, 22.909 km of Airport Line, and 2.008 km extension of Airport Line to Yashobhoomi. After completion of Phase IV, the total length of metro lines including NCR lines will be about 463 km.
4.	Delhi is a hub for personal motorized vehicles in India. Total motorized vehicles in Delhi are 87.61 lakh. Car and jeeps accounted for around 25 % of the total registered motorized vehicles, where as two wheelers are about 68% of total registered vehicles as in 19 March 2026.
5.	Around 470104 e-Vehicle have been registered in Delhi as in 20 march 2026. As per the Delhi EV incentive portal, the total number of 91031 beneficiaries have received subsidy amounting to Rs. 203.35 Cr in march 2026. One Delhi' Mobile App facility has been provided to the consumers to locate public EV charging stations and battery swapping stations.
6.	During 2025-26(Till Feb-2026) 56.21 Crore women passengers travelled free in DTC buses and Rs. 562.17 Crore subsidy was given during the FY 2025-26.
7.	Currently, 47 services (12 RC services, 17 Permit & Fitness Services, 16 DL related services in First Phase) with 2 services, i.e (a) Issuance of LoI for replacement of Vehicle (b) No dues certificate for PSV replacement, are

	under process in Second Phase, have been completely switched to faceless delivery mode and more than 54 lakh applicants have been benefitted from this programme till Oct, 2025.
8.	Sanctions have been accorded for providing free LMV training to women for induction as driver in Cab aggregators like Bluesmart, Ola, Uber etc.
9.	The Construction work of two automated testing Station at Nand Nagri and Tehkhand are at advanced stage. Further, the process of setting up of ATS and redevelopment of old lanes at VIU Burari to ATS is under progress.

CHAPTER 13

WATER SUPPLY AND SEWERAGE

Access to safe, adequate and affordable potable drinking water along with accessible and hygienic sanitation are the basic public services that the Government should ensure for its citizens to lead a healthy life. Government has been consistently trying to ensure equitable availability of clean water supply to all households, treatment of both wastewater and solid waste to a high proportion of the volume generated and treatment of all industrial effluents. One of the important Sustainable Goal under SDG-6 is "Availability and sustainable management of water and sanitation for all".

1.1 The Delhi Government ensured free lifeline water upto 20 Kiloliters to every household having functional metered water connection and around 18.91 lakhs distinct consumers had benefited under this scheme during 2024-2025.

1.2 Further, Board also resolved the following :

i. Installation charges of water connection shall be divided category wise as per categorization of colonies for property tax by MCDs as under:

- For domestic connections :

S. No.	Colony Category	New Connection charges for water
1	A, B, C	₹ 4000/-
2	D & E	₹ 2000/-
3	F, G, H & Rural village	₹ 1000/-

- For commercial connection charges shall be double of the domestic charges in respective colony category.

ii. Sewer connections will be approved automatically with the approval of water connections. No separate sewer connection charge will be levied.

1.3 Board vide Resolution No. 1468, dated 26.09.2025 has reviewed the policy for installation of connection by DJB. The Board has approved that applicants/consumers may get the water connection installed through licensed plumber. After installation of connection and water meter of any of the approved brand, the consumers must upload the meter details online on RMS Consumer portal (https://djb.gov.in/DJBRMSPortal/) or submit the same in the office of the ZRO concerned in the prescribed format.

1.4 Board vide resolution No. 1466 dated 26.09.2025 had approved the following scheme of Regularization of Unauthorized Connection:

a. Token penalty amount in place of existing amount of penalty and water bill charges for three years which are normally taken at the time of regularization of unauthorized water/Sewer connection which will be levied during the scheme as under: -

(i) Domestic Connections : Rs.1000/-
(ii) Non-Domestic Connections : Rs.5000/-

Besides above penalty, normal water sewer connection charges and Infrastructure (IFC), wherever applicable, will be collected as usual. After the end of the scheme, unauthorized regularization charges will be levied as applicable before the scheme period.

b. The period of Regularization scheme is from 14.10.2025 to 31.8.2026.

1.5 The Board vide resolution No. 1467 dated 26.09.2025 and Resolution No.1557 dated 20-2-2026 had approved the waiver of late payment surcharge (LPSC) schemes as under:

1. LPSC amount against the accounts of consumers as on cutoff date, i.e. 30.09.2025 will be waived off for Domestic Consumers (Category-I) & Non Domestic Consumers (Category-II) if the outstanding principal amount/arrears along with current bill, if any, is cleared during the scheme period as under:

S. No.	Type of Consumer	Period	LPSC Waiver
1	Domestic Consumers (Category-I)	14.10.2025 to 15-08-2026	100%
2	Non-Domestic Consumers (Category-II)	24-02-2026 to 15-08-2026	100%

1.6 DJB has managed to improve upon its working and monitoring vis-à-vis water and sewage management. It has an increased revenue collection despite poor economics as the positive outcomes of good governance. DJB had launched " m-Seva App" for bill generation, online payments and the resolution of inflated bills to deliver efficient and transparent services and to instill more confidence in the citizens of Delhi. Factors attributable to the increased DJB's revenue are: 10% increase in the price of the non-free water, increase in the number of connections/meters, One-time window to people to clear their previous dues and fixing several water leakages. There were several other revenue- generating measures such as renting out property and tapping solar power, Innovative/new schemes such as water ATMs, and GPS tracking of DJB water tankers.

1.7 About 93.5% households of Delhi now have access to piped water supply. Water production during summer season is being maintained at about 1000 MGD consistently.Water is supplied to about 25 million population of Delhi through existing water supply network comprising of 15700km long pipe lines and more than 123 primary underground reservoirs (UGRs).Approx. 900 Nos. hired tankers and 150 Nos. departmental tankers are being deployed to supplement water supply in water deficit areas.

2. Water Requirement

2.1 DJB considered per capita potable water requirement @ 50 GPCD. Water demand for population of 25 million projected for 2025@ 50 GPCD works out to 1250 MGD. This does not include water requirement for horticulture/gardening/agriculture and industrial process water.

2.2 Given the limited availability of raw water to Delhi, water demand of potable water for domestic use needs to be rationalized and progressively reduced to 50 GPCD (225 LPCD) by use of non-potable recycled water of desired quality standard for non-drinking purposes like toilet flushing, etc. Water demand for industrial process & horticulture/gardening/agriculture purposes will need to be necessarily met out from recycling of waste water of desired quality standards. Potable water demand for a population of 30 Million (Projected by DDA for the year 2041) @ 50 GPCD works out to 1500 MGD.

For future Planned Developments availability of potable water is proposed to be restricted to 40 GPCD as per the following details:

STATEMENT 13.1

DETAILS OF POTABLE WATER DEMAND - DJB

Potable Water Demand	Quantity
Residential	135 LPCD
Non-Residential (Commercial/Institutional etc including 5 LPCD for floating population)	20 LPCD
Fire Demand	2 LPCD
Transmission Losses @ 15 %	23 LPCD
Total	**180 LPCD (Say 40 GPCD)**
Water requirement for toilet flushing purposes in residential developments and non-residential developments (about 75 LPCD) shall have to be met by use of non-potable recycled water of desired quality standard with dual piping system. Water demand for industrial process & horticulture/gardening/agriculture purposes shall also need to be necessarily met out from recycling of waste water of desired quality standards.	

3. Water Supply Capacity

STATEMENT13.2

INSTALLED CAPACITY OF WATER TREATMENT PLANTS:2009-2025

S. No	Name of Plants	Capacity(MGD)																
		2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025

Source: -Delhi Jal Board (MGD- Millions of Gallons Per Day)

The installed treatment capacity of Water in Delhi during 2009-2025 is depicted in Chart 13.2. The installed capacity of DJB has been augmented by 21.64 % during last 17 years. The capacity, which was 790 MGD in 2009, has been increased to 952 in 2024. This has further increased to 961 MGD in the year 2025.

Chart 13.1

INSTALLED TREATMENT CAPACITY OF WATER TREATMENT PLANTS DELHI-2009-2025

Construction of 2nd 50 MGD Dwarka WTP is in advance stage of completion.

4. Water Consumption

Water supplied and billed to various categories of consumers by Delhi Jal Board during 2024-25 is presented in Statement 13.3.

STATEMENT 13.3

CATEGORY-WISE WATER CONNECTIONS, SALES AND % OF SALES

S. No.	Category	Connections (in lakhs)		Sales (in MGD)		% of Sales	
		2023-24	2024-25	2023-24	2024-25	2023-24	2024-25
1	Domestic (Active)	27.53	28.15	451.88*	371.42	93.63	92.15
2	Commercial (Active)	0.82	0.84				
3	Supply to NDMC & MES (Active)	-		30.76	31.61	6.37	7.85
Total				**482.64****	**403.03**	**100.00**	**100.00**

Source: Delhi Jal Board

*As provided under report for outcome of Budget

**This includes unbilled supply of water in respect of unauthorized water connections, unauthorized colonies, JJ Cluster, DJB Staff quart etc. which are not in billing net and also against those connections which are in billing net but billing could not be done due to various reasons.

5. Sources of Water Supply

A. Delhi Jal Board receives raw water from Haryana through CLC, DSB canals and river Yamuna Course as per detailed below:

1. CLC : 719 cusec releases at Munak/ 683 cusec receipt at Delhi.
2. DSB: 330 cusec releases at Munak/ 241 cusec at Delhi
3. Yamuna River Course: 209 cusec

Total = 1133 cusec (612.5 MGD)

B. Ganga water is supplied through Ganga Canal/Murad Nagar Regulator for Bhagirathi (200 cusec) and Sonia Vihar (270 cusec) water treatment plants. Total = 470 cusec (254.08 MGD)

C. 135 MGD ground water is supplied through Ranney Wells/Tubewells installed in Yamuna Flood Plains and other areas at Delhi.

6. Ground Water

a. To meet increasing demand of water and in view of limited surface water sources, frequent pollution in raw water sources at Wazirabad and increase in dependence on Groundwater sources augmentation of new tube wells is planned by blending Ground water with surface water to achieve the permissible limits for drinking purpose. Quality Control Division of DJB regularly monitors the Ground Water Quality to ensure its fitness for drinking purposes.

b. Delhi Jal Board has 5900 functional tubewells in various parts in Delhi. In addition, there are 11 Ranney Wells along Yamuna River. The Floodplains of River Yamuna and the area adjacent to Najafgarh Lake are being explored for extraction of water on sustainable basis. Further, the status of in progress and proposal of tube well is as follows:

STATEMENT 13.4

S.No.	Location	No. of TWs	Status of Work
1	Nilothi	74	Work of TW and construction of UGR is in progress.
2	Pappankalan	11	Work of TWs completed and laying of conveyance line is in tendering process.
3	Bhalswa	44	Installation of TW Work is in progress.
4	Yamuna Vihar	15	Installation of TW Work is in progress.
5	Sanjay Lake	26	Tendering process.
6	Smriti Van	20	Tendering process.
7	ITPO	20	Tendering process.
8	Kakrola	12	Tendering process.
9	South Burari	20	Tendering process.
10	Jaitpur	11	Tendering process.
11	Garhi Mandu	37	Tendering process.
12	DND Kalindi Aviral	25	Tendering process.
13	DND Kalindi BDP	12	Tendering process.
14	DND North of NH-24	3	Tendering process.
15	Jagatpur Biodiversity park	20	Tendering process.
16	Palla Area	200	A total of 60 tubewells at Sonia Vihar UGR (51), Sangam (3) & Burari (6) are already been commissioned. Out of remaining 140 tubewells proposed at Palla, 102 tubewells have been bored out of these 102 tubewells, 59 tubewells have been completed in all respects and for the remaining tubewells, the electric connection, E&M works , and the civil works presently under progress.

c. Delhi Jal Board had carried out rejuvenation of 37 numbers of Water Bodies. Now DJB has returned the rejuvenated water bodies to the respective water body owning department i.e. DDA and the proposed 25 no. works under AMRUT 2.0 have also been shelved. The work of creation of water body at Timarpur oxidation pond, Dwarka, Pappankalan, Rohini, Nilothi, revival of Roshanara Lake has been completed.

d. The aim of the prestigious project of rejuvenation of water bodies is to clean the existing Water Bodies, restoring its Ecological values and putting in management regimes that are sustainable for long term.

7. Parallel Channel from Munak to Haiderpur

About 30-50 per cent of the raw water discharged from Tajewala Head works got lost through seepage during transit in the present water carrier system comprising of Western Yamuna Canal system and River Yamuna. To minimize the en-route losses, a parallel carrier lined channel (CLC) has been constructed from Munak to Haiderpur by the Haryana Govt as a deposit work on behalf of Govt, of Delhi. Commissioning of CLC has resulted in increased availability of 180 cusec raw water for Delhi within the existing releases at Munak and WTP at Dwarka (50 MGD) and Bawana (20 MGD) & Okhla (20 MGD) have been commissioned.

7.1 Upstream Storages on River Yamuna-Renukaji, Lakhwar-Vyasi & Kishau Dam Projects:

Delhi Jal Board has planned for augmentation of water resources for Delhi. A twin -pronged strategy has been adopted, which focuses on the augmentation of both, ground-water and river (surface)-water resources, while also emphasizing the need for enhanced water conservation measures, rainwater harvesting initiatives, restoration of water bodies etc. While augmentation of ground water resources are in the hands of Delhi only, outcome of initiatives/proposals for augmentation of river (surface) water resources by Delhi is entirely dependent on cooperation and constructive collaboration from the neighboring states and the Union Government. Additional availability of raw water to the National Capital from the Upstream Storages on the river Yamuna is paramount for its planned and orderly development

Three upstream storages namely, Renukaji, Lakhwar and Kishau Dam Projects are proposed to be constructed on the river Yamuna and its tributaries. These multipurpose dam projects have been declared as National Projects. Renukaji Dam is to be constructed on river Giri, a tributary of the river Yamuna, at Dadhau in Sirmour District in Himachal Pradesh. Kishau Dam is proposed to be constructed on river Tons, also a tributary of the river Yamuna, in Dehradun District of Uttarakhand &Sirmour District of Himachal Pradesh. Lakhwar Dam is being constructed on River Yamuna in Dehradun District of Uttarakhand.

Delhi is pursuing for early and time bound implementation of the upstream storage projects. Since these projects have been declared as national projects, the central government will bear 90% of the water component costs in these projects and basin states have to bear only 10% of the water component costs for these projects in proportion to their annual water allocations in the Yamuna water as per the MOU of 12.05.1994.

Annual and interim seasonal allocations of Yamuna water to each basin state as per the MOU of 12.05.1994 are given here under and are governed as per the provisions in the MOU

STATEMENT 13.5

S.No.	States	Allocation (BCM)			Annual Allocation (BCM)
		July to Oct.	Nov. to Feb	March to June	
1.	Haryana	4.107	0.686	0.937	5.730
2.	Uttar Pradesh	3.216	0.343	0.473	4.032
3.	Rajasthan	0.963	0.070	0.086	1.119
4.	Himachal Pradesh	0.190	0.108	0.080	0.378
5.	Delhi	0.580 (1926 cusec)	0.068 (232 cusec)	0.076 (255 cusec)	0.724 (809 cusec)
Total		**9.056**	**1.275**	**1.652**	**11.983**

Source: MOU of 12th May, 1994.

Note:- Out of annual allocation of 4.032 BCM earmarked for Uttar Pradesh, tentative annual allocation among the States of Uttar Pradesh and Uttarakhand is 3.575 BCM and 0.457 BCM respectively. (BCM:Billion Cubic Meters)

The MOU of 12th May 1994 provides that. in a year when the availability is less than the assessed quantity, first the drinking water allocation of Delhi will be met and the balance will be distributed amongst the other basin states in proportion to their allocations and also include that allocation for drinking purposes is for consumptive drinking water requirement.

The Status is as under:

A. **Renukaji Dam Project**:

- The interstate agreement on Renukaji MPP Dam Project was signed on 11.01.2019.
- Delhi's total share cost would be about Rs. 220.16 crores at Price Level (PL) of December, 2019, wherein share in the Water Component Cost is about Rs. 40.16 crores and about Rs.180 crores towards share in the Power Component Cost. Delhi has already paid Rs. 214.84 crore to HPPCL.
- As per MoU 1994, Delhi share in Yamuna water is 6.042% and this MoU is due for revision after 2025. This project has live storage of 514 MCM or 300 MGD. Allocation of Delhi is yet to be decided by UYRB.
- The present progress is 12.46%

B. **Lakhwar Dam Project**:

- The agreement for construction of Lakhwar Dam was signed on 28.08.2018.
- The physical & financial progress of the project is 11.87% and 14.82% respectively.

- Delhi has paid Rs.34.642 Cr. as 1st installment of the water component cost for Lakhwar Dam. It is expected to be completed by December, 2031.

- As per MoU 1994, Delhi share in Yamuna water is 6.042% and this MoU is due for revision after 2025. This project has live storage of 330 MCM or 198 MGD. Allocation of Delhi is yet to be decided by UYRB.

C. **Kishau Dam Project:**

- The project is a storage scheme located on river Tons in Dehradun District of Uttarakhand and Sirmour District of Himachal Pradesh.

- A draft agreement for implementation of this project was shared amongst basin states. Delhi has conveyed its consent for the draft agreement and deposited Rs.8.1 Cr. in March, 2018 as seed money. It has been reported that the DPR of the project is under approval.

- As per MoU 1994, Delhi share in Yamuna water is 6.042% and this MoU is due for revision after 2025. This project has live storage of 1324 MCM or 794 MGD. Allocation of Delhi is yet to be decided by UYRB.

8. Water Accounting and Auditing

8.1 Equitable water supply & NRW Reduction: To improve water supply and more efficient management of water supply system in Delhi, the works for Design, finance, Construction, rehabilitation, Operation, Maintenance; Management of Water Supply Networks will be continued till desired level of NRW up to a maximum of 15% is achieved in whole Delhi. For these works Delhi will be divided into following three parts and the works will be executed for each part separately:

- Chandrawal WTP Command areas (JICA Assisted); Out of total 6 Packages, the work under4 packages (1,2,3 & 4) have been awarded and are in progress. NRW to be reduced from 46% present to 15% in a phased manner

- Wazirabad WTP Command Areas (ADB Assisted): Works in planning stage. NRW to be reduced from 50% present to 15% in a phased manner

- Rest of the Delhi: Hiring of Consultant for Infrastructure improvement, Operation, Maintenance, SCADA for water supply network, reducing NRW, formation of District Metered Areas (DMAs); Management of Water Supply Networks including UGRs; BPSs, billing and collection of revenue etc. and all other services related to consumers. The command area of proposed contracts is extended from inlet of Primary UGRs up to House Service Connections. These works are targeted to reduce NRW upto a maximum of 15% which will provide additional availability of clean drinking water, without need of construction of WTP/UGRs/conveyance/distribution system.

8.2 Delhi Jal Board has initiated projects of installation of flow meters for water auditing. There are about 3007 Nos. of flow meters have been installed by DJB to take care of water supply and its accounting. One Data/SCADA Center has been established at Jhandewalan, where online data is being received on real time

basis. This is helping in real time monitoring and optimum distribution of water.

8.3 Delhi Jal Board has streamlined its system for metering of unmetered supply of water. The existing system of supply of water meter along with sanction of water connection has been amended and now consumers can purchase water meters of approved specifications from the open market. The consumers having Delhi Jal Board's defective meters have been allowed to get the defective meter replaced with private water meter and have been given option either to get the refund of meter security or get the same adjusted towards water charges in future.

8.4 As on 1st April 2024, there were 1.09 Lakh un-metered connections. As per existing provisions if no functional water meter is installed, the bill will be raised taking minimum consumption of water as 25 Kiloliters per month per dwelling unit or as assessed by ZRO, whichever is higher till a meter is installed on such connection.

9. Water Tariff

9.1 The tariff is based on the principle of 'use more pay more'. Present water tariff policy acts as a deterrent for consumers consuming excessive water or having wastage of water. DJB has collected Rs. 1702.63 crore during 2024-25 (including 20 KL subsidy reimbursement amount Rs.485.33 Crore)

9.2 DJB has provided Rain Water Harvesting in its 594 installations. The Rain Water harvesting cell of DJB provides technical assistance to individuals/ institutions for providing Rain Water Harvesting. DJB has provided the information regarding Rain Water Harvesting on its website for public facilitation.

9.3 As per DJB amended tariff Regulations (March 2016) rebate of 10% in the water bills is provided for having functional RWH system and non-provision will increase water bills by 1.5 times till functional RWH System is installed. These provisions are applicable for plots of 100 Sqm. and above.

9.4 Salient features of existing water tariff are as hereunder:

Existing water tariff has two parts. One is Service Charge and other Volumetric Water Consumption Charge applicable w.e.f. 01.12.2004 and 01.04.2005 respectively. 60 per cent of water consumption charges are recoverable towards Sewerage Maintenance Charge from such colonies/areas where sewerage services have been provided / maintained by the Delhi Jal Board.

In case of bulk connection for a colony / group housing society serving a number of residential premises, water charges will be worked out as per residential unit-wise at the domestic rates applicable from time to time.

9.5 Water Tariff w.e.f. 01.02.2018 is as under: -

CATEGORY –I (DOMESTIC CONNECTIONS)

Monthly Consumption (in Kilolitre)	Service Charge (in ₹)	Volumetric Charge (Per Kl in ₹)
Upto 20	146.41	5.27
20-30	219.62	26.36
>30	292.82	43.93
Plus Sewer Maintenance Charge: 60% of water volumetric charge		

CATEGORY –II (NON- DOMESTIC CONNECTIONS-COMMERCIAL/INDUSTRIAL)

Monthly Consumption (in Kilolitre)	Service Charge (in ₹)	Volumetric Charge (Per Kl in ₹)
0-06	146.41	17.57
06-15	292.82	26.35
15-25	585.64	35.14
25-50	1024.87	87.85
50-100	1171.28	140.56
>100	1317.69	175.69
Plus Sewer Maintenance Charge: 60% of water volumetric charge		

9.5.1 Simplification of procedure for sanction of New Water Connection

Procedure for sanction of new Water/ Sewer Connection in all areas of Delhi has been simplified. Now, water / sewer connection may be sanctioned easily. Only last 3-month Electricity Bill is required along with one Identity Proof and self-declaration/ undertaking for domestic connections if applicant don't have other property ownership documents. Further, only online applications for water & sewer connection are being accepted w.e.f. 06.10.2020

9.5.2 Provision of Rainwater Harvesting / Waste Water Recycling System

i. Ground water resources in many parts of the city are over exploited. The extent of replenishment of ground water is much less than what the city as a whole is withdrawing due to its rapid urbanization. There is need to preserve ground water resources and to take effective measures for its sustainable availability.

ii. Therefore, Rain Water Harvesting is considered as a simple, viable and eco-friendly method of conservation of water and a simple solution for ground water recharge. Ministry of Urban Development and Poverty Alleviation (Delhi Division), Government of India has made rain water harvesting mandatory in all new buildings on plots of 100 Sqm. and above and Waste Water Recycling System for horticultural purposes, in buildings having a minimum discharge of 10000 Ltrs. and above per day.

iii. To ensure proper implementation of Rain Water Harvesting and Waste Water Recycling norms, following amendments in Regulation No. 50 of Delhi Water and Sewer (Tariff & Metering) Regulations 2012, have been approved by the Board vide Resolution No.829 dated 19-08-2019 for plots/properties of size 100 sqm. to less than 500 sqm.

iv. It will be mandatory for plots/properties having area of 100 Sq. Mtrs. or more to have functional Rain Water Harvesting System, even if the property is constructed prior to 28-07-2001. Such plot/property owning consumers would be required to install functional Rain Water Harvesting System within one year from the date of issue of Public Notice in this regard i.e. up to 25.09.2020 (Public Notice issued on 19.09.2019 and 26.09.2019). In case consumers whose construction was before 28-07-2001, fails to comply with the aforesaid mandatory provision within the time limit prescribed, the tariff as applicable for the respective consumer category will be increased by 1.5 times, till the system is installed and intimated to the respective Zonal Revenue.

v. Further, in case of properties having area of 100 sqm. or more, constructed after 28.07.2001 who have not intimated about the Rain Water Harvesting provision made to the respective area ZRO, may also inform the area ZRO by 31st March 2020 which was extended up to 30.09.2022 & 30.09.2023 and now further has been extended till 31.03.2024 failing which, tariff as applicable for the respective consumer category will be increased by 1.5 times, till the system is installed and intimated to the respective Zonal Revenue.

vi. Besides (iv) & (v) above, Board may disconnect water connection of all consumers who fail to install functional Rain Water Harvesting System or intimate area ZRO within prescribed time limit. This provision will, however, be applicable in case of all properties having area of 100 sqm. and above but after timelines provided in both the aforesaid cases is over.

vii. New water/sewer connection to the existing and newly constructed properties having installation of functional Rain Water Harvesting System. Functionality/Adequacy shall be checked by Zonal Office and thereafter Adequacy certificate shall be issued by the Rain Water Harvesting Cell.

viii. New water/ sewer connection to newly constructed properties/ buildings having a minimum discharge of 10000 Ltrs. and above per day will be sanctioned by the respective Maintenance Division.

ix. Implementation of (vii) above for plots/properties having area of 100 Sqm and above but below 500 Sqm. would be applicable after timelines provided in (iv) and (v) above are over.

x. In cases where installation of Rain Water Harvesting System is not technically feasible, for any reason, CEO, DJB may take appropriate decision in respective case, on merits.

Water Tariff for Un-metered Connections in JJ Resettlement Colonies and **Rural Areas:**

All domestic consumer of Delhi Jal Board consuming water up to 20 KL Per month and having functional water meters are being given 100% subsidy and fully exempted from payment of water bill components namely, water charges, sewerage maintenance charge, service charges, meter rent (wherever applicable) w.e.f. 01.01.2014 to 31.03.2014 and thereafter w.e.f. 01.03.2015 onwards.

10. Rain Water Harvesting

10.1 Ministry of Housing and Urban Affairs, Government of India has issued guidelines for Urban Water under Jal Shakti Abhiyan. Thrust areas include Rain Water Harvesting (RWH). For Rain Water Harvesting, the guidelines include that ULBs should ensure that all government buildings (Central/State/ULB) must have RWH structures. The guidelines also include that ULBs should ensure that in future all building permissions granted must have RWH structures incorporated, as per building bye laws, and same. Therefore, in urban areas, ULBs have to play major role in ensuring implementation of Rain Water Harvesting systems.

10.2 Roof top rain water harvesting has been made mandatory for plots size of 100 sqm. and above as per notification issued by the Govt. of India. To promote its implementation Delhi Jal Board has made provisions in its tariff regulations for rebate and penalty in water bills for implementing and non-implementing Rain Water Harvesting Systems.

10.3 The following provisions have been made in the Delhi Water & Sewer Tariff and Metering Regulations, July' 2012 for promoting Rain Water Harvesting:

Regulation 8 (d) of Chapter II provides that for category the consumers, the following rebate is given in tariff for provision of Rain Water Harvesting, Waste Water Recycling or both:

1. Such plot/properties which have an area of 100 square meter or more and having installed functional rain water harvesting system, shall be granted rebate of 10% in the total bill amount and 15% if both rain water harvesting and waste water recycling systems have been set up and functional.

2. If the Rain Water Harvesting system is adopted by a society then the individual member of that society will be entitled to above mentioned rebate in water bill.

3. Functionality inspection of every rain water harvesting system will be conducted by the Zonal Engineers before reviewing the certificate every two years.

4. Delhi Jal Board has implemented rain water harvesting system in all of its 594 Nos. premises wherever feasible and more are being targeted for implementation of rain water harvesting. Rain Water Harvesting Systems have been implemented in 4343 schools/colleges out of the 4861(Data of schools/colleges has been Kendriya vishayalaya Sangathan gave report of RWH in KVS schools

in duplicate). Further in 181 schools /colleges the rainwater harvesting systems are either under construction or are being taken up for implementation and in the 337 schools and colleges, implementation of RWH system is not feasible due to various reasons i.e. shallow ground water level up to 5.0m or non-availability of space etc.

5. People are being sensitized for the judicious use of Potable water for the demand side management through public outreach program. There is a dedicated Rain Water Harvesting cell in DJB which is providing technical assistance to facilitate the public in implementation of Rain Water Harvesting system.

6. Delhi Jal Board has been assigned to implement Rain Water Harvesting Systems in Government Building installations which are not maintained by the PWD, GNCTD. For Delhi Government buildings which are maintained by PWD, GNCTD, the implementation of Rain Water Harvesting System is to be carried out by PWD, GNCTD itself.

7. To sensitize the citizens of Delhi a continuous process of disseminating information on Rain Water Harvesting through platforms like print, electronic, visual, workshops, exhibitions, seminars, booklets, pamphlets etc. have been done by Delhi Jal Board. Jal Shakti Kendras have been created in each Revenue District of Delhi where anyone can visit for information/guidelines regarding the implementation of Rain Water harvesting system in their area. These Jal Shakti Kendras are manned by technical persons for the facilitation of the public at large regarding information on various initiatives taken by DJB for the implementation of rain water harvesting system and penal provision in case of non-implementation. Details of the Jal Shakti Kendras are available on DJB website.

8. Delhi Jal Board also empaneled the service providers /consultants for facilitation of the public /people for implementation of rain water harvesting system. The list of the service providers /consultants is available on DJB website.

10.4 Incentive:

i. Such Plot/properties having functional installed Rain Water Harvesting System (RWH), rebate in water bills is given to the extent of 10% to the consumers of Delhi Jal Board and is applicable on plots size of 100 sqm. and above. Year wise rebate is given as under:-

S.No.	Period	Amont (₹ in Cr.)
1.	01.07.2017 to 31.03.2018	13.6
2.	01.04.2018 to 31.03.2019	21.44
3.	01.04.2019 to 31.03.2020	23.32
4.	01.04.2020 to 31.03.2021	27.88
5.	01.04.2021 to 31.03.2022	20.22
6.	01.04.2022 to 31.03.2023	47.45
7	01.04.2023 to 31.03.2024	48.71
8	01.04.2024 to 31.03.2025	27.76
	Total	**230.38**

ii. Functionality inspection of every rain water harvesting system will be conducted by the Zonal Engineering Wing before reviewing the certificate in every two years.

10.5 Penalty:

For all the consumers irrespective of their consumer category Rain Water Harvesting penalty as enhanced tariff of 1.5 times will be applicable if they have plot area 100 sq. meter and above and do not have a functional rain water harvesting facility w.e.f. 01.07.2017 (in case of Dwarka sub-city, penalty on account of non-provision of RWH system is applicable w,.e.f. 01.11.2018). Rain Water Harvesting penalty was deferred till 31.03.2024 as per Instructional Order issued by engineering wing on dated 01.03.2024.

10.6 Exceptions:

RWH through artificial ground water recharge structures is not recommended where post monsoon ground levels are shallower than 5m. Penalties as per the Delhi Water and Sewer (Tariff & Metering) Regulation, 2012 will not be levied on DJB consumers for non-provision of RWH System in such areas. However, in such areas Rain Water Storage for its use in non-potable purposes after required treatment may be carried out as a voluntary option.

10.7 Water Conservation in Water Supply system.

i. Delhi has a network of about 15700 Kilometers of water supply mains. Normally, water losses are calculated by water billed or consumed subtracted from the water produced. In case of Delhi, water billed or consumed and leakage losses therefore cannot be calculated exactly as a majority of houses do not have working meters.

ii. New Water Lines laid/Replacement of old/outlived water lines for prevention of wastage of precious filtered water and reduction of contamination possibilities with improvement of water pressure :

- Transmission Lines (major dia. Pipe lines) = 12.7 Km
- Distribution Network = 172 Km

iii. Delhi Jal Board formulated a programme for recycling of backwash water at Haiderpur, Bhagirathi, Chandrawal, Wazirabad and Nangloi water treatment plants. On commissioning of recycling plant at Haiderpur, Bhagrathi, Wazirabad, Chandrawal and Nangloi about 47 MGD has been added water supplies without any additional raw water from these five plants. Work of construction of Recycling Plant for 2 MGD at Bawana is in advance stage of completion.

11. Sewage Treatment Capacity

11.1 Adequate sanitation is essential for the protection & promotion of individual's and community health. Various schemes are being implemented by the DJB to improve sanitation conditions. Sewage treatment capacity of Delhi Jal Board increased from 402.40 MGD in 31st March 2001 to 764 MGD in 31st March **2025**. The information regarding the sewerage treatment capacity andpercentage of utilization is presented in Statement 13.6.

STATEMENT 13.6

SEWERAGE TREATMENT CAPACITY AND ITS UTILIZATION

(MGD)

S. No.	Name of Sewerage Treatment Plants (STPs)	Capacity (MGD)		Actual Treatment as on 31.3.2025	% of Utilization
		31.3.2001	31.3.2025		
1	Okhla	140.00	170.00	140.00	82.35
2	Keshopur	72.00	72.00	71.40	99.17
3	Coronation Pillar	46.00	100.00	75.00	75.00
4	Rithala	40.00	80.00	78.00	97.50
5	Kondli I, II, III, IV	45.00	90.00	60.00	66.67
6	Yamuna Vihar I,II	10.00	50.00	55.00	110.00#
7	Vasant Kunj	5.00	5.00	3.39	67.80
8	Ghitorni	5.00	5.00	4.53	90.60
9	Pappankalan	20.00	40.00	41.00	102.50#
10	Narela	10.00	15.00	13.00	86.67
11	Najafgarh	5.00	5.00	5.00	100.00
12	Delhi Gate	2.20	17.20	18.92	110.00#
13	Sen Nursing Home	2.20	2.20	3.00	136.36#
14	Rohini	-	25.00	20.00	80.00
15	Nilothi	-	60.00	41.46	69.10
16	Mehrauli	-	5.00	5.00	100.00
17	CWG Village	-	1.00	0.15	15.00
18	Molarband	-	0.66	0.54	81.82
19	Kapashera	-	5.00	5.00	100.00
20	Chilla	-	9.00	9.00	100.00
21	Sonia Vihar	-	7.00	0.82	11.71
	Total	**402.40**	**764.06**	**650.21**	**85.08**

Some Delhi Jal Board STPs are treating sewage beyond their designed capacity due to higher sewage inflow from the catchment area. However, STPs are designed to handle up to 10% additional flow during peak hours only.

11.2 It is evident from the above statement that the percentage of utilization of sewerage treatment plant in Delhi as on 31st March **2025** was about **85 percent**. The sewerage treatment plants are not functioning up to their optimum level due to various reasons such as low flow of sewerage to STPs, trunk and peripheral sewer lines still to be connected to these STPs, Rehabilitation of Silted and settled Trunk Sewer Lines yet to be completed, etc. The sewage generation, at present, is estimated to be around **800 MGD = (1000** water production x 0.8) and treatment is around **650** MGD only.

11.3 Delhi Jal Board has a network of branching, peripheral sewers of about **11,040 kms**. Also there is network of **200 kms** of trunk sewers. The rehabilitation/desilting of trunk sewer and peripheral sewer is in progress.

11.4 The estimated water supply requirement and waste water generation for Delhi is presented in Statement 13.7.

STATEMENT 13.7

WATER SUPPLY REQUIREMENT AND WASTE WATER GENERATION ESTIMATED

S. No	Details	Volumes (MLD)					
		2004	2005	2006	2011	2024	2025

19	**Approved Outlay 2024-25 - BE**	1,926.00	2,368.99	**4,294.99**
20	Fund Released 2024-25	533.62	671.28	**1,204.90**
21	**Approved Outlay 2025-26 - BE**	2010.00	★ 3982.97	**5992.97**

★ The amount of Rs. 3057.68 cr. in the head Capital Project GIA and Loan are also included in sewer sector

Note : The Central Share scheme like Namami Gange and YAP-III have been excluded from the above fund received (income) and expenditure. Provision has been made by Govt. of NCT of Delhi for Revolving fund for Rs. 100 cr. for JICA

11.5 It may be observed from Statement 13.8 that the fund released for water supply and sanitation to DJB increased from 1346 Crore. In 2007-08 to 5992.97 Crore in 2024-25.

12 Re-use of Waste Water

12.1 The major reuse of treated waste water in and around the city is for irrigation, horticulture and industrial use. There is demand for use of treated waste water for cooling in the power stations. Other options include ground water recharge, return to be raw water source, and the treatment and reuse of treated waste water, for flushing of toilets, i.e. use for non-potable purposes like washing of Railways, Buses, Construction industry.

12.2 Presently, Delhi Jal Board supply about 117 MGD of treated waste water to the Irrigation Department, Power Plants and for irrigation purposes by CPWD and in Rohini area by DDA & Flood Control and Irrigation Department. Efforts are being made to increase the treated waste water supply from 117 MGD in subsequent years. Treated water supply to various purposes in Delhi is presented in Statement 13.9.

STATEMENT 13.9

TREATED WASTE WATER SUPPLY FOR VARIOUS PURPOSES

S. No.	Details	Units (MGD)
1.	Treated effluent supplied from Keshopur STP for Irrigation, horticulture purposed	5.50
2.	From Okhla STP to CPWD and Irrigation department for horticulture/ Irrigation purpose	37.37
3.	From Coronation Pillar STP for DDA Golf Course at Bhalswa, Gammon India for construction purposes. Minor Irrigation Department at Palla	21.52
4.	From Rithala STP to PPCL for their plant at Bawana and NDPL for their owner plant at Rohini, DDA for horticulture	9.15
5.	From Vasant Kunj to Sanjay Van	3.40
6.	From Mehrauli STP to Garden of Seven Senses	3.40
7.	From Delhi Gate and Sen Nursing Home STP to PPCL	4.80
8.	From Nilothi STP to Flood Control & Irrigation Deptt. For Irrigation purposes	10.50
9.	From Papankalan STP for Irrigation purposes to DDA	7.83
10.	From Commonwealth Games Village STP to DDA horticulture	0.18
11	From Yamuna Vihar to STP's horticulture	0.50
12	From Narela to Pvt. Agency for washing of vehicle	0.05
13	From Najafgarh to WTP Dwarka for Horticulture	0.07
14	From Chilla STP to Internal Horticulture of STP	0.20
15	From Kondli STP to DDA, PPCL & Horticulture	13.00
	Total	**117.47**

12.3 Delhi Development Authority is responsible for 4,451 hectares of open spaces, all of which are irrigated via tube wells. There are also irrigation open spaces of Delhi Municipal Corporations, Central Government properties, private properties, road verges, sports stadiums etc. The information regarding the green areas being maintained by the various agencies is presented in Statement 13.10.

STATEMENT 13.10

GREEN AREAS MAINTAINED BY VARIOUS AGENCIES

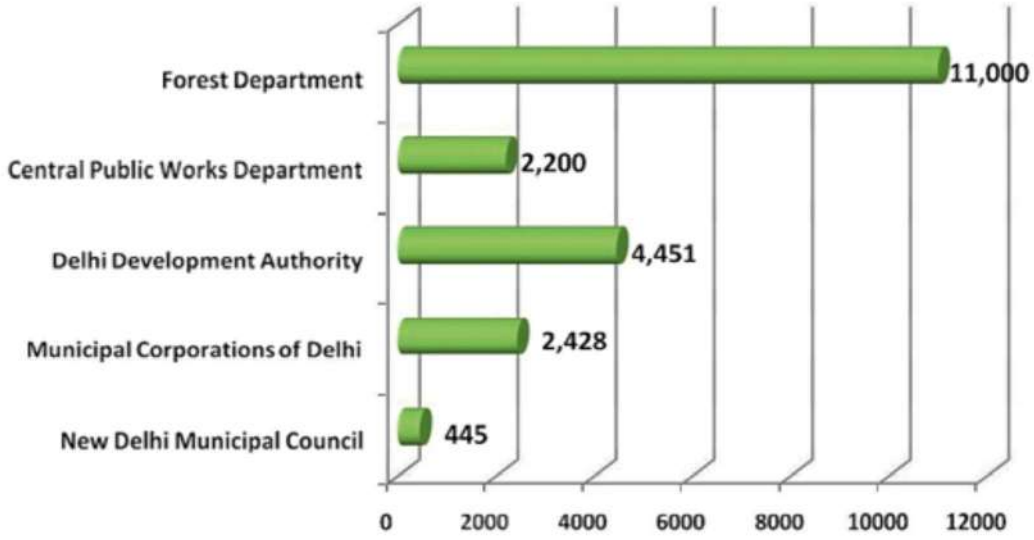

S. No.	Agencies	Green Areas (in Hectares)	% age
1.	New Delhi Municipal Council	445	2.17
2.	Municipal Corporations of Delhi	2,428	11.83
3.	Delhi Development Authority	4,451	21.69
4.	Central Public Works Department	2,200	10.71
5.	Forest Department	11,000	53.60
Total		**20,524**	**100.00**

Source: Delhi Jal Board

The green areas maintained by various agencies in Delhi are depicted in Chart 13.2.

CHART 13.2

GREEN AREAS MAINTAINED BY VARIOUS AGENCIES

12.4 The Interceptor Sewer Project (ISP) has been conceptualized to reduce pollution in the River Yamuna by intercepting untreated sewage before it enters major drains and diverting it to Sewage Treatment Plants (STPs). The system comprises interceptor sewers along the Najafgarh, Supplementary, and Shahdara drains, supported by infrastructure such as intercepting chambers, sewage pumping stations, and rising mains. Under the ISP, 108 drains have been trapped, enabling the interception of approximately 243.88 MGD of sewage flow. Against the proposed 243.88 MGD, provisions for trapping 238 MGD have already been created. Although the physical works under the ISP are nearly complete and the infrastructure for trapping 238 MGD is in place, the current trapping is only about 170 MGD due to insufficient treatment capacity at the Pappankalan, Nilothi, Rithala, and Yamuna Vihar STPs. The full treatment of the intercepted sewage will be achieved after augmentation of capacities at these STPs.

STATEMENT 13.11

COLONIES/CATEGORY WISE PROGRESS OF SEWEAGE SYSTEM

S. No.	Colonies / categories	Total no. of Colonies	Colonies with Sewerage System
1.	Un-authorized Regularized Colonies	567	557
2.	Urban Village	135	130
3.	Rural Village	219	55
4.	Un-authorized Colonies	1799	1206
5.	Resettlement Colonies	44	44

13. Challenges for Water Supply & Sanitation

13.1 Depletion of Ground Water: The falling groundwater level due to excessive drawing of groundwater in Delhi is a concern. The water level has sunk to 20- 30 metres below the ground level in many places. In a few zones, high level of TDS, Ammonia, Nitrate, Floride, Hardness, Iron, Sulphate etc. more than the recommended limits have been found. All of these are unhealthy for human consumption if used without adequate treatment.

13.2 Treatment and Quality Management

Water sector

For ensuring a smooth supply of wholesome, potable water as per BIS:10500-2012 with latest amendments, there are 09 laboratories working 24x7 in the Water Treatment Plants (WTPs) for water quality monitoring starting from intake of raw water to various stages of treatment. DJB also has 08 zonal laboratories located in the different parts of the capital for surveillance of water quality at consumer end. Survey of River Yamuna Upstream is also being conducted on regular basis. DJB lifts about 1700 water samples daily from source to tap that includes WTPs (all stages), reservoirs, tube wells, Ranney Wells, water tankers, public hydrants, distribution network, households, complaints, water emergencies, hospitals, schools, angan wadies, public hydrants, cholera-diarrhoea-jaundice-hepatitis-typhoid cases etc. for Physical, Chemical & Bacteriological analyses. Essential parameters which are tested in the laboratories are color, odor, pH value, turbidity, Electrical Conductivity, TDS, alkalinity, hardness, ammoniacal-N, nitrate, nitrite, Dissolved Oxygen, Oxygen Absorption, chloride, iron, fluoride, chromium, cyanide, chlorine demand, Residual Chlorine, residual alumina etc.

DJB also gets its water tested (Water Treatment Plants, Ground water sources, Under Ground Reservoirs & Distribution network) through an independent outside Agency i.e. National Environmental Engineering Research Institute (NEERI), CSIR, Ministry of Science & Technology, GoI.

Water samples at consumers end are also regularly collected and tested by the Zonal field staff for residual chlorine to ensure that water reaching to the consumers is properly disinfected.

Water samples are collected and tested by the qualified Quality Control personnel under the supervision of ACWAs/CWAs/Director(T&QC). The percentages of unsatisfactory samples during the last four years are less than 5 % i.e. within the WHO guidelines. According to the WHO classifications, 0-2% comes under "low risk and no remedial action is required", similarly 3-5% comes under "intermediate risk category and remedial action of low priority is required".

Delhi Jal Board Laboratories have been upgraded to test elemental analyses including heavy metals with the latest ICP-OES. DJB's 2 laboratory has already been accredited with NABL. 4 Laboratories are ISO 9001:2015 certified. DJB developed "State of Art" Laboratories, one at Wazirabad WTP and another at Okhla STP for water &waste water testing.

Some major initiatives undertaken are:

(i) Hiring of 08 sampling vans/vehicles for extensive surveillance of drinking water distribution network of Delhi
(ii) Online IoT based LOH & ROF commissioned at Wazirabad WTP and Haiderpur WTP for proper monitoring of filter beds functioning
(iii) Online turbidity measurement at all Inspection boxes at Wazirabad & Haiderpur WTPs
(iv) One "State of Art" Laboratory exclusively for microbiological tests is commissioned at Wazirabad WTP

Waste water sector

Delhi Jal Board is currently doing all possible measures to maintain final effluent quality at STPs. DJB has 08 Quality Control Laboratories for inspection and evaluating raw sewage to final effluent to maintain all parameters as per DPCC norms. Survey of river Yamuna downstream from Wazirabad to Okhla barrage is also being conducted on regular basis.

Extensive survey of major drains in Delhi is also undertaken as & when required by the concerned authorities.

13.3 Unsustainable approaches to Water use: As per Outcome Budget (Q2 of 2023-24) of DJB, the total distribution losses are at about 52.35%. These are quite high as compared to 10-20% in developing countries. There are large water losses at different stages of water supply system in the treatment plants, conveyance systems and distribution systems, apart from leaks and pilferage.

13.4 Wasteful Approaches: People use Reverse Osmosis (RO) systems for water filtration since the tap water is not potable. RO causes water wastage of about 40- 60% of the water used.

13.5 Neglecting Natural Resources: During the rainy season, Delhi experiences water-clogged roads and overflowing sewers. There is little rainwater harvesting, resulting in wastage of a precious resource.

13.6 Public Awareness: Public awareness and their role in water conservation and scientific use are at present unsatisfactory.

CHAPTER AT A GLANCE

➢	The Delhi Government ensured free lifeline water of up to 20 kilolitres to every household having metered water connection and around 18.91 lakhs consumers have benefitted under this scheme since its inception.
➢	About 93.5 % households of Delhi now have access to piped water supply. Approx. 900 Nos. hired tankers and 150 Nos. departmental tankers are being deployed to supplement water supply in water deficit areas.
➢	The installed capacity of DJB has been augmented by 21.64 % during last 17 years. The capacity, which was 790 MGD in 2009, has been increased to 961 MGD in 2025.
➢	Delhi Jal Board had carried out rejuvenation of 37 numbers of Water Bodies. Now DJB has returned the rejuvenated water bodies to the respective water body owning department.
➢	DJB has provided Rain Water Harvesting in its 594 installations.
➢	Delhi Jal Board has set up a leak detection and investigation (LDI) cell to minimize leakage losses which helped to replace about 184.7 km length of the old, damaged and leaking water mains during 2025-26 (upto January, 2026).
➢	Sewage treatment capacity of Delhi Jal Board increased from 402.40 MGD in 31st March 2001 to 764 MGD in 31st March 2025. Delhi Jal Board has a network of branching, peripheral sewers of about 11040 kms. Also, there is network of 200 kms of trunk sewers.
➢	Delhi Jal Board supplies about 117 MGD of treated waste water to the Irrigation Department, Power Plants and for irrigation purposes by CPWD and in Rohini area by DDA & Flood Control and Irrigation Department. Efforts are being made to increase the treated waste water supply from 117 MGD in subsequent years.

CHAPTER 14

HOUSING & URBAN DEVELOPMENT

1.1 Government of Delhi has a vision to make Delhi sustainable, inclusive and equal for all with a quality of life that is ecologically and culturally sustainable and accessible. The focus is on up-gradation of slums, provision of all basic amenities and universal access to adequate water, sanitation, health and decent housing. These are the essential constituents of good and healthy living for the citizen.

1.2 Affordable housing for poor and middle-income class is a very big problem in Delhi. Housing shortage along with poor living conditions of homeless, large number of slums comprising of Jhuggi Jhopri settlements, unauthorized colonies, continuous migration to the city etc. make the people to live in poor conditions without or with less access to basic services and with insufficient housing in Delhi.

1.3 Delhi's housing market is complex where land, the basic input to housing is under the control of Central Government and has the responsibility of acquiring and developing lands through Delhi Development Authority. There is wide gap in the supply and demand for housing which is largely met out by the unregulated private sector. The housing scenario in Delhi is manifested through the features like substantial housing shortage, large number of household without access to any shelter or shelter with insufficient basic services, huge slum population, large proportion of household living in one room housing units etc.

1.4 In recent years, the thrust of the Government has remained focused to largely improve the basic services in un-served and under-served areas of Delhi. Huge public investment has been made in unauthorized colonies in a most transparent and efficient manner to continuously improve the living conditions of people by development of roads, drainage and sanitation services. The *In-situ slum rehabilitation housing projects are* intended to provide "*pucca"* houses to people living in slums under the "*Jahan Jhuggi Wahin Makan*" scheme. The JNNURM housing projects under construction by DSIIDC and DUSIB for Economically Weaker Section are expected to improve the housing.

1.5 Government of Delhi has constituted Real Estate (Regulation and Development) Act of 2016 as per the Act – 2016 of GOI implemented with effect from 1st May, 2017. Under this Act, it is to ensure regulation and promotion of real estate sector, sale of plot, apartment or building etc and to protect the interest of

consumers. This Act is a step towards developing the real estate sector infusing transparency, citizen centricity, accountability and financial discipline.

1.6 Housing and Urban Development are the priority sectors in the development planning process of Delhi. DDA is the sole agency responsible for land, land development and public housing in Delhi. Growth of slums, unauthorized colonies and encroachments remain permanent challenges as rate of construction is inadequate compared to growing demand for housing.

1.7 Delhi has the highest population density 11,320 persons per sq km. in 2011 despite a decline in the decadal growth rate from 47.02 % during 1991-2001 to 21.20 % during 2001-2011. The city of Delhi is overwhelmingly urban; with 75 % of its total area (1483 sq km) falling in urban jurisdiction and the population density in urban area is as high as 14698 persons per sq km as per 2011 Census. 16.37 million Population i.e. 98 % of total population (16.79 million) of Delhi is residing in urban areas. Highly urban character of Delhi exerts tremendous pressure on public delivery of services / civic infrastructure systems like water supply, sewerage and drainage, solid waste management, affordable housing, health and educational facilities etc. and poses a great challenge for the city government.

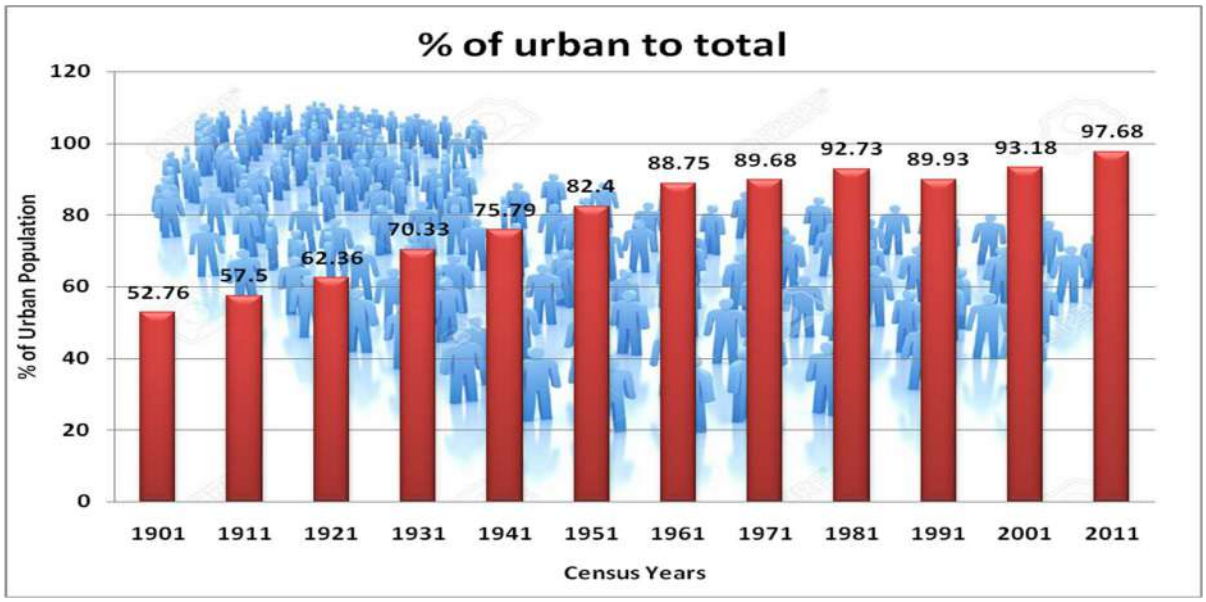

1.8 About one-third of Delhi lives in sub-standard housing, which includes 675 JJ slum and JJ clusters, 1797 unauthorized colonies, old dilapidated areas and 362 villages. These areas often lack safe, adequate housing and basic services. According to the projections, Delhi needs 24 lakh new housing units by the year 2021 (MPD-2021). Of these, 54% are required for the EWS and LIG. About 42% housing units, i.e. about 10 lakh are to be provided by densification and redevelopment of existing residential areas, covering in-situ slum rehabilitation, infill development, regularization and redevelopment of unauthorized colonies and by densification and up-gradation of old residential areas.

1.9 Urban basic services are the lifeline of urban living. These essentially include potable water for all and always, affordable 24X7 electricity, sewerage, sanitation and toilets, especially in the localities of the poor, i.e. slums, villages, unauthorized colonies, resettlement colonies etc. The poor need municipal services and waste management to keep the city clean and hygienic. This needs a review of the practices of solid waste management, sweeping and regular maintenance of public spaces, parks and roads. Wastewater and storm water can be the assets by adopting strategy of recycling rainwater harvesting and by innovative ways of drainage, irrigation and urban farming.

1.10 High growth of urbanization and the trend of growth of urban population in Delhi during last 12 Census are depicted in the Chart 14.1

CHART 14.1

URBANIZATION TREND OF DELHI DURING 1901-2011

2. Housing Conditions in Delhi

2.1 Despite the challenges of population growth, migration and land availability, housing stock has increased in Delhi over a period of time. Housing status as per 2011 Census is as under:

STATEMENT 14.1

Item No.	House-list Item	Absolute number			Percentage		
		Total	Rural	Urban	Total	Rural	Urban
A	**Number of Census Houses**						
1	Total number of census houses	46,05,555	1,24,422	44,81,133	100.0	100.0	100.0
2	Total no. of vacant census houses	5,12,691	22,556	4,90,135	11.1	18.1	10.9
3	Total no. of occupied census houses	40,92,864	1,01,866	39,90,998	88.9	81.9	89.1
B	**Number of occupied Census Houses**						
	Total number of occupied census houses	40,92,864	1,01,866	39,90,998	100.0	100.0	100.0

Source: Census of India 2011.

2.2 As per 2011 Census, out of 46.1 lakh houses in Delhi, only 40.9 lakh were occupied, 77.6% were being used for residential purposes. As regards the other uses 9.2% of these housing units were being used for shops / offices, and 5.8% for entirely for non-residential purposes. The quality of housing in Delhi has improved over the last decades with the share of "good" houses having increased from 58% in 2001 to 66% in 2011. Nearly one – third of the houses need minor repairs and only 3% are in dilapidated condition and require major repair.

2.3 The housing stock in Delhi has increased over the years but gap in housing supply is still large. In simple measurement, this gap is measured by the difference between number of households and number of residential units.

2.4 The gap in comparison to national situation gathered from census reports. The housing shortage in Delhi declined through 2001-2011 but the decline was slow. However, this definition does not account for housing conditions and congestion. The trend of residential houses and households in Delhi and India during 1991, 2001 and 2011 is presented in Statement 14.2.

STATEMENT 14.2

RESIDENTIAL HOUSES AND HOUSEHOLDS IN INDIA AND DELHI DURING 1991, 2001 & 2011

(In Lakh)

S.No	Years	Households	Residential Houses	Difference of Households & Residential Houses
1.	**1991**			
	Delhi	18.62	17.14	1.48
	India	1520.10	1470.10	50.00
2.	**2001**			
	Delhi	25.54	23.17	2.37
	India	1919.64	1792.76	126.88
3.	**2011**			
	Delhi	33.41	31.76	1.65
	India	2466.93	2360.52	106.41

Source: Tables on Households and Amenities, Census of India, 1991, 2001 & 2011

2.5 As per the census 2011, the distribution of households by type of structure of houses in Delhi is "Good" to the extent of 60.19%, 36.19% is "Satisfactory", and the rest 3.62% is rated as "Bad". The survey revealed the structure-wise composition of houses as 99.10% of the total households are pucca houses, 0.68% semi-pucca houses and 0.22% kutcha type of houses.

STATEMENT 14.3

CONDITION OF CENSUS HOUSES

Item No.	House-list Item	Absolute number			Percentage		
		Total	Rural	Urban	Total	Rural	Urban
1.	Good	21,81,500	43,489	21,38,011	65.8	55.3	66.1
2.	Liveable	10,39,572	32,234	10,07,338	31.4	40.9	31.1

Source: Census of India 2011

2.6 Housing Congestion: More than 60% of the households occupy one-room and two-room dwelling units in Delhi. The UN describes average household size at 2.5 per room, to be above the congestion level. With average household size of 5, housing congestion is a matter of concern.

2.7 Ownership of houses is very high in Delhi with about 68% households having their own houses, as per 2011 census. A district-wise distribution shows that proportion of owned houses is much higher in all districts except New Delhi, where a majority of the government quarters and diplomatic enclaves are located. Migrants generally live in rented accommodations, at least initially before they stabilize in the city. The increase in ownership of houses refers to the growing stabilization process in the city.

STATEMENT 14.4

Districts	Ownership Status		
	Owned – Households	Rented - Households	Other - Households
NCT of Delhi	**68.2**	**28.2**	**3.6**
North-West	72.5	24.1	3.4
North	69.2	26.4	4.3
North-East	75.3	23.3	1.4

Source: Housing Conditions in Delhi based on NSS 76th round Survey, July 2018-December 2018, DES, GNCTD
Note: Figures in Percentage (%).

2.8 Statement 14.5 provides results relating to the type of the structure and some perceptions about the condition of the structure of the households separately for each type of structure. It was found that in Delhi, 91% households were residing in the buildings which are used strictly for residential purpose, 7.3% households were found to be used for residence-cum-commercial purposes and 1.7% households for residential cum other purposes. In view of condition of structure of house, about 58% households were reported good quality of structure of the building in which they were residing and nearly 34% households reported that it was at satisfactory level. In Delhi, 25.3% households were living in the buildings which were of only 1 floor, about 35% households having 2 floors and nearly 40% households having 3 or more floors. In rural Delhi, more households were residing in low rise building as compared to urban area.

2.9 Slums and Unplanned Housing: The Delhi Government conducted a survey of slums and JJ colonies in 2014 and estimated around 0.33 million households (roughly 1.7 million population) residing in such settlements, accounting for about 10% of Delhi's population. In the recent years, the high pace of development in Delhi has led job-seekers to in-migrate here

STATEMENT 14.6

DISTRIBUTION OF UNPLANNED DWELLING UNITS AND POPULATION

(1)	(2)	(3)
Jhuggi Basti	JJ Basti 675 (Dwelling units required about 0.3 million) Population 1.5 million	Encroached on public land. State Government: 30%, Central Government 70%.
Resettlement Colonies	Colonies 82 (45+37) Plots 267,859 Population not specified	Incorporated within the expanded city with good shelter consolidation without adequate services
Unauthorised Colonies	Colonies 1797 Population 40 lakh	Illegal colonies in violation of Master Plans, no clear land title
Notified Slum Areas (Katras)	Katras 2,423 Population two million	Notified under Slum Areas (Improvement and Clearance) Act, 1956. The residents are staying on perpetual license basis.
Urban Village	Urban Village 135 (227 rural villages not yet notified as urban)/ Population not specified	Notified under Delhi Municipal Corporation Act, 1957
Homeless and Pavement Dwellers	16,000 persons	-

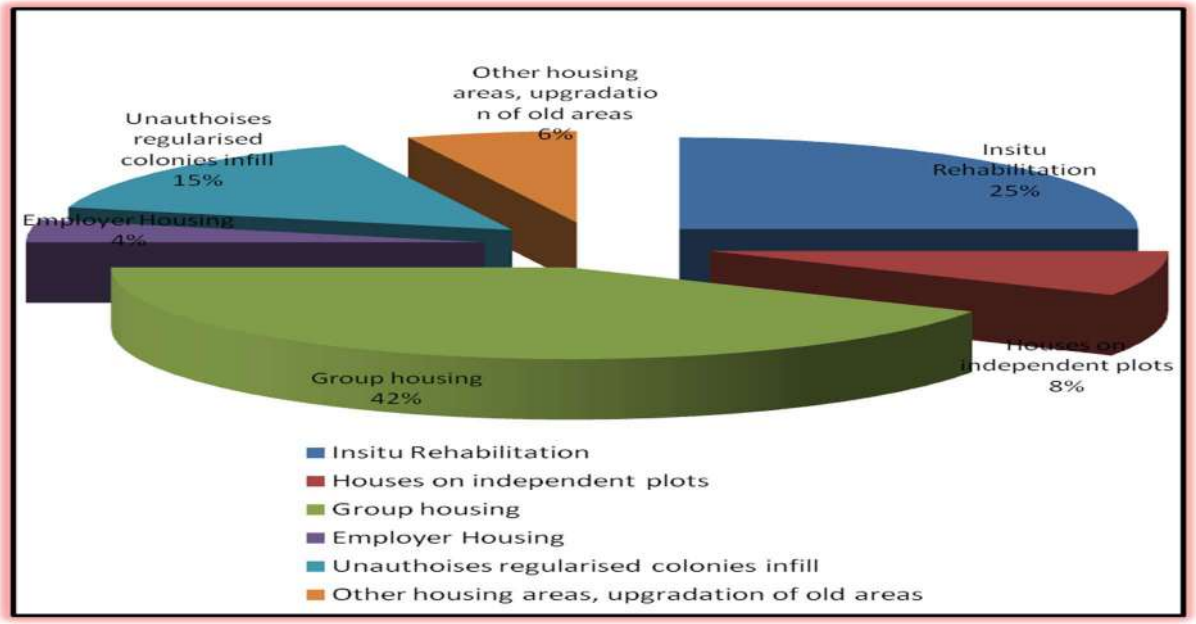

Source: Delhi Urban Shelter Improvement Board Survey (2014)

In order to achieve housing for all by 2030, a total of 4.8 million houses need to be built/up-graded. The component for Economically Weaker Sections (EWS) would be 54% of the total.

2.10 Delhi Government is only one of the many players in the Housing Sector because land, land development and public housing are under the jurisdiction of the Delhi Development Authority under the Ministry of Urban Development, GoI. However, with the launching of Jawahar Lal Nehru National Urban Renewal Mission (JNNURM), Delhi Government got engaged in the construction of houses for economical weaker sections. However, given the huge size of targeted population, the Government initiative would be limited due to the fact that availability and allotment of land is under DDA. In order to cater to a projected population of 23 million by 2021, Delhi Master Plan Document (MPD-2021) is planning to add 20 lakh new dwelling units over the period 2001 to 2021, out of which 54% of the units would be for EWS category.

2.11 As per Master Plan Document 2021, projections for housing are as under:

CHART 14.2
HOUSING PROJECTIONS UNDER MPD 2021

3 UNAUTHORIZED COLONIES

3.1 In order to make the life of citizens residing in unauthorized colonies in Delhi livable and to provide minimum basic civic services such as development of roads, roadside drains, and filling up of low-lying areas to maintain hygienic conditions, the Government has consistently been making huge public investments.

3.2 It is estimated that in Delhi there are 1797 unauthorized colonies

3.3 The Delhi Government and its agencies, Delhi State Industrial and Infrastructure Development Corporation (DSIIDC), Department of Irrigation and Flood Control (I and FC), Delhi Jal Board (DJB), Public Works Department (PWD) and Municipal Corporations of Delhi (MCDs) are providing services in the regularized unauthorized colonies.

3.4 The Urban Development Department has been carrying out developmental works in Unauthorized Colonies in Delhi through executing agencies i.e. DSIIDC, I&C Department and Power Department. The following activities are covered under the scope of the development works in the unauthorized colonies under the scheme “Development of Unauthorized Colonies”:-

I. Construction of roads and storm water drainage.
II. Augmentation and Maintenance of Street Lights.
III. Installation of sewerage and water supply lines.
IV. Shifting of HT/LT Lines.

4. Member of Legislative Assembly Local Area Development Scheme (MLALAD):

Government of NCT of Delhi framed the "Member of Legislative Assembly Local Area Development Scheme' (MLALAD) in the year 1994 on the analogy of the "Member of Parliament Local Area Development Scheme" (MPLADS) implemented by the Ministry of Statistics & Programme Implementation, Govt. of India. The basic purpose of introducing the MLALAD Scheme was to take up small development projects as per needs of the local people on the recommendation of area MLA.

- During the year 2024-25, an amount of Rs. 320.00 Crore was earmarked for MLALAD Scheme. Out of which, an amount of Rs. 302.259 Crore was released for local area development works of Delhi.

- During the year, 2025-26, an amount of Rs. 350.00 Crore (i.e. Rs. 5.00 Crore per Assembly Constituency) was earmarked under BE-2025-26. Total 1143 projects with estimated cost of Rs. 227.72 Cr. have already been sanctioned by the Urban Development Department as on date 30.01.2026.

- The MLALAD fund of Rs. 5.00 crore per Assembly Constituency per year is an untied fund. The said amount is released by Urban Development Department to the designated executing agencies namely MCD, NDMC, DISCOMs, DJB, I&FCD, DUSIB, DSIIDC and others like Health, DDA, DCB, CPWD etc., for undertaken an approved work/project against the recommendation of respective Hon'ble MLA after obtaining detailed cost estimates and layout plans from the concerned executing agencies.

5. Trans Yamuna Area Development Board:-

5.1 For development of Trans Yamuna area in a proper, speedy and sustained manner, Trans Yamuna Area Development Board (TYADB), an advisory Board was constituted in 1994. The Board approves and recommends works for the development of infrastructure in Trans Yamuna area. Various agencies are involved in the development of infrastructure facilities in Trans Yamuna area such as Delhi Jal Board, Municipal Corporation of Delhi, Public Works Department, Department of Irrigation, and Flood Control. After the inception of Board, most of the activities relating to the development of infrastructure in Trans Yamuna are coordinated by the Board. The Board was re-constituted vide order No. 07-16 dated 20.08.2025.

5.1.1 The Board shall advise the Government on issues connected with the Infrastructural development of and for securing planned growth of Trans

Yamuna area so as to reduce disparity in development in Trans Yamuna area as compared to the other areas of NCT Delhi.

5.1.2 The Board approves/recommends infrastructural development works through agencies DJB, MCD, PWD, I&FC Dept, DUSIB, DDA and other Govt Executing Agencies.

5.2 The works permissible under TYADB are to provide drinking water facilities (tubewell, water tanker etc.); development/construction of Govt school buildings, community halls, subways, footbridges, hostels for working women, public libraries, sports complexes, burial grounds, roads (including part, approach, link roads), drains, parks, open part gyms (with equipment), other durable assets for public use on govt land; procurement of Govt hospital and dispensary equipment; installation of street lights/solar lights; repair/ maintenance of the assets.

6. Delhi Urban Shelter Improvement Board (DUSIB)

6.1 Delhi Urban Shelter Improvement Board has come into existence under Delhi Urban Shelter Improvement Board Act, 2010 passed by the Legislative Assembly of the National Capital Territory of Delhi on 1st April, 2010. The Delhi Urban Shelter Improvement Board has been nominated as nodal agency for the implementation of scheme of relocation/rehabilitation of jhuggi jhopri clusters in Delhi like improvement of environment, relocation and in-situ development of slums in Delhi.

6.2 DUSIB is primarily responsible for the qualitative improvement of slum settlements and providing various kinds of services for slum dwellers in the city. It also undertakes works relating to provision of shelters to the urban poor / slum dwellers under the policy for relocation for slum and JJ dwellers, including the provisions of built-up flats under exceptional circumstances, when the properties/katras become dangerous / unfit for human habitation. The main thrust is to provide minimal civic infrastructural facilities like toilets, bathrooms and Basti Vikas Kendras (Community Centres) in JJ Clusters.

6.3 The broad activities of DUSIB are as follows:

- Construction, Management and Maintenance of Night Shelters.
- Construction of low-cost Housing under EWS for Slum dwellers under Jawahar Lal Nehru National Urban Renewal Mission

(JNNURM) and in-situ rehabilitation of slum and JJ bastis existing on the land of DUSIB, Delhi Govt and its agencies under In-situ Rehabilitation as per “Mukhya Mantri Awas Yojna”.

- Relocation and rehabilitation of squatters.
- In-situ up-gradation of JJ Bastis.
- Environmental Improvement in Urban Slums.
- Construction, Operation & Management and maintenance of Pay and Use Jan Suvidha (Toilet) Complexes. Use of Toilets has been made free from 01.01.2018.
- Construction & Maintenance of Basti Vikas Kendras / Community Halls.
- Structural Improvement and Rehabilitation of Katras.

6.4 In-situ development shall be the preferred option, to ensure that development does not lead to a loss of job linkage or additional hours and income lost on commuting to work, where relocated, there will be emphasis on active intervention to provide mobility or recreating livelihood linkages. Implementation of slum up-gradation may however be phased out and paced as per the financial and resource capacity of the state/city.

6.5 MAKING SLUM AND JJ BASTIES OPEN DEFECATION FREE

6.5.1 There are 675 JJ bastis in Delhi having more than 3 lakh jhuggis in which about 15 lakhs population is residing. To maintain the J.J. Cluster in hygienic condition and to provide clean environment, there is an urgent need to curb the habit of mass defecation in open by J.J. dwellers, DUSIB is providing community toilets and baths in J.J. Cluster under Plan Scheme of GNCTD under “Pay & Use Jan Suvidha Complexes”. At present DUSIB is maintaining more than 22000 WC seats in Pucca/Prefab/MTV/portable Cubicals in these JJ Bastis through reputed agencies engaged in the field of House Keeping. Maintenance Contract of these O & M agencies is already on extended period and fresh tenders for O & M have been called and are under process for finalization. DUSIB is also providing portable cubical toilets for those locations where there are no water & sewerage facilities. All these Community Toilets available to slum dwellers are open to public 24 x 7 ‘free of user charge’.

Initiatives taken for toilet:

DUSIB has taken some initiatives in this process of providing toilet in JJ bastis and will be followed in new toilets as;

- Physically disabled friendly WC provided in Toilet Complexes.
- 1 WC each for male and female opened during odd Hours in night.
- Complete Renovation of old dilapidated toilets taken over from MCD and up gradation of existing toilets with improved specification for better O&M.
- Conducted competition for innovative design for toilet complex in JJ Bastis and based on this competition the external facia of the proposed complexes has been improvised to give better look.
- Provided tap water to all WC seats in existing toilet complexes to improve hygienic condition for the users in the complexes.
- All signage has been standardized, improved and made more informative.
- Strict monitoring of the toilet complexes by deploying exclusive teams for regular inspections.
- Planned portable mobile toilets for the locations which are not having water and sewage facilities.
- NGOs will be roped in this process to sensitize community for their behavior change in using toilet.
- JJ dwellers are using this facility free of user charge since 01.01.2018. Separate toilets for men, women, children & Divyang.

7. EWS HOUSING (BSUP)

7.1 Under Sub-Mission-II Basic Services to the Urban Poor (BSUP) of JNNURM, the Government of India has approved 8 Projects of DSIIDC, 6 Projects of DUSIB and one Project of NDMC with the revised cost of ₹2750.91 Crores for the construction of 52584 dwelling units. The constructions of 24524 flats have been completed and 28060 flats are

under different stages of construction. Only 4833 could be allotted till date. The issues and problems for low occupancy are very low eligibility rate qualifying for getting the dwelling unit, non-availability of required peripheral infrastructure facilities, apprehension of allottees of losing livelihood after shifting etc. Other issues for in-situ development of JJ clusters are lack of availability of land and for providing alternate accommodation to the JJ dwellers for development of the colony.

7.2 DUSIB has constructed 10684 EWS houses at Dwarka, Sultanpuri and Sawda Ghevra. 7400 EWS houses are under construction at Bhalswa. At Sawda Ghevra in 4060 Units, some minor works of Civil & Electrical are remaining (The work has been rescinded by Department).

- GNCTD has requested MoHUA, GoI, to allow inventory meant for slum rehabilitation to be utilized for relocation/rehabilitation of slum dwellers of JJ bastis where DUSIB has made commitment to land owning agencies/beneficiaries/JJ dwellers in view for relocation charges/ beneficiary contribution deposited prior to the notification of ARHCs.

7.3 The Hon'ble High Court in WP(C) 9470/2022 and CM APPL. 30607/2022 & 30608/2022 in Court on its own motion Petitioner Though Versus Union of India and Ors. Vide order dated 18.09.2023, has constituted High-Powered Committee.

- The Committee will chalk out a clear and concise policy for the allocation and allotment of houses, particularly addressing the concerns raised about ARHCs and the Rehabilitation Policy, 2015. Priority must be given to those who have already paid their dues and those who are in dire need of shelter (New Rehabilitation Policy is under consideration).

- The Committee shall also supervise the remaining construction and repair work, with an emphasis on collaboration and clear and actionable outcomes. The GNCTD is directed to immediately formulate and present an action plan to the Committee, detailing the timeline and methodology for the completion of the balance construction and repair work.

- A sub-committee or a dedicated team should be instituted to engage with potential beneficiaries. Their concerns, particularly about the lack of amenities, should be addressed, ensuring that the houses are not just structures but truly homes for the urban poor.

7.4 The agency wise details of Construction of flats including completed flats, allotted flats and occupied flats could be seen in statement 14.7

STATEMENT 14.7

SUMMARY OF FLATS UNDER PROJECT OF DUSIB, DSIIDC & NDMC

S. No.	Name of Projects	Project Cost (in Crores)	No. of Units to be construct-ed	No. of Units Complet-ed	No. of Units Allotted	No. of Units Occupied	Details of allot-ment of units

Note-1	The 934 flats were allotted and the possession of 934 flats were also handed over to allottees.
Note-2	44 Flats were allotted to Jhuggi dwellers
Note-3	Out of 7620 Units, in 4060 minor defects removal and some electrical work is remaining.1144 Flats allotted under the registration scheme 1985. However, possession of 218 flats has been given among 1144 allottees. In compliance of decision of Committee Delhi repair works of 2416 EWS Flats is under progress, out of which 1500 flats have been completed and are ready for allotment. Allotment of houses which were made habitable are under progress.
Note-4	3 flats allotted to Anganwadi on lease basis for social work. 624 (608+16) flats at Baprola are to be allotted to CISF.

Govt. of India, MoHUA (HFA-V Division) vide order No. 11014/12/2025-HFA-V-MoHUA (FTS-9198548) communicated the following:

a. GNCTD to complete the remaining under construction houses of JnNURM from its own resources and allot these houses to eligible beneficiaries of PMAY-U 2.0 or eligible slum dwellers as per Delhi JJ clusters R&R policy. GNCTD should allot funds to DUSIB and/or allow DUSIB to utilize funds collected from land -owning

agencies/beneficiaries for making JnNURM houses habitable/available for resettlement.

b. GNCTD is advised to prioritize low-hanging fruits by targeting the repair and allotment of 15000-20000 houses in Phase-I. Wherein DUSIB's approx. 10000-12000 houses, and DSIIDC's around 5000-8000 houses may be completed/repaired and allotted. Remaining houses may be repaired/retrofitted and allotted in Phase-2. A time bound action plan should be made and followed up for the same.

c. GNCTD is also advised to apply innovations by converting some houses of JnNURM into Rental Housing as per the scheme guidelines of PMAY-U 2.0 and initiate innovative projects on the lines of "SAFE (Side Adjacent Factory Employee) Accommodation" initiative to provide rental accommodation for industrial workers near their workplaces.

d. The unspent Central Assistance released under JnNURM, lying with GNCTD or implementing agency, for DUSIB and DSIIDC projects may be utilized for repair/retrofitting and completion of under construction houses of JnNURM in Delhi and make them liveable/habitable for the allotment/use under PMAY-U 2.0 or eligible slum dwellers as per Delhi JJ clusters R&R policy. Accordingly, utilization certificate after expenditure should be submitted. However, Rs. 38.66 crore released to GNCTD for DDA projects which were not executed, can't be used now. Therefore, the same needs to be returned to MoHUA along with interest accrued.

8. NIGHT SHELTERS

8.1 The main focus of DUSIB is to provide shelter to absolutely shelter-less population sleeping on pavement. At present DUSIB is operating & managing 198 Night Shelters having capacity of about 16964 inmates. Delhi Urban Shelter Improvement Board (DUSIB)" is operating & managing these "Shelter Homes" at various locations in Delhi on 24 hours basis, through "Shelter Management Agencies (SMAs)" In winter the capacity is enhanced to accommodate more persons by erecting water proof Pagoda tents at various places as the number of homeless people during the winter season are increased as compared to remaining period. These Shelter Homes are being operated & managed by DUSIB with the funds allocated under one of the planned schemes of Delhi Government. About 325 water proof Pagoda tents at various places as per requirement has been installed and remained operational from 15.11.25 to 15.03.26. Dedicated rescue teams are deployed to shift homeless people sleeping on streets, pavements, road berms under bridge etc. to DUSIB Night Shelters. Special provision has been made for women, children, families, differently abled women, drug edicts, recovery shelters etc.

8.2 Special provision has been made for women, children, families, differently able, drug addicts, recovery shelters etc. These Night Shelters are being managed through Shelter Management Agencies / NGOs. Rescue teams have also been deployed to rescue homeless people in Delhi during the winter season. These night shelters are opened for homeless on 24 X 07 basis and services are being provided free of cost. During winter the control room operates 24 X 7 basis and can be contacted on help line No. 23378789, 23370560 (Landline) and e-mail dusibnightshelters@gmail.com. In addition to this DUSIB has also designed a mobile application (App) "RAINBASERA" to track and rescue homeless people in Delhi.

8.3 Each night shelter is equipped with sufficient numbers of blankets, durries, jute mats, bed sheets, pillows, mattresses etc., Drinking water/ Water Cooler/Muyur Jug/ Water dispenser, Electricity connection /Emergency Lights, First aid box and Fire Extinguishers. To make the life in shelter more comfortable in summer, desert coolers have been provided, whereas in winter water heater / geysers have been installed in most of the permanent night shelters to provide warm water for daily needs. For entertainment, colour TV sets have been provided in most of the permanent night shelters. Three meals per day are being provided by to inmates of Night Shelters.

9. ATAL CANTEEN

9.1 In the Budget 2025-26 presentations to the Delhi Vidhan Sabha, the Hon'ble Chief Minister announced the establishment of 100 Atal Canteens, backed by an allocation of Rs. 100 crore. Targeted at residents of JJ Clusters, these facilities deliver subsidized, nutritious meals (lunch and dinner) at Rs. 5 per serving, with the Government of National Capital Territory of Delhi (GNCTD) providing a Rs. 25 subsidy per meal. The initiative marks the birth centenary of the late Hon'ble Prime Minister Atal Bihari Vajpayee on 25 December 2025, with an initial capacity to serve 1 lakh meals daily.

9.2 This endeavor aims to bolster food security and nutritional access for vulnerable populations in JJ Clusters via GNCTD-subsidized affordable meals.

9.3 On 25 December 2025, the Hon'ble Chief Minister, accompanied by the Hon'ble Union Minister for Urban Development and Energy, the GNCTD Urban Development Minister, and the Hon'ble MLA, inaugurated the inaugural Atal Canteen at Nehru Nagar (Lajpat Nagar).

9.4 At present, 73 Atal Canteens are operational across various locations in the National Capital Territory of Delhi.

10. Centrally Sponsored Scheme (CSS)

10.1 Atal Mission for Rejuvenation and Urban Transformation 1.0 (AMRUT1.0):

Name of the scheme	Atal Mission for Rejuvenation and UrbanTransformation1.0(AMRUT1.0)
State/CSS Scheme	CSS Scheme (Ministry of Housing & Urban Affairs)
Funding Pattern	100% centrally funded

10.1.1 Atal Mission for Rejuvenation & Urban Transformation (AMRUT) is a Centrally Sponsored Scheme of Govt. of India, Ministry of Urban Development, which was launched by the Hon'ble Prime Minister on 25th June, 2015.

10.1.2 The priority of this Mission is to provide water & sewerage including seepage connection to each household. This scheme also has components such as Storm Water Drainage, Developing Greenery &Parks, Urban Transportation, which includes construction of pathways, cycle track, footpath, foot-over bridge, non-motorized transport, multilevel parking, etc. 2.50% of the total SAAP (State Annual Action Plan)size is mandatory for the greenery projects.

10.1.3 AMRUT is a centrally sponsored scheme for which 100% of funds are being provided by the Central Government, and funds are released in three instalments in the ratio of 20:40:40.

10.1.4 A total amount of ₹674 Crore has been received from MoHUA, GoI and the entire project funds have been released to the Implementing Agencies (IAs)i.e.MCD, DJB & NDMC.

10.1.5 A total expenditure of ₹578Crore has been reported by the various Implementing Agencies (IAs) and Utilization Certificates (UCs) worth ₹552.36Crore have been submitted to MoHUA, GoI.

10.1.6 A total 26 (twenty-six) projects approved under AMRUT and out of them 23 (twenty three) have been completed, 03 (three) are under various stages of completion. Physical progress: 76%-100%:03 projects (2-DJB, 1–MCD). These projects are expected to be completed by 31.03.2026.

10.2 Atal Mission for Rejuvenation and Urban Transformation2.0 (AMRUT 2.0):

Name of the scheme	Atal Mission for Rejuvenation and Urban Transformation2.0 (AMRUT2.0)
State/CSS Scheme	CSS Scheme (Ministry of Housing & Urban Affairs)
Funding Pattern	100% centrally funded

Scheme Details

- The Atal Mission for Rejuvenation and Urban Transformation 2.0 has been designed to realize the aspiration to make all cities 'Water Secure' with aim to provide 100% coverage of water supply, 100% coverage of sewerage and septage in 500 AMRUT cities.

- The Mission AMRIT Sarovar is also part of AMRUT 2.0 for developing and rejuvenating water bodies.

- Total projects funds allocation to NCT of Delhi is ₹2885.00 Crore, which includes allocation of ₹168.27 Crore for rejuvenation of waterbodies/green space; Funds for Administration & Office Expenses is ₹93.00 Crore.

- The funds are released in three installments in the ratio of 20:40:40.

Financial Progress

- A total of 94 projects costing to Rs. 2908.73 Cr. is approved under AMRUT 2.0 against the earmarked fund of Rs. 2885.0 Cr.
- A total amount of Rs. 369.55 Cr. is received from MoHUA, GOI.
- A total amount released to Implementing Agencies: Rs. 363.33 Cr.
- Expenditure reported: Rs. 317.08 Cr.
- Utilization Certificate submitted to GOI: Rs. 280.46 Cr.

Out of a total 94 approved projects by MOHUA,GoI, currently 67 projects with total project cost (including O & M) of Rs. 4898.33 Cr. and approved CAPEX of Rs.2490.073 Cr. are under implementation. 23 projects worth project cost Rs. 30.48 Cr have been completed as on date 23.01.2026.

Physical progress

Rs. In Cr.

Particular	No. of Projects	Total Project cost (Including O & M Cost)	Approved Central Assistance (CA)
Project under implementation	67#	4898.33	2490.073
Pending DPRs Preparation	02	168.48	101.90
DPRs prepared	02	1774.46	281.95
DPRs approved Stage	10	107.42	93.84
NIT Issued	12	2170.38	1353.29
Project Completed	23	31.713	30.483
Ongoing	18	645.88	628.61

94 projects were approved by MOHUA, GOI out of which 27 have been dropped/replaced by the Urban Local Bodies and referred to MOHUA for requisite changes.

10.3 Swachh Bharat Mission (Urban) 1.0

10.3.1 Brief Write up of the scheme:

Swachh Bharat Mission (Urban) was initiated by Ministry of Housing& Urban Affairs, Govt of India on 2nd October 2014 for a period of 5 years which was extended up to 31st March 2021 with the following objectives/ components:

i. Aims and objectives of the Scheme: -

1. Elimination of open defecation,
2. Eradication of Manual Scavenging
3. Modern and Scientific Municipal Solid Waste Management
4. To effect behavioral change regarding healthy sanitation practices
5. Generate awareness about sanitation and its link age with public Health
6. Capacity Augmentation for ULBs to create an enabling environment for private sector participation in Capex (capital expenditure) and O&M (Operation and Maintenance)

ii. Components: -

1. Household Toilets
2. Community Toilets
3. Public Toilets and urinals (ODF component)
4. Solid Waste Management
5. IEC& Public Awareness

6. Capacity building and Administrative & Office Expenses(A&OE)

iii. Funding Pattern:

State has to contribute 25% Share to match the central 75% Share for project fund and 20% to match 80% for IEC and Capacity Building funds. Central financial assistance earmarked for Delhi for the entire mission period is given in statement 14.08.

STATEMENT 14.08

10.3.2 Open Defecation Free (ODF) and Garbage Free City (GFC) Star Rating status

As on 31.12.2024

Name of Agency	ODF/+/++&Water+Status	GFC Star Rating
NDMC	Attained Water +	Attained5starandappliedfor7star
MCD	Attained ODF ++	Attained 1 star rating
DCB	Attained ODF ++	Attained1star rating

10.3.3 Solid Waste Management

Discouraging Single Use Plastic:

- Collection of Plastic is being done through the innovative measures like Plastic lao thaila pao, Bartan Bhandar etc. engaging the community. Public at large is being made aware about the importance of collection and segregation of plastic waste through the initiatives like “Bottles for change” (in collaboration with Bisleri),Plogrunrallies etc. The plastic waste so collected is being sent to Waste to Energy plants.
- Besides this, various activities are being carried out in collaboration with private sector CSR activities and civil society e.g. My 10 kg plastic campaign with IPCA (an NGO) in which 6367 kg. Plastic waste has been collected in 2020; Bottle crusher machines have been set up in collaboration with ONGC. North DMC has setup ‘Garbage Cafes’ and is also creating a Plastic Free Zone in Karol Bagh. Plastic waste processing facilities as well as Material Recovery Facilities(MRF) have been set up.
- Fines are being imposed for effectively banning SUP in accordance with the Order of NGT.
- In pursuance of the decision taken in the PRAGATI Meeting dated 24.02.2021 a State Level Special Task Force has been constituted under the Chairmanship of Chief Secretary, GNCTD for taking measures to eliminate single Use Plastic in mission mode. Further, City Level Task Force at the level of each ULB has also been constituted to take effective and time bound actions for plastic waste management as per Plastic Waste Management Rules (PWMR), 2016.
- A ‘Committee for reduction of Single Use Plastic’ under the Chairmanship of ACS/Pr. Secretary (UD) has been constituted for the purpose of effective monitoring and coordination among various agencies/stake holders for reduction in use of Single Use Plastic. Four meetings of the Committee have been held so far.

10.3.4 Garbage Free Rating

New Delhi Municipal Council has attained 5-Star Garbage Free Rating.

10.3.5 Swachh Survekshan Ranking

ii. The year-wise survey report of Swachh Survekshan —a survey conducted by Ministry of Housing and Urban Affairs, Govt. of India to rank cities on various sanitation and cleanliness parameters is given in statement 14.09.

STATEMENT 14.09

ULBs	Category	SS-2022 Rankings	SS-2023 Rankings	SS-2024 Rankings
NDMC	(1-3lakh population category)	3	7	Super Swachh League in 2024

10.4 SWACHH BHARAT MISSION 2.0:

10.4.1 The details of SBM (Urban) 2.0are as under: -

Mission Objectives	Achieving 'Garbage Free' status for all cities envisaging the targets of 100% waste segregation into 'wet' & 'dry', 100% door to door collection, 100% scientific management of waste, all the dumpsites to be remediated and all used water including faecal sludge to be treated/transported so that the water/ground water does not get polluted.
	Reducing air pollution from SWB Mission activities

	Phased reduction in use of single-use plastic
	Large scale citizen outreach to create 'Jan Andolan 'for Swachh behavior
	Creating institution capacity for achieving mission objectives
Mission Components for funding	Sustainable Solid Waste Management including setting up of waste processing facilities, composting plants, RDF processing facilities, bio-remediation of dumpsites
	Construction of Individual Household Latrines (IHHL), Community Toilets(CT)& Public Toilets (PT), Urinals and retrofitting of Insanitary Toilets for sustainable sanitation
	Used Water Management through desludging equipment, interception and diversion of drains and construction of Sewage Treatment Plants (STPs)
	Information, Education & Communication (IEC) and Behavioural Change Communication (BCC) initiatives such has hiring professionals for contents and social media managing, dissemination of mission components etc.
	Capacity Building(CB)through training of officials, hiring of expert professionals, Workshops &lectures, setting up of Mission Management Units etc.
Mission Outcomes	All Statutory towns are certified atleast 3-star Garbage Free, or higher
	All statutory towns become at least ODF+
	All statutory towns with less than1lakh population become at least ODF++
	At least 50%of all statutory towns with less than1lakh population become Water+
Duration of the Mission	1st October 2021 to1st October 2026
Fund sharing for Delhi (UT with Legislature)	Component-wise funding from Govt. of India earmarked for Delhi is ₹692.6Crores
	There is 80%:20%fund sharing pattern prescribed for the UTs with Legislature
	Fund sharing for IHHL will be in the ratio of ₹4000/-:₹1333/-between the Centre &the UT with Legislature
	Fund sharing for CT/PT/Urinals/Used Water Management & SWM will be in the ratio of 80:20
	Again, for IEC& CB also, the fund sharing will remain in the ratio of 80:20.

11. National Urban Livelihood Mission (NULM)

The relevant updated data/indicators regarding preparation of economic survey of Delhi for the year 2025-26 as under:-

11.1 The National Urban Livelihood Mission (NULM) was a flagship scheme of Ministry of Housing and Urban Affairs (MoHUA), Government of India. The Urban Development Department, Govt. of NCT of Delhi is the Nodal Department of the State Government for coordinating the activities of NULM in Delhi. Further, Mission Swaraj has been designated as State Urban Livelihood Mission (SULM) for monitoring the implementation of various components under NULM.

11.2 National Urban Livelihood Mission (NULM) was a Centrally Sponsored scheme which envisages reducing poverty and vulnerability of the urban poor households by enabling them to access gainful self-employment and skilled wage employment opportunities, resulting in an appreciable improvement in their livelihoods on a sustainable basis, through building strong grassroot level institutions of the poor. The mission also aims at providing Shelters equipped with essential services to the urban homeless. In addition, the Mission also addresses livelihood concerns of the urban street vendors by facilitating access to suitable spaces, institutional credit, social security and skills to the urban street vendors for accessing emerging market opportunities.

11.3 The National Urban Livelihood Mission (NULM) has ended on 30.09.2025 and has been replaced by a new scheme namely Deendayal Deendayal Jan

Aajeevika Yojana – Shehari.

12 Deendayal Jan Aajeevika Yojana – Shehari

12.1 DJAY-S (Deendayal Jan Aajeevika Yojana – Shehari) is an Indian government initiative launched on 01.10.2025 to uplift the urban poor, focusing on vulnerable workers in construction, transport, waste, domestic, and gig sectors by providing social security, financial aid (like loans for e-rickshaws), skill development, and linking them to central welfare schemes, improving livelihoods in urban areas through strong community institutions.

12.2 Target Beneficiaries are Urban poor, especially informal sector workers in construction, transport (e-rickshaw/auto drivers), waste pickers, domestic workers, care workers, and gig workers.

12.3 The scheme seeks to alleviate poverty by promoting self-employment opportunities, enhancing the quality of life, and providing social security to the urban unorganized workforce.

12.4 The scheme focuses on strengthening community institutions through the formation and empowerment of Self-Help Groups and their federations, promoting financial inclusion by facilitating access to affordable credit such as loans up to ₹4 lakh for transport workers' vehicles and by linking beneficiaries with banking and insurance schemes like PMJDY, PMSBY, and PMJJBY, ensuring social security coverage through access to welfare initiatives including Ayushman Bharat, and enhancing livelihoods by emphasizing skill development and skill-based employment opportunities.

12.5 The scheme has been piloted in several cities (like Bhopal, Tura) and involves profiling, ID card issuance via the Urban Unorganised Workers Portal, and linking with state-level schemes (like MP's Ladli Behna).

An amount of Rs. 02 Crore has been allocated under DJAY-S scheme by the GOI for the year 2025-26. However, key the key targets for the scheme are yet to be specified.

The Component wise achievements details as under:-

SL. No	Name of item/Scheme/activity		Achievements (1.4.2024 to 31.01.2025)
1	Social Mobilization and Institution Development SM&ID	Formation of SHGs	104
		No. of ALF formed	1
2	Self-Employment Program (SEP)	Assistance under SEP (I&G)	113
3	Innovative & Special Projects(I&SP)	Beneficiary trained in Tihar Jail	1012(trained certified)

A part from the regular component related work SULM, Delhi also under look various innovative steps in augmenting livelihood opportunities among urban poor and increasing the outreach of the programme.

Certification of skill trained jail inmates of Tihar Jail has been completed.

Provided Weekly stall at secretariat on rotational basis to the SHGs among all eleven Districts of Delhi

Provided stalls to SHGs in India International Trade fair-2024 in order to provide market linkage opportunity to SHG members in the international platforms.

SHGs were provided stalls at various Malls in different parts of Delhi between 20th Oct to 1st Nov.

As an initiative for Livelihoods among the SHGs in Delhi, an SHG CANTEEN at District South has been started under NULM.

SHGs took part in 3R- Kiosks (Re-use, Recycle, Reduce) initiative by Swachh Bharat Mission.

CHAPTER AT A GLANCE

➢	Government of Delhi has a vision to make Delhi sustainable, inclusive and equal for all with a quality of life that is ecologically and culturally sustainable and accessible.
➢	Huge public investment has been made in unauthorised colonies in a most transparent and efficient manner to continuously improve the living conditions of people by development of roads, drainage, and sanitation services.
➢	The quality of housing in Delhi has improved over the last decades with the share of “good” houses having increased from 58% in 2001 to 66% in 2011. Nearly one–third of the houses need minor repairs and only 3% are in dilapidated condition and require major repair. In order to achieve housing for all by 2030, a total of 4.8 million houses need to be built/up-graded. The component for Economically Weaker Sections (EWS) would be 54% of the total. With the launch of Jawahar Lal Nehru National Urban Renewal Mission (JNNURM), Delhi Government got engaged in the construction of houses for economically weaker sections (EWS). In order to cater to a projected population of 23 million by 2021, Delhi Master Plan Document (MPD-2021) is planning to add 20 lakh new dwelling units over the period 2001 to 2021, out of which 54% of the units would be for EWS category.
➢	Under Basic Services to the Urban Poor (BSUP) of JNNURM, the Government of India has approved 8 Projects of DSIIDC, 6 Projects of DUSIB and one Project of NDMC with the revised cost of ₹2750.91 Crores for the construction of 52584 dwelling units. The constructions of 24524 flats

	have been completed and 28060 flats are under different stages of construction.
➢	Under the MLALAD Scheme, which supports small development projects recommended by the Hon'ble Members of the Legislative Assembly to address local needs, a total budget provision of ₹350.00 crore (₹5.00 crore per Assembly Constituency) was earmarked under BE 2025–26. As of 30.01.2026, the Urban Development Department has sanctioned 1,143 projects with an estimated total cost of ₹227.72 crore.
➢	AMRUT is a Centrally Sponsored Scheme with 100% funding from the Government of India, released in three instalments in the ratio of 20:40:40; out of 26 approved projects, 23 have been completed and the remaining 3 (with 76%–100% physical progress) are expected to be completed by 31.03.2026. An expenditure of ₹578 crore has been reported by the Implementing Agencies, against which Utilization Certificates amounting to ₹552.36 crore have been submitted to MoHUA, Government of India.
➢	Under AMRUT 2.0, aimed at ensuring universal coverage of water supply and sewerage services in urban areas, 67 projects with a total project cost of ₹4898.33 crore are being implemented, against which Central Assistance of ₹2,490.073 crore has been allocated. As on date 23.01.2026, 23 projects with a project cost of ₹30.48 crore have been completed.
➢	Second phase of Swachh Bharat Mission (Urban) has been launched on 01 October, 2021 with duration of 5 years. SBM (U) 2.0 will focus on sustaining the sanitation and solid waste management outcomes achieved during first phase and accelerate the momentum generated during the first phase. Delhi has achieved the status of ODF city.
➢	The Atal canteen initiative as announced in the Budget speech 2025-26 aims to bolster food security and nutritional access for vulnerable populations in JJ Clusters via GNCTD-subsidized affordable meals. On 25 December 2025, the Hon'ble Chief Minister, accompanied by the Hon'ble Union Minister for Urban Development and Energy, the GNCTD Urban Development Minister, and the Hon'ble MLA, inaugurated the inaugural Atal Canteen at Nehru Nagar (Lajpat Nagar). At present, 73 Atal Canteens are operational across various locations in the National Capital Territory of Delhi.

CHAPTER 15

EDUCATION

"The destiny of India is now being shaped in her classrooms." — Dr. A. P. J. Abdul Kalam

1.1 The future of a country is shaped in its classrooms implementing a sound education system based on a holistic approach to learning i.e. to provide equal educational opportunities to everyone, to emphasize a wholesome curriculum as well as incorporate educational technologies to make learning a fun and interactive process. Thus, an education system must aim to inculcate creativity, decisiveness, communication, collaboration and leadership and the spirit of teamwork.

1.2 New Education Policy 2020 emphasizes systematic and institutional improvement in regulation, governance and promotion of multi-disciplinary academics and research in Indian Higher Educational Institutions. Further, the policy promotes accessibility, equality, quality, affordability and accountability. Govt. of NCT of Delhi has already been working to ensure inclusive and equitable quality education and to promote lifelong opportunity for all by 2030 (as reflected in the Sustainable Development Goal (SDG-04) of 2030 agenda).

1.3 Directorate of Education (DoE) aims at imparting qualitative, continuous and inclusive education to the children of Delhi. To achieve this target, many new initiatives have been taken in the recent past by focusing on improving of infrastructure & ambience of government schools, improving pedagogies, involving parents/community through continuous engagement, intensive and ongoing teacher training and above all addressing students with learning deficits by targeted teaching methods, redesigned learning materials and redesigned assessment tools.

1.4 NIPUN Sankalp anchors this strategy by prioritizing universal Foundational Literacy and Numeracy (FLN) at the primary stage, recognizing that strong early learning outcomes are the highest-return public investment—improving retention, future learning productivity, and workforce readiness.

1.5 Whereas, NEEEV (New Era of Entrepreneurial Ecosystem & Vision) embeds NEP-aligned exposure to work, entrepreneurship, vocational skills,

career guidance, and industry linkages from the middle grades onward, supported by labs, teacher capacity building, and structured pathways to higher education and employment. Together, NIPUN Sankalp and NEEEV create a continuum from early learning to skills and entrepreneurship—thereby strengthening Delhi's talent pipeline, boosting productivity, and supporting inclusive, innovation-led economic growth. Further, building on Rashtraneeti, Delhi's school education reforms align national vision of Viksit Delhi - Viksit Bharat into actionable public policy by strengthening human capital through education-led development.

1.6 In line with the National Education Policy (NEP) 2020, the Directorate of Education (DoE) is undertaking restructuring of the Foundational Stage to strengthen early childhood education and ensure age-appropriate learning outcomes. Effective from the Academic Session 2026–27, the Foundational Stage will comprise three years of structured pre-primary education—Nursery (Bal Vatika/Preschool-1) for children aged 3+ years, Lower KG (Bal Vatika/Preschool-2) for 4+ years, and Upper KG (Bal Vatika/Preschool-3) for 5+ years—prior to entry into Class I. Further, in alignment with NEP-2020, a minimum age norm of 6+ years has been prescribed for admission to Class I, applicable from the Academic Session 2028–29 onwards. This reform is aimed at ensuring developmentally appropriate schooling, improving school readiness, and laying a strong foundation for foundational literacy and numeracy, thereby enhancing long-term learning outcomes and human capital formation.

1.7 Addressing the long absence of PM-SHRI implementation in Delhi, the Government has established 75 CM SHRI Schools under the Directorate of Education from Academic Session 2025–26. It marks a transformative step towards educational excellence and equity. These are envisioned as pace-setting, future-ready institutions, aligned with NEP 2020 and the National Curriculum Frameworks of Foundational Stage and School Education. These schools will be model institutions, not just in infrastructure but in pedagogy, curriculum, assessments, student outcomes and future pathways to National, Global University or Industry.

1.8 Aligned with NEP 2020's emphasis on holistic education and mental well-being, the **Science of Living Programme** integrates emotional intelligence, mindfulness, ethical values, and life skills into school education. Rooted in Indian Knowledge Systems and research-based social-emotional learning frameworks, the programme supports students' emotional regulation, empathy, resilience, and positive behaviour, contributing to a healthy and inclusive school climate.

1.9 The trend of investment in education sector by the GNCTD is depicted in the Statement 15.1:

STATEMENT 15.1

EXPENDITURE ON EDUCATION AS PERCENTAGE OF GSDP OF DELHI

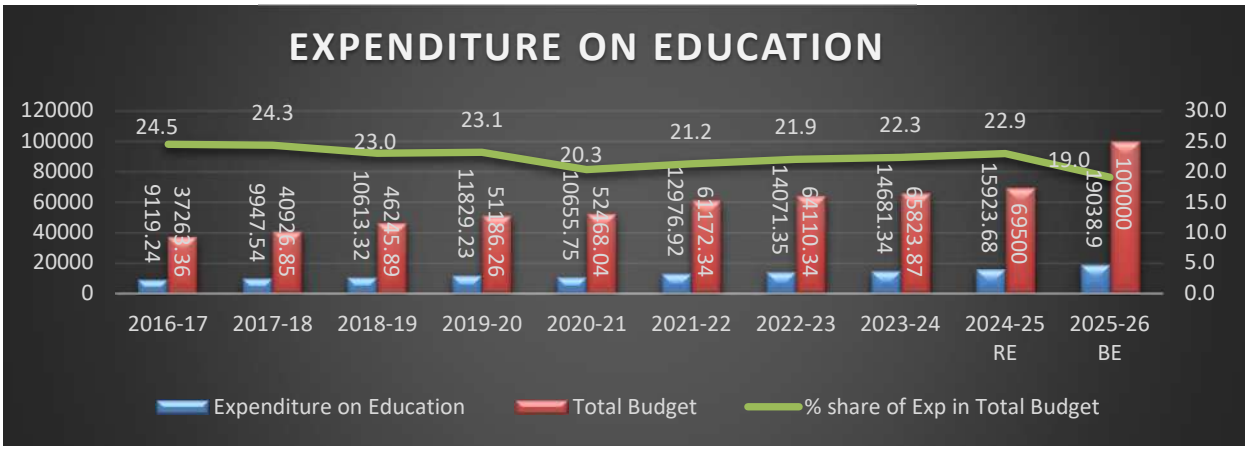

(₹ in Crore)

S.No.	Years	Expenditure on Education	Total Budget	% share of Exp in Total Budget	GSDP of Delhi at current prices	% Exp. on Education to GSDP of Delhi

1.10 The total expenditure on education including sports, arts and culture increased from ₹9119.24 crore in 2016-17 to ₹ 19038.90 crore in 2025-26. The share of expenditure on Education to the total budget of the Delhi Govt. is 19.04% in 2025-26. The expenditure on education as a percentage to the Gross State Domestic Product of Delhi is 1.43 in 2025-26. The year wise increase in expenditure on Education is shown in chart 15.1.

CHART 15.1

2. Expenditure on Education by States –As per RBI State Budget Analysis

2.1 As per the RBI's State Budget Analysis Report, the Government of NCT of Delhi has consistently allocated a significant portion of its budget to the education sector. In 2025–26, Delhi ranked second among states, after Bihar, with 19% of its total budget estimates earmarked for education. The national average was 13.1% in 2025-26

2.2 Table below gives the share of expenditure on education by a few states as percent of aggregate expenditure during the last eight years:

3. Literacy

3.1 The Literacy rate is defined as the percentage of literate persons among persons of 07 years of age and above. A person who can read and write simple message in any language with understanding is considered literate.

3.2 As per Census 2011, Delhi's literacy rate at 86.2 per cent comprising male literacy rate of 90.9% and Female literacy rate of 80.8% is higher than the all India average of 73 percent with male literacy rate of 80.9% and Female literacy rate of 64.6%. In Delhi, the gender gap in literacy has declined moderately over the years from 12.62 per cent in 2001 to 10.1 per cent in 2011.

3.3 National Statistical Office (NSO), GOI has published 75th round of NSS report on "Household Social Consumption: Education" surveying 1.13 lakh households spread over 8000 villages and 6000 urban blocks. The report is based on the data collected between July 2017 to June 2018.

3.4 As per 75th NSS report, Delhi stands at number two after Kerala with 88.7% literacy rate. In Delhi, Male literacy rate is 93.7% and Female literacy rate is 82.4%. Both are higher than the All India literacy rate. Average literacy rate of the country is 77.7% comprising male literacy rate at 84.7% and female literacy rate 70.3%.

3.5 The literacy in Delhi has continuously been improving and also the literacy gap has been decreasing. This is the outcome of the concerted efforts made in the Education Sector for improvement through various programmes of the Government. There is an upward trend in the Literacy Rate for both male and female. The Literacy Rate of 75.29% in 1991 increased to 86.2% in the 2011 Census and further to 88.7% in 2017-18, according to the last NSS survey. The cause of worry is still the gender gap of 11% between the male and female literacy which is to be addressed.

4. The network of Educational Institution and Enrolment in schools run by all Management

The network of educational Institutions being run by all Management i.e. Local Bodies, Central Govt., Govt. of Delhi and that of private sector agencies is elucidated in statement 15.3:

STATEMENT 15.3

6. Gross Enrolment Ratio (GER)/ Net Enrolment Ratio (NER)

6.1 Gross Enrolment Ratio, is calculated as the ratio of the number of students in a given class or set of classes to the number of children in the given age group. Net Enrolment Ratio, on the other hand, is the enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population of that age group.

6.2 As per UDISE+ Reports, during 2023-24 & 2024-25, the Gross Enrolment Ratio (GER) at all levels of education in Delhi is higher as compared to all India level. The GER at various levels is given as under :

STATEMENT 15.6

GROSS ENROLMENT RATIO FOR ACADEMIC YEAR 2023-24 & 2024-25

Education Level	2023-24						2024-25					
	Delhi			All India			Delhi			All India		
	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Total
Primary	98.8	107.4	102.6	91.8	94.3	93.0	97.4	107.2	101.8	89.6	92.3	90.9
Upper Primary	113.9	120.5	116.9	88.9	90.6	89.7	113.1	122	117.1	88.3	92.5	90.3
Elementary	104.5	112.3	108.0	90.7	92.9	91.7	103.4	112.8	107.7	89.1	92.4	90.6
Secondary	100.8	105.4	102.9	76.8	78.0	77.4	98	104.7	101.1	77.3	80.2	78.7

Source: UDISE+

6.3 Net Enrolment Ratio may be seen from the table below that Delhi's position in NER during 2024-25 at various levels is also much higher than the National Average. Thus, Statements 15.6 & 15.7 show that Delhi is far ahead in terms of GER and NER with All India figures.

STATEMENT 15.7

NET ENROLMENT RATIO FOR ACADEMIC YEAR 2023-24 & 2024-25

Education Level	2023-24						2024-25					
	Delhi			All India			Delhi			All India		
	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Total

6.4 As per the 75th NSS Survey (July 2017-June 2018), the Net Attendance ratio of Delhi and all India is depicted in Statement 15.8

STATEMENT 15.8

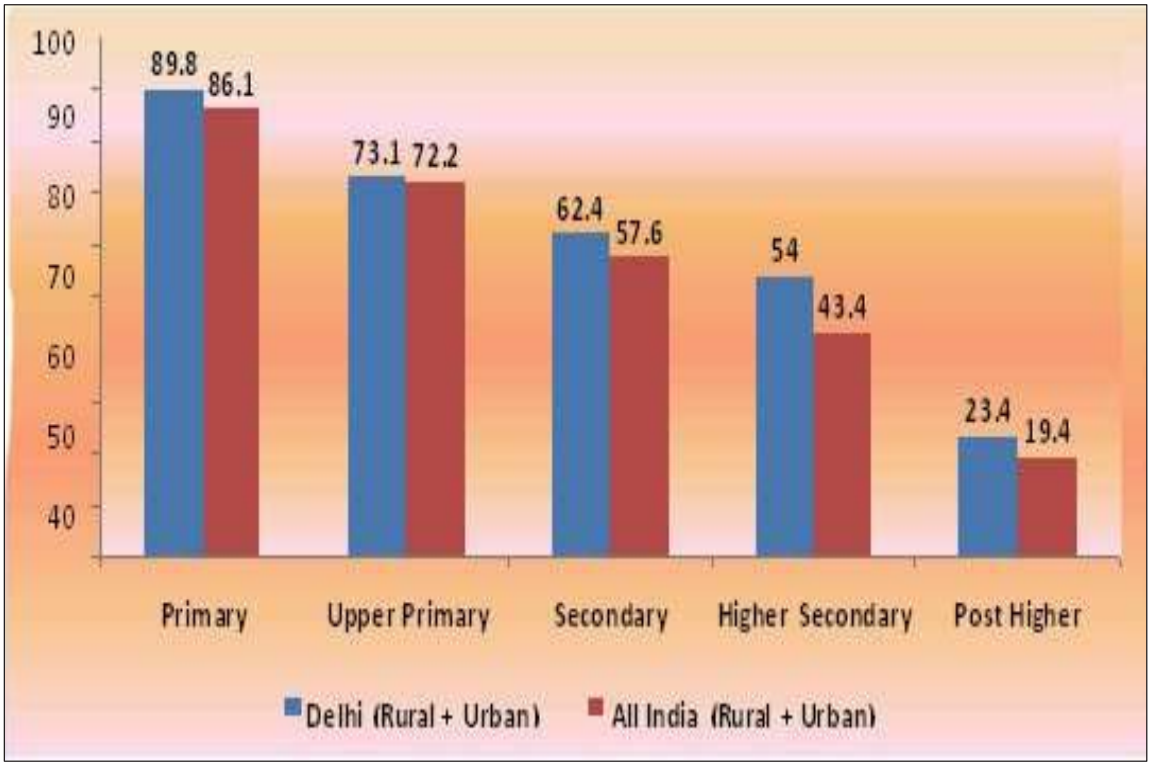

NET ATTENDANCE RATIO OF DELHI AND ALL INDIA

Level of Education	Delhi (Rural + Urban)			All India (Rural + Urban)		
	Male	Female	Person	Male	Female	Person
Primary	92.8	85.5	89.8	86.8	85.1	86.1
Upper Primary	80.3	65.8	73.1	72.5	71.8	72.2
Secondary	57.9	71.0	62.4	57.9	57.3	57.6
Higher Secondary	56.0	50.9	54.0	43.9	42.7	43.4
Post Higher Secondary	20.3	27.5	23.4	21.1	17.6	19.4

Source: 75th NSS Survey

The statement 15.8 and chart 15.2 shows that Net Attendance Ratio (NAR) of Delhi at all levels is higher than the NAR at All India level.

CHART 15.2

7. Learning Outcomes of Students

National Achievement Survey (NAS) / Parakh Rashtriya Sarvekshan (PRS) is conducted to assess the learning outcomes at different stages of school education accurately for improving the elementary & Secondary school education system. As per the PRS Report, 2024, the performance of students of class-6 and class-9, in Delhi, was above the national average in all subjects. Whereas, performance was below the national average in class-3. Details of subject-wise class wise average performance at State and National level is shown in Statement 15.9.

STATEMENT 15.9

PERFORMANCE OF STUDENTS IN DIFFERENT SUBJECT

(In Percentage)

Proficiency in	Delhi			National Average

8. Share of Private Sector in Gross Enrolment

The share of the private sector in school education in Delhi during 2017-18 to 2024-25 is given in statement 15.10.

STATEMENT 15.10

SHARE OF PRIVATE SECTOR IN SCHOOL EDUCATION

Year	Schools (Enrolment in lakh)	Primary and Middle	Secondary and Sr. Secondary	Total
2017-18	Enrolment in Private Schools	14.51	3.81	18.32
	Total Enrolment	31.85	12.08	43.93
	Share of Pvt. To Total (in %)	45.56	31.54	41.70
2018-19	Enrolment in Private Schools	14.94	3.87	18.81
	Total Enrolment	32.03	12.17	44.20
	Share of Pvt. To Total (in %)	46.64	31.80	42.56
2019-20	Enrolment in Private Schools	15.17	3.92	19.09
	Total Enrolment	32.47	12.29	44.76
	Share of Pvt. To Total (in %)	46.72	31.90	42.65
2020-21	Enrolment in Private Schools	13.85	3.97	17.82
	Total Enrolment	31.54	13.26	44.80
	Share of Pvt. To Total (in%)	43.91	29.94	39.78
2021-22	Enrolment in Private Schools	12.40	3.85	16.25
	Total Enrolment	31.99	13.73	45.72
	Share of Pvt. To Total (in %)	38.76	28.04	35.54
2022-23	Enrolment in Private Schools	13.21	3.82	17.03
	Total Enrolment	32.17	14.12	46.29
	Share of Pvt. To Total (in %)	41.06	27.06	36.79
2023-24	Enrolment in Private Schools	14.01	3.95	17.96
	Total Enrolment	31.77	13.30	45.07
	Share of Pvt. To Total (in %)	44.10	29.70	39.85

Year	Schools (Enrolment in lakh)	Primary and Middle	Secondary and Sr. Secondary	Total
2024-25	Enrolment in Private Schools	14.78	4.08	18.86
	Total Enrolment	31.75	13.16	44.91
	Share of Pvt. To Total (in %)	46.57	30.96	41.99

Source: UDISE+

The analysis of data depicted in the statement 15.10 shows that the share of enrolment at Primary and Middle level in Private schools to total enrolment in Delhi at this level has increased significantly from 45.56% during 2017-18 to 46.72% during 2019-20 and it came down to 38.76% during 2021-22 which again increased to 46.57% in 2024-25. On the same pattern, the said share of enrolment at Secondary and Sr. Secondary level has also increased from 31.54% in 2017- 18 to 31.90% in 2019-20 and it came down to 27.06% in 2022-23 and increased to 30.96% in 2024-25.

9. Performance of Delhi Govt. Schools – Pass Percentage

9.1 The information regarding the pass percentage of students both in secondary and senior secondary level in Delhi during 2017-2025 is presented in the statement 15.11.

STATEMENT 15.11

PASS PERCENTAGE OF CBSE RESULTS IN DELHI & INDIA: 2017 to 2024

Area	Class Level	2017	2018	2019	2020	2021	2022	2023	2024	2025
Delhi	Secondary	92.44	68.90	71.58	82.6	97.5	97.00	91.1	97.4	97.7
	Sr. Secondary	88.27	90.64	94.24	97.9	99.9	98.00	94.1	98.0	98.3
All India	Secondary	93.06	86.70	91.10	91.4	99.04	94.40	93.1	93.6	93.6
	Sr. Secondary	82.02	83.01	83.40	88.7	99.37	92.71	87.3	87.9	88.3

Source: Directorate of Education, GNCTD.

It may be inferred from the above data that pass percentage at the Senior Secondary level in Delhi is higher than All India level during the last 9 years. Govt. has introduced many quality improvement programmes in schools at

State Level which are yielding quality learning outcomes and the result at Secondary level.

10. ACADEMIC ACHIEVEMENTS UPTO DEC. 2025:

10.1 Directorate of Education recorded pass percentage of 97.76% at 10th level and 98.35% at 12th level for Academic session 2024 – 25.

10.2 In competitive examinations total of 667 students qualified for JEE (Main), 134 students qualified for JEE (Advanced), and 929 students secured selection in NEET.

10.3 To strengthen learning outcomes and enable targeted academic interventions, a comprehensive item-wise and question-wise performance analysis of the Mid-Term Examination 2025 was conducted for Class X in Mathematics, Science, and Social Science. The analysis generated granular reports at both micro (student/school) and macro (system) levels, enabling systematic identification of learning gaps and informed planning of need-based academic support at the school level as well as through centralized interventions.

10.4 During academic session 2025-26 the Science stream in 15 schools, Commerce stream in 11 schools, Arts in 4 schools and additional new subjects in 161 schools have been introduced at Sr. Secondary level for providing larger access/greater choice to the students.

10.5 From Academic Session 2025-26, Pre-Primary & Primary classes have been introduced in 3 schools.

10.6 Competency Based Education

In accordance with NEP 2020, Delhi Government schools are transitioning from rote-based examinations to **competency-based assessment**. The focus is on evaluating conceptual clarity, critical thinking, problem-solving, and real-life application of knowledge. Increased use of formative and diagnostic assessments supports continuous learning, reduces exam-related stress, and encourages reflective teaching-learning practices.

10.7 Strengthen School Libraries

A Improvement of School Libraries

Dte. of Education aims to strengthen and enrich the learning ecosystem of Government school by ensure the regular procurement of high-quality general reading books and subject-specific learning resources for school libraries across the three-tier structure of the Directorate of Education i.e., Primary (I –V), Middle (VI-VIII), and Secondary/Senior Secondary (IX-XII). The Budget has been allocated to the identified 142 Govt. schools for the procurement of books.

B Digitization & Beautification of School Libraries

a.) An innovative and transformative scheme to digitize and beautify school libraries has been introduced by the Directorate of Education, GNCT of Delhi as per the requirements of NEP 2020.
b.) In the current academic session, 125 libraries are going to be upgraded under this scheme. Each of these libraries will be provided with 20 digital devices, 20 headphones, one library Kiosk, one charging cart and one printer.

10.8 School Health

A. Annual Health Screening of all students of Govt. and Govt. Aided Schools is done by team of doctors/Health Staff from DGHS.
B. School Health and Wellness Programme (SH &WP) – The School Health and Wellness programme (SHWP) is being implemented with joint efforts of the Directorate of Education and Directorate of Family Welfare, GNCT of Delhi under the Agies of Ayushman Bharat (GOI).
Training of around 1775 Health and Wellness Ambassadors (HWA's) in Govt. and Govt. Aided Schools across all Districts of Delhi (except North District) has been completed.

10.9 Inclusive Education

- In the session 2025-26, Directorate of Education (DoE) will strengthen its inclusive education framework to ensure equitable learning opportunities for all Children with Disabilities (CwDs). For children with severe and profound disabilities who are unable to attend school even with accommodations, the Department provides Home Based Education (HBE) in accordance with the RTE Act and the RPwD Act, 2016. In 2025, 879 such children are enrolled under the HBE program. To ensure access to education for all CwDs, the DoE conducts door-to-door surveys to identify never-enrolled or dropout children and facilitates their enrolment in age-appropriate classes in neighbourhood schools with necessary interventions to bridge learning gaps. In 2025, 268 OoSc CwDs have been enrolled in schools (Mainstream).

- DoE, GNCTD & SCERT-Delhi has developed Functional Curriculum for Children with Intellectual Disabilities involving team of experts which refers to a set of skills specifically designed for those sections of students who are not able to cope up academically as per their grade level. Functional Curriculum for Children with Disabilities (CWDs) is being implemented in 100 Govt. schools of DOE GNCTD from classes Pre-Primary to VIII for the Session 2025-26.

- In compliance with the RPwD Act, 2016, the DoE is also establishing 28 Resource Centres (RCs) to provide therapeutic services such as physiotherapy, occupational therapy, speech therapy, and psychological counselling, of which 24 RCs are already functional and supporting nearly 15,000 CwDs across 15 districts.

- Further, Government schools are equipped with Resource Rooms that

provide ICT tools, adapted materials, aids and appliances, and specialized infrastructure to facilitate individualized and multisensory learning sessions conducted by Special Educators and Resource Persons.

10.10 Samagra Shiksha

Under the flagship programme of Samagra Shiksha (CSS):

- 745 Special Training Centres (STCs) are functioning to support the mainstreaming of Out-of-School Children (OoSC).
- The pilot launch of Shiksha Aarambh (QR-code initiative) has enabled real-time tracking and reporting of OoSC through community participation.
- To streamline admissions of never-enrolled and dropped-out children, 2333 Special Admission Cells (SACs) have been established across 16 districts, ensuring coordinated field-level support to all stakeholders.
- Para Sports events are organized by the Department at the Zonal and State levels. In 2025, a total of 4,256 Children with Disabilities (CwDs) participated in 12 diverse sport events in the State-level Para cum Special Sports Competition.
- The Directorate of Education, GNCTD, in collaboration with the Department of Health & Family Welfare, GNCTD, is making sustained efforts to ensure that Children with Disabilities enrolled in Government schools obtain a UDID card. Currently, approximately 46% of the CwDs enrolled in DoE, GNCTD possess a UDID card. The process of issuance of UDID card to eligible CWSN through camp mode is under process.

10.11 SCERT:

- In alignment with the vision of NEP 2020, SCERT Delhi has undertaken several transformative initiatives during 2025–26 to strengthen quality education, and introduced several strategic programmes i.e. Rashtraneeti, the New Era of Entrepreneurial Ecosystem & Vision (NEEEV) scheme, and the Science of Living Programme in 2025–26.
- In the area of Foundational Literacy and Numeracy (FLN), SCERT has made sustained efforts through the implementation of the NIPUN Sankalp Mission. Baseline assessments have been conducted for approximately 7.5 lakh students in DoE schools to identify learning gaps and inform targeted academic interventions.
- Technology Integration and Digital Learning Enhancement:- SCERT Delhi expanded technology integration through initiatives such as establishing smart classrooms with interactive panels, creating a dedicated recording studio for digital resources, and strengthening the Teacher Training Management System (TTMS) for real-time tracking of teacher training. To further promote immersive learning and future-ready skills, AR/VR labs are also being set up in SCERT

- National Exposure Visits for Teachers and School Leaders:- SCERT Delhi organized national exposure visits to institutions such as IIT Mandi, Central Sanskrit University (Kerala), EFLU Hyderabad, Lucknow, Shillong, and others.
- In-Service Teacher Training and Professional Development:- SCERT, through its INSET Cell, continues to design and implement need-based professional development programmes for teachers and school leaders.

10.12 VOCATIONAL EDUCATION BRANCH

- The Directorate of Education, GNCT of Delhi has introduced Skill Subjects under NSQF (National Skill Qualification Framework) on CBSE pattern in 984 Delhi Govt. Schools.
- Guest Lectures, Industry Visits, On the Job Training and Skill Competition are integral part of Skill Education in Classes 9th to 12th and Pre-Vocational Activities under Kaushal Bodh are organized in Classes 6th to 8th for giving activities exposure to the students. More than Four Lakh students are enrolled in various Skill Subjects in the current session of 2025-26.
- Career Guidance & Counselling and Industrial Partnership for Vocational Students has also been implemented. Placement Drive was organized by the Vocational Education Branch in the month of July, 2025 in 4 Delhi Govt. Schools in which 40 employers participated, offering employment opportunities across various trades around 500 students got selected.

11 New Initiatives and Activities (2025-26)

11.1 Aligned with NEP 2020's, the Govt introduced NEEEV programme. NEEEV aims to develop entrepreneurial abilities and promote innovation with the objectives: to Empower Entrepreneurial Skills & Self-Reliance. For achieving NEEEV outcome, all eligible selected teams by School Innovation Councils (SIC) be given Rs. 20000 financial support to further work on their ideas/projects etc. Approximately 5000 teams have been given this financial support.

11.2 "Nipun Sankalp is a comprehensive initiative designed to address the critical gaps in Foundational Literacy and Numeracy (FLN) among students in classes 1 -8 in the schools under DoE (Directorate of Education), aligning with the National Education Policy (NEP) 2020's vision .
During the session 2025-26 under the Nipun Sankalp the baseline assessment was conducted in the month of September 2025 during regular school hours. On the basis of base line assessment, the students were classified as Beginner, Emerging, Progressive and Proficient. After the mid-term exams, the interventions using readiness module developed by SCERT

is also being implemented in class 2nd to 8th.

11.3 The Science of Living initiative has been successfully implemented in Government Schools of Delhi from KG to Class XII in alignment with the vision of NEP 2020. The programme has effectively integrated daily silence practices, yoga, meditation, reflective activities, and experiential learning into the school routine, resulting in improved self-awareness, emotional regulation, and classroom engagement among students.

11.4 The Rashtraneeti programme has greatly promoted national pride and cultural consciousness through engagement with India's heritage, languages, and Indian Knowledge Systems. Inclusive practices ensured participation of all learners, including CWSN, fostering empathy, equity, and a respectful school culture. Health, wellness, and drug-prevention initiatives improved awareness of physical and mental well-being, while Eco Club for Mission LiFE activities encouraged sustainable practices such as energy conservation, waste management, and plastic reduction.

11.5 **Computer Labs:- T**he Govt has initiated the process for setting up of 175 Computer Labs with digital Infra in Govt. Schools in 2025-26 as per CBSE Norms.

11.6 **Smart Class rooms:-** Under this program, Smart Classrooms are being set up in all classes from IX to XII in Govt. Schools. This would enhance the quality and accessibility of education by transforming traditional classrooms into Interactive, technology-enabled learning spaces of facilitate high-quality, interactive teaching and learning experiences in line with NEP 2020 objectives by installing interactive smart panels and other related components in classrooms. The Govt has initiated the process to setup 8777 Smart Classrooms in Govt. Schools in 2025-26 which will be established by the end of March 2026.

11.7 **Mukhya Mantri Digital Education Scheme**:- free laptops are being provided to 1200 Top Meritorious Students of XI class of Delhi Govt school on the basis of their performance in 10th class Board result.

11.8 **Mahamana Pandit Madan Mohan Malviya Vidya Shakti Mission**

The Mahamana Pandit Madan Mohan Malviya Vidya Shakti Mission is a flagship initiative of the Government aimed at enabling meritorious students of government schools under the Directorate of Education to access high-quality professional coaching for highly competitive national-level examinations. The mission focuses on early identification and sustained academic support to talented students, particularly from economically weaker sections, to prepare for examinations such as JEE (Main and Advanced), NEET, CLAT, CA, and CUET, thereby opening pathways to prestigious careers in engineering, medicine, law, finance, and higher education. Under this expanded framework, the Directorate of Education will provide structured competitive exam coaching to 2,200 students annually, including a dedicated reservation of 350 seats for girls. The initiative marks a significant scale-up from its earlier scope, which supported 300 students and was limited to JEE

and NEET, reflecting the Government's commitment to equity, inclusion, and human capital development by ensuring that deserving government school students are not constrained by lack of resources.

11.9 Lal Bahadur Shastri Scholarship to Meritorious Students

The *Lal Bahadur Shastri Scholarship* is aimed at recognising academic excellence and providing financial support to meritorious students studying in government schools. Under the scheme, students from Classes VII to XII who secure 80 per cent or above marks in the preceding class are awarded a scholarship amount of ₹2,500. An amount of ₹2,500 per student was disbursed to 34,880 meritorious students under this scheme, reflecting the Government's continued commitment to promoting merit, motivation, and educational attainment in government schools.

11.10 Rate revision of Subsidy for school uniform: -

To mitigate out-of-pocket educational expenses, promote equity in access to schooling and also mandate under RTE Act., the Cabinet has approved a revision of the subsidy rates for school uniforms for students studying in Government Schools, Government Aided Schools, and students belonging to EWS/DG categories. As per the revised structure, the uniform subsidy has been enhanced to ₹1,250 for students from Nursery to Class V, ₹1,500 for Classes VI to VIII, and ₹1,700 for Classes IX to XII. This revision is aimed at providing adequate financial support to students across all stages of school education, easing the economic burden on families, and ensuring uniformity and dignity for learners from diverse socio-economic backgrounds.

11.11 Launch of Mukhyamantri Khel Prothsahan yojana

The Government has significantly enhanced cash incentives for sportspersons to strengthen high-performance sports and reward excellence at the national and international levels. Cash awards for Olympic and Paralympic medal winners have been increased by more than two times—from ₹3 crore, ₹2 crore and ₹1 crore earlier to ₹7 crore, ₹5 crore and ₹3 crore for gold, silver and bronze medals respectively, marking the highest Olympic gold incentive in the country. Similarly, incentives for medal winners at the Asian/Para-Asian Games and Commonwealth/Para-Commonwealth Games have been substantially revised upward—from ₹1 crore, ₹75 lakh and ₹50 lakh to ₹3 crore, ₹2 crore and ₹1 crore for Asian/Para-Asian Games, and from ₹50 lakh, ₹40 lakh and ₹30 lakh to ₹2 crore, ₹1.5 crore and ₹1 crore for Commonwealth/Para-Commonwealth Games. In addition, incentives for participation in the Olympics have been increased by over 50 per cent, and participation incentives for Asian/Para-Asian and Commonwealth/Para-Commonwealth Games have been introduced for the first time. Cash incentives across various categories in World Championships, National Games and National Championships have also been enhanced by approximately 1.5 to 3 times, reinforcing the Government's commitment to athlete motivation, talent retention, and the creation of a robust sporting ecosystem.

11.12 **Dr. APJ Abdul Kalam language labs** initiative aims to transform language learning in Government schools under the Directorate of Education by strengthening students' Listening, Speaking, Reading, and Writing (LSRW) competencies through AI-enabled and technology-driven solutions. Launched as a pilot in 100 schools during 2025–26, the initiative is expected to benefit nearly 60,000 students of Classes VI, IX, and XI. The Language Labs will provide structured learning in Indian languages such as English, Hindi, and Sanskrit, alongside global languages including French, German, and Spanish. Fully aligned with the National Education Policy (NEP) 2020, the initiative promotes multilingualism, enhances communication skills, and improves employability and global readiness of students.

****

12. Higher Education

12.1 Providing quality higher education to our youth and to make them employable is a major thrust of the State Government. Higher Education system in the State has witnessed impressive growth in recent years and this trend is expected to continue during the next financial years. Government has been focusing on quality higher education by improving the access to affordable tertiary education, technical education and skill development programmes. Recently many initiatives have been taken for promotion of research & development in higher educational Institutes, setting up of incubation centres and inculcating entrepreneurial talents among students. Promotion of skill development is also a priority area of the Government by upgrading institutes to global standards. The total budget allocated to Higher Education has been to the tune of Rs.1044.33 crore in financial year 2025-26.

12.2 There were total 214 higher educational institutions in Delhi in the year 2024-25, the details of which are given as under:

STATEMENT 15.12

HIGHER EDUCATIONAL INSTITUTIONS IN DELHI

S.No.	Institutions	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

2023-24	12.63	434.73	6.33	215.88	50.12	49.66
2024-25	11.40	415.70	5.81	209.46	50.96	50.39

Source: All India Survey on Higher Education (AISHE) portal; Survey Year 2022-23, 2023- 24 & 2024-25.

12.4 From the Statement 15.13, it may be observed that the percentage of women enrolment in Higher Education has increased from previous year.

STATEMENT 15.14

GENDER PARITY INDEX AT VARIOUS LEVELS OF COURSES IN HIGHER EDUCATION

LEVEL	2022-23		2023-24		2024-25	
	DELHI	ALL INDIA	DELHI	ALL INDIA	DELHI	ALL INDIA
Under Graduate	0.91	0.94	0.94	0.98	0.97	1.01
Post Graduate	1.33	1.28	1.37	1.29	1.39	1.31
PG Diploma	0.76	0.85	0.86	0.90	0.95	0.92
M.Phil	1.02	1.56	2.80	2.11	9 Divided by 0	2.96
PhD	0.85	0.93	0.89	0.99	0.97	1.02
Diploma	0.83	0.62	2.08	0.66	1.55	0.73
Certificate	0.93	0.98	0.95	1.16	1.00	1.28
Integrated	0.75	0.89	0.84	0.92	0.97	0.95

Source: Calculated on the basis of data of enrolment in Report for AISHE 2022-23, 2023-24 & 2024-25.

Gender Parity Index (GPI) is the ratio of female enrolment to male enrolment in higher education and it reflects the status regarding gender equity at different levels of education, which is a significant indicator of the empowerment of women in society. It is evident from the above table that the GPI in Delhi at the educational level of Post Graduate and Diploma are far better than the National level in 2022-23. Post Graduate, M.Phil &

Diploma are better than National level in 2023-24. Post Graduate, PG Diploma, Diploma & Integrated better than National level in 2024-25.

12.6 Major Highlights in respect of Higher Education:-

12.6.1 Guru Gobind Singh Indraprastha University:-

The East Campus of Guru Gobind Singh Indraprastha University was inaugurated on 8th June 2023 with an aim to transform East Delhi into education hub with a priority on education. The project cost was Rs. 386.83 crores including Rs. 41.00 crores as GNCTD share. The various schools of the University i.e. University School of Automation & Robotics, University School of Design & Innovation, University School of Architecture & Planning, University School of Mass Communication etc. are now operational from the East Campus.

The Phase-I construction of the Dwarka campus west was completed between 2006 and 2010 and has been operating successfully since then. To accommodate the rapidly growing student population and the increasing demand for additional infrastructure, Phase-II development is planned within the remaining permissible FAR. All necessary approvals and pre-construction NOCs from local bodies, DFS, DUAC, AAI, and others have already been obtained.

To enhance sports facilities on campus, a sports complex measuring 125 meters x 25 meters is under construction. This complex will feature a variety of sports amenities, including badminton courts, basketball courts, squash courts, volleyball courts, table tennis, and a gym, etc.

DDA has approved the allotment of 22.43 acres of land to GGSIPU for development of the north campus. The land cost, amounting to Rs.162.9 crore, has been transferred to DDA by GNCTD. The possession of land was handed over to GGSIPU by DDA on 10.01.2026.

The University has also been allotted 160 flats at Narela, including 100 EWS (Economically Weaker Section) flats, 30 LIG (Lower Income Group) flats, and 30 MIG (Middle Income Group) flats.

12.6.2 Dr. B. R. Ambedkar University Delhi:-

The AUD has planned to develop two new university campuses at allotted

plots at Dheerpur and Rohini measuring about 20 hectares and 7.3 hectares respectively. The proposal was approved by EFC in its meeting held on 10.05.2022. The estimated cost of the Dheerpur campus was 1199.02 Crore and the estimated cost of the Rohini Campus is Rs 1107.56 Crore.

At present the Dheerpur campus is being taken up in consultation with PWD. PWD has been requested to provide the updated estimate considering the effect of increase in Cost Index during the intervening period. The PWD, GNCTD is working on it. After the completion of Construction of Dheerpur Project, it is estimated to cater 7650 students.

12.6.3 National Law University-Capital Project:

The Governing Council of NLU resolved to expand its infrastructure by constructing hostels, staff quarters, studio apartments, and a training institute. For this purpose, 7 acres of additional land was allotted by DDA on 02.01.2013. Payment was made by the Law Department, GNCTD, and possession was handed over to NLU through its Registrar.

12.6.4 Delhi Sports University:-

The **Delhi Sports School**, functioning under Delhi Sports University at the Ludlow Castle Sports Complex, currently hosts around **270 student-athletes** across multiple sporting disciplines and has demonstrated exceptional performance outcomes. In **2024–25**, its athletes secured **262 State, 60 National and 6 International medals**, and in **2025–26**, up to October, they have already won **31 State, 30 National and 6 International medals**. The strong international results achieved by its students continue to position the Delhi Sports School as one of the **most promising high- performance sports development centres in the country**.

The development of the **Main Campus of Delhi Sports University** is presently under active progress. The **master layout, detailed architectural drawings, structural designs, and spatial planning** for all academic, residential, and high-performance sports facilities have been finalized after extensive consultations between the University and the **Public Works Department (PWD)**, the designated work-executing agency. The campus has been planned to meet **international standards of sports training and sports science**, incorporating Olympic-grade infrastructure, specialized training arenas, sports medicine and rehabilitation centres, high-performance laboratories, athlete hostels, academic blocks, and integrated support facilities.

12.6.5 Delhi Teachers University: Capital Project:

DDA has allotted a land parcel of 12.69 acres at Narela, Delhi for construction of the campus of Delhi Teachers University. In addition to above, 180 DDA flats in Narela, have also been allotted to the Delhi Teachers University. The possession of land has been handed over to Delhi Teachers University by DDA on 10.01.2026.

12.6.6 SCHEMES UNDER DHE TRUST:

"Delhi Higher & Technical Education Support Scheme" under 'Delhi Higher Education Aid Trust':-

The "Merit-cum-Means Income Linked Financial Assistance Scheme" (old Scheme) was disbursed till 2021-22 and the "Delhi Higher & Technical Education Support Scheme" (New Scheme) under "The Delhi Higher Education Aid Trust" has been approved on dated 07.03.2024 by the Cabinet for implementation for the Financial Year 2022-23 onwards.

Under the new scheme the Directorate of Higher Education provides tuition fee re- imbursement under the aegis of "The Delhi Higher Education Aid Trust" with the aim to provide financial support to meritorious and financially weaker section of society in realizing their dream of pursuing higher education. The reimbursement of the tuition fee to the students pursuing under graduate courses will be made on the following criteria: -

- The student should have been enrolled for under graduate program in any of the Delhi State Public Universities/colleges/institutions located into Delhi **(Government Only)**.
- The student should fulfil the income/economic and academic performance criteria and the student's family should hold a valid family Income Certificate up to **3 Lakhs** issued by SDM/Competent Authority, GNCTD and **should be resident of Delhi**.
- The student who are having minimum 75% marks in the relevant stream from the respective Board of Examination in Class XII of 10+2 pattern or equivalent are eligible for scholarship during First Year and those having minimum 75% marks in pursuing under-graduate course for subsequent year are eligible for 5% relaxation in marks for the students of SC/ST category.
- The student shall be pursuing regular degree courses and NOT correspondence of distance mode or pursuing Diploma courses.

Accordingly, the progress of the scholarship scheme i.e."Delhi Higher & Technical Education Support Scheme" under "The Delhi Higher Education Aid Trust" for the Academic session 2022-23, 2023-24 and 2024-25 is as follow:-

S. No.	Academic Year	No. of Application approved
1.	2022-23	1305 (Disbursed on dated 30.05.2025)
2.	2023-24	908 (Disbursed on dated 12.01.2026)
3.	2024-25	801(Disbursed on dated 12.01.2026)

****

13. TECHNICAL EDUCATION

13.1 Government of NCT of Delhi has taken multiple initiatives to enhance the skill levels among youth and working population with the aim to bridge the gap between demand and supply of skilled manpower in the industry, inculcating innovative thinking and developing entrepreneurship abilities for existing as well as prospective employment generation, building technical and vocational training framework, increasing intake capacity of students, and setting up of incubation centres. GNCTD has been promoting technical institutes and Universities to do more researches by providing research exclusive grants.

13.2 The Department of Training & Technical Education (DTTE) is entrusted with the responsibility of providing trained technical skilled manpower to meet the contemporary needs of the industry and contribute to the planned growth of National economy. DTTE has accorded high priority to development of technical education and skill development, for this purpose, has initiated a number of measures to augment higher education infrastructure , introducing new courses, providing affordable and quality technical & vocational courses to promote decent employment and entrepreneurship, faculty development programmes etc.

13.3 Delhi Government has 06 State Universities in Technical Education namely Delhi Technological University (DTU), Indira Gandhi Delhi Technical University for Women (IGDTUW), Indraprastha Institute of Information Technology Delhi (IIIT-D), Delhi Pharmaceutical Sciences and Research University (DPSRU), Netaji Subhash University of Technology (NSUT) and Delhi Skill Entrepreneurship University (DSEU).
Besides, there is 01 degree level institute i.e. College of Art, 05 Polytechnics (Private) and 53 ITIs (Govt. & Private) i.e. total 58 technical institutes imparting technical Education up to Ph.D. under Department of Training and Technical Education. The details are given below:

13.3.1 Delhi Technological University (DTU), formerly known as the Delhi College of Engineering (DCE), is a state university in Delhi, India. It was established in 1941 as Delhi Polytechnic. The institute was handed over to Delhi Administration in 1963 from Ministry of Education and renamed as Delhi College of Engineering in 1965. Delhi college of Engineering was affiliated with the Univerisity of Delhi from 1952 to 2009. In 2009, the college was given University status, thus renamed to Delhi Technological University.

Delhi Technical University offers many courses towards Bachelor of

Tecnology(B.Tech), Bachelor of Tecnology(B.Tech Evening), Bachelor of Arts(Hons) Economics, Bachelor of Design(B.Des), Master of Technology(M.Tech), Master of Science (M.Sc), Master of Design (m.Design), Doctor of Philosophy (Ph.D), Master of Business Administration (MBA) and Bachelor of Business Administration (BBA).

The vision of the University is to establish centers of excellence in emerging areas of science, engineering, technology, management and allied areas and to foster an ecosystem for incubation, product development and transfer of technology and entrepreneurship. The intake capacity of the university in various technical and professional courses during 2025-26 is 4664.

13.3.2 Netaji Subhash University of Technology (NSUT) is a state university in Delhi. It is provides Hi-Tech courses in the emerging areas of technology at UG, PG, and Ph.D levels, undertakes R&D consultancies and technology transfer programmes to create Potential innovators and leaders to serve Society and Nation. During the academic year 2025-26 the intake capacity of the university is 3867.

13.3.3 Delhi Pharmaceutical Sciences and Research University (DPSRU) is a State functional from academic session 2015-16. It is the ultimate destination for education, training and providing research in various Diploma, UG, PG and PhD courses related to Medical/Health or pharmaceutical sciences. The intake capacity of the university during 2025-26 is 1010.

13.3.4 Indira Gandhi Delhi Technical University for Women (IGDTUW) was established in May 2013, vide Delhi State Legislature Act 9, 2012. The University fosters an environment for excellence in profession education and ensures active participation of women in the field of Engineering Science, Management and Architecture, while striking out a work-life balance. The University is committed to make the student's educational experience multifaceted and holistic. IGDTUW functions efficiently as a Training & Learning, Research-Oriented Centre in various branches of Science, Engineering Technology, Architecture and Management promoting advancement and dissemination of research led knowledge among women from all over the country. The strategic intent of the University is to foster industry relevant research and innovations and empower the women. Currently IGDTUW having 08 Departments and offers Undergraduate, Postgraduate and Doctorate programs in Computer Science and Engg., AI &MI, Electronics, Mechanical & Automation. Artificial Intelligence, Architecture and Management. The intake capacity of the university during 2025-26 is 1688.

13.3.5 Indraprastha Institute of Information Technology Delhi (IIIT-D) was established in 2008, under Delhi Act, 2007 empowering it to do research and development and grant degrees. The Institute has established a strong research culture, focused research groups, and innovative education programs. IIIT-Delhi has six academic departments viz; Computer Science, Electronics and Communication, Computational Biology, Human Centered design, Social Science and Humanities, and Mathematics.

The institute is moving forward as a community and is firmly on the path of sustainability and transformation, and thus becoming a globally respected and recognized institution. During 2025-26, it has intake capacity of 1015.

13.3.6 Delhi Skill & Entrepreneurship University (DSEU): The Delhi Skill and Entrepreneurship University (DSEU) was established in August 2020 by the Government of NCT of Delhi to equip students with world-class skill education to enable access to aspirational jobs and inculcate entrepreneurial mindset and entrepreneurship. DSEU aims to create a win – win for the youth and the industry by filling the existing gaps in skill training. The course curriculum offered at DSEU is inspired by industry requirements and will help graduates to be career-ready. The University offer courses at Certificate level, Diploma level, Degree level and Post Graduation level through its 19 campuses in Delhi. During 2025-26 it has intake capacity of 7225.

The seat availability in technical education with respect to the number of aspirants is limited and Delhi Government has been constantly working to address this issue by augmenting the available infrastructure for accommodating increased intake capacity. The intake capacity in Technical and Professional courses in colleges and universities under Directorate of Training & Technical Education has been reflected in Statement 15.17. The intake capacity has increased significantly in last seven years that is from 8394 in 2019-20 to 19773 in 2025-26.

➢ Setting up of Incubation Centres

Govt. of NCT of Delhi approved the State Incubation Policy for the promotion of entrepreneurship among youths for setting up of start-ups and creating abilities to make them job providers instead of job seekers. 11 Incubation Centres were already set up. Grant of ₹1.5 Crore was given by the Govt. of NCT of Delhi to each technical & higher educational institutions for setting up of requisite infrastructure, computing resources and for creating an environment for collaboration and innovation. As per the Incubation Policy, section 8 Companies has been created to act as Holding Company for Incubators and enter into MOU with participating institutes to facilitate setting up of Incubation Centres within the campus. There are 449 numbers of Incubatees working in Incubation Centres. The institutes' wise list is given below.

Major Highlights in respect of Technical Education in 2025-26:

1. To promote quality education in skill education in various disciplines of education and to take advantage of demographic dividend; design and impart skills oriented programmes to address the challenge of developing, trained and employable human resource for national growth, the Universities under DTTE took initiative to start courses of emerging areas.

2. GB Pant Integrated complex is being constructed at the estimated cost of Rs. 526 Crore. This will add 193641.41Sq.metre built up area to accommodate 3000 students in diploma & degree programmes.

3. The Universities are promoted for research and cutting- edge technologies. The

DTTE has funded the Universities for establishing Centre of Excellence in Universities under the DTTE. The major areas of CoEs are Electrical Vehicle and related technologies, AI technology centre for precision medicine. Digitalize solution for Health care, sustainable mobility, drone technology etc.

4. The DTTE has also created ultra-modern labs in ITIs on different areas like advance welding & robotics, Indurstrial Automation and electrical automation. The Department is also working on creation of new age technologies labs in various ITIs.

5. The DTTE has taken move for establishing Edu-City at Narela. The DDA has allotted land to DTU, GGSIPU, IGDTUW, DSEU, DPSRU and DTeU for which part payment for cost of land already made. The existing Universities will develop additional campus in Edu- City. These additional campuses will focus on research and innovation hub, nursing sciences, school of medical and health sciences, centre for emerging media, film production etc.

CHAPTER AT A GLANCE

➢	Govt. of NCT of Delhi has been working to ensure inclusive and equitable quality education and to promote lifelong opportunity for all by 2030 (as reflected in the Sustainable Development Goal (SDG-04) of 2030 agenda).
➢	There are 5556 number of recognized schools in Delhi with approx enrolment of 44.91 lakh students. Delhi Govt. under DoE has a total of 1270 government and government- aided schools in Delhi, which is 22.85% of the total schools running in Delhi, whereas, the share of enrolment in government and government-aided schools is 39.75% of total enrolment of all schools in Delhi during 2024-25.
➢	Government has established 75 CM SHRI Schools under the Directorate of Education from Academic Session 2025–26. It marks a transformative step towards educational excellence and equity. These are envisioned as pace-setting, future-ready institutions, aligned with NEP 2020 and the National Curriculum Frameworks of Foundational Stage and School Education.
➢	The Government has significantly enhanced cash incentives for sportspersons to strengthen high-performance sports and reward excellence at the national and international levels. Cash awards for Olympic and Paralympic medal winners have been increased by more than two times—from ₹3 crore, ₹2 crore and ₹1 crore earlier to ₹7 crore, ₹5 crore and ₹3 crore for gold, silver and bronze medals respectively, marking the highest Olympic gold incentive in the country.

➢	Approximately 43% of the total higher educational institutions in Delhi are under the category of professional educational institutions followed by approx. 42% under the category of colleges for general education and remaining 15% are Universities/ Deemed Universities/ Institute of National Importance.
➢	Government has been focusing on quality higher education by investing in infra- structure and faculty, improving governance and institutional restructuring toward the inclusion of the hitherto deprived communities.
➢	The DTTE has taken move for establishing Edu-City at Narela. The existing Universities will develop additional campus in Edu- City. These additional campuses will focus on research and innovation hub, nursing sciences, school of medical and health sciences, centre for emerging media, film production etc.

CHAPTER 16

HEALTH & FAMILY WELFARE

Introduction

1. Health is essential for the happiness and well being of the nation. It contributes significantly to economic growth and development as healthy populations live longer and are more productive. It is an important human development indicator and is of great importance for the overall development of the state. The National Capital Territory of Delhi has attached significant importance to health sector and people are an essential component of the condition of good health care health strategy adopted by the capital of the country.

2. Prevention is better than cure; a policy leads to accessible affordable & quality Health Care for all. Good health aims to improve the quality of life through prevention and treatment of diseases. Efforts are being made to ensure the healthcare delivery system accessible and affordable to all through a holistic, humane and patient centric approach. “Ensuring healthy living and promoting well-being for people of all ages” is one of the Sustainable Development Goals and the Government of NCT of Delhi is continuously striving to achieve the goals under the Sustainable Development Goals related to health indicators.

3. Health as a basic, indisputable human right - a right that is obligatory for the state to provide to all citizens regardless of income, social groups, localities or social class. The health system in the largely urban city- state of Delhi is beset with many pressing challenges. Firstly, the state government is responsible for planning and implementing the delivery of health services within the National Capital Territory, its clientele, comprising the entire national capital region (NCR) and its contagious districts in the neighboring states, actually surpasses manifold the domiciled population. Secondly, the existing laws and regulations often lead to overlapping actions by multiple agencies regarding public health aspects viz. the State Government, Urban Local Bodies and Central Government.

4. The National Capital Territory of Delhi has made significant progress in improving the health status of its people. Delhi has made substantial progress in building reliable health infrastructure at various levels. The national capital has been at the forefront of health care development. Basic to tertiary health care services are being provided by the public and private sectors and voluntary organizations.

5. Health & Family Welfare Department of Government of National Capital Territory of Delhi is committed to provide preventive, promotive and curative health care services to the citizens of Delhi. The healthcare delivery system in Delhi is as follows:-
AAMS (Ayushman Arogaya Mandir)
Multi Specialty Clinics (Polyclinics)
Multi Specialty Hospitals (earlier called Secondary Level Hospitals)
Super Specialty Hospitals (earlier called Tertiary Level Hospitals)

6. Government of NCT of Delhi is providing preventive, promotive and curative health care services to the citizens of Delhi through 40 hospitals including Super Specialty and Multispecialty Hospitals,370 Aayushman Arogya Mandir 98 Allopathic Dispensaries, 48 Polyclinics, 64 Seed Primary Urban Health Centers (PUHCs), 57 Ayurvedic, 28 Unani, 121 Homeopathic Dispensaries, 16 Mobile Health Clinics, covering 189 shelters and 36 School Health Clinics providing preventive, promotive and curative health care services to the Citizens of Delhi.

7. Health & Family Welfare Department, GNCTD making all possible efforts for strengthening primary and secondary healthcare infrastructure by setting up new Ayushman Arogya Mandirs and up gradation of dispensaries into Polyclinics besides robust diagnostic facilities. The Government is striving hard to enhance the number of hospital beds by remodeling & expansion of already existing Delhi Government Hospitals. Radiological diagnostic services like MRI, CT, PETCT, TMT Echo etc are being provided free of cost to all residents of Delhi at empanelled DGEHS centers subject to referral from public health facilities of the Delhi Govt. The Government is also running Free Surgery Scheme for surgeries at empanelled private hospitals after referral from Delhi Government Hospitals. Dialysis services are also being provided in selected Delhi Govt. Hospitals through PPP mode.

8. Directorate General of Health Services is the nodal agency under the Health & Family Welfare Department, Government of NCT of Delhi to provide better health care services to the citizens of Delhi with the coordination of other government and non-government organizations. Government of NCT of Delhi itself is a significant contributor in primary health care services having 1067 dispensaries (out of total 1704 dispensaries, approx. 62.68% of total dispensaries). Statement 16.1 presents data with regard to the health infrastructure at all levels available in Delhi from 2015-16 to 2025-26.

* *Includes all Delhi Govt., MCD, NDMC, CGHS, Railways, ESI, Defence hospitals etc. Government Hospitals (Allopathic, Ayurvedic, Homeopathic and T.B. Clinics) but excludes maternity Homes & Primary Health Centers.*

** *Includes Allopathic, AYUSH Dispensaries, and Mobile Health Clinics of all levels of Government.*

*** *Includes Maternity Homes, Maternity Centers/sub-centers.*

$ *This includes Delhi Government Polyclinics which are converted from Delhi Govt. dispensaries during the year.*

\# *Includes Voluntary Organizations.*

@ *Includes Chest Clinics & VD Clinics.*

Only colleges running under graduate medical courses (MBBS, BHMS, BAMS, BUMS & BDS).

9. It may be seen from above Statement that number of medical institutions in Delhi has increased gradually by 12.96% since 2019-20. As on 31.12.2025, there are 3878 medical institutions in Delhi showing an overall increase of 4.50% completed last year. The reason for this is due to increase in the number of dispensaries, Polyclinics, Special Clinics and Medical Colleges. There is no change in the number of Hospitals. However, there are number of reasons behind slow pace of extension of new health outlets and the first and the foremost is non-availability of land. Multiplicity of agencies and shortage of experienced manpower are the reasons in line for slow extension of health facilities. Moreover all the hospitals especially major hospitals in Delhi attend heavy patient work load.

10. The agency-wise information regarding number of medical institutions and bed capacity in Delhi, 2025-26 is given in the statement 16.2.

STATEMENT 16.2

11.Growth of Bed Capacity Since 2015-16: - According to the recommendations of the World Health Organization (WHO), the recommended bed population ratio is 5 beds per a population of 1,000. However, the bed population ratio in Delhi in 2025-26 has remained at 2.84 which is much below the WHO norm. The information regarding growth in number of beds in medical institutions and bed population ratio from 2015-16 onwards is depicted in the Statement 16.3.

STATEMENT 16.3

CHART 16.1

BED POPULATION RATIO (BEDS PER 1000 PERSONS) IN DELHI

12. At the end of financial year 2025-26, the total sanctioned bed capacity in Delhi increased to 63802 beds in 1294 Government and private medical institutions & hospitals from 62514 beds available as on 31.12.2025. Sanctioned beds capacity in Delhi increased particularly in Government of India, Other Autonomous Bodies and Private Nursing Homes. There is no change in Municipal Corporation of Delhi and New Delhi Municipal Council compared to last year. At the same time this has increased in Hospitals under H&FW Department, GNCTD from 14380 in 2024-25 to 15659 in 2025-26 (upto 31/12/2025). The percentage of beds in the Medical Institutions operated by Delhi Government, Government of India & Local bodies constituted as 24.54 percent, 15.94 percent, 6.03 percent respectively and beds in private nursing homes/ hospitals/voluntary organizations were recorded at 53.49 percent. In addition to the well-known government hospitals, Delhi has also showed the highest private sector participation in health sector. Besides new projects, Delhi Government has started remodeling/expansion of existing hospitals so as to add up new beds as per available FAR.

STATEMENT 16.3(a)

GOVT. MEDICAL FACILITIES IN DELHI

6	2025	40	15659	31-12-2025	H&FW Deptt.

* Delhi Statistical Handbook

It may be seen from statement that the number of beds increased from 14380 in 2024 to 15659 in 2025, reflecting an increase of 1279 beds about 8.89% with the same number of hospitals.

13. **Status of Hospitals being constructed by Govt. of NCT of Delhi** – At present, 11 hospitals are under construction. A list of projects showing details of number of beds, physical progress, target date of completion project, etc. are placed at Statement 16.4.

STATEMENT 16.4

DETAILS OF HOSPITALS WHICH ARE UNDER CONSTRUCTION

S. No.	Name of Hospital/ Projects	Details of ongoing Projects
1.	Hospital Project at Madipur	• Total bed strength is 691 beds. • Finishing work under progress. Decision about use of +2 additional floors is still pending so the work is held up since Feb-23. E&M services finalization is still unfrozen due to pending decision about these 2 floors. • Revised Preliminary Estimate (RPE) for Rs.472 Cr. submitted due to increase in scope of work resulting from incorrect estimation, +2 floors,

S. No.	Name of Hospital/ Projects	Details of ongoing Projects
		increase in GST rate, non-exclusion of cost escalation, some additional demand etc. as on 24.01.2023. A/A & E/S of RPE is still awaited. • MLCP Estimate submitted for Rs. 41.56 Cr. on 28.02.2024 for 2B+G+1 (Truncated capacity), for which sanction is still awaited. • Final approval for Furniture despite presentation is still awaited. Some dispute relating to Medical equipments supply has surfaced which is being ironed out. • Target date of completion is T0+12 months from sanction of the RPE & decision about the 2 top floors. Physical Progress: 82%
2.	Hospital Project at Siraspur	• Total bed strength is 1164 beds. • Finishing & Facade works are under progress. • Non Medical furniture estimate for Rs. 10 Cr. is under preparation to be submitted to DGHS, for sanction. • The work was held up since April-24 to Dec-24 due to Negligible (Rs. 1 cr.) budget. Fund received in Jan-25, work restarted. • Target date of completion: 30.06.2026 • Physical Progress: 77%.
3.	Hospital Project at Vikaspuri (Hastsal)	• Total bed strength is 691 beds. • Structure work completed E&M work under progress along with finishing items. Reorganization of hospital to accommodate laundry kitchen etc. is pending for finalization. • Furniture estimate not finalized due to non finalization of scope. • MLCP Estimate is under preparation likely to cost Rs. 55 Cr. The work was held up due to NIL

S. No.	Name of Hospital/ Projects	Details of ongoing Projects
		budget allotted since April-24 to Dec-24, in Jan-25 budget received, work restarted. • Target date of completion: 28.02.2026. • Physical progress 55%.
4.	Hospital Project at Jwalapuri (Nangloi)	• Total bed strength is 691 beds. • Finishing work under progress. Decision about use of +2 additional floors is still pending so the work is held up since Feb-23. E&M services finalization is still unfrozen due to pending decision about these 2 floors. • RPE for Rs.472 Cr. submitted due to increase in scope of work resulting from incorrect estimation, +2 floors, increase in GST rate, non-exclusion of cost escalation, some additional demand etc. as on 24.01.2023. A/A & E/S of RPE is still awaited. • MLCP Estimate submitted for Rs. 41.56 Cr. on 28.02.2024 for 2B+G+1 (Truncated capacity) for which sanction is awaited. Final approval for Furniture despite presentation is still awaited. • Some dispute relating to Medical equipments supply has surfaced which is being ironed out. • Target date of completion is T0+12 months from sanction of the RPE & decision about the 2 top floors. • Physical Progress: 80%
5.	Shalimar Bagh	• No. of beds: 1430 • The structural work of main building completed. Fire paint, internal partition walls, external facade, toilet work, electrical services & finishing works etc. are substantially complete. • Target date of completion: Work in standstill position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time. • Physical progress: 63%
6.	Kirari	• No. of beds : 458

S. No.	Name of Hospital/ Projects	Details of ongoing Projects
		• The original foundation planned needed change to pile foundation due to liquefaction of soil during earthquake. • Moreover the DGHS has decided to change ICU Hospital into General Hospital for which the comprehensive requirements of General Hospital are still awaited. • Target date of completion: Work in stand-still position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time and also finalization of the details of the hospital.
7.	Sultanpuri	• No. of beds: 525 • The Structural work of main building completed. Fire paint, internal dry partition wall, external facade, toilet work etc. are substantially complete. • Target date of completion: Work in standstill position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time. • Physical progress : 63%
8.	Chacha Nehru Bal Chikitsalaya	• No. of beds: 610 • Main structural and other work largely complete. • Target date of completion: Work in standstill position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time. • Physical progress : 52%
9.	GTB Hospital	• No. of beds: 1912 • Structure work 50% complete and work in part structure nearly complete. • Target date of completion: Work in standstill position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time • Physical progress : 52%

S. No.	Name of Hospital/ Projects	Details of ongoing Projects
10.	Sarita Vihar	• No. of beds: 336 (Mother & Child Hospital, earlier Sarita Vihar Hospital was envisaged as 336 bedded ICU Hospital. • The Structural work of main building completed. The internal partition, fire paint, external facade, electrical services and finishing works almost completed. • The work in Ground Floor is on hold. • Target date of completion: Work in standstill position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time. • Physical progress : 58%
11.	Raghubir Nagar	• No. of beds: 1565 • Erection of steel structure in Block-A, B, C & D completed. RCC slab in block-A completed / stand still in B & D-Block. • The work was delayed due to Covid-19 tree transplantation and cutting permission etc. • Target date of completion: Work in standstill position since July-2023. Completion depends on sanction of revised estimate, i.e. 6 months time. • Physical progress : 40%

2022	94.83	94.02
2023	99.98	95.58
2024	96.74	96.09

Source: Annual Report on Registrations of Births and Deaths, DES, Delhi

21. Fertility Rate is on declining trend. Steady fall in this rate over the years certainly establishes that Delhi Government is working hard to achieve optimal levels as

far as maternal health is concerned. Sustainable Developmental Goals (SDG) 2030 of NMR as low as 12/1000 live births and U5MR as low as 25/1000 live births was achieved for Delhi in 2018 and is being sustained. Efforts to achieve single digit Infant Mortality Rate (IMR) are ongoing.

It is apparent from statement 16.11 that share of institutional deliveries and proportion of birth attended by skilled health personnel are at 96.09 and 96.74 per cent respectively in the year 2024.

22. Implementation of various activities for reduction of Maternal Mortality

- **Janani Suraksha Yojana (JSY):** The scheme aims to promote institutional delivery amongst Pregnant women (PW) belonging to Scheduled Caste, Scheduled Tribe and BPL families. PW are incentivized for undergoing institutional delivery in urban and rural area @₹600/- and ₹700/- respectively. BPL women are also incentivized with ₹500/- in case of home delivery. All the health facilities enroll the eligible JSY beneficiaries i.e. PW belonging to SC/ST/BPL families during antenatal visits and then register them on reproductive and Child Health (RCH) portal and fetch the Aadhaar linked bank account details of the client and necessary documents and she is given the JSY payment after delivery. The mode of payment is Direct Benefit Transfer (DBT) into the account of beneficiary. A total of 5200 beneficiaries were provided benefits under this scheme during 2024-25.

- **Janani Shishu Suraksha Karyakarm (JSSK)**: It aims to provide free and cashless services to all pregnant women reporting in all Public Health institutions irrespective of any caste or economic status for normal deliveries and caesarean operations, for antenatal & postnatal complications and to sick infants (from birth to 1 year of age). The scheme aims to mitigate the burden of out of pocket expenses incurred by families of pregnant women and sick infants. Under the scheme no cash benefit is directly provided to beneficiary. Delivery points are provided fund under JSSK to enable them to provide free services to pregnant women and sick infants to fill the service/logistic gap i.e. Diet, Drugs and Consumables, Diagnostics, Blood Transfusion, Transport & User Charges levied by the facility, if any. A total number of 216584 (198918- Pregnant women + 17666 sick infants) were provided benefits under this scheme during 2024-25.

- **Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA):** Under this Abhiyan, quality antenatal care with full package of investigations is provided to pregnant woman on 9th of every month at all the Govt. health facilities. This aims to improve antenatal care, identifying high risk pregnant women so that appropriate treatment is initiated without delay and IMR and Maternal mortality

Ratio is reduced. Due list of all missed out/dropped out pregnant woman in 2nd & 3rd trimester from the community is prepared by ASHAs before 9th of every month so that checkup at govt. health facilities is ensured.

- **Kilkari Implementation**- Time appropriate voice messages on various topics like- antenatal checkup, nutrition, personal hygiene and vaccination etc. are being sent to PW beneficiaries on their Mobile phones once they are enrolled in RCH portal on registration so as to motivate them to utilize services. Messages are sent from 4th month of pregnancy onwards to till 1 year of age of the baby. A total unique beneficiary registered under Kilkari till the end of FY 2024-25: 2,81,634, where as total 1,49,296 beneficiaries completed the Listenership during FY 2024-25.

- **Laqshya Implementation** (Labour Room & Quality Improvement Initiative)- Ministry of Health & Family Welfare, Government of India launched an ambitious program LaQshya on 11th December 2017 with following objectives:

  (i) Reduce maternal and newborn morbidity and mortality.
  (ii) Improve quality of care during delivery and immediate post-partum period.
  (iii) Enhance satisfaction of beneficiaries, positive birthing experience and provide Respectful Maternity Care (RMC) to all pregnant women attending public health facilities.

  Under this programme following activities are included:

  - Standardization of Labor Rooms and maternity OTs.
  - Upgrading of knowledge and skills of labor room staff on strategies on Care around Birth (CAB).
  - DAKSH/ DAKSHTA trainings at National Skill Labs are being carried out to enhance the skill of staff working in maternity services.
  - Focus on Respectful maternal care and allowing Birth Companion at delivery points is another initiative being carried out.
  - In Delhi Eleven Public Health facilities (Pt. Madan Mohan Malviya, Sanjay Gandhi Memorial, Guru Gobind Singh Govt. Hospital, Lal Bahadur Shastri, Acharya Shree Bhikshu, Shri Dada Dev MatriAvumShishuChikitsalya, DeenDayal Upadhyay Hospitals) are LaQshya certified as of now (2024-25).

- **Maternal Death Surveillance and Response:** All maternal deaths occurring in state are reviewed at facility, district and State level so that gaps are identified and corrective actions are undertaken to avoid preventable maternal deaths. Deaths are reported on a Maternal and Perinatal, Child Death Surveillance and Response (MPCDSR) portal and facility and

community level reviews are conducted. A total of 557 maternal deaths were reviewed (90%) out of 621 maternal deaths reports during 2024-25.

23. Essential Immunization:

Universal Immunization Programme (UIP) is one of the largest public health interventions, providing protection to beneficiaries which primarily includes 0-5 years' children and pregnant women against 13 Vaccine Preventable Diseases (VPDs), thereby contributing towards marked reduction in morbidity and mortality. The annual cohort of about 3 lakh infants and 3.25 lakh pregnant women are expected to be benefitted by the program. The services are provided in about 600 public health facilities with Govt. dispensaries providing it bi-weekly and govt. hospitals on all working days. In addition, about 60-70% of immunization coverage is achieved through outreach session sites. The programme aims to achieve 100% Full Immunization Coverage of eligible children.

To achieve and maintain 100% vaccination coverage and protection, campaigns like Special Immunization Campaigns etc. are observed with the intent to reach all unvaccinated and partially vaccinated beneficiaries and complete their due vaccinations, through augmented Immunization Services in fixed and outreach sessions.

100% of eligible children received Full Immunization coverage (all due vaccines given by the age of 1 year). In absolute numbers 302962 children have been fully immunized during 2024-25.

The State is also working aggressively towards Measles-Rubella (MR) Elimination Goal. MCV 1 & MCV 2 coverage is around 100% and 90% respectively as per HMIS data till October 2025.

The process of digitalization of immunization services has been completed by up scaling of U-WIN portal, a portal created by MoHFW on lines of CoWIN with the aim to digitalize the vaccination records of all catered beneficiaries. The portal has now been universalized in all the 11 districts.

Further, vaccines and logistics management, along with electronic monitoring of the Temperature of all cold chain equipment via Temperature Loggers is also being routinely done under the e-VIN Initiative. E-VIN offers innovative use of technology for temperature monitoring (via temperature loggers in cold chain equipment), system strengthening, improving program Governance and real time visibility of stock status of vaccines and logistics.

In addition to implementation of UIP, the section is also implementing Adverse Events following Immunization (AEFI) Surveillance and Causality Assessment

and VPD Surveillance. Regular review of the surveillance is being done at state and district level. Quality management in AEFI Surveillance has been rolled out in New Delhi & North East Districts. All the districts are reporting AEFI cases. 'Fever with rash' surveillance has been strengthened with all the districts reporting more than two Non-MeaslesNon-Rubella Discard rates, a crucial indicator to be followed for having a sensitive Measles Rubella Surveillance.

24. Child Health Services/Programme:

a. **Strengthening of Facility Based Newborn Care (FBNC) –** To cater to sick neonates (from birth to 28 days of life), Delhi has 34 FBNCs (SNCU/ NICUs) in public hospitals providing intensive & resuscitative care to the new born babies who are sick.

b. **New Born Care Corners (NBCCs**) at all 60 delivery points within the labor room and OTs in the State ensuring essential New born care at all the delivery points.

c. **Kangaroo Mother Care (KMC):-** Kangaroo mother care has been started in 34 Units in the first instance and will further be extended to all delivery points.

d. **Nutritional Rehabilitation Center (NRC) –**Nutritional Rehabilitation Centres (NRC) are functional in 05 hospitals to take care of severely malnourished children (SAM).1363 SAM patients were treated in NRCs of Delhi in the FY 2024-25.

e. **Stop Diarrhoea Campaign- 2025** (previously known as Intensified Diarrhoea Control Fortnight (IDCF) campaign which was renamed in year 2024).Intensified Diarrhoea Control Fortnight (IDCF) campaign was initiated in 2014, with an aim of achieving improved coverage of essential life- saving commodity of ORS, ZINC dispersible tablets and practice of appropriate child feeding practices during diarrhoea. Delhi observed "**Stop Diarrhoea Campaign 2025"** in June & July 2025. Activities were carried out from 2nd June to 31st July 2025, to sensitize and bring awareness among the care givers, children & masses to identify and initiate timely treatment in case of diarrhoea to prevent severe dehydration and fatality. Convergence activities for various stakeholders/ departments like WCD, Education, DJB etc. across the State were done. Delhi also carried out the activities like ORS preparation Demonstration in UHNDs and focused group discussions in all districts. ASHAs & AWW meetings were done. Health Talks were given in the facilities and communities during this campaign. Hand wash activities were done in schools.

No. of Districts conducted childhood diarrhea prevention and management activities in 2024/ Total No. of Districts	13/13
No. of children provided with ORS (ORS prepositioning)	1250346
No. of children reported with diarrhea during the activity	27825
No. of children with diarrhea provided with ORS	27825
No. of children with diarrhea provided Zinc for 14 days	27789
No. of children detected with danger signs and referred by ASHA to the facilities	278

f. Mother Absolute Affection Programme (MAA) –MAA Programme focuses on building an enabling environment for breastfeeding through awareness generation activities, targeting pregnant and lactating mothers, family members, and society in order to promote optimal breastfeeding practices as an important intervention for child survival and development. To reinforce lactation support services at public health facilities through trained healthcare providers and through skilled community health workers. In Delhi, MAA was implemented at 60 public health delivery points. Total of 567077 mothers (including 263242 pregnant women and 309438 lactating mothers) participated in 65336 mothers' meetings conducted by ASHAs in the community, in F.Y. 2024-25. (Source: Annual MAA report 2024-25). The key deliverable under Early initiation of breastfeeding (within an hour of birth) rate was 80% in F.Y. 2024-25. (Source: HMIS Portal).

g. SAANS (Social Awareness & Action to Neutralize Pneumonia Successfully):

Childhood pneumonia continues to be the topmost infectious killer among under-five children, contributing to 16.3 per cent of under-five deaths in India. (SAANS 2025-26- Guidance Note). The **SAANS initiative** was institutionalized to bring visibility and sustainability to the Pneumonia program, with the goal to intensify action for reducing mortality due to childhood Pneumonia in India. With an aim to reduce child morbidity and mortality due to pneumonia the programme runs in campaign mode from 12th November' till 28th February.

- The programme enables care givers to identify and recognize the early signs and symptoms, and seek care immediately for on-time referral and treatment of Pneumonia. It also ensures availability of essential drug sat the facility and FLW level.

- Sensitization on SAANS has also been done for all district officers. SAANS was implemented successfully for treatment and timely referral of Pneumonia cases to health care facilities along with IEC done at District / facility / community level.

- Guidelines of treatment algorithm disseminated to all health facilities for Display and implementation of the same are available with all facilities.

- A total of **534157** homes were visited where counseling was done using MCP cards, **416737** under five children were assessed by ASHAs for signs and symptoms, **80925** under five children with Pneumonia were treated in OPDs and **5261** under five children with Severe Pneumonia were treated by admission during the three and a half months long SAANS campaign in F.Y. 2024-25.

h. **Child Death Review -** CDR has been launched in Delhi in all Districts to find out the gaps in child health delivery mechanisms and taking corrective actions. Delhi has a relatively low Child mortality. The aim is to decrease it to minimum possible. District level Task Force for Child Death Review has been notified and meetings are being held. State level task force (STLF) meeting for Child Death Review under chairmanship of Secretary (H&FW) was conducted on 04/07/2025. A total of 6984 deaths were reported were during 2024-25. (Source: State CDR report 2024-25).

i. **Newborn Screening- Mission NEEV Project:** Comprehensive Newborn Screening Programme (Mission NEEV) is aimed at holistic evaluation of all newborns at various institutions in the Delhi State as part of activities under Rashtriya Bal Suraksha Karyakram (RBSK). Total 137539 newborns were screened under NEEV, out of 150045 live births as per Mission NEEV Report in F.Y. 2024-25.

j. **District Early Interventions Centers (DEIC):**

- Developmental impairment is a common problem in children that occurs in approximately 10% of the childhood population and represents a rapidly growing segment in India.
- The importance of early detection, intervention and rehabilitation can never be over-emphasized and require an interdisciplinary approach of a multi-disciplinary team.

- With this objective in mind of DEIC are being setup to provide referral support to children detected with health conditions during health screening, primarily for children upto 6 years of age where trained professionals from different disciplines working in the intervention setting are available under one roof.

- To reduce 4Ds (Defects, Deficiencies, Diseases, Developmental Delays

including Disabilities) DEICs are functional in 3 centers at Swami Dayanand Hospital, Guru Gobind Singh Govt. Hospital and Chacha Nehru Bal Chikitsalya, with the aim of early detection, minimizing disability and providing social and vocational rehabilitation with a family central approached at the community level.

- **Center of Excellence- Early Intervention Center- Lok Nayak Hospital (COE-EIC-LNH): -** COE-EIC at LN Hospital is operational since October 2021, taking care of children identified to be suffering from 4Ds (Defects, Deficiencies, Diseases, Developmental Delays & Disabilities) to facilitate intervention at DEIC. A total of 14153 children were managed in COE-EIC-LNH in F.Y. 2024-25.

- Total 26519 children were managed in 2 DEICs at SDNH, GGSGH and one COE-EIC-LNH in F.Y.2024-25.

k. Lactation Management Unit (LMUs):

- Exclusive breastfeeding has the potential to prevent 13 percent of under-five deaths.

- In the second instance, when the baby is unable to suck the breast directly due to prematurity, weakness, sickness or any other reason, the mother's own milk can be expressed, collected, stored and then fed to the baby as per requirement.

- Taking cognizance of all these evidences, 04 LMUs were functional in F.Y. 2024-25 at Dr. Baba Saheb Ambedkar, CNBC, Swami Dayanand and Lok Nayak Hospitals. 29368 mothers received Lactation Counseling; 7775 mothers used LMU facility for Expression of breastmilk; 10244 newborns/ infants received expressed breastmilk from own mothers using LMU facility at 4 LMUs in Delhi in F.Y. 2024-25.One new LMU at Bhagwan Mahavir Hospital has been made operational in June 2025.

l. Musqan Certification of Pediatric OPD, Ward, SNCU/NICU & NRC:-

Quality Assurance Certification under MusQan initiative for Pediatric OPD/Ward SNCU/NICU & NRC. 10 Hospitals in Delhi have achieved National Certification under MusQan (as on 13/11/2025) viz. Dr. Baba Saheb Ambedkar Hospital, Sanjay Gandhi Memorial Hospital, Lal Bahadur Shastri Hospital, Chacha Nehru Bal Chikitsalya, Guru Gobind Singh Govt. Hospital, Acharya Shree Bhikshu Hospital, DeenDayal Upadhyay Hospital, Satyawadi Raja Harish Chandra Hospital, BabuJagjivan Ram Memorial Hospital and Bhagwan Mahavir Hospital. 3 Hospitals are State Certified- Pt.

Madan Mohan Malviya Hospital, Lok Nayak Hospital and Swami Dayanand Hospital. (Source: DSHM Website).

25. Adolescent Health Services:

Adolescent Health Programming in the State of Delhi.

The Directorate of Family Welfare (DFW), Government of N.C.T of Delhi implemented the MoHFW,GoI flagship Program- Rashtriya Kishor Karyakram (RKSY) in the year 2014.The programme aims to ensure holistic development of adolescents, envisions enabling all adolscents to realize their full potential by making informed and responsible decisions related to their health and well-being.

DFW in joint collaboration with Department of Education (DoE) also implemented another flagship programme- Ayushman Bharat School Health and Wellness Programme(SHWP) in the year 2020. The programme envisage to facilitate an integrated approach to health programming and more effective learning at school to strength the preventive and promotive aspects through health promotion activities for school going children. The Program components, implemented under National Health mission are described below:

Ayushman Bharat School Health & Wellness Program (SHWP)

The flagship program- Ayushman Bharat School Health & Wellness Program (SHWP) was jointly implemented by Directorate of Family Welfare and Directorate of Education and, GNCTD in the year 2020 to foster growth, development and educational achievement of school going children. Two teachers in each Govt. and Govt-Aided Schools (DoE), preferably one male and one female, have been selected as “Health and Wellness Ambassadors” (HWAs), who after receiving the initial four-day modular training covering eleven thematic areas, transact health promotion and disease prevention information in the form of weekly interactive sessions. The SHWP is currently being implemented in 11 out of 16 districts (as per DoE bifurcation) of the state.

Weekly Iron and Folic Acid Supplementation (WIFS)

Weekly Iron Folic Acid Supplementation is carried out in Govt & Govt-Aided Schools and in Anganwadi Centers (AWCs) for out of school adolescent girls to meet the challenge of high prevalence and severity of anaemia amongst adolescent boys and girls (10-19 years). These school going adolescent boys and girls in class 6th to 12th and out of school adolescent girls in AWCs are

provided supervised weekly iron and folic acid supplements. 2,26,403 was the average monthly coverage of IFA Blue tablets in Govt. and Govt. aided schools among class 6th to 12th girls,1,82,930 among class 6th to 12th boys for F.Y. 2024-25(source HMIS portal).

AFHC /DISHA Clinics –Delhi Initiative for Safeguarding Health of Adolescents

Adolescent Friendly Health Clinics/Delhi Initiative for Safeguarding Health of Adolescents (DISHA) are established in DGDs, Polyclinics, Seed PUHCs, Maternity Homes and Hospital across 11 district of the state. The objective of establishing DISHA clinics is to provide education, clinical and counseling services to the adolescents aged 10-19 years in a friendly environmental, adopting a non-judgmental approach. A total of 108 DISHA clinics have been operationalized in the state till March, 2025. As regard to the progress, a total of 280585 adolescents were registered, 258015 received clinical services,149758 received counseling services during 2024-25(Source: HMIS Portal).

Adolescent Health & Wellness Day (AHWD)

Adolescent Health & Wellness Day (AHWDs) are organized every quarter in school and community setting of adolescent boys and girls aged 10-19 years. The objective of organized AHWDs is to sensitize adolescents on various health issues and address the associated myths and misconceptions. Various activities organized under the quarterly AHWDs are health check-up, interactive sessions/ health talks, essay writing competition, slogan writing competition, quiz competition, nukkadnatak etc. **In FY 2024-25, 473 AH&WDs were celebrated.**

“Udaan” – Menstrual Hygiene Scheme (MHS)

“UDAAN” scheme has been rolled out with an aim to improve accessibility of adolescent girls (non-school going) to sanitary napkins and make them more aware of Menstrual Hygiene Management. Under the scheme a pack of 10 sanitary napkins is provided every month completely “Free of Cost” to Out of School Adolescent Girls (OOSAG) and 10- 19 years age group girls of MCD schools.78 lacs sanitary napkins (pieces) were procured in December 2024 and 43 lacs sanitary napkins have been distributed till March, 2025.

A study to understand the menstrual hygiene practices among adolescent girls in rural and urban resettlement areas of Delhi was conducted by Maulana Azad

Medical College (supported under National Health Mission). The report has been disseminated and the recommendations have been adopted by the State.

National Deworming Day (NDD)

Deworming is a scientifically proven method of mitigation of intestinal worms and is a key intervention to curb the issue of under-nutrition and anaemia. Following World Health Organization (WHO) guidelines of Page 1 of 16 preventive chemotherapy against Soil Transmitted Helminthes (STH), DFW consistently implemented the bi annual Ntional Deworming Day (NDD) campaign under NHM across all 11 districts of the state since 2017. Under the campaign, children and adolescents in the age group of 1-19 years are administered age appropriate dose of chewable Tab Albendazole, implemented in a fixed approach through all Govt. and Govt Aided Schools, Private Schools and Anganwadi Centres. In FY 2024-25, DFW organized NDD campaigns in all govt. and govt-aided schools, private schools and Anganwadi Centres across the state during April 2024, followed by a one-day Mop-up round held on Jul 15, 2024 for the left-out children, administering Tab Albendazole to approx. 41.02 lakhs children. A total of 39.49 lakh children were covered during December, 2024 NDD round (Against a target of 48 lakh i.e. coverage of 82.2%).

26. Anemia Mukt Bharat (AMB) Program

Prophylactic IFA Supplementation in all six age groups viz. Children (6 months-5 years), Children (5-9 years), Adolescents (10-19 years), pregnant women, lactating women and women of reproductive age group through ASHA workers, ANMs, Anganwadi centers and schools.

Prophylactic IFA Supplementation in Children

a) In Community

- **The prevalence of anemia among under five children as per NFHS-5 is 69.2%.** To address this, IFA supplementation initiative for children in 6-59 months age group has been rolled out as part of anemia Mukt Bharat program of Govt. of India through ASHA workers.
- For out of school children in 5-9 years age group, IFA Supplementation is provided in the community through Anganwadi centers.

b) In Schools

- Weekly IFA supplements program for all children (6 months to 9 years) has been rolled out in the schools & the same is being strengthened with an aim to achieve universal coverage.
- IFA supplementation initiative for children in 5-9 years age group has also been rolled out through MCW centers in MCD primary schools & through Directorate of Education primary & Govt. aided schools. Tablet IFA pink is provided to children once a week on Wednesday.
- Further In schools, syrup IFA is provided to children (6-59 months) 1 ml biweekly.

T4 Anemia Camps:

- Districts are conducting T4 (Test, Treat, Talk & Track) anemia camps as per guidelines.
- Point of care treatment & testing by digital hemoglobinometers.

T4 Anemia Rooms:

- To cater pregnant females, T4 anemia rooms are operational in all govt. hospitals & maternity homes in Delhi & T4 anemia corners in dispensaries.

Training under AMB:

- For capacity building of health functionaries, state level ToT for AMB was conducted on 29th& 30thAugust, 2024.
- Cascading of AMB training at the district level.
- Promoting e-training & optimum use of AMB dashboard portal.
- Time to time orientation and sensitization training of all the service providers including AWWs and teachers for strengthening of the AMB programme and utilizing all the available resources.

Other measure to reduce prevalence of anemia:

- Promoting iron fortified diets.
- All the preventable causes contributing to anemia apart from iron deficiency are monitored.
- Availability of lab facilities for thalassemia diagnosis and complete anemia profile in government hospitals.
- All mild and moderate anemic cases are treated diligently so as not to land up in severe anemias.
- Timely referral to designated facilities for severe and refractory anemias.
- Ensuring proper reporting in HMIS formats.
- Robust demand and supply chain maintenance of IFA (Syp., tabs, injectable) for WIFS and therapeutic doses.

27. Family Welfare Programmes

Family Planning Programme – Delhi

The Family Planning Programme aims to ensure that all individuals and couples in Delhi are able to anticipate and achieve their desired number of children through healthy spacing and timing of births. This is enabled by ensuring informed choice and access to a full range of contraceptive methods as a matter of right. The programme ultimately seeks to improve the health and well-being of mothers and children through comprehensive, multi-pronged interventions.

Multiple schemes are implemented under the Family Planning Programme throughout the year. In addition, two major campaigns are observed annually:

- **World Population Day Campaign**: 27th June to 24th July.
- **Vasectomy Fortnight**: 21st November to 4th December.

Self-Care Kit (SCK)

The Self-Care Kit is an innovative initiative aimed at strengthening self-care and ensuring continuity of family planning services. The kit is provided in a pick-away mode and includes:

- Condoms
- Emergency Contraceptive Pills (ECPs)
- Pregnancy Test Kits (PTKs)

NayiPehl Kit (NPK)

The NayiPehl Kit is provided to newly married couples to promote awareness about delaying the first pregnancy. The kit includes:

- Samples of contraceptives
- IEC handbills
- Utility items for couples

Introduction of New Contraceptive Methods

The State rolled out two new contraceptive methods—**Sub-dermal Single Rod Implants (SDI)** and **Subcutaneous MPA (S/C-MPA)** under the Antara Programme in six districts. These methods were included in the national contraceptive basket by the Government of India in 2023.

At present, all **11 districts** are providing SDI insertion services, and S/C-MPA is available at **Medical Colleges, District Hospitals, and Sub-District**

Hospitals. Most recently, in **November 2025**, **Maternity Homes** were also included for SDI insertion following the training of service providers.

An overview of the data related to Family Planning programme being implemented in Delhi is given in below table 16.12.

STATEMENT 16.12

FAMILY WELFARE PROGRAMMES

28. Vector Borne diseases like Dengue, Malaria & Chikungunya

28.1 Status of Chikungunya:

- During the current year, 168 Chikungunya cases were reported in Delhi till 06.12.2025.
- No death has been reported due to Chikungunya in 2025.

28.2 Status of Dengue:

- During the current year, 1399 Dengue cases reported in Delhi till 06.12.2025.
- Total 02 Dengue deaths have been reported till 06.12.2025 during current year.

28.3 **Status of Malaria:**

- During the current year, 719 Malaria cases were reported in Delhi till 06.12.2025.
- No death has been reported due to Malaria in 2025.

STATEMENT 16.13

DETAILS OF VECTOR BORNE DISEASES

Year	Chikungunya cases	Chikungunya deaths	Dengue cases	Dengue deaths	Malaria cases	Malaria deaths
2018	165	0	2798	4	473	0

2024	267	0	6391	11	792	0
2025*	168	0	1399	2	719	0

*Source: *AAs per MCD (Nodal agency for reporting of Vector Borne Diseases) report as on 06.12.2025.*

28.4. It is evident from above statement that since 2018 no deaths have reported due to Chikungunya and only two deaths have been reported due to Malaria in 2020 and 2022. This has been happened due to number of initiatives taken by Local Bodies and Govt. of NCT of Delhi under State Health Mission. There is variation in the Dengue cases and deaths year to year since 2018.

IEC (Publicity) campaign for prevention and control of Dengue & other VBDs through radio and print advertisements was undertaken during October & November 2025, In this context:-

- 4 Half page coloured advertisements were issued at fortnightly interval during October & November in 10 different leading newspapers (4 Hindi, 2 English, 2 Urdu & 2 Punjabi).
- Displaying banners and IEC material in government hospitals and other health facilities.
- Broadcasting of recorded Audio messages through the public address systems of DMRC at Metro Stations.
- IEC activities at district level to create awareness in the community during transmission season:-

- Improved surveillance of VBD's resulted in better reporting from Govt. & Pvt. health facilities.
- Daily reporting and monitoring of VBD cases on IHIP**(**Integrated Health Information Platform) an IT enabled near real time portal from Govt. and Private health facilities.

29. HIV / AIDS

29.1 The Delhi State AIDS Control Society, an autonomous society of Delhi Government is implementing the National AIDS Control Programme in Delhi with the aim to prevent and control HIV transmission and to strengthen state capacity to respond to the long term challenge posed by epidemic. Estimated adult HIV prevalence (15-49 yr) is 0.30% with 59079 persons living with HIV, 2590 New HIV Infections per year and about 927 HIV related deaths in Delhi in 2024-25.

29.2 **826275** clients (**197900** pregnant women and **628375** general clients) were screened for HIV infection during 1st April 2025 to 31st October 2025 at different facilities/centres under Delhi State AIDS Control Society. Altogether **3274** HIV infections were detected whereas **3034** general clients (Non-pregnant) and **240** infections amongst pregnant women (**113** New and **127** Known HIV positive) were detected.

29.3 43035 persons living with HIV (PLHIV) are under active care at 12 ART Centres in Delhi as on 31st October, 2025, out of which 2934 were newly registered during FY 2025-26.

29.4 Govt. of NCT of Delhi provides Financial Assistance to PLHIVS/CLHIVS to improve treatment adherence for eligible persons receiving Anti Retroviral Treatment at ART centres in Delhi. The scheme is being implemented through Delhi State AIDS Control Society since 2012. A total of 7670 beneficiaries have been enrolled in the scheme cumulatively and out of them 6878 beneficiaries are active on PFMS and getting benefits of the financial assistance scheme as on 31st October 2025.

30. Performance of Delhi State RNTCP/NTEP

30.1 Tuberculosis is the most pressing health problem in our country as it traps people in a vicious cycle of poverty and disease, inhibiting the economic and social growth of the community at large. Tuberculosis still remains a major public health problem in Delhi. 40% of our population in Delhi is infected with TB germs and is vulnerable to the disease in case their body resistance is weakened.

30.2 Delhi has been implementing the Revised National TB Control Programme with Directly Observed Therapy Short course DOTS strategy since 1997. Delhi State RNTCP has been merged with NRHM (DSHM) w.e.f. 01.04.2013. The Delhi State NTEP is being implemented through a decentralized flexible mode through 24 Chest Clinics equivalent to District Tuberculosis Centre (DTC). Out of 24 Chest Clinics, MCD are running 12, GNCTD-10, NDMC -1, GoI-1 chest clinics respectively. The NGOs and Private Medical Practitioners are participating in the implementation of the RNTCP in a big way.

30.3 NTEP Delhi integration with Urban Health Mission involving multiple stakeholders (NDMC, MCD, NGO, GOI and Delhi Govt.). Delhi Government dispensary DEO, MOs/ESIC MOs & ASHA workers have been trained in RNTCP at State level.

30.4 Framework of integration of National Tuberculosis Elimination Programme (NTEP) services with Mohalla Committees in the State is in place.

30.5 The diagnosis and treatment for drug sensitive TB & drug resistance TB is provided free to the patients by all the partners under the NTEP.

30.6 TB Control Services for the homeless population in 200 Night Shelters. The night shelters staff is trained as Community DOT Provider, and for collection and transportation of sputum samples.

30.7 Mobile TB Clinic for pavement dwellers/homeless by NGO DTBA. Diabetic screening for all TB patients initiated at all the Chest Clinics in Delhi from January 2015. Counselling services by NGO's to promote adherence to Multidrug-Resistant Tuberculosis (MDR-TB).

30.8 Quality TB diagnosis for pediatric cases by upfront testing of presumptive TB cases among the homeless in 'Asha kiran'. NTEP Services in Tihar Jail is being done by NTEP TB Health Visitor (TBHV) and Lab Technicians (LT's).

30.9 Intensified TB screening among the floating population – Truck Drivers, slums/unauthorized colonies along with night shelters, pavement dwellers, prisons etc.

30.10 Nutrition support & Counselling services to MDR TB patients by NGOs like The UNION, RK Mission, DFIT, TB Alert, GLRA.

30.11 The NTCP has 190 diagnostic centres and 551 treatment centres located all over Delhi. LPA, Liquid Culture & Solid Culture facilities are available at 3 Culture and Drug sensitivity Testing (C&DST) Labs to diagnose Drug Resistance TB. Implementation of Programmatic Management of Drug-Resistance Tuberculosis (PMDT) services for Drug-resistant TB (DRTB) Patients is done through 4 Nodal DRTB Centres& 24 District DRTB Centres. 49 Cartridge- Based Nucleic Acid Amplification Test (CBNAAT) Machines (GenXpert) and 87 TrueNat Machines in 24 Chest Clinics/Medical Colleges for Rapid TB Diagnosis are in place. The Rapid TB Diagnostic Services through CBNAAT/TrueNat are available free to the all the patients (Specially for pediatric group, HIV Positive patients & to diagnose Drug Resistance TB) besides Universal Drug sensitivity Testing (DST) for all TB patients for initiation of therapy.Almost all NAAT sites (CBNAAT 49 and TrueNat 87) in Delhi started working in Double-shifts since 01.06.25, enhancing the testing capacity of Delhi state.

- 12 Pathodetect machines are already in place (4 by Delhi Govt and 8 by ICMR) and 4 more will be provided by GoI, enhancing DRTB diagnostic capacity.
- 34 Hand Held X Ray Machines are available across 11 Revenue District for Chest X ray screening.

30.12 Roll out of daily regimen across the State w.e.f. 1st Nov. 2017.

30.13 Delhi has been the first State in the country to have full coverage with DOTS (WHO recommended treatment strategy for TB) since 1997 and with DOTS–PLUS (treatment schedule for Drug resistant TB) since 2008. Roll out of Baseline SLDST across the State w.e.f. Q2 2014. Expanded DST for 2nd Line drugs across the State w.e.f April, 2016. Pan State Roll out of Bedaquiline -new drug in MDR TB treatment in 2016.

30.14 Shorter Regimen BPaLM for DRTB Patients is being implemented in Delhi since Dec 2024.

30.15 NIKSHAY is an online web based system for live reporting of TB patients for surveillance and monitoring under public & private sector.

30.16 A Vision for TB Free Nation by 2025 with the goal of zero death and end the Global TB Epidemic.

30.17 Govt. of India has changed the name of the programme from Revised National Tuberculosis Control Programme (RNTCP) to National Tuberculosis Elimination Programme (NTEP) w.e.f 1st Jan 2020.

30.18 Every year World TB day is celebrated on 24th March. Accordingly, TB awareness activities like community Meetings, Nukad Nataks, School Health awareness activities like Painting competition on TB/Essay competition/ speech competition on TB etc, Street Plays, Road, Rallies to create awareness among the Public, IEC material distribution in OPDs of Hospitals/Dispensaries/Mohalla Clinics, CMEs involving Hospital Doctors, Private Care Providers, Nursing Staff, Paintings on Wall depicting Health messages, awareness campaigns in Metro Stations etc. were conducted across the Delhi State starting one week before and one week after the World TB day.

30.19 21 Days TB Mukt Bharat Campaign @ AB-HWCs were conducted across the Delhi State where Active Case Finding activities were conducted in Dispensaries, Mohalla Clinics amongst Vulnerable groups.

30.20 Ayushman Bhavah Campaign was organised in Delhi in September & October 2023. During this campaign, Ayushman Bhavah Health Mela was organized where TB related activities were included among communicable diseases. During this Health Mela, Presumptive TB mobilisation from the vulnerable population for screening & testing was done, For current TB patients clearing all pending DBT payments, contact tracing and screening for ruling out active TB and initiation of TPT for eligible individuals, awareness Generation, IEC activities, TB Patient support group meetings, Family Caregiver trainings was done. Ayushman Sabha was conducted on 2nd October 2023, which involved organizing special health talks to raise awareness about TB, Sensitizing the stakeholders at Panchayat / Ward levels on the key indicators. Ni-kshay Mitras were also felicitated during the Campaign.

30.21 **100 Days TB Campaign-** This is Nation–wide campaign to accelerate TB case detection, reduce morality and prevent new cases through focused intervention in districts with highest TB burden in a stratified approach i.e. Find new cases (among vulnerable groups-Symptomatic & Asymptomatic Vulnerable Population (> 60 year, Malnourished , Diabetes, HIV , Smokers , Alcoholic, Household Contacts) – Screening with X-ray and upfront NAAT, Ensure successful management of identified TB cases (existing & new) – saturate services (Bank Seeding, NPY Payment, HIV, Diabetes, nutrition support-PMTBMBA) and implement differentiated care including TB death audit.,

Prevent occurrence of new cases (TPT among household contacts & among vulnerable groups). In Delhi, 100 Days TB campaign was launched on 7th December, 2024 at RBIPMT in the presence of Mission Director, Delhi State Health Mission, Addl. Commissioner MCD, DGHS GNCTD. The Campaign has been going on in all 11 Revenue Districts. Mobile Medical Vans & 5 portable Hand Held X-Rays are being utilized on rotation for doing X-Rays in Field and also for creating awareness activities.

30.22 TB Mukt Bharat Abhiyan is being implemented across 11 Districts of Delhi where 100 Days TB Campaign activities are continued. In Delhi. Chest X-Ray has been done in 41% of enrolled of vulnerable population. NAAT testing has been done in 78% of all Microbiology tests done in vulnerable population. 49% of Beneficiaries have been paid all benefits of DBT-NPY (Nikshay Poshan Yojna).

31. Pradhan Mantri TB Mukt Bharat Abhiyaan

The President of India launched the Pradhan Mantri TB Mukt Bharat Abhiyaan on September 9, 2022. India has a little less than 20 percent of the world's population, but has more than 25 percent of the total TB patients of the world. Most of the people affected by TB come from the poor section of society.

According to the United Nations Sustainable Development Goals, all nations have set the goal of eradicating TB by the year 2030. But the Government of India has set the target of eradicating TB by the year 2025 and efforts are being made at every level to fulfill this resolution. The Pradhan Mantri TB Mukt Bharat Abhiyaan has been envisioned to bring together all community stakeholders to support those on TB treatment and accelerate the country's progress towards TB elimination.

The objective of Pradhan Mantri TB Mukt Bharat Abhiyan is to provide additional patient support to improve treatment outcome of TB patients, to augment community involvement in meeting India's commitment to end TB by 2025 and to leverage Corporate Social Responsibility (CSR) opportunities.

NI-KSHAY- (Ni=End, Kshay=TB) is the web enabled patient management system for TB control under the National Tuberculosis Elimination Programme (NTEP). Ni-kshay Mitra can be Co-operative societies, Corporate, Elected Representatives, Institutions, NGOs, Political Parties and Individuals etc.

Expected Outcome of NI-KSHAY 2.0:-

- Increased active involvement of society in the fight against tuberculosis.
- Involvement of the community in supporting the treatment cascade shall help in the reduction of stigma.
- Increased awareness among the public regarding tuberculosis.
- Improved nutrition for the TB patient shall result in better treatment outcomes.
- Additional diagnostics support to the patients with co-morbidities.
- Reduction of the out-of-pocket expenditure for the family of the TB patient.

Status of Pradhan Mantri TB Mukt Bharat Abhiyaan in Delhi:

- No. of Ni-kshay Mitras- 4313.
- No. of Ni-kshya Mitras agreed upon/linked with patients- 3434.
- No. of patients already received Nutritional support- 2,23,457

32. DIRECTORATE OF AYUSH

32.1 To encourage use of alternative systems of medicines in healthcare delivery and to ensure propagation of healthcare research and education in these systems, a separate Department of Indian System of Medicine was established by Delhi Government as a part of Health and family welfare Department in May, 1996. In 2013, it was renamed as Directorate of AYUSH where AYUSH stands for Ayurvedic, Yoga and Naturopathy, Unani, Siddha and SOWA-Rigpa and Homoeopathy systems of medicines. Following are the major functions of the Directorate of AYUSH:

- Provides best Healthcare facilities through a network of 206 dispensaries (Ayurvedic - 57, Unani - 28 and Homoeopathic - 121) spread across Delhi providing Ayurveda, Unani and Homoeopathy treatment to the public.

- Quality and value based education in Ayurveda, Unani and Homoeopathy through undergraduate and postgraduate courses at four educational institutes

- Licensing and regulation under Drugs & Cosmetics Act and Drugs & Magic Remedies (Objectionable advertisement) Act of Ayurveda and Unani Medicines.

- Registration of practitioners of Ayurveda, Unani and Homoeopathy

- To create awareness among masses about strengths of AYUSH systems through school education programmes, media campaigns and participation in various health programmes.

32.2 **Important steps taken by Govt. of NCT of Delhi in respect of functioning of AYUSH are as follows**

- After creation of separate Deptt/ Directorate of Indian Systems of Medicine & Homeopathy by the Govt. of NCT of Delhi in 1996, the Drugs Control Cell of Ayurvedic and Unani Medicine has been transferred to this Directorate from the Drugs Control department in 1997. Assistant Drugs Controller (Ayurveda) and Assistant Drugs Controller (Unani) have been notified as the Licensing Authority for Ayurveda & Unani Drugs respectively. Total 108 regular AYUSH manufacturing units are there out of which 82 Ayurvedic units, 26 regular Unani units. In 2024-25 total 201 inspections have been conducted. The Delhi state AYUSH Society has been registered on 01.08.2025 under NAM.

- The Government had taken over Dr. B. R. Sur Homeopathic College where degree course in Homoeopathy is offered with an intake of 57 students in UG 57 & 06 students in PG course. 50 beds for indoor patients have also been commissioned in this hospital. The government of Delhi took over the college in 1998. Besides OPD services, facilities of x-ray, laboratory services and ultrasound are also available. In part time guest faculty Yoga instructor has been appointed & PG in Practice of Medicine & Materia medics with intake of 3 students in each subject. Physiotherapist and Dietician are also appointed as part time. Part time eye specialist, ENT specialist and Pediatrician for teaching & clinical exposure for both UG and PG students. Fully functional Eye OPD is also running. Polysomnography machine & Spirometer is also available in IPD.

- The Government had also taken over the management of the Ayurvedic and Unani Tibbia College & Hospital in 1998 under Delhi Tibbia College (Takeover) Act 1998. This college is affiliated to Delhi University and is imparting BAMS and BUMS degree with intake capacity of 60 (25 EWS) seats for BAMS degree. This is 75 for BUMS including EWS students per year. This institute is also running post graduate courses in Ayurveda with 18 students strength 4 each in the subject Kayachikitsa, Sharir Kriya & Panchkarma & 6 students in Draya Guna. In Unani PG course are running in 04 department with 13 seats (Munafenl Aze, Qabalat wa Amraz-e-Niswan and Moalajat 03 seats in each course and Ilmul Saidla 04 seats) along with 240 beds indoor facility (120 for Ayurveda and 120 for Unani).

- Examining Body for Paramedical Training for Bharatiya Chikitsa has been set up as an autonomous body for prescribing curriculum for paramedical training courses of study for such exams as nursing care, panchkarma etc.

- Nehru Homeopathic Medical College and hospital is imparting BHMS Degree and has intake of 125 seats and Post Graduate course with student intake of 09 seats. This institute has an out patient department catering to 500 patients/day and a 100 beds IPD. No. of functional beds are 60 for the homoeopathic treatment of patients. On NHMC 13 OPD services, 11 Specialty Clinic OPD, and 8 IPD Services has been provided to the patients including Pathology laboratory, Physiotherapy, Ultrasound, X-Ray and yoga facilities are made available for IPD and OPD patients.

- Ch. Brahm Prakash Ayurvedic Charak Sansthan at Khera Dabur is an autonomous Ayurvedic Medical College and Hospital under the GNCTD was established in 2010. Total sanctioned capacity of 75 BAMS seats (including EWS) and 51 MD/MS seats (including EWS). 210 bedded

hospital attached to the Sansthan is providing health care facilities through its experienced and qualified Doctors. The hospital was recognized by Delhi Govt. in March 2025 for compliance with Biomedical Waste (BMW) Management. CBPACS achieved NABH certification at the entry level.

33. DELHI STATE HEALTH MISSION

Delhi has one of the best health infrastructures in India, which is providing primary, secondary & tertiary care. Delhi offers most sophisticated & state of the art technology for treatment and people from across the states pour in to get quality treatment. In spite of this, there are certain constraints & challenges faced by the state. There is inequitable distribution of health facilities as a result some areas are underserved & some are un-served. Thereby, Delhi Govt. is making efforts to expand the network of health delivery by opening Seed PUHCs in un-served areas & enforcing structural reforms in the health delivery system.

Delhi State Health Mission implements the following National Health Programs:-

1. Reproductive, Maternal, Newborn, Child and Adolescent Health:-
   - Maternal Health
   - PNDT
   - Child Health
   - Immunization
   - Adolscent Health
   - Family Planning
   - Nutrition

2. Communicable Disease Program:-
   - Integrated Disease Surveillance Project (IDSP)
   - National Vector Borne Disease Control Program (NVBDCP)
   - National Leprosy Eradication Program (NLEP)
   - National Tuberculosis Elimination Program (NTEP)
   - National Viral Hepatitis Control Program (NVHCP)
   - National Rabies Control Program (NRCP)

3. Non-Communicable Disease Program:-
   - National Program for Non Communicable Diseases (NP-NCD)
   - National Program for Control of Blindness (NPCB)
   - National Mental Health Program (NMHP)
   - National Program for Health Care of the Elderly (NPHCE)

- National Program for Prevention and Control of Deafness (NPCCD)
- National Tobacco Control Program (NTCP)
- National Oral Health Program (NOHP)
- National Program for Palliative Care (NPPC)
- National Porgram for Climate Change and Human Health (NPCCHH)
- Pradhan Mantri National Dialysis Porgram (PMNDP)

4. Health System Strengthening (Urban and Rural):-
   - Comprehensive Primary Health Care (Ayushman Arogya Mandirs)
   - Human Resource gap filling and management structures
   - Engaging with Communities through ASHA / Rogi Kalyan Samitis/Mahilla Arogya Samitis)
   - HMIS and IT initiatives
   - National Quality Assurance Program
   - Mobile Medical Units
   - Blood Services and Disorders

State Program Management Unit and 11 District Program Management Units implement these programs as per approval of the State Program Implementation Plan received from Govt. of India.

Some key achievements:

Implementation of Pradhan Mantri Bharat Health Infrastructure Mission- An MoU for implementation of PM ABHIM scheme was signed with MoHFW in March 2025. 1139 Ayushman Arogya Mandirs, 11 Integrated Public health labs and 9 Critical Care Blocks are approved under the scheme. Implementation is under process.

Ayushman Arogya Mandir (PHCs) - 123 Ayushman Arogya Mandir (PHCs) were approved for Delhi for the F.Y 2025-26 and same are being operationalized.

Coverage of un-served / underserved areas: Almost all the un-served / underserved areas have been identified across the State. 64 Seed Primary Urban health Centres (PUHCs) have been set up under this initiative.

Mobile Dental Clinics: Operationalization of 6 Mobile Dental Vans is being done under Mobile Dental Clinic Project with support of Delhi State Health Mission.

Health Management Information System (HMIS): Dedicated web portal for capturing all Public health / indicator based information from the end source

and generate reports /trends to assist in planning and monitoring activities. Data generated at facility level is captured on this web based portal on monthly basis. At present, the Delhi Government, MCD, CGHS & ESI, NDMC, Autonomous, NGO & other health facilities (dispensaries & hospitals) are reporting on HMIS on monthly basis. In addition some private hospitals and nursing homes are also reporting on HMIS Portal. The performance of health care services is being utilized by various departments of State and GOI for monitoring and planning health policies and strategies.

Community Processes: The health care delivery system is linked to the community with the help of Accredited Social Health Activists (ASHAs). These are motivated women volunteers who are selected as per defined guidelines in a decentralized manner. One ASHA is selected for every 2000 population (500 households). In F.Y 2025-26, State has 6774 ASHAs in place across eleven districts in the vulnerable areas (Slums, JJ Clusters, unauthorized colonies and resettlement colonies).

These ASHAs have been trained in knowledge and skills required for mobilizing and facilitating the community members to avail health care services. They also provide the home based care for mothers, newborns and young children. They identify and help the sick individuals for prompt access of the available health services. They also help in field level implementation of National Health Programs, facilitate checkup of senior citizens and NCDs and other expanded range of services under CPHC like mental health, ENT, Oral care, palliatie care, elderly care etc. along with Ayushman Card creation, These ASHAs are paid incentives as per their performance. They are monitored and paid with the help of a web based IT Platform created by the State. Delhi is the first State which had operationlised such a comprehensive IT Platform for ASHA Scheme. Their contribution has helped in betterment of health indicators, especially the maternal and family planning indicators. Also the activities like cataract surgeries have also picked up.

In order to ensure quality in trainings, they are undergoing an accreditation process through written exams being conducted by NIOS as the guidelines of Government of India.

Quality Assurance Program: Under DSHM, hospitals and PUHCs are provided funds to fill up gaps identified in the process of quality assurance. The process of assessment of compliance with the National Quality Assurance standards is being undertaken for identified hospitals. Twelve (12) hospitals have achieved National level NQAS certification and 2 hospitals are State Certified. Eleven (11) hospitals are National level LaQshya certified. Ten (10) hospitals are National Level MusQan certified and Five (5) hospitals are State

level MusQan Certified. Twenty Seven (27) PUHCs are National certified and Thirty Three (33) PUHCs are State Certified.

Kayakalp program, a subset of NQAS under the Swatch Bharat Mission is being implemented in all GNCTD and MCD hospitals and PUHCs and MCW centers. Under the program, best performing health facilities are recognized and given monitory incentives. This has improved the level of cleanliness, infection control practices, hygiene and the patient experience.

In 2025-26, out of 43 hospitals 40 hospitals have scored more than 70% in the Kayakalp assessment and 82 UPHCs have scored more than 70%. External assessment has been completed in 6 districts and is under process in 5 districts.

34. Delhi Arogya Kosh

Delhi Arogya Kosh (DAK) was constituted as separate society by the Govt. of NCT of Delhi in the year 2011 to provide financial assistance for health care services to poor patients suffering from life threatening diseases, minor surgeries, imaging and diagnostics test, Dialysis & undergoing treatment in any Govt. Hospital run by Delhi Govt. or Central Govt. or Local Bodies or Autonomous Hospital under State Govt. In the year 2017-18, the Govt. started services of high-end diagnostics, surgeries and treatment of medico legal victims of road accident, acid attack & thermal burn injury through DAK with the provision of referral of patients to empanelled private health centers and reimbursement of bills of medical treatment of such patients by the Govt. through DAK. A total of 64112 eligible patients availed the benefit of free high-end Radiological diagnostics test during 2025-26 (upto December, 2025). Similarly, 1732 eligible patients availed free/cashless dialysis and 1389 eligible patient's availed scheme of specified surgeries of different types during this period. Further, around 2081 victims of road accident /acid attack availed cashless treatment in this period.

35. Centralized Accident & Trauma Services (CATS)

Centralized Accident & Trauma Services (CATS) is a 100% funded Autonomous Body of Govt. of NCT of Delhi, providing 24x7x365 ambulance service in Delhi since 1991. CATS provides free ambulance service in Delhi for accident & trauma victims, transportation of pregnant women for delivery and post delivery, rape victims, Heart Attack, vitriolic cases, inter hospital transfer,

etc. CATS ambulance service can be availed by dialing “102” Toll Free Number. The main objective of CATS is to provide timely medical help to the accident and trauma victims and save lives of those who die for lack of timely medical aid and also to improve overall availability of ambulances on road, better response time, quality manpower, better management and supervision of resources.

Presently CATS is operating total 330Ambulances (Type of Ambulance-62-ALS +11 Neo-Natal+249 BLS +8PTA). Out of 330 ambulances, 137 are CATS owned which are being operated through outsourced agency and 193 ambulances have been hired through GeM after following tender process. With the available fleet of 330 ambulances, CATS is able to attend all the calls received in CATS Control Room without any refusal by maintaining response time below 15 minutes.

The existing CATS control room was setup in the year of 2016 and as per requirement of CATS, it required to upgrade/ establishment with provision of integration of 1000 ambulances. The Finance Department has also allocated the fund for the said purpose and CATS has started the process for up gradation/establishment. The tender process for up-gradation of CATS Control Room is under process.

KEY PERFORMANCE INDICATOR

Call & Statistics Year Wise:

Year	Total Calls	Patients Shifted	% Patient Shifting
2017	230095	164296	71.4
2018	365021	232614	63.7
2019	277612	172698	62.2
2020	403818	262867	65.0
2021	558701	394001	70.5
2022	611076	461472	75.5
2023	672917	497358	73.9
2024	564941	429188	75.9
2025 (Upto 30.11.2025)	504317	425466	84.3

36. Drug Control Department

Drugs Control Department of Delhi is a Regulatory Department under Health & Family Welfare Department, Govt. of NCT of Delhi. It regulates manufacture for sale of allopathic drugs, homoeopathic medicines, medical devices & cosmetics. Besides these, the Department also regulates regulation of Blood

Banks, Testing Laboratory for drugs & cosmetics and repacking of drugs. It also regulates retail and wholesale of drugs including homoeopathic medicines & medical devices. The department also conducts inspections and raids with a view to detect offences specially movement and sale of spurious and Not of Standard Quality (NSQ) drugs/cosmetics/medical devices.

In order to make the system more convenient and user friendly to public, with lesser interaction of public with the officials and to have greater transparency, Drugs Control Department, Govt. of NCT Delhi has adopted the new online system i.e. National Drugs Licensing System developed by Centre for Development of Advance Computing, Govt. of India in coordination with the Central Drugs Standard Control Organization, Government of India for making services online related to grant / renewal of sales/manufacturing licenses for drugs/cosmetics and approval of testing laboratory. The Department has taken steps to strengthen and modernize the Drug Testing Laboratory located at Lawrence Road, Delhi to conform to the international standards and NABL accreditation.

Drugs Control Department, Govt. of NCT of Delhi has adopted zero tolerance towards pharmaceutical drug abuse and taking stringent action against defaulters. The Department had cancelled licenses of 31 Medical Stores during the period of 01.04.2025 to 31.10.2025, who were found contravening various provisions of the Act. The Department is regularly keeping a watch on the quality of drugs & cosmetics moving in the market by way of regularly collecting samples of medicines from various manufacturers and sales outlets of drugs and cosmetics. From 01.04.2025 to 31.10.2025, the department had collected 397 samples of drugs/cosmetics. Out of which, 15 samples were declared as not of standard quality by Govt. Analyst, Moreover, the Department filed prosecutions in 06 cases during the period of 01.04.2025 to 31.10.2025 where the nature of contraventions was serious.

The Department is also keeping a watch on the activities of various wholesale/retail outlets by regularly conducting surprise checks. During the period of 01.04.2025 to 31.10.2025 the Department has observed contraventions in 596 cases out of 2405 firms for which action has been initiated against erring firms by way of suspension/cancellation of their licenses.

The department is also working in close coordination with Narcotics Control Bureau to jointly unearth the miscreants who are indulged in the Illegal sale of Narcotic Drugs. Besides this the department has also been conducting Public Awareness Programs regularly along with the officials of Narcotic Control Bureau to spread the message related to the hazards related with the use of Habit Forming Drugs.

Further, this department has been keeping a watch on the activities of various traders who are indulged in the sale of such drugs falling under Schedule H & H1 category (especially Habit forming and dual use drugs). The Department also conducts special drives to check compliance of Drugs Rules, 1945 for the sale of prescription drugs (Schedule H & H1) especially falling under the category of Narcotic Drugs and Psychotropic Substances. Actions are also being taken under Drugs Rules, 1945 against those firms/offenders who violate the provisions of Drugs Rules, 1945. During the period of 01.04.2025 to 31.10.2025, the Department has taken action against 196 firms by way of suspension/cancellation of their licences and 6 FIRs have been launched under NCORD.

37. The Way Forward

Delhi's health power lies in its strong public health care system, especially at the core level i.e. primary health (Ayushman Arogya Mandir and primary health centres). It needs to be expanded to cover all marginalized communities in the national capital. Health facilities need to be continuously upgraded to meet the new and existing challenges. The gains made in health care need to be strengthened and sustained. Recognizing the importance of a resilient health sector and improved health outcomes for the national capital, in the years to come. The government will continue to fight major diseases and invest in healthcare infrastructure, services and staff to ensure high quality healthcare to all individuals.

CHAPTER AT A GLANCE

➢	**There are 40 Multispecialty and Super Specialty Hospitals, 98 Allopathic Dispensaries, 64 Seed Primary Urban Health Centres, 370 Ayushman Arogya Mandir, 48 Polyclinics, 57 Ayurvedic Dispensaries, 28 Unani Dispensaries, 121 Homeopathic Dispensaries, 16 Mobile Health Dispensaries, 06 Mobile Dental Vans and 36 School Health Clinics for providing preventive, promotive and curative health care services to the citizens of Delhi.**
➢	No. of medical institutions in Delhi has increased from 3711 in 2024-25 to 3878 in 2025-26 (upto 31/12/2025).
➢	Bed population ratio in Delhi in 2025-26 (upto 31/12/2025) has increased at 2.84.
➢	1253 Private health facilities are registered on ABDM and 102,06,962 citizens have been enrolled and their ABHA IDs have been created. On the ABDM portal 24118 Doctors and Nursing staff have been enrolled under HPR.
➢	745631 Ayushman Cards created under PMJAY, including 279765 PMVVY cards. 208 Hospitals empanelled under PMJAY (155 Private, 53 Government) as of 20.03.2026. 29120 patients treated successfully under PMJAY in empanelled hospitals and 22,817 claims payments initiated.
➢	Health Department has operationalised the **MedLEaPR portal**, which has been integrated with the **Crime and Criminal Tracking Network & Systems (CCTNS)** platform. At present, **519 hospitals (public and private)** have been onboarded on the portal.
➢	**53 new ambulances were added under the Centralized Accident and Trauma Services (CATS)**
➢	**926 Nursing Officers, 141 Paramedical staff and 127 Non-Teaching Specialists** have been recruited.
➢	**4478 posts have been created in respect of Medical, Nursing and Paramedical for the Hospitals**
➢	**29 Jan Aushadhi Kendras are operational** in Delhi.
➢	NIC Next Gen e-Hospital software started running with OPD Registration Service in Delhi Govt. Hospitals from 30.06.2025.
➢	In case of Delhi, both IMR & U5MR have been continuously decreasing and remained at around 14 & 16 respectively as per SRS.
➢	In Delhi Share of institutional deliveries are slightly increased in Delhi to 96.09% whereas proportion of birth attended by skilled health personnel are decreased to 96.74% in the year 2024.
➢	A total of 5200 beneficiaries were provided benefits under Janani Suraksha Yojana during 2024-25.
➢	A total of 216584 (198918 pregnant women and 17666 sick infants) were provided benefits under Janani Shishu Suraksha Karyakarm during 2024-25.
➢	100% of eligible children received Full Immunization coverage (all due vaccines given by the age of 1 year) in 2024-25. In absolute numbers 3,02,962 children have been fully immunized.
➢	43035 persons living with HIV (PLHIV) are under active care at 12 ART Centres in Delhi, out of which 2934 were newly registered during FY 2025-26.

➢	Estimated adult HIV prevalence (15-49 yr) is 0.30% with 59079 persons living with HIV, 2590 New HIV Infections per year and about 927 HIV related deaths in Delhi in 2024-25.
➢	A total of 7670 beneficiaries have been enrolled in the scheme cumulatively and out of them 6878 beneficiaries are active on PFMS and getting financial assistant to PLHIV/CLHIV.
➢	During the year 2025 (upto Nov, 2025) against the total calls of 504317, 425466 patients have been shifted by CATS.
➢	Govt. of NCT of Delhi has adopted zero tolerance towards pharmaceutical drug abuse and taking stringent action against defaulters. The department had collected 397 samples of drugs/cosmetics. Out of which, 15 samples were declared as not of standard quality by Govt. Analyst.

CHAPTER 17

SOCIAL WELFARE AND SECURITY

Social Welfare and Security are government and societal systems providing financial and social protection against life's risks like old age, unemployment, sickness, disability and maternity; ensuring a minimum standard of living through pensions, healthcare, and assistance programs for vulnerable groups, aiming for economic security and dignity. Social security and the economy have a complex relationship. Social security can help stabilize economies and stimulate economic growth, while economic growth can help fund social security benefits. In Constitution of India, the Directive Principles of State Policy lay down the norms of ideal governance for people's welfare and these norms have been required to be applied in making law by the State. The Article 41 specifies that State shall, within the limits of its economic capacity and development, make effective provision for securing the right to work, to education and to public assistance in cases of unemployment, old age, sickness and disablement, and in other cases of undeserved want. The ultimate objective is to increase social welfare and well-being of citizens.

1.1 The Delhi Government's comprehensive array of social welfare efforts focus on supporting Destitute Women, Senior citizens, Persons with Disabilities (PwDs), and other vulnerable groups through financial aid, education, vocational training, residential care etc.

1.2 In 2025, Government of NCT of Delhi has announced several significant women-centric, senior citizen-centric and other vulnerable groups reforms/ programs, some of which are under process of execution, focusing heavily on financial empowerment, healthcare access, safety and mobility.

2. In the spirit of Social Welfare, provided in the Directive Principles of State Policy, the Government of NCT of Delhi is implementing the schemes/ programmes through its Departments to ensure the welfare of weaker sections of the society, disadvantaged groups and physically challenged persons for better care and support. In this regard, the following departments play the important role to implement the various programmes on social welfare and security:

(i) The Women and Child Development Department deals with matters pertaining to the welfare of women and children.

(ii) The Department of Social Welfare implement welfare schemes/programmes to provide services to the Persons with Disabilities, social security for the aged (senior citizens) and destitute.

(iii) The Department for the Welfare of SC/ST/OBC is fully committed for socio-economic development of residents of Delhi belonging to SC/ST/OBC community.

Besides this, the Departments also provides avenues to the destitute women and people, Persons with Disabilities for their socio-economic upliftment and creates awareness amongst general public regarding the welfare measures of the Government. In order to achieve Government objectives, the Departments have decentralized there programmes for implementation for the social security of the citizens of Delhi.

3. Schemes and Programmes for Women and Child Development

3.1 Saksham Anganwadi and Poshan 2.0 Scheme (SA&P 2.0) (erstwhile Integrated Child Development Scheme):

This is a partially Centrally Sponsored Scheme launched on 2nd October 1975. At present, the ICDS Scheme represents one of the world's largest and most unique programmes for early childhood care, education and development. It is the foremost symbol of country's commitment to its children and nursing mothers, as a response to the challenge of providing pre-school non-formal education on one hand and breaking the vicious cycle of malnutrition, morbidity, reduced learning capacity and mortality on the other. The scheme provides six services namely Supplementary Nutrition, Immunization, Health checkup, Referral services, Early Childhood Care and Education and Nutrition & Health education, through 10897 Anganwadi centers. The cost sharing between Central Government and State Government is 50:50 for Supplementary Nutrition component and 60:40 for other than Nutrition Components. The beneficiaries under the scheme are children in age group of 0-6 years, pregnant women and lactating mothers.

3.2 The Integrated Child Development Scheme (ICDS) in Delhi has 95 projects with 10,897 Aanganwadi Centers, functioning in various parts of Delhi covering a population of approximately 6.67 lakh children, pregnant women and nursing mothers in year 2025-26 (up to January, 2026), who are economically deprived. In addition, Supplementary Nutrition (under ICDS) was given to approximately 5.97 lakh children and women in year 2025-26 (up to January, 2026),) through 10897 Aanganwadi Centers. At present, supplementary nutrition is provided at the rate of ₹8.00 per child, ₹9.50 per woman and ₹12.00 per malnourished child per day for about 300 days in a year (w.e.f. October 2018).

3.3 The Delhi Govt. has revised honorarium of Anganwadi Workers at the rate of ₹12,720/- per month and of Anganwadi Helpers at the rate of ₹6,810/- per month w.e.f. March, 2022.

Achievements:

i) Anganwadi centers serve as the core stone for community development. During the months of December 2025 & January 2026, 99.87% & 99.78% AWCs respectively have stayed operational for more than 21 days as per Poshan Tracker App (PTA).

ii) Early Childhood Care and Education is an integral component of Anganwadi services as adequate health care, nutrition, security, safety, responsive care giving and opportunities for early learning are recognized as essential for children to achieve their full human potential. Under ECCE, all 10897 Anganwadi centers in Delhi have been provided with 'Khel Pitara' – pre-education Kit developed by SCERT for children who attend the center.

iii) A new model for supply of Supplementary Nutrition to the Anganwadis has been implemented from 1st June 2023 onwards that includes Vitamin & mineral premix a 50% RDA level, fortified rice & oil, millets (Ragi / Bajra) and high protein ingredients such as pulses, skimmed milk powder, groundnut, soya powder/granules, sattu, etc.

iv) As on 31 January 2026 the number of beneficiaries increased by 5,964 covering a total of 6,67,966 beneficiaries under the scheme reflecting the department's continuous efforts towards expanding coverage and ensuring enhanced nutritional support to eligible beneficiaries.

v) Supply and Distribution of Fortified Milk Powder (Sachet-Based) under Supplementary Nutrition Programme (SNP) as an additional diet-State Scheme is being introduced for the first time in Delhi on a pilot basis in South and North West districts.

vi) Distribution system with POSHAN Tracker–linked beneficiary is being established, ensuring timely delivery, proper record-keeping and strengthened monitoring at all levels.

vii) The eKYC of all registered beneficiaries is 96% complete, Face capture +eKYC is 95% complete and Aadhaar Face Matching is also 95%complete, effectively covering all categories of beneficiaries including Children (0-6 years), Pregnant Women and Lactating Mother – for transparency and effective monitoring in distribution of both Take Home Ration (THR) and Hot Cooked Meal (HCM) recipients.

viii) A month wise ECCE calendar for the entire year was developed to ensure that all Anganwadi centres celebrate ECCE day uniformly on same theme on the 19thof every month. This provides an opportunity to strengthen community engagement, with active participation of parents and caregivers alongside Anganwadi Workers in fostering joyful, play-based early learning experiences.

ix) The Department has initiated the work of Aadhar Enrolment for children in the age group of 0-5 years and Mobile updation in their respective areas through certified Aadhar Operators (i.e. Supervisors/AWWs). 324 Candidates of DWCD (i.e Supervisors/AWWs) have successfully cleared the CELC Aadhar Certification Exam conducted by NSEIT UIDAI. Aadhar Tablets have been issued to 270 Aadhar Operators for Aadhar Enrolment and Mobile Number updation work, following the completion of the activation process and biometric authentication. The process of issuance of Aadhar Tablets to remaining certified AOs has been initiated.

x) As per UIDAI report for the month of July to November 2025, total 991 new Aadhar has been successfully generated in r/o children (0-5 years) &731 Mobile Number has been updatedthrough Aadhar Operators WCD.

xi) Co-location of AWCs:

Co-location of AWCs with primary schools promotes integrated service delivery for young children by ensuring continuity between early childhood care and formal education, This approach facilitates better utilization of infrastructure, enhances school readiness, and strengthens convergence between the education and nutrition sectors. It also fosters a smooth transition for children from pre-school to primary education, while encouraging closer collaboration between AWWs and school teachers, ultimately contributing to improved learning and developmental outcomes.As on (January, 2026), a total of 687AWCs have been co-located in government buildings.

Objectives of Co-Location

i. To ensure school preparedness and smooth transition of children from AWC to primary schools.
ii. To have better linkages and convergence between AWCs and primary school for providing joyful learning experiences and stimulating environment leading to holistic development of children.
iii. To ensure enhanced retention rate of children at primary level in order to pain higher achievement at different levels of learning

Best Practice-Early Childhood Care and Education (ECCE)

The Department of Women and Child Development, GNCTD, continues to strengthen early childhood care and education through structured, innovative, and community-driven initiatives. These best practices reflect a system-wide commitment to enhancing foundational learning, promoting holistic child development, and deepening family engagement across Anganwadi Centres. The initiatives outlined below demonstrate scalable, developmentally appropriate, and impactful approaches aligned with NEP 2020, NCF-FS 2022, and the Poshan Bhi Padhai Bhi initiative.

ECCE Days Celebrations

ECCE Days are celebrated on 19th of every month across all AWCs through theme-based, play-oriented activities that strengthen developmental domains and family engagement. Activities such as recycled-material Rangoli (October) and SEL-focused emotion cards (November) foster creativity, sustainability, and emotional literacy. These regular celebrations bring uniformity to ECCE practices, enhance holistic learning, and encourage active participation from parents and caregivers.

Poshan Maah 2025

Poshan Maah 2025 was observed across Delhi from 17 September to 16 October under Mission Poshan 2.0, focusing on improving nutrition, health awareness, and community engagement. Anganwadi Centres led widespread SBCC activities, daily monitoring through the Jan Andolan Dashboard, and intensive mobilization of families. A total of 193,643 activities were conducted across 11 districts, covering feeding practices, local foods, obesity prevention, ECCE integration, men's involvement, and digitization. The month strengthened nutrition behaviours and reinforced Delhi's commitment to a Suposhit Bharat.

Khel Pitara Kit: Strengthening Daily Play-Based Learning Across Anganwadi Centres

The Khel Pitara, introduced in 2023 across all AWCs, enhances daily play based learning through low-cost materials that support physical, cognitive, language, and socio-emotional development. Its regular use has enabled AWWs to adopt child-led, interactive pedagogy, resulting in improved engagement, curiosity, attention span, and peer bonding. The kit has helped create joyful, secure, and vibrant early learning environments.

Creation and Training of State-Level and District-Level Core Committees for ECCE

To strengthen ECCE implementation in Delhi, State and District Core Committees were constituted with officials from WCD Delhi including CDPO, Supervisors District Poshan officers, SCERT, DIETs, CDPOs, Supervisors, and Pratham. The

SLCC provides strategic direction, approvals, and quarterly reviews, while DLCCs lead district-level training, mentoring, and monitoring. Members underwent a structured 5-day ECCE training, 21-day practice, and refresher sessions, enabling them to serve as Master Trainers for system wide capacity building.

PALNA – Anganwadi cum Crèche Centre

PALNA- AWCCs is a component of Mission Shakti by the Ministry of Women and Child Development, is a significant initiative aimed at supporting working mothers by providing safe, reliable, and nurturing childcare facilities. The scheme promotes early childhood care, holistic development, and enhances women's participation in the workforce.

Delhi has achieved a major milestone with the successful operationalization of 502 AWCCs across all districts. These centres were formally dedicated to the women and children of Delhi on 18 September 2025 by the Hon'ble Union Minister of Women and Child Development and the Hon'ble Chief Minister of Delhi, marking a significant step in strengthening childcare infrastructure in the city.

The AWCCs are well-equipped with essential childcare infrastructure, including cradles, mattresses, toys, and learning materials, ensuring a safe and stimulating environment for children. Effective service delivery is ensured through regular monitoring by field functionaries such as CDPOs and Supervisors.

Further, capacity-building initiatives, supported by organizations like Mobile Creches, have enhanced the skills of field staff and strengthened the overall functioning of these centres.

Vidyarambh Certificate and testimonial

The department identified over 1200 children who will be awarded with the Vidyarambh Certificate for completing pre-school education. Also testimonials from around 100 parents were collected in total from the projects across Delhi.

ECCE Day Theme Calendar

The ECCE Day Theme Calendar provides a structured, year-long framework for implementing developmentally appropriate activities across AWCs. Covering themes such as national identity, foundational literacy and numeracy, cultural awareness, SEL, health and fitness, and inclusion, the calendar ensures consistency and pedagogical alignment. It supports AWWs in planning purposeful learning experiences and strengthens the integration of community, culture, and play-based pedagogy

Saheli Samanvay Kendra (SSK)

- Integrated Innovation for Women & Community Empowerment Delhi started with colocation of AWCs much earlier through setting up Saheli Samanvay Kendras

(SSKs). A hub-based Anganwadi model that consolidates 2-4 AWCs into larger, better-equipped centres and provides dedicated spaces, and multi-service delivery platforms and functions as a community convergence point for women and children.

Features of SSK:

1. Larger, well-ventilated rooms enabling proper ECCE learning environments
2. Space for community meetings, training, crèche services, and exhibitions.
3. Steady wi-fi access for smooth data reporting and uploading
4. Strengthened workforce pooling 2-3 Anganwadi Workers operate collaboratively.

Alternative Co-location Model over School:

1. Integrated Hub of Anganwadi Centers
2. Addresses Delhi's spatial constraints - easier to identify and develop hub spaces than find space within schools.
3. Ensures dedicated child-friendly areas for ECCE without competing for school infrastructure.
4. Offers multi-dimensional services beyond ECCE, unlike co-located centre

Key Pillars and services of SSK

1. Saheli Samvaad – Dialogue & Community Mobilization:

1. Regular discussions on health, nutrition, safety, gender, child protection, substance abuse, etc.
2. Supported by DSLSA, NGOs, and experts.
3. Over 15,134 Samvaads covering 2.21 lakh women & girls (Apr–Nov 2024).

2. Samriddhi – Skill Building & Economic Empowerment:

1. Partnership with DSEU for entrepreneurship training.
2. 17,200+ women mobilised; 1,420 trained; multiple SHGs formed.
3. Strong market linkages (Amazon, ONDC, Meesho, KVIC, etc.)

3. Single Window Help Desk:

1. Provides referrals to One Stop Centre, legal aid (DSLSA), shelters, government schemes, SHG support.
2. Acts as a one-stop access point for women's welfare and entitlements.

4. Chhaya Crèches – Childcare Support for Working Women:

1. 76 functional crèches within SSKs for children 6 months–6 years.
2. Ensures safe, hygienic environment with nutrition, rest facilities, early learning opportunities

3.4 Ladli Scheme

The Government of Delhi started the Ladli Scheme in January 2008. The main objective of this scheme is to promote the socio-economic development of the girl child by providing education- linked financial assistance. Eligibility conditions are that the girl child must be born in Delhi, her parents must be resident of Delhi for at least three years prior to filling the application and the annual family income should not exceed ₹1.00 lakh per annum. The amount of financial assistance at different stages is as under:

- Under this scheme, ₹11,000/- are deposited in the name of the girl child if she is born in a hospital/ nursing home in NCT of Delhi on or after 1st January 2008 and ₹10,000/- if she is born at home or other than hospital/nursing home.

- ₹5,000/- is deposited in the name of the girl child on admission in classes I, VI, IX, on passing class X and on admission in class XII.

- The total contribution/deposit is made to ₹36,000/- in case of a birth in the hospital and ₹35,000/- in case of birth other than hospital subject to taking admission in all prescribed classes.

- The maturity amount can be claimed when the girl child attains 18 years of age and passes Class X or having attended school up to Class XII.

- Around 14.0 lakh girls have so far been registered up to February 2026, under the scheme of which 4,36,600 girls have already received the final maturity value of ₹865.31crore (2009-10 to February 2026)

- In 2022-23, No. of enrollment are 64,408 No. of renewals are 1,05,288 and maturity paid to 31,783 girls.

- In 2023-24, No. of enrollment are 72,425; No. of renewals are 89,946 and maturity paid to 37,866 girls.

- In 2024-25, No. of enrollment are 35,176; No. of renewals are 65,459 and maturity paid to 48,014 girls.

- In 2025-2026 (Up to February 2026), No. of new enrollment is 40,873, Number of Renewals is 77,729 and maturity paid to 13,868 Girls.

Year wise Financial Provision of Contribution i.e. budget allocation and expenditure under Ladli scheme since 2008-09 is given in Statement 17.1:

STATEMENT 17.1

3.5 Child Rights Commission

The Commission for Protection of Child Rights Act, 2005 came into force in the year 2006. The commission for Protection of Child Rights Act, 2005, provides for constitution of State Commission and Children's Courts for providing a speedy trial of offences against children or violation of child rights & for matters connected therewith or incidental thereto. Accordingly, the Delhi Commission for Protection of Child Rights was constituted in September 2008. The Commission deals with the issues related to children education, children with disabilities, children in distress, children psychology and laws relating to children.

3.6 Child Welfare Committees

The Juvenile Justice (Care and Protection of Children) Act, 2015; makes it mandatory to establish at least one Child Welfare Committee (CWC) in each district as the authority to dispose of cases for the care, protection, treatment, development and rehabilitation of children in need of care & protection and to provide for their basic needs and protection of human rights. The Composition and functioning of the CWC is in accordance with the Juvenile Justice (Care and Protection of Children) Act, 2015; and Rules therefore. Pursuant to this, 10 CWC has been established in Delhi. Mission Vatsalya Scheme provides infrastructure and financial support to the States/UTs for facilitating setting up of CWC in every district and to ensure their effective functioning. The Child Welfare Committees perform functions and Roles as laid down in Juvenile Justice Act/Rules as amended from time to time. Travelling/meeting allowance or honorarium for Chairperson, and four members of the Committee is supported under the scheme.

3.7 Juvenile Justice Board

The Juvenile Justice (Care and Protection of Children) Act, 2015; makes it mandatory to establish at least one Juvenile Justice Board (JJB) in each district as the authority to dispose of matters related to Children in conflict with law. The composition and functioning of the JJB is be in accordance with the Juvenile Justice (Care and Protection of Children) Act, 2015. Pursuant to this, 7 JJB have been established in Delhi.

Mission Vatsalya Scheme provides infrastructure and financial support to the States/UTs for facilitating the setting up of JJB in every district and to ensure their effective functioning. The Juvenile Justice Board perform functions and Roles as laid down in Juvenile Justice Act/Rules as amended from time to time. JJB hold its sitting in the premises of an Observation Home. Travelling/meeting allowance or honorarium for two social worker members of the Board is supported under the Mission Vatsalya Scheme. Where an existing Observation Home has the required space available within the premises, the same shall be provided to the Board. However, in districts where there is no Observation Home or the existing Observation Home has no space for the JJB, funds will be provided under the mission for constructing or renting suitable premises for the JJB. The board shall hold its sittings in one room while the other room should be used as the waiting area for children and their families. The committee room where the board holds its sittings shall have a child-friendly environment. Necessary furniture, computer and other basic equipment shall be made available. The waiting area should have provisions for toilet and drinking water along with indoor recreation facilities for children. The Observation Home where the JJB holds its proceedings shall provide support of counsellor and peon to the JJB on those days when the sitting is taking place. DCPU will also provide legal and counselling support where necessary.

3.8 Child Care Institutions (Run by Govt. and NGOs)

The Department of Women and Child Development has set up 30 Child Care Institutions and 02 After Care Homes (01 for Boys & 01 for Girls) under the various provisions of Juvenile Justice (Care and protection of Children) Act, 2015 to cater the children in need of care and protection and also the juveniles in conflict with the law. These institutions include;

- 04 Observation homes for boys.
- 01 Observation home for girls.
- 01 Place of safety for boys
- 01 Place of safety for girls
- 01 Special home for boys.
- 01 Specialized Adoption Agency

- 21 Children homes for Boys & Girls
- 02 After Care Home for Boys & Girls

Apart from the above, there are 60 NGOs which are also running Child Care Institutions in Delhi, which includes Children Home for Boys and Girls, Specialized Adoption Agencies, Open Shelter and Fit Facility in Delhi registered under Juvenile Justice (Care and Protection of Children) Act, 2015.

3.9 Mission Vatsalya (Centrally Sponsored Scheme)

The Ministry of Women & Child Development, GoI is the nodal Ministry for ensuring welfare of children. This is envisaged to be accomplished by way of legislation, policy& schematic interventions along with coordination with other Ministries and Organizations. The National Children Policy, (as revised in 2013), and the National Plan of Action for Children, 2016 lays down the policy framework for child welfare and protection. The Indian Parliament has passed several landmark legislations in favor of children like the Juvenile Justice (Care and Protection of Children) Act 2015, the Protection of Children from Sexual Offences Act 2012, the Commissions for Protection of Child Rights Act, 2005, the Prohibition of Child Marriage Act, 2006 and the Right to Education Act 2009. India is also a signatory to important international treaties i.e., the United Nations Convention on Rights of Child and the Hague convention on Adoption of children which mandate systemic development and strengthening of juvenile justice system in the country. Mission Vatsalya is a roadmap to achieve development and child protection priorities aligned with the Sustainable Development Goals (SDGs).It lays emphasis on child rights, advocacy and awareness along with strengthening of the juvenile justice care and protection system with the motto to 'leave no child behind'. The Juvenile Justice (Care and Protection of Children) Act, 2015 provisions and the Protection of Children from Sexual Offences Act, 2012 form the basic framework for implementation of the Mission. Prior to 2009-10, there were three schemes being implemented under the Ministry namely, i) Programme for Juvenile Justice for Children in need of care and protection, and Children in conflict with Law; ii) Integrated Programme for street children; and iii) Scheme for assistance to homes for children (Shishu Greh). All the three schemes were incorporated in a single centrally sponsored scheme called the Integrated Child Protection Scheme (ICPS). The ICPS was implemented by the Ministry since 2009-2010. The scheme was then renamed as “Child Protection Services” Scheme in 2017. The CPS Scheme has been now subsumed under Mission Vatsalya from 2021-22 onwards

3.9.1 The Key Objectives of Mission Vatsalya are:

(i) Prioritization of children in the scheme of Administration keeping Centrality of the Child during all the activities and actions taken under the Mission.

(ii) Best interest of the Child while designing or delivering projects and programmes and to take affirmative action to ensure right to grow in happy family environment with strong social safety net to support families.

(iii) Ensuring Children's right to Survival, Development, Protection and Participation.

(iv) To establish essential services and strengthen emergency outreach, non-institutional care within the family and community, and institutional care counseling and support services at the national, regional, state and district levels.

(v) To ensure appropriate inter-sector response at all levels, coordinate and network with all allied systems to promote convergent efforts for seamless service delivery to children.

(vi) To strengthen child protection at family and community level, equip families and communities to identify risks and vulnerabilities affecting children, create and promote preventive measures to protect children from situations of vulnerability, risk and abuse.

(vii) Encourage private sector partnerships and interventions to support children within the framework of law.

(viii) To build capacities of duty holders & service providers at all levels

(ix) Raise public awareness, educate public about child rights, vulnerabilities and measures for protection sponsored by government and engage community at all levels as stakeholder in ensuring the best interest of children.

(x) To built capacity of duty holders and service providers at all levels.

(xi) Monitor progress on objective parameters against well-defined Outputs and Outcomes, and

(xii) Participation of Panchayats and Municipal Local Bodies at the village level and at the ward and the urban cluster level within the urban municipal ward, for sustained assessment of the issues deserving attention,

implementation of appropriate interventions, regular monitoring to develop a robust social safety net for children. Mission Vatsalya implemented as a centrally sponsored scheme as per prescribed cost sharing ratio between the Centre and State/UT Governments.

3.10 Scheme for Financial Sustenance, Education & Welfare of Children of Incarcerated Parents

The Govt. of NCT Delhi notified the scheme namely: "Scheme for Financial Sustenance, Education & Welfare of Children of Incarcerated Parents" in August 2014. Under this scheme financial assistance is given in the form of monthly payment to the child whose only surviving parent or both parents is/are in jail. The Quantum of financial assistance to a child shall be fixed as ₹3500/- for the first child, additional ₹3000/- for the second child (in case of 03 or more children, the maximum amount of ₹6500/- shall be utilized for the welfare of all children) till he/she attains the age of 18 years or parents are released from incarceration whichever is earlier. However, in case a child is placed with a fit institution, then such a child will not be entitled to receive additional financial assistance.

The details regarding the allocation of fund, expenditure incurred and beneficiaries covered under said scheme during 2015-16 to 2025-26 is presented in Statement 17.4

2025-26 (Upto Feb. 2026)	11.00	8.62	2876

3.12.1 **Achievements:**

The scheme has successfully benefited 2876 individuals, providing much-needed assistance to women and girls in need. The total expenditure (FY 2025-26 till February 2026) on the scheme has amounted to ₹8.62 crore, reflecting a strong investment in the social security and welfare of women from marginalized communities. This demonstrates the scheme's commitment to ensuring that the daughters of poor and widowed women, as well as orphan girls, do not face barriers to marriage due to financial limitations. Further, sanctions have been generated for a total of 12,644 beneficiaries as on 28.02.2026 under the 'Widow Daughter Marriage Scheme' since its rollout on the e-District portal.

The initiative plays a vital role in empowering women and girls, enabling them to transition to a stable and secure phase in their lives through marriage without facing financial distress/difficulties

3.13 Delhi Pension Scheme to Women in Distress

- To provide social security by way of financial assistance to the Widows, Divorced, Separated, Abandoned, deserted or Destitute women in the age group of 18 years to life long who have no adequate means of subsistence and are poor, needy and vulnerable.
- The assistance of ₹ 2500/- is remitted on monthly basis to the bank account of the beneficiary through Aadhar based payment system (PFMS Portal/DBT).

Eligibility Criteria for the Scheme: -

- The applicant should be residing in Delhi for more than 5 years preceding the date of application.
- She has a 'singly- operated' account in any bank for receiving the payment through Aadhar based payment system (PFMS Portal/DBT).
- The applicants shall have to furnish Aadhar number and Aadhar seeded account shall be a must for transfer of benefit.
- She is not receiving any pension from Central Govt./State Govt./MCD and/or NDMC or any other source for this purpose.
- The applicant's annual income does not exceed ₹1,00,000/- (₹ One Lakh).

The details regarding the allocation of fund, expenditure incurred and beneficiaries covered under said scheme during 2018-19 to 2025-26 is presented in Statement 17.6:

3.14 Indira Gandhi National Widow Pension Scheme (IGNWPS) (NSAP).

This scheme is a 100% Centrally Sponsored Scheme (CSS). A total of 36,361 beneficiaries are covered under the scheme, as capped by the Ministry of Rural Development (MoRD), Government of India. Under the scheme, the Ministry of Rural Development provides financial assistance of ₹300/- per month to each beneficiary aged between 40 to 79 years. Upon attaining the age of 80 years, the central assistance increases to ₹500/- per month.

In addition to the central share, the Government of NCT of Delhi contributes ₹2,200/- per month for beneficiaries aged 40–79 years, and ₹2,000/- per month for beneficiaries aged 80 years and above, from the State Budget. Thus, a total assistance of ₹2,500/- per month (i.e., ₹300/- Central + ₹2,200/- State or ₹500/- Central + ₹2,000/- State) is credited directly to the beneficiary's bank account through the Aadhaar-based Direct Benefit Transfer (DBT) mechanism via the Public Financial Management System (PFMS) portal.

3.14.1 Objective(s) of the Scheme:

National Social Assistance Programme is a social security and welfare programme to provide support to aged person, widow, disabled persons, and

bereaved families on death of primary breadwinner, belonging to below poverty line households.

In providing social assistance benefits to poor households in the case of old age, death of the breadwinner and maternity, the NSAP aims at ensuring minimum national standards, in addition to the benefits that the States are currently providing or might provide in future. It also aims to ensure that social protection to the beneficiaries everywhere in the country is uniformly available without interruption.

3.14.2 Achievements:

A total of 33,368 beneficiaries were covered and an amount of ₹ 13.50/- crore was disbursed under the "'Indira Gandhi National Widow Pension Scheme" upto January 2026.

3.15 Working Women Hostels

The Department has set up Working Women Hostel (WWH) at different location in NCT of Delhi for providing safe and affordable place for working women and young girls. In addition to this, department has planned to setup/construct more new working women hostel at various location in Delhi for which land is available (i.e. Dwarka. Tugalaqabad, Pitampura, Dilshad Garden, Vasant Village, Janakpuri). There are 14 WWH (14 WWH already in place and run by Trust/NGO/NDMC/ Hospital/University and 2 WWH of DWCD is also in the process of operationlization at Vishwas Nagar and Rohini) with the capacity of 2429 women. In the financial year 2025-26 the total occupancy of WWH was around 1964 women till December, 2025.

3.16 Protection of Women from Domestic Violence Act 2005

The Women and Child Development Department is the Nodal Department for the Implementation of the provision under the 'Protection of Women from Domestic Violence Act 2005'. This Act has come into force w.e.f. 26.10.2006 with the aim to provide more effective protection of the rights of women who are the victims of violence of any kind occurring within the family. Domestic violence, under the act, includes actual abuse or harassment by way of unlawful dowry demand to the women victim or her relatives. The Department has appointed 15 Protection Officers to represent each district of Delhi for the implementation of the said Act. The Domestic Incident Report (DIRs) handled by Protection Officers during 2022-23 to 2025-26 are as under:

Financial Year 2022-23 - 7696
Financial Year 2023-24 - 7759
Financial Year 2024-25 - 7836
Financial Year 2025-26 - 5586 (till 3nd quarter)

3.17 Shelter Homes for Pregnant and Lactating (Destitute) Mother

The department has set up two shelter homes at Sarai Rohilla and Jahangir Puri exclusively for destitute women who are pregnant and lactating women. The women are being provided free boarding and lodging, medical care especially, pre-natal and postnatal care. The capacity of these homes is 14 inmates (Sarai Rohilla) and 10 inmates (Jahangir Puri). From FY 2022-23 to FY 2025-26 following number of inmates were facilitated through the said Shelter Homes:

F. Y. 2022-23 - 58 (30 women + 28 children)
F. Y. 2023-24 - 82 (44 women + 38 children)
F. Y. 2024-25 - 55 (27 women + 28 children)
F. Y. 2025-26 - 92 (59 women + 33 Children) till January 2026

3.18 Shakti Sadan Scheme (CSS)

Shakti Sadan scheme is a sub-scheme of the Centrally Sponsored Umbrella scheme "Protection & Empowerment of Women". The main objective of the Scheme “Shakti Sadan” aims at:

- Catering primary need of shelter, food, clothing, medical treatment and care of the women in distress and who are without any social and economic support.
- To enable them to regain their emotional strength that gets hampered due to their encounter with unfortunate circumstances.
- To provide them with legal aid and guidance to enable them to take steps for their readjustment in family/society.
- To rehabilitate them economically and emotionally.
- To act as a support system that understands and meets various requirements of women in distress.
- To enable them to start their life afresh with dignity and conviction

These Homes are (i) Bapnu Ghar run by All India Women Conference and (ii) Snehalaya run by Mahila Dakshata Samiti. The capacity of the Shakti Sadanis to house 30 inmates of each home.

The beneficiaries include widows, deserted by their families and relatives, women prisoners released from jail and without family support, women survivors of natural disasters, women victims of terrorist/extremist violence and similarly placed women in difficult circumstances, who do not have any family support and without any economic means of survival. The scheme provides shelter, food, clothing, counseling, medical and legal aid and care to such women. The Govt of India is providing 100% fund to these homes through Delhi Govt. During past two years following number of individuals were collectively admitted in said Shakti Sadan:

F. Y. 2021-22 - 145 (114 women + 31 children)
F. Y. 2022-23 - 290 (224 women + 66 children)
F. Y. 2024-25 - 462 (403 women + 59 children)
F. Y. 2025-26 - 427 (358 women + 69 children) till January, 2026

3.19 Pradhan Mantri Matru Vandana Yojana (PMMVY) - A Maternity Benefit Scheme

The Government of India is implementing the Pradhan Mantri Matru Vandana Yojana (PMMVY) with effect from 1st January 2017. The PMMVY Scheme is being implemented as per provisions under Section 4 of the National Food Security Act (NFSA), 2013 which provides for financial support for pregnant and lactating mothers is to improve the health and nutrition for mother and child as well as compensation for wage loss, if any.

3.19.1 **Objectives:**

- The objective of the scheme is to provide cash incentive for partial compensation for the wage loss so that the woman can take adequate rest before and after delivery of the first child.

- To improve health seeking behavior amongst Pregnant Women & Lactating Mothers (PW&LM).

- The scheme also seeks to promote positive behavioral change towards girl child by providing additional cash incentive for the second girl child

- **The criteria for determining socially and economically disadvantaged sections of society is as follows for which following Documents required:**

i. Women belonging to scheduled castes and scheduled tribes;

ii. Women who are partially (40%) or fully disabled (Divyang Jan)

iii. Women holder of BPL rations Card

iv. Women Beneficiaries under Pradhan Mantri Jan Aarogya Yojana (PMJAY) under Ayushman Bharat.

v. Women holding E-Shram card

vi. Women farmers who are beneficiaries under Kisan Samman Nidhi

vii. Women holding MGNREGA Job Card

viii. Women whose net family income is less than ₹8 Lakh per annum

ix. Pregnant and Lactating AWWs/ AWHs/ ASHAs

x. Ration Card

xi. Any other category as may be prescribed by the Central Government

3.19.2 Target beneficiaries:

The PMMVY scheme aims to provide benefit to Pregnant Women (PW) and Lactating Mothers (LM) for first two living children provided the second child is a girl. However, those who are in receipt of similar benefits under any law for the time being in force shall not be entitled to benefits under this scheme.

Pregnant and Lactating AWWs/ AWHs/ ASHA may also avail the benefits under the PMMVY subject to fulfillment of scheme conditionality.

3.19.3 Benefits: Eligibility Criteria

S.No.	Order of Birth	Conditions
1.	First child	• On registration of pregnancy - 1st installment of ₹3000/- is given. • On registration of birth and completion of first cycle of immunization-2nd installment of ₹ 2000/- is given.
2.	Second child	Provided second child is a girl child – one Installment of ₹ 6000/- is given.

In case of miscarriage/still birth, the beneficiary would be treated as fresh beneficiary in event of any future pregnancy.

The funds to the beneficiaries under PMMVY will be transferred directly to their Bank/Post Office account in Direct Benefit Transfer Mode. An eligible beneficiary can apply, at any point of time but not later than 730 days of pregnancy. LMP registered in the MCP card will be the date of pregnancy to be considered in this respect. If a beneficiary delivers twins/ triplet/ quadruplet in her second pregnancy, with one or more children being girl, then she will be receiving incentive for second girl child as per the PMMVY 2.0 norms.

3.19.4 **Current Status**

In the current financial year 2025–26 (as on 24.02.2026), against the indicative target of 89,000 beneficiaries, a total of 92,670 beneficiaries have been entered on the portal. Out of these, 81,767 beneficiaries have been successfully enrolled under the scheme. Further, a total of 1,10,597 installments have been disbursed to beneficiaries, with a cumulative amount of Rs. 34.43 crore released.

3.20 Mission POSHAN 2.0 (CSS)

Saksham Anganwadi and Poshan 2.0 is an Integrated Nutrition Support Programme. It seeks to address the challenges of malnutrition in children, adolescent girls, pregnant women and lactating mothers through a strategic shift in nutrition content and delivery and by creation of a convergent eco system to develop and promote practices that nurture health, wellness and immunity.

3.20.1 Mission Poshan 2.0 brings together the Integrated Child Development Services (ICDS)-Anganwadi Services, Supplementary Nutrition Programme, Poshan Abhiyaan, and National Creche Scheme.

3.20.2 Poshan 2.0 focuses on Maternal Nutrition, Infant and Young Child Feeding Norms, Treatment Protocols for SAM/MAM and Wellness to reduce wasting and under-weight prevalence besides stunting and anemia, supported by the ‘Poshan Tracker’, a new, robust ICT centralized data system.

3.20.3 The POSHAN Abhiyan intends to achieve its goals by focusing on the capacity building of field functionaries on nutrition counseling of pregnant women and mothers of children up to 6 years of age; community mobilization and behavior change communication; providing performance-based incentives for community nutrition and health to facilitate better outreach to beneficiaries during the critical 1000 day window for nutrition impact.

3.20.4 All 10897 functional AWCs are registered on Poshan Tracker App. An approximate total of 6.73 lakh beneficiaries (including 57306 pregnant mothers, 66715 Lactating mothers, 549954 children in 0-6 year) have been registered on Poshan Tracker and total of 99.98% beneficiaries are Aadhar verified and approximate 96.83% are mobile verified on Poshan Tracker as on 25/02/2026.

3.21 181' Women in Distress Helpline (Mission Shakti):

181 Women Helpline is intended to provide 24 hours immediate and emergency response to women effected by violence both in Private and public spaces. It is a toll free telecom service to facilitate crisis and non-crisis intervention through communication by phone, referral, guidance and counsel.181 Women in Distress Helpline was taken over from Delhi Commission for Women to Department of Women and Child Development vide order dated 01.07.2024. A total of 224729and 253704 phone calls have been dealt by WCD Department on 181' Women Helpline during FY 2024-2025 and CFY 2025-26 (up to January, 2026) respectively.

3.22 One Stop Centre

Ministry of Women and Child Development (MWCD), GOI has formulated a Centrally Sponsored Scheme for setting up of Sakhi-One Stop Centre in each district. It is 100% funded by GOI for Union Territories. These Centers will be established across the country to provide integrated support and assistance under one roof to women affected by violence, both in private and public spaces under monitoring jurisdiction of DMs/DCs.

The objective of Sakhi-One Stop Centre in each district is to provide five essential facilities to the aggrieved women/women affected by violence.

Following services are provided to the women beneficiaries under Sakhi One Stop Centre-

(i) Psycho-social counseling,
(ii) Legal assistance,
(iii) Police facilitation,
(iv) Medical care and
(v) Five bedded temporary shelter under one roof.

In NCT of Delhi, 11 Sakhi OSCs have been set up one in each district and all the Sakhi Centres were made functional in the month of November and December, 2019. The funds are provided directly in a separate bank accounts operated by O/o DMs/DCs.

List of Sakhi – OSC Centres in NCT of Delhi

	Total	**29074**	**429633**

Good Practices:Delhi SSK

SSK as Supplementary Model for Co-location with Schools:

Delhi pioneered the co-location of Anganwadi Centers through establishment of SSKs wherein anganwadi centers are housed within a larger, dedicated community facility rather than within school premises.

Advantages –

- Addresses Delhi's spatial constraints—easier to identify and develop hub spaces than find space within schools.
- Services provided within the community without children having to travel distance
- Ensures dedicated child-friendly areas for ECCE without competing for school infrastructure.
- Allows extended operating hours, not possible within school premises.
- Offers multi-dimensional services beyond ECCE, unlike collocated centre
- Caters to the multiple needs of women & adolescent girls - better community connect.
- Creche services are integrated within SSK.

This model offers a viable and scalable supplementary model to school-based co-location for places where co-location within school premise is not feasible.

3.24 SSK- Anganwadi Chhaya Centre

To support women's participation in the work force for their economic empowerment, day care cum crèche services are provided either through the SSKs or by getting such children enrolled in the nearby crèche being run by the government. This will not only allow the mother to go out for work but also ensure that her children are in an environment that is safe and hygienic, they are well cared for, well fed and engaged productively.

A detailed mapping exercise matching the demands and supply for Creches/ daycare facilities for working women was undertaken. 100% mapping of existing creches being run by the department and which were underutilized were done with shifting of locations to link them with existing SSKs so as to give them greater visibility and improve their utilization.Saheli Samanvaya Kendras have been set up all over Delhi by the Department to serve as Convergence cum Facilitation Centre for Women and Girls.

3.25 Beti Bachao Beti Padhao Scheme (BBBP)

The BBBP scheme was launched on 22nd January, 2015 as a tri-ministerial effort of the Ministry of Women & Child Development, Ministry of Education and Ministry of Health and Family Welfare. Now, the Ministry of Skill Development and Entrepreneurship and Ministry of Minority Affairs have also been added as partners with a view to undertake special drive and awareness programme for promoting higher education and skill development among girls. To increase girls participation in the fields of sports, appropriate programme would be developed to identify sporting talent among girls and link them with appropriate authorities under "Khelo India" or any other schemes/ programme of Central/ State Governments for enhancing their skills. The component of BBBP will cover all the districts of the country through multi-sectoral interventions, and it was operational in 405 districts earlier. The component will aim for zero-budget advertising and encouraging greater spend on activities that have on ground impact, e.g. for promoting sports among girls, self-defense camps, construction of girls toilets, making available sanitary napkin vending machines and sanitary pads especially in educational institutions, awareness about PC-PNDT Act etc.

Primary	• Young and newly married couples and expecting parents, • Adolescents (girls and boys) and youth, • Households and communities
Secondary	• Schools and AWCs, • Medical doctors/ practitioners, private hospitals, nursing homes, diagnostic centers etc. • Officials, PRIs/ULBs, frontline workers, • Women Collectives and SHGs, civil society organizations, media, industry, religious leaders etc.

BBBP scheme aims to achieve the following:

1. Improvement in the Sex Ratio at Birth (SRB) by 2 points every year,
2. Improvement in the percentage of institutional deliveries or sustained at the rate of 95% or above,
3. 1% increase in 1st Trimester ANC Registration per year, and
4. 1% increase in enrolment at secondary education level and skilling of girls/women per year.
5. To check dropout rate among girls at secondary and higher secondary levels.
6. Raising awareness about safe menstrual hygiene management (MHM).

Activities under BBBP Scheme carried out by offices of District Magistrates in 2025-26:

1. **District-Level Awareness Campaigns**: Organization of rallies, seminars, and workshops on prevention of gender-biased sex selection. Community outreach programmes promoting the value of the girl child.

2. **IEC Activities**: Display of hoardings, posters, and banners in public places. Dissemination of messages through print, electronic, and social media platforms.

3. **Celebration of National Girl Child Day / Relevant Events:** Conduct of district-level events highlighting achievements of girls. Felicitation of meritorious girl students and women achievers.

4. **Convergence Meetings**: Regular review meetings with line departments (Health, Education, WCD, Police). Monitoring of implementation of PC&PNDT Act and related provisions.

5. **School & Community Engagement**: Awareness sessions in schools on gender equality and girls' education. Formation/activation of community groups to promote enrolment and retention of girls in schools.

6. **Monitoring & Review:** Review of sex ratio at birth (SRB) data and identification of low-performing areas.Field inspections and follow-up actions.

7. **Capacity Building:** Orientation and training programmes for frontline functionaries and stakeholders.

These activities are undertaken in convergence mode to ensure effective implementation of the BBBP Scheme at the district level during FY 2025–26.

Total 489 and 8793 number of activities conducted in FY 2023-2024 and 2024-25 resp. under BBBP Scheme of Mission Shakti.1955 number of activities conducted in CFY 2025-2026 till January, 2026.

4. WELFARE PROGRAMMES FOR SENIOR CITIZENS, DIFFERENTLY-ABLED AND VULNERABLE PERSONS.

4.1 Policy for Senior Citizens

4.1.1 The Government of Delhi brought out a 'policy for senior citizens' in 2006 for providing social security to citizens above 60 years of age by providing old age pension. The policy envisages ensuring the welfare of senior citizens and improving the quality of their lives. It aims at providing assistance to enable them to cope with the problems of old age. It also proposes affirmative action by the Government Departments in collaboration with civil society for ensuring that the existing public services for senior citizens are made more users friendly and sensitive to the needs of senior citizens. The government of Delhi would also have a public education mechanism to prepare people for old age in order to ensure that they are able to live gracefully and remain financially secure in their later years.

4.2 Financial assistance to Senior Citizens (Old Age Pension)

4.2.1 This scheme is being implemented by the Department of Social Welfare. Applications under the scheme are made online on E-District portal. Under this scheme, financial assistance is remitted on monthly basis in the saving accounts of the beneficiaries maintained in the Bank, as per the Aadhaar number or account umber of the beneficiary through PFMS portal. The Delhi resident of five years with proof, the age of 60 years & above and having a family (applicant &

spouse) income not more than 1, 00,000/- per annum are eligible. The applicant must have a valid ID proof as listed in the notification. The Quantum of financial resistance to senior citizens having age of 70 years and above is 2500/- per month. For senior citizens having age between 60-69 years, it is 2000/- per month. Additional assistance of Rs. 500/- per month is provided to the beneficiaries of SC/ST/Minorities category (age between 60-69 years) besides the usual pension on the production of relevant documents. This rate is effective from February 2017 (earlier, it was 1500/- and 1000/- p.m.).

4.2.2 The details regarding the allocation of fund, expenditure incurred and beneficiaries covered under the scheme "Pension to a Senior Citizen" in Delhi during the period 2012-2013 to 2025-2026 (till Mar. 2026) is presented in the statement 17.7.

4.3 Old Age Homes

Old Age Homes have been established by the Department of Social Welfare to

provide shelter to the Senior Citizens who do not have adequate support system to survive. The objective behind Old Age Homes is to provide safe and sanitary shelter, health services, recreation and dignity of life to indigent senior citizens who have no one to look after them, as per Section 19 of the MWPSC Act 2007 and as per schedule of Rule 20 of Delhi MWPSC (Amendment) Rules, 2010. The Department is running 4 Old Age Homes at Bindapur, Wazirpur, Tahirpur, Paschim Vihar.

4.3.1 The following services are provided at the old age homes

a. Lodging/boarding, clothing and bedding facilities
b. Case work and counseling services
c. Medical care of the inmates
d. T.V., radio and religious discourses/Bhajan kirtan programmes
e. Helpers to assist the bed ridden or incapacitated inmates to perform their daily needs.

4.3.2 The Old Age Homes are open for:

a) Who are in the age group of 60 years and above.
b) Who have none to support or maintain them
c) Who are not suffering from any infectious/communicable diseases.
d) Who are residents of Union Territory of Delhi.

4.4. Recreation centre for Senior Citizens

- In keeping with changing times and needs of senior citizens, a new set of guidelines have been drafted and the scheme has been proposed for notification of Recreation Centres for Sr. Citizens. The new guidelines also bring opportunity to introduce new recreation centers in Delhi.
- The notification of scheme of Recreation Centre for the Senior Citizens is under process.

4.5 Maintenance Tribunal

- Under the Maintenance and Welfare of Parents and Senior Citizens Act, 2007, and Delhi Maintenance and Welfare of Parents and Senior Citizens Rules, 2010, One Maintenance Tribunal and One Appellate Tribunal has been established in each district of Delhi.
- The objective behind setting up these Tribunals is to create awareness of legal provisions for senior citizens about maintenance and property rights. The Department appoints non-official members of these tribunals and provides sitting allowance to them.

5. Welfare of Persons with Disabilities

5.1 The Constitution of India ensures equality, freedom, justice and dignity to all individuals and implicitly mandates an inclusive society for all, including persons with disabilities. The Department of Social Welfare is the nodal department in GNCT of Delhi for the Welfare of Differently Abled Persons and believes in the fact “Help the Differently Abled Persons to help themselves”.

5.2 The Delhi Govt. through its various initiatives and programmes is rendering full support to the Differently Abled Persons, so that they can live with full participation and have equal involvement in every aspect of society. With the coming of new Right of Person with Disabilities Act 2016, replacing the previous Act of 1995 has under the horizon of Welfare of Person with Disabilities, included 21 types of Disabilities which was 07 in previous Act of 1995.

5.3 For the Welfare of Persons with Disabilities, the Department of Social Welfare, GNCTD is running homes:

- 7 Homes for Persons with Intellectual Disability
- 1 Hostel for College Going Blind Students (Male)
- 1 Hostel for College Going Visually Impaired Girls
- 1 Training cum production center
- 1 Sheltered workshop for differently-Abled persons

5.4 Sugamya Sahayak Scheme (Facilitating Mobility & Empowerment of Persons with Benchmark Disabilities) - This Scheme was launched by Department of Social Welfare, Govt. of NCT of Delhi on 23rd January 2024.

- Under this Scheme, durable and standardized assistive device are provided to Persons with Benchmark Disabilities including motorized tricycles, wheelchairs, hearing aids, crutches, calipers, walkers, and smartphones for visually impaired persons etc—are distributed free of cost. To implement the scheme Department organize the assessment and distribution camp through all DSWOs.

- During the assessment camps specialists from ALIMCO assess the Persons with Disabilities and prescribe the required Aid and Appliances. Thereafter payment is made to ALIMCO as per the MoU (dated 28.02.2024) and make the devices available through distribution camps to the assessed beneficiaries.

5.5 National Programme for Rehabilitation of Person with Disabilities (NPRPD): Under the scheme “National Programme for Rehabilitation of Person with

Disabilities (NPRPD)" two types of camps i.e., General Disability Camps and Special Disability Camps are organized by Department of Social Welfare in all districts of Delhi. General Disability Camps are organized in coordination with other Govt. agencies in every district in which Persons with Disabilities are provided with the facility of Disability Certificate, DTC Passes, ID Card by the office of Dy. Commissioner, Registration in Integrated School Railway Concession Pass etc. Special Camps are also organized to provide free Aid and Appliances to the disabled persons.

5.6 The information regarding allocation of fund, expenditure incurred, camps held and beneficiaries covered under the welfare program for persons with disabilities in Delhi during 2014-15 to 2025-26 (till Mar. 2026) is presented in statement 17.8:

8. The Welfare of Leprosy Affected Persons

The Department of Social Welfare implemented the scheme of rehabilitation for leprosy Person in 1981. Under the scheme, Leprosy Affected Persons were provided dry ration etc. In 1991 the scheme was partially modified and the leprosy patients were given maintenance allowance in lieu of dry ration etc. At present, the amount of maintenance allowance is Rs. 3000/- per month per beneficiary. The total number of beneficiaries is 378 (East District (Tahirpur) – 351, South District – 26 & North West District – 1). It is a closed scheme as no new beneficiaries are being admitted under the scheme. The department has also established training cum production centre and shelters workshop at Tahirpur for training leprosy patients in vocational trades like handloom weaving, shoe-making, chalk and candle making. TCPC & SWPH are functional/ operational.

9. Directorate of Prohibition, Department of Social Welfare, GNCTD

9.1 The Directorate of Prohibition functions under the Department of Social Welfare, Government of National Capital Territory of Delhi (GNCTD), and is the nodal agency for Drug Demand Reduction in the National Capital Territory of Delhi. The Directorate discharges its responsibilities in furtherance of Article 47 of the Constitution of India, which mandates the State to endeavour to bring about prohibition of intoxicating substances injurious to health.

In accordance with the Government of NCT of Delhi (Allocation of Business) Rules, framed under the Transaction of Business Rules (TBR), 1993, the subject

of *"Drugs and De-addiction"* is allocated to the Department of Social Welfare. Accordingly, the Directorate of Prohibition is responsible for the formulation, implementation, coordination, monitoring and evaluation of policies, programmes and schemes relating to prevention of substance abuse, treatment, rehabilitation and social reintegration of persons affected by substance use disorders.

The Directorate implements both State-level initiatives and Centrally Sponsored Schemes (CSS) of the Ministry of Social Justice and Empowerment (MoSJE), Government of India, particularly under the National Action Plan for Drug Demand Reduction (NAPDDR), and aligns its interventions with the Nasha Mukt Bharat Abhiyaan (NMBA).

9.2 Implementation of National Action Plan for Drug Demand Reduction (NAPDDR): The National Action Plan for Drug Demand Reduction (NAPDDR) is a Centrally Sponsored Scheme of the Ministry of Social Justice and Empowerment with 100 per cent central funding. The Directorate of Prohibition functions as the State Nodal Agency for implementation of the scheme in Delhi. Under NAPDDR, the Directorate facilitates and monitors Grant-in-Aid (GIA) projects implemented through non-governmental organisations (NGOs), covering prevention, treatment, rehabilitation and community-based interventions.

9.3 **Awareness Generation and Mass Mobilisation**

9.3.1 International Day Against Drug Abuse and Illicit Trafficking (26 June 2025)
A state-level awareness programme was organised on 26 June 2025 at Yamuna Sports Complex under the NMBA framework. Approximately 5,000 participants, including Delhi Police personnel, students, frontline workers, volunteers and NGOs, took part. The programme included mass pledge administration, dissemination of helpline information, cultural performances and awareness activities.

9.3.2 Fifth Anniversary of Nasha Mukt Bharat Abhiyaan (13 August 2025)
An event was organised at Kendriya Vidyalaya No. 2, Delhi Cantt., with participation of over 1,000 school students. Activities included pledge-taking, felicitation of NMBA Master Volunteers, awareness rallies and cultural programmes.

9.3.3 Targeted Awareness through Nukkad Nataks at Identified Drug Hotspots
As part of focused demand-reduction and community sensitisation efforts, the Directorate of Prohibition conducted approximately 300 Nukkad Nataks (street plays) across 64 identified drug hotspots in Delhi during the reference period.

10. Welfare of SC/ST/OBC/Minorities

10.1 The Scheduled Caste population of Delhi, as per Census 2011, is 28.12 lakh accounting for 16.75 percent of the State population (167.88 lakh). No tribes are notified as Scheduled Tribes (STs) in the NCT of Delhi. There are 65 castes which have been notified as Other Backward Classes (OBC) in Delhi by the Delhi Backward Classes Commission but no authentic estimate is available regarding the OBC population in Delhi. The information regarding local body-wise SC population of Delhi during the last four census is presented in statement 17.12.

STATEMENT 17.12

LOCAL BODY-WISE SCHEDULED CASTE POPULATION: 1981-2011

CHAPTER AT A GLANCE

➢	The Government of NCT of Delhi provides a comprehensive array of social welfare, financial assistance, and safety initiatives for women, senior citizens, and other vulnerable groups. Key programs include monthly pensions, subsidized public transport, specialized health services, and financial aid for marriage and emergencies.
➢	In 2025, Government of NCT of Delhi has announced several significant women-centric, senior citizen-centric and other vulnerable groups reforms/ programs, some of which are under process of execution, focusing heavily on financial empowerment, healthcare access, safety and mobility.
➢	The ICDS Scheme represents one of the world's largest and most unique programmes for early childhood care and development. It is the foremost symbol of country's commitment to its children and nursing mothers, as a response to the challenge of providing pre-school non-formal education on one hand and breaking the vicious cycle of malnutrition, morbidity, reduced learning capacity and mortality on the other.
➢	14.01 lakh girls have so far been registered up to January 2026, under the Ladli scheme of which 4,36,600 girls have already received the final maturity value of ₹865.31crore (2009-10 to January 2026)
➢	The Department of Women and Child Development has set up 30 Child Care Institutions and 02 After Care Homes (01 for Boys & 01 for Girls) under the various provisions of Juvenile Justice (Care and protection of Children) Act, 2015 to cater the children in need of care and protection and also the juveniles in conflict with the law.
➢	Mission Vatsalya is a roadmap to achieve development and child protection priorities aligned with the Sustainable Development Goals (SDGs). It lays emphasis on child rights, advocacy and awareness along with strengthening of the juvenile justice care and protection system with the motto to 'leave no child behind'.
➢	Govt. of NCT of Delhi in collaboration with Mobile Creches NGO, inaugurated PALNA – Anganwadi cum Crèche on 18 September 2025 to provide integrated care, nutrition, and early learning. A PALNA unit at MCD School, New Ashok Nagar, was unveiled by the Chief Minister, followed by the virtual dedication of 502 centres across 11 districts. This initiative reflects a strong multi-stakeholder commitment to child welfare and holistic development.
➢	As per 2011 census, the female population of Delhi is 77.77 lakh constituting 46.41 percent of the total population. At the national level, the female population is of 48.46 per cent of the total population.
➢	The Delhi Government through its various initiatives and programmes is rendering full support to the Differently-Abled Persons so that they can live with full participation and have equal involvement in every aspect of society. Government is also taking more initiatives which are under process for execution for the welfare of Divyangjan.

CHAPTER 18

PUBLIC DISTRIBUTION SYSTEM

The National Food Security Act (NFSA), 2013 has been implemented in NCT of Delhi w.e.f. September, 2013 with the objective of ensuring food security to eligible beneficiaries. Under the NFSA, 5 Kg of Wheat/Rice per person per month is provided to Priority Household (PHH) and 35 Kg of Wheat/Rice per Household per month to Antyodaya Anna Yojana (AAY) Card Holders through a network of 1953 Fair Price Shops (FPSs) entrusted with distribution of Specified Food Articles (SFAs). The main objective of Public Distribution System (PDS) is to ensure food security for all eligible citizen in Delhi. The PDS in Delhi is administered by the Department of Food, Supplies and consumer affairs, Govt. of NCT of Delhi. Notably, Delhi was one of the first States to implement the NFSA, 2013 immediately after enactment of the Act by Government of India.

1.2 The public distribution system in Delhi distributes wheat and rice to all eligible ration card holders covered under the NFSA, 2013 while sugar is distributed exclusively to Antyodaya Anna Yojana (AAY) card holders. The Government has designated the Delhi Public Grievance Commission (DPGC) as the State Food Commission for ensuring effective and timely redressal of grievances of beneficiaries. Further, several reform measures have been undertaken by GNCTD to make the PDS more transparent and efficient including establishment of dedicated helpline numbers (1967 & 1800-11-0841) for lodging complaints and grievances.

2. Status of Public Distribution System in Delhi

The Public Distribution Network of GNCTD comprising of around 1971 Fair Price Shops (FPS) across Delhi, catering to 72.21 lakh beneficiaries through 17.18 lakh digital Food Security Ration Cards as on 31st March 2025. All Food Security Ration Cards are Aadhar enabled. The Department of Food Supplies and Consumer Affairs has been undertaking regular updation of beneficiary data from time to time as mandated under NFSA, 2013 to ensure accuracy and removal of ineligible beneficiaries. The details regarding the number of Fair Price Shops (FPSs) and the total number of Ration Cards issued by GNCTD during the last 10 Years are provided in statement 18.1

STATEMENT 18.1

DETAILS OF PUBLIC DISTRIBUTION SYSTEM IN DELHI: 2015-16 to 2024-25

S. No.	Years	No. of Ration Cards (in lakh)	No. of Fair Price Shops (FPS)
1	2015-16	19.50	2283
2	2016-17	19.41	2254
3	2017-18	19.41	2210
4	2018-19	17.17	2057
5	2019-20	17.50	2029
6	2020-21	17.77	2000
7	2021-22	17.80	2009
8	2022-23	17.84	1997
9	2023-24	17.81	1980
10	2024-25	17.18	1953

As on March, 2025, the number of Fair Price Shops (FPSs) functioning in Delhi is 1953 and on an average, each Fair Price Shop cater to 903 Ration Cards. District- wise distribution of Ration Cards and Fair Price Shops is presented in statement 18.2

STATEMENT 18.2

DISTRICT-WISE PUBLIC DISTRIBUTION SYSTEM IN DELHI -2024-25

S. No.	Districts	No. of FPS	Percent (%)	No. of Ration Cards	Percent (%)	No. of Beneficiaries	Percent (%)
1	CENTRAL	130	6.66%	1,34,066	7.80%	5,43,202	7.52%
2	EAST	203	10.39%	1,53,412	8.93%	6,52,484	9.04%
3	NEW DELHI	90	4.60%	80,697	4.70%	3,42,412	4.74%
4	NORTH	155	7.94%	1,54,098	8.97%	6,16,734	8.54%
5	NORTH EAST	313	16.03%	2,64,604	15.40%	11,21,319	15.53%
6	NORTH WEST	297	15.20%	2,96,792	17.27%	12,48,657	17.29%
7	SOUTH	246	12.60%	2,30,141	13.38%	10,10,509	13.99%
8	SOUTH WEST	287	14.70%	2,21,341	12.87%	9,28,014	12.85%
9	WEST	232	11.88%	1,83,538	10.68%	7,58,292	10.50%
Total		**1953**		**17,18,689**		**72,21,623**	

It may be seen from above statement that the highest number of ration card holders were reported during 2024-25 in the North West District, whereas, the highest number of Fair Price Shop were reported in the North East District of Delhi.

3. Entitlement of beneficiaries:

The beneficiaries are entitled to receive food grains under different categories in accordance with the provisions of the NFSA, 2013. The categories wise entitlements of beneficiaries are given in statement 18.3.

STATEMENT 18.3

FOOD GRAINS ENTITLEMENT PER MONTH AND THE RATE

S. No.	Commodity	Category	Quantity	Rate (/ kg)
1	Wheat	AAY	28 Kg/Per Card	Free of Cost
		PHH	4 Kg/Member	
2	Rice	AAY	7 Kg/Per Card	
		PHH	1 Kg/Member	
3	Sugar	AAY	1 Kg/Per Card	

Note: AAY- Antyodaya Anna Yojana, PHH - Priority Household category.

Source: Food, Supplies & Consumer Affairs Department, GNCTD

5. Antyodaya Anna Yojana (AAY)

The AAY aims to make the Targeted Public Distribution (TPDS) more focused on reducing hunger among the poorest segments of the population. The Scheme was launched in December, 2000 for poor families who are unable to get two square meals a day on a sustained basis throughout the year due to extremely low purchasing power. As on 31st March 2025, a total of 66,362 families comprises 2,72,840 members were covered under this scheme in Delhi. At present, the Specified Food Articles (SFAs) are being provided free of cost to beneficiaries.

6. Food Grains at subsidized Rates to Welfare Institutions/Hostel Scheme

As per the Government of India Scheme, Govt. of NCT of Delhi is providing food grains at subsidized rates to destitute people residing in the government owned / run welfare institutions and SC/ST & OBC hostels such as Bal Niketan, Children Home for Girls - I & II, After Care Home for Women, Balika Greh etc. As on 31st March 2025, the Govt. of India has allocated- a monthly quantity of 1.368 MTs of Wheat and 0.420 MTs of Rice to the Govt. of NCT of Delhi under this scheme at the rate of Rs. 4.15/Kg for Wheat and Rs. 5.65/Kg for Rice. Further, allocation has been made for 140 inmates under Welfare Institutions and Hostels Scheme for the 1st half of 2024-25 i.e from April, 2024 to September, 2024.

7. Technology based reforms to TDPS undertaken by NCT of Delhi

(i) E-RATION CARD

The facility of e-Ration Card has been operationalized w.e.f. April 2015. Approximately 21, 23,937 ration cardholders have availed this facility by downloading their ration card online from their respective locations. This initiative has enhanced transparency, convenience and efficiency in the delivery of ration card services to beneficiaries.

8. Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY)

PMGKAY aims to reduce the financial burden of the economically disadvantaged beneficiaries and ensure uniformity in implementation across the States, Central Government has decided to continue providing free food grains to about 8.35 crore beneficiaries comprising Antyodaya Anna Yojana (AAY) households and Priority Households (PHH) beneficiaries for a period of 5 years with effect from 1st January 2024.

Under this scheme, the Govt. of India provides 35 kg of food grains per month (28 kg wheat and 07 kg rice) to AAY households and 5 kg of food grains per month (4 kg wheat and 1 kg rice) to PHH beneficiaries free of

cost. Further, Delhi Government also provides 1 kg sugar free of cost to all Antyodaya Anna Yojana (AAY) cardholders.

9. One Nation One Ration Card (ONORC)

The Govt. of NCT of Delhi implemented ONORC scheme w.e.f. 19.07.2021 through installation of e-POS devices at all Fair Price Shops (FPSs) to enhance transparency & accountability in the operation of Public Distribution System (PDS). Since its implementation, ration is being distributed in Delhi through biometric (Aadhar) based authentication of beneficiaries using e-POS devices. The scheme provides both Intra-State and Inter-State portability of Ration Cards and enables migrant beneficiaries to access PDS benefits under NFSA, 2013. As per Intergrated Management of Public Distribution System (IMPDS) Portal of GOI, Delhi accounts for the highest number of ONORC transactions constituting around 70% of total transactions across the Nation since implementation of the scheme in Delhi. For grievances and queries related to ONORC/portability of ration cards, a dedicated toll-free no. 14445 has been enabled.

District-wise information regarding number of ration cards issued and beneficiaries who availed ration under ONORC scheme during the financial year 2024-25 are presented in statement 18.5

STATEMENT 18.5

DISTRICT-WISE PUBLIC DISTRIBUTION SYSTEM UNDER ONORC SCHEME IN DELHI FOR FY 2024-25 (OTHER THAN DELHI)

10. Market Intelligence Cell

i. The Marketing Intelligence Cell (MIC) of Food Supplies & Consumer Affairs Department, Govt. of NCT of Delhi, collects the prices of 40 essential commodities on daily basis (including Saturday & Sunday) from three designated retail markets namely Yusuf Sarai (high value), Clock Tower (middle value) and Shahdara (lower value) as well as from one wholesale market at Naya Bazaar. In addition, the wholesale prices of vegetables are also received from APMC, Azadpur. Out of these, retail and wholesale prices of 22 essential commodities (including vegetables) along with retail prices of an additional 18 commodities are reported daily through the online Price Monitoring System (PMS) App to the Price Monitoring Division, Department of Consumer Affairs, GoI.
Further, a daily physical report on essential commodities is submitted to the Secretary to the Hon'ble Chief Minister, Government of NCT of Delhi. Weekly reports are forwarded to the Secretary to the Hon'ble Minister of Food and Supplies, GNCT of Delhi, and to the Department of Consumer Affairs, Government of India, which also include prices from Kendriya Bhandar.
Monthly reports covering the activities of all branches of Department of Food, Supplies and Consumer Affairs and the Weights and Measures Department, along with comparative monthly statements of retail and wholesale prices of essential commodities presented graphically, are submitted to the Principal Secretary (Home), Principal Secretary to the Hon'ble Lieutenant Governor, GNCT of Delhi, and Officers on Special Duty (OSD) to the Chief Secretary, GNCT of Delhi.

ii. As per the notification and guidelines of the Ministry of Consumer Affairs, Food and Public Distribution, the stock limits on wheat are monitored through the 'Wheat Stock Management System' a dedicated portal of Department of Food and Public Distribution, Government of India. Traders, wholesalers, retailers, big chain retailers and processors are required to regularly declare their stock positions on the portal. The monitoring is carried out in accordance with to the stock limits prescribed and revised from time to time by the Ministry.

CHAPTER AT A GLANCE

➢	Delhi was one of the first States to implement the National Food Security Act, 2013 soon after enactment of NFSA, 2013 by Government of India.
➢	Public Distribution network of GNCTD comprising of 1953 Fair Price Shops (FPS) across the Delhi catering to 72.21 lakh beneficiaries through 17.18 lakh digital food security cards as on 31st March 2025.
➢	As on 31st March 2025, total 66,362 families consisting of 2,72,840 members covered under "Antyodaya Anna Yojana" scheme in Delhi.
➢	Govt. of NCT of Delhi is providing food grains at subsidized rates to destitute people living in the government owned / run welfare institutions and SC/ST & OBC hostels such as Bal Niketan, Children Home for Girls - I & II, After Care Home for Women, Balika Greh.

CHAPTER 19

DEMOGRAPHIC PROFILE

Area

Delhi is the National Capital Territory and it is bordered by Haryana on three sides and by Uttar Pradesh in the east. It is located at North Latitude from 28.24 – 28.53 degrees and East Longitude from 76.50 - 77.20 degrees. Delhi covers an area of 1483 Km^2, of which 369.35 sq. Km. is designated as rural and 1113.65 Km^2 as urban, which makes it the largest city in terms of area in the country. It has a length of 51.9 km and breadth of 48.48 Km. Delhi has 11 districts with 33 Tehsils /Sub-Divisions. Two prominent features of Delhi are the Yamuna flood plains and the Ridge. It is located in India's seismic zone-iv, an indication of its vulnerability to major earthquakes.

2. Demographic Trends

2.1 Delhi is one of the fastest growing cities in the country. Due to rapid pace of urbanization, the landscape of Delhi has undergone a change from a rural majority to urban. The rural to urban area change during the last three censuses in Delhi is depicted in Statement 19.1:

STATEMENT 19.1

AREA - RURAL AND URBAN

S. No.	Classification of Area	1991		2001		2011	
		Km^2	%	Km^2	%	Km^2	%
1.	Rural	797.66	53.79	558.32	37.65	369.35	24.90
2.	Urban	685.34	46.21	924.68	62.35	1113.65	75.1
3.	Total	1483.00	100.00	1483.00	100.00	1483.00	100.00

Source: Census of India, 1991, 2001 & 2011

2.2 The growth in the urban area during 2001-2011 was observed at 20.44 percent. This pace of urbanization has reduced the number of villages in Delhi from 300 in 1961 to 165 in 2001 and 112 in 2011. The number of urbanized villages has increased from 20 in 1961 to 135 in 2011. The number of census towns has increased from 3 in 1971 to 29 in 1991 and 110 in 2011. Thus more and more rural villages of Delhi are being declared as census towns in each successive Census, resulting in decreasing rural population and rural areas in Delhi.

3. Population

The Population Census is the only source providing comprehensive data on population characteristics carried out decennially by the Govt. of India in collaboration with states. The first synchronous census in India was held in 1881. The latest census, 15th in the series, was conducted in 2011.As per this census, the population of Delhi, as of 1st March, 2011, was 16.78 million as against 13.85 million on 1st March, 2001. According to Census 2011, about 97.50 per cent of the population of Delhi lives in urban areas and the remaining 2.5 percent in rural areas. This urban population includes the population of 110 census towns in the 2011 Census. As per the Revenue Department record, these census towns are located in the rural area of Delhi and they are not a part of the notified urban area of Delhi.

4. Growth of Population

4.1 The population of Delhi and India and its growth during the last six decades has been presented in Statement 19.2.

STATEMENT 19.2
POPULATION OF INDIA AND DELHI & ITS GROWTH DURING 1951-2011

(Lakh)

S. No.	Years	Delhi		India		Share of Delhi's Population in All India
		Population	Growth (%)	Population	Growth (%)	
1.	1951	17.44	--	3610.88	--	0.48
2.	1961	26.59	52.44	4392.35	21.64	0.61
3.	1971	40.66	52.93	5481.60	24.80	0.74
4.	1981	62.20	53.00	6833.29	24.66	0.91
5.	1991	94.21	51.45	8464.21	23.87	1.11
6.	2001	138.51	47.02	10287.37	21.54	1.35
7.	2011	167.88	21.20	12108.55	17.70	1.39

Source: Census of India (Primary Census Abstract 2011).

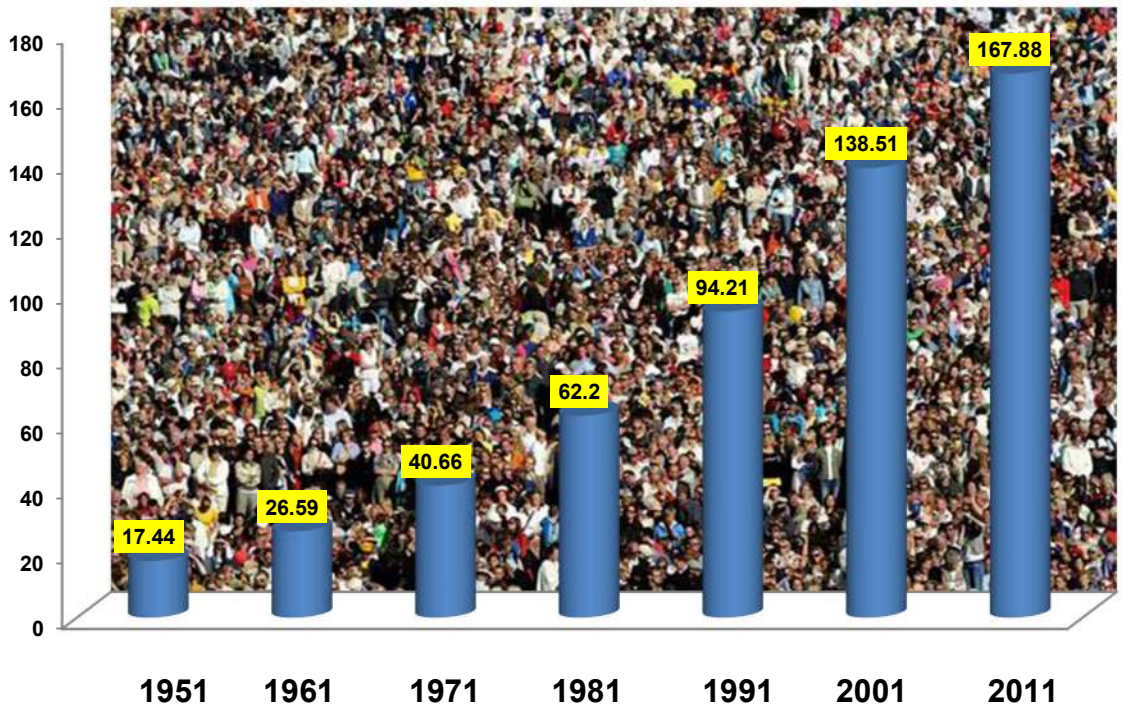

4.2 The decadal growth rate of the population during 2001-2011 was recorded at 21.2 per cent. This is a peculiar feature of Census 2011, as in all censuses since 1951, the decadal growth rate of the population was more than 50% and 47% in 2001.This trend may be attributed to the implementation of various employment promotion programmes such as MGNREGA and welfare schemes such as pension for senior citizens and widows by Central and State Governments on one hand and development of NCR priority towns viz. Gurgaon, Faridabad, Sonipat, Noida, Ghaziabad, Meerut, etc., contributing to the reduction of migration to Delhi. The population growth rate in Delhi during the last decade was higher than the national level by 3.5 per cent. Delhi accounts for about 0.05 per cent of India's geographical area, but comprises 1.39 per cent of the nation's population.

4.3 It may be observed from Statement 19.2 that the percentage of Delhi's population to the national level enhanced from 0.48 per cent in 1951 to 1.39 per cent in 2011. The rate of growth of population in Delhi was highest during 1971-81 at 53.00 per cent. The annual rate of growth of population in Delhi during the last decade was 2.12 per cent per annum, which was higher than the national level of 0.35 per cent per annum. The population in Delhi during 1951-2011 is depicted in Chart 19.1.

CHART 19.1

POPULATION OF DELHI: 1951-2011

(Lakh)

5. District-wise Population

5.1 At the time of the 1991 Census, Delhi was a single district territory. In 1996, the Government of NCT Delhi, through a gazette notification, created 9 districts and 27 sub-divisions. The Population Census of 2001 was conducted in each of the 9 districts and 27 Sub-divisions. The district-wise population of NCT Delhi during Census 2001 and 2011 is presented in Statement 19.3.

STATEMENT 19.3

DISTRICT-WISE POPULATION OF NCT DELHI: 2001 & 2011

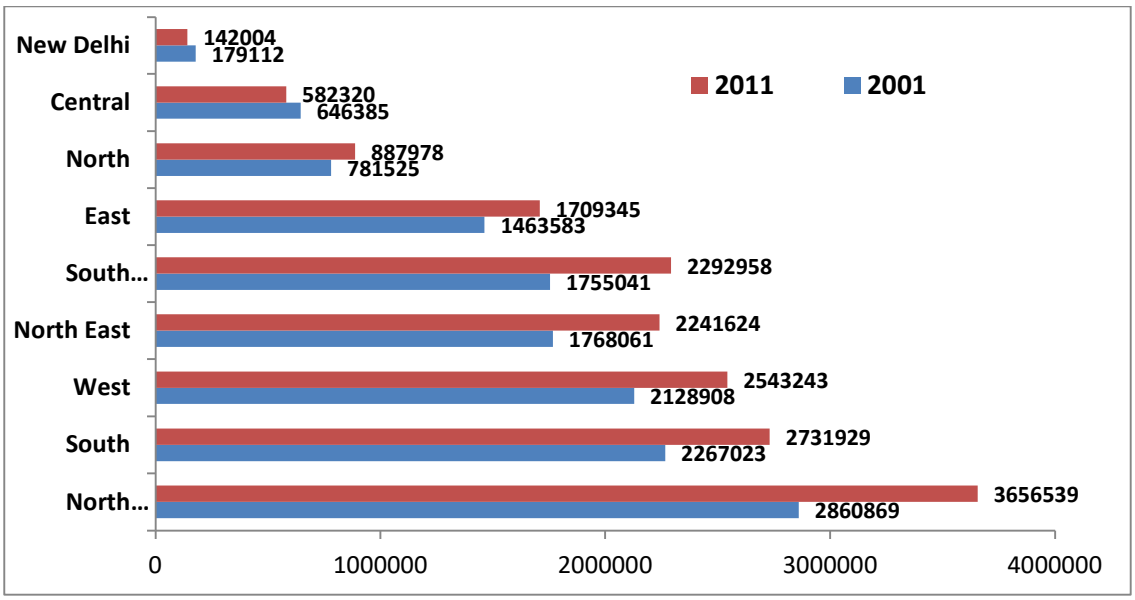

S. No.	Districts	2001			2011		
		Number	Per cent	Rank	Number	Per cent	Rank

6. Sex Ratio

6.1 Sex ratio is a very important demographic indicator for analyzing the socio-economic features of a population. It is the ratio of females per thousand males. As per 2011 Census, the sex ratio of Delhi was 868.During the last decade, the sex ratio in Delhi increased from 821 in 2001 to 868 in 2011. In order to overcome this critical situation both at the national and state level, various stringent actions against female foeticide and the complete abolition of sex determination practices during pregnancy period have been introduced and implemented. The district-wise sex ratio of NCT Delhi in 2001 and 2011 is presented in Statement 19.4.

STATEMENT 19.4

6.4 Sex ratio as per birth registered in Delhi under CRS indicates a positive picture, enhanced from 809 in 2001 to 920 in 2024.The increase in sex ratio during 2005 to 2008 may be linked to the introduction of a number of schemes for the empowerment of women and the welfare of children by the Government of NCT Delhi.

7. Density of Population

7.1 Population density is an often reported and commonly compared statistic for places all over the world. Population density is the measure of the number of population per unit area. It is commonly represented as people residing per square kilometer. As per 2011 Census, the density of population in Delhi

worked out at 11320 persons per square kilometer, as against the national level of 382 persons per square kilometer. Density of population in Delhi was the highest among all states and union territories during the year 2011. District-wise density of population in Delhi in 2001 and 2011 is presented in Statement 19.7.

STATEMENT 19.7

DISTRICT-WISE POPULATION DENSITY OF NCT DELHI: 2001 AND 2011

S. No.	Districts	Population Density (Persons per Sq. Km)			
		2001	Rank	2011	Rank
1.	North East	29,468	1	36155	1
2.	Central	25,855	2	27730	2
3.	East	22,868	3	27132	3
4.	West	16,503	4	19563	4
5.	North	13,246	5	14557	5
6.	South	9,068	6	11060	6
7.	North West	6,502	7	8254	7
8.	New Delhi	5,117	8	4057	9
9.	South West	4,169	9	5446	8
	Delhi	**9340**		**11320**	

Source: Census of India, census 2011 (primary census abstract).

7.2 It is evident from Statement 19.7, that the North East District ranks first in terms of population density in Delhi at 36155 persons per Sq. Km and New Delhi ranks last with population density at 4057 persons per Sq. Km. During the last decade, the density of population in New Delhi showed a declining trend from 5117 persons per sq.km in 2001 to 4057 persons per sq. Km in 2011.

8. Household Size

The number of persons living together in one house is commonly called household size. As per 2011 Census, there were 3340538 households in Delhi. The average size of a household in Delhi was found to be 5.02. It indicates that in one house, there are more than five persons. More than one half of the households had more than five members during the year 2011. The distribution of households by size in Delhi in 2001 and 2011 are presented in Statement 19.8.

STATEMENT 19.8
DISTRIBUTION OF HOUSEHOLDS BY SIZE IN DELHI- 2001 & 2011

S. No.	Size of Household	No. of Household		Per cent of total No. of Household	
		2001	2011	2001	2011
1.	One member	99786	123106	3.90	3.70

9. Literacy Rate

As per Census 2011, Delhi showed a high level of literacy i.e. 86.2 per cent as compared to 81.67 per cent in 2001, with the literacy rate of 90.9 per cent for males and 80.8 for females. The rural and urban literacy rates of Delhi were 81.9 and 86.3% respectively, in 2011.

10. Age-wise Distribution of Population

10.1 The age-wise distribution of population is the best indicator of future human potential, the magnitude of responsibility of the working population especially for taking care of children and their aged parents. The information regarding the age-wise distribution of population in Delhi during the last two census periods is presented in Statement 19.9.

STATEMENT 19.9
AGE-WISE DISTRIBUTION OF POPULATION IN DELHI: 1991, 2001 & 2011

S. No	Age Group	1991		2001		2011	
		Number	Per cent	Number	Per cent	Number	Per cent

Source: Census of India. Primary Census Abstract 2011

10.2 It may be observed from Statement 19.9 that one-third of the total population in Delhi during 2001 was in the category of children within the age group of 0 to

14 years and the percentage change was recorded at a minimal rate. The condition was more or less the same in all other age-wise categories, either at positive in one group or at negative in the consecutive age group. The information regarding age-wise distribution of population of Delhi during 2001 is depicted in Chart 19.3.

CHART 19.3

AGE-WISE DISTRIBUTION OF POPULATION IN DELHI 2011

11 Metro Cities Population

11.1 The population of metropolitan cities in India is presented in Statement 19.10.

STATEMENT 19.10

POPULATION OF SOME OF THE METROPOLITAN CITIES IN INDIA 2001 & 2011

S. No.	Metropolitan Cities	Population (Number)		Ranks	
		2001	2011	2001	2011
1.	Mumbai(UA)	16434386	18394912	1	1
2.	Delhi	13850507	16787941	2	2
3.	Kolkata(UA)	13251339	14057991	3	3
4.	Chennai(UA)	6686140	8653521	4	4

6.	Hyderabad(UA)	5756729	7677018	5	6

Source: Census of India and Provisional Population census 2011.

11.2 It may be observed from Statement 19.10 that Delhi was placed at Second position during 2001 and 2011 continuously. The population in Mumbai in 2001 was 16.43 million; 2.58 million higher than Delhi's population. The difference

between the population of Mumbai and Delhi in 2011 (Census 2011) reduced to 1.61 million, which clearly indicates the fast development of the Delhi.

11.3 As population increases, more people will prefer to live in large cities. Many people will live in growing cities with over 10 million inhabitants, known as megacities.

12. Urban-Rural Scenario in Delhi

12.1 At the beginning of the 21st century, more than 93 per cent of the population was in urban areas as compared to 53 per cent in 1901. This clearly indicates the fast growth of urbanization in the national capital. The information regarding the urbanization trend in Delhi during the century is presented in Statement 19.11.

STATEMENT 19.11
URBANIZATION TREND OF DELHI DURING 1901-2011

12.3 Statement 19.12 indicates that two districts in Delhi have 100 percent of urban population, namely Central and New Delhi district, during the year 2011. All the remaining districts in Delhi had more than 90 per cent of the population living in urban areas.

13. Vital Rates

13.1 Vital rates are perhaps one of the most widely used national, state and local data generally, which includes birth, death and infant mortality rates defined as under:-

(a) Birth Rate: - Birth Rate is a crude measure of fertility of a population and is a crucial determinant of population growth. It gives the number of live births per thousand population in a given region and year.

(b) Death Rate: - Mortality is one of the basic components of population change and the related data is essential for demographic studies and public health administration. Death rate is one of the simplest measures of mortality and is defined as the number of deaths per thousand population in a given region and time period.

(c) Infant Mortality Rate:- The Infant Mortality Rate (IMR), which is widely accepted as a crude indicator of the overall health scenario of a country or a region, is defined as the infant deaths (less than one year) per thousand live births in a given time period and for a given region.

The information regarding vital rates (Both Civil Registration System and Sample Registration System) in Delhi is presented in Statement 19.13.

13.2 The Civil Registration System is the legal recording of the occurrence of vital events (birth and death) through a network of government offices and designated officials, together with certain identifying or descriptive

characteristics of the events on a continuous, permanent and compulsory basis. The Civil Registration System also serves as the tool for measuring changes in the population. In other words, the population census, which is held once in a period of 10 years, gives stock of population at a point of time. Whereas, vital statistics presents the flow of population.

13.3 In Delhi, registration of births and deaths are being done by three local bodies i.e. MCD (Erstwhile South Delhi Municipal Corporation, North Delhi Municipal Corporation, East Delhi Municipal Corporation), New Delhi Municipal Council and Delhi Cantonment Board.

STATEMENT 19.13

20.	2023	214.90	14.66	NA	6.16	NA	23.61	NA
21.	2024	218.84	14.00	NA	6.37	NA	22.40	NA

** Revised as per latest population projection prepared by National Commission of Population from the Year 2011.*

13.4 It may be inferred from Statement 19.13 that the vital rates of Delhi during 2004-2024 under CRS showed a mixed trend in birth and infant mortality rates. It may be observed that death rates under CRS also showed mixed trend. Under SRS, birth rate, death rate and infant mortality rate also showed a mixed trend.

14. Migration

14.1 The estimates of migration in Delhi are based on birth and death rates and the total increase in population. It may be observed from Statement 19.14, in

absolute terms, the natural increase in population during 2024 was 1.67 lakh, whereas migration has been estimated at 2.27 lakh. The trend of migration from 2004 to 2024 is given in Statement 19.14.

STATEMENT 19.14
TREND OF MIGRATION IN DELHI 2004-2024

(Lakh)

Source: Report of Technical Group on Population projections July 2020, National Commission on Population, Ministry of Health & Family Welfare, Govt. of India

15.1 Technical Group on Population projections, National Commission on Population, Ministry of Health & Family Welfare, Govt of India has prepared report on Population projection in July, 2020. Population projection is a scientific attempt to peep into the future population scenario, conditioned by certain assumptions using past data. The Component Method is the universally accepted method of making population projections because growth of population is determined by fertility, mortality and migration rates. Twenty-one States and one UT have been considered and applied the Component method.

15.2 The population of India is expected to increase from 121.1 crores to 152.2 crores during the period 2011-2036 - an increase of 25 percent in twenty- five years at the rate of 1.0 percent annually. As a consequence, the density of population will increase from 368 to 462 persons per square kilometer.

15.3 The population of Delhi is expected to increase from 167.88 lakhs to 265.91 lakhs during the period 2011-2036 - an increase of 58 percent in twenty- five years at the rate of 2.3 percent annually. As a consequence, the density of population will increase from 11320 to 17930 persons per square kilometer.

15.4 It may be inferred from the statement 19.16 that between 2011 and 2036, because of the declining fertility, the proportion of population of India aged under 15 years is projected to decline from 30.8 to 20.1 percent; the proportion of the middle age-group (15- 59 years) and the older ages (60 years and above) are set to increase considerably. The proportion of population in the working age-group 15-59 years is expected to rise from 60.7 percent in 2011 to 64.9 percent in 2036.

15.5 The proportion of population of Delhi aged under 15 years is projected to decline from 27.22 to 18.46 percent; the proportion of the middle age-group (15-59 years) and the older ages (60 years and above) are set to increase considerably. The proportion of population in the working age-group 15-59 years is expected to rise from 65.85 percent in 2011 to 67.33 percent in 2036.

15.6 The growth in population at all India level is projected to be 11.69 percent between 2021 and 2036 as compared to 29.26 percent growth projected for Delhi during the same period.

CHAPTER AT A GLANCE

➢	Delhi is one of the fastest growing cities in the country. Due to rapid pace of urbanization, the landscape of Delhi has undergone a change from a rural majority to urban.
➢	The growth in the urban area during 2001-2011 was observed at 20.44 percent. According to Census 2011, about 97.50 per cent of the population of Delhi lives in urban areas and the remaining 2.5 percent in rural areas.
➢	The annual rate of growth of population in Delhi during the last decade was 2.12 per cent per annum, which was higher than the national level of 0.35 per cent per annum.
➢	Sex ratio as per birth registered in Delhi under CRS indicates a positive picture, enhanced from 809 in 2001 to 920 in 2024.
➢	At the beginning of the 21st century, more than 93 per cent of the population was in urban areas as compared to 53 per cent in 1901.
➢	The growth in population at all India level is projected to be 11.69 percent between 2021 and 2036 as compared to 29.26 percent growth projected for Delhi during the same period.

CHAPTER 20

POVERTY LINE IN DELHI

Poverty is a situation where the individual or communities lack the resources, ability and environment to meet the basic needs of life. Poverty is one of the issues, attracting the attention of sociologists, economists, governments, civil society organizations and almost all other organizations related to human welfare and development. It indicates a status wherein a person fails to maintain a living standard adequate for a comfortable lifestyle.

2. On the basis of the National Sample Survey Organisation's 68th Round (June 2011 - July 2012), the Planning Commission published the State Specific poverty line for rural and urban. The poverty line was estimated at ₹1145 for rural and ₹1134for urban Delhi as against the national level of₹816 for rural and ₹1000 for urban India respectively. The specific poverty line of Delhi is presented in Statement 20.1.

STATEMENT 20.1

LEVEL OF POVERTY LINE OF DELHI

(₹per Capita/Month)

S. No.	Years	Rural	Urban
1.	1973-74	49.95	67.95
2.	1977-78	59.37	80.17
3.	1983	88.57	123.29
4.	1987-88	122.90	176.91
5.	1993-94	233.79	309.48
6.	1996-97	289.31	404.96
7.	1999-2000	362.68	454.11
8.	2004-2005	541.39	642.47
9.	2009-10	747.80	1040.3
10.	2011-12	1145.00	1134.00

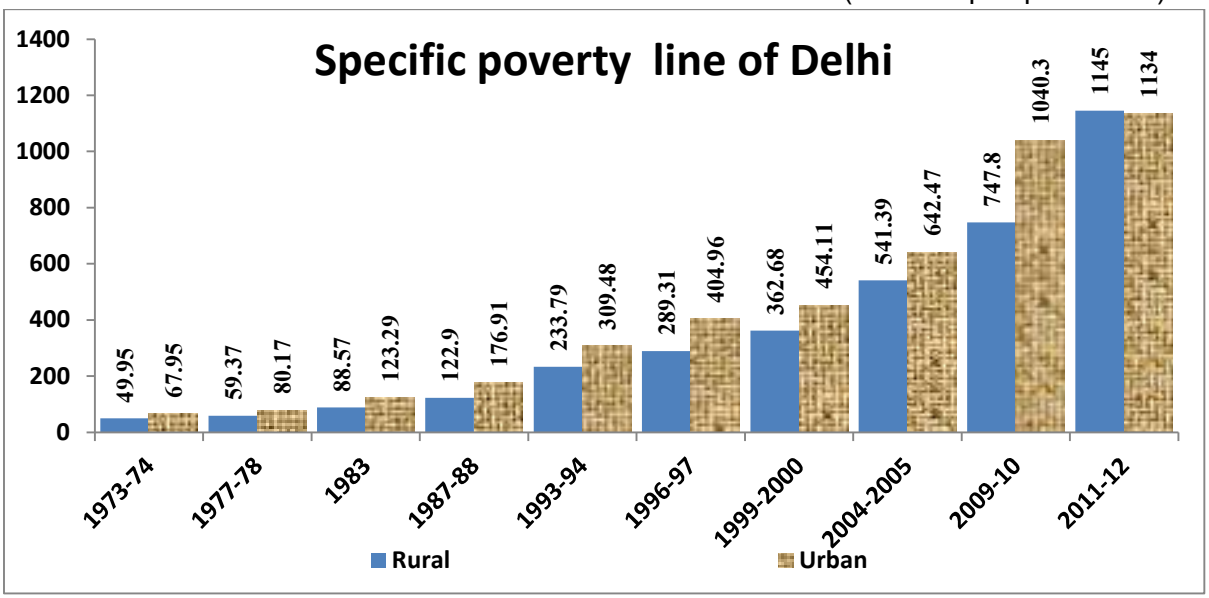

Source: Planning Commission (Now NITI Aayog) Govt. of India

3. It may be observed from Statement 20.1 that the ₹1134 was the minimum monetary requirement of a person per month in urban Delhi for maintaining a minimum standard of living as prescribed by the Planning Commission during the year 2011-12. In a rural area, it was estimated at ₹1145 per month per person. The above statement clearly indicates that in every year the amount required per persons per month increased considerably both in rural and urban areas. The information regarding the specific poverty line of Delhi is depicted in Chart 20.1.

CHART 20.1

SPECIFIC POVERTY LINE OF DELHI

(₹ Per Capita per Month)

4. The information regarding the number of persons below the poverty line in Delhi during 1973-2012 is presented in Statement 20.2.

STATEMENT 20.2

PERSONS BELOW THE POVERTY LINE IN DELHI-URBAN AND RURAL

(Number in Lakhs)

S. No.	Years	Urban		Rural		Total	
		Number	Per Cent	Number	Per Cent	Number	Per Cent
1.	1973-74	21.78	95.36	1.06	4.64	22.84	100.0 (49.61)
2.	1977-78	16.81	92.57	1.35	7.43	18.16	100.0 (33.23)
3.	1983	17.95	97.61	0.44	2.39	18.39	100.0 (26.22)
4.	1987-88	10.15	99.02	0.10	0.98	10.25	100.0 (12.41)
5.	1993-94	15.32	98.78	0.19	1.22	15.51	100.0 (14.69)
6.	1999-2000	11.42	99.39	0.07	0.61	11.49	100.0 (8.23)
7.	2004-2005	18.9	93.10	1.4	6.90	20.3	100.0 (13.1)
8.	2009-10	22.9	98.28	0.30	1.29	23.3	100.0(14.2)
9.	2011-12	16.46	97.05	0.50	2.95	16.96	100.0(9.91)

Source: Delhi Statistical Handbook

Note: Figures in brackets relate to a percentage of the total population.

5. It is evident from the above statement 20.2 & 20.3, that during 1973-74 near about one half of the population of Delhi was below the poverty line. The number of persons below the poverty line in Delhi during 2011-12 was estimated at 16.96lakh and it worked out to 9.91 per cent of the total population of Delhi. Persons below poverty level in Delhi fell to the single digit at 8 per cent of the total population in 1999-2000. Due to various poverty alleviation programmes initiated by the Government of India and Government of National Capital Territory of Delhi the poverty level in India and Delhi has decreased

considerably. The reduction of the poverty level in Delhi and at National level may be due to various reasons such as higher growth in the service sector. The information regarding the poverty level in India and Delhi during the period covered the study is presented in Statement 20.3.

STATEMENT 20.3

PERSONS BELOW THE POVERTY LINE IN DELHI AND INDIA

(Per cent)

S.No.	Years	India	Delhi
1.	1973-74	54.88	49.61
2.	1977-78	51.32	33.23
3.	1983	44.48	26.22
4.	1987-88	38.26	12.41
5.	1993-94	35.97	14.69
6.	1999-2000	26.10	8.23
7.	2004-2005	37.2	13.1
8	2009-2010	29.8	14.2
9	2011-2012	21.92	9.91

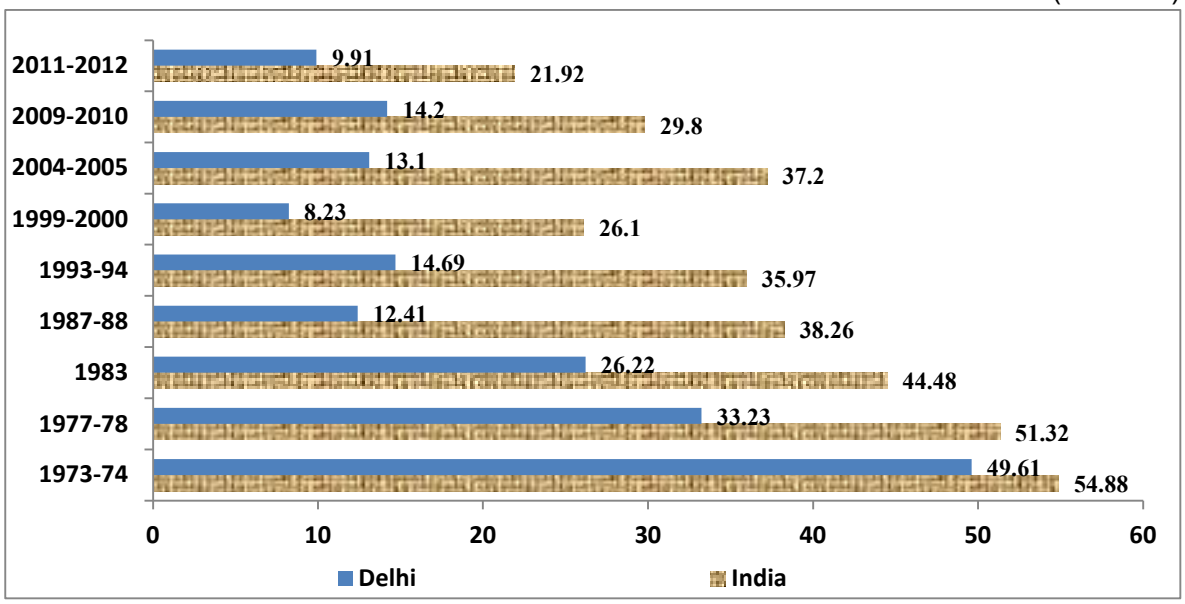

Source: Delhi Statistical Handbook.

6. It may be observed from Statement 20.3 that the percent of the population below the poverty in Delhi was less than the national level in all period covered under the study. During 2011-12, 21.92 per cent of the population of India was under below poverty; while it was 9.91 per cent in Delhi. The information regarding the population below the poverty line in India and Delhi during 1973-74 to 2011-12 is depicted in Chart 20.2.

CHART 20.2

PERSONS BELOW THE POVERTY LINE IN DELHI AND INDIA

(Per cent)

7. Level and Pattern of Household Consumer Expenditure

The household consumer expenditure refers to the expenditure incurred by a household on domestic consumption during the reference period. It is the total monetary value of consumption of various groups of items i.e. food, fuel, light, clothing, footwear, miscellaneous goods & services and durable articles. The information gathered covers the sum of monetary value of all the items (i.e. goods & services) consumed by the household on domestic account during the reference period. It is not only useful to decide the status living condition of the household but also helpful to provide necessary data to the researchers for conducting further studies on poverty line, nutritional status, sufficiency of food etc. These are primary source of data on various levels of different segments of population at state level. The household consumer expenditure collects information on quantity and value of household consumption. Monthly Per Capita Expenditure for food and non food items for a household is its total consumption expenditure divided by its size and expressed on a per month (30 days) basis.

7.1 Directorate of Economics and Statistics is publishing a report titled "Level and Pattern of Household Consumer Expenditure in Delhi" on the basis of sample surveys conducted under National Sample Survey Organizations Rounds from time to time. The information regarding per capita expenditure on food and non-food items as per 63rd Round (July 2006–June 2007), 64th round (July 2007-June 2008), 66thRound (July 2009- June 2010) and 68th Round (July 2011-June 2012)is presented in Statement 20.4.

STATEMENT 20.4

PER CAPITA MONTHLY EXPENDITURE ON FOOD & NON-FOOD IN DELHI

7.2 It may be inferred from Statement 20.4 that the per capita expenditure on non-food items was higher than the food items in all the NSS rounds. Total per capita expenditure during 68th round has increased by 32.57 percent over 66th NSS round. The per capita expenditure on food items constituted at 39.22 per cent and the remaining 60.78 per cent on non-food items as per 68th round of National Sample Survey.

7.3 The information regarding average monthly household expenditure (with an average family size of 4.06) of food and non-food items during the last four rounds of the National Sample Survey is presented in Statement 20.5.

STATEMENT 20.5

Source: For Urban Delhi- Directorate of Economics and Statistics, Government of National Capital Territory of Delhi and For Urban India: MoSPI, GOI (National Sample Survey 68th Round of Socio-Economic Survey 2011-12).

7.6 It may be inferred from Statement 20.6 that every hundred rupees spent by households in urban Delhi about ₹ 38.76 were on food items and the remaining ₹ 61.24 on non-food items. In India, it was ₹ 42.62 and ₹ 57.38 for food and non-food items respectively.

8. Survey on Household Consumption Expenditure - 2022-23& 2023-24

8.1 Ministry of Statistics & Programme Implementation (MoSPI), Govt. of India has released the reportson "Survey on Household Consumption Expenditure-2022-23"&"Survey on Household Consumption Expenditure-2023-24". The Household Consumption Expenditure Survey (HCES) was designed to collect information on consumption of goods and services by the households. The information collected in HCES helps to understand the consumption and expenditure pattern, standard of living and well-being of the households.

STATEMENT 20.7

Source: NSS Reports ,"Survey on Household Consumption Expenditure 2022-23"&"Survey on Household Consumption Expenditure 2023-24", Central Sample, MoSPI, GoI.

Statement 20.7 reflects that the percentage of Monthly Per Capita Expenditure (with or without imputation) on food items in urban areas of Delhi is a little less than the rural areas during 2022-23 & 2023-24. However, in both the years, no much difference has been found in the expenditure trend on non-food items.

The monthly per capita consumption expenditure & percentage distribution of MPCE for food and non-food items in urban Delhi and Urban India in 2022-23 & 2023-24 (With Imputation) has been represented in Statement 20.8.

STATEMENT 20.8

From the Statement 20.10, it is observed that the average estimated MPCE (without imputation) in 2022-23 was Rs. 6,576 in rural and Rs. 8,217 in urban Delhi. While at the All-India level, it was Rs. 3,773 in rural and Rs. 6,459 in urban India in 2022-23. Further, in 2023-24, estimated MPCE (without imputation) was Rs. 7,400 in rural Delhi and Rs. 8,534 in urban Delhi while at All-India level, it was Rs. 4,122 and Rs. 6,996 in rural and urban India respectively.

Moreover, the analysis of the Average Monthly Per Capital Consumption Expenditure (MPCE) across twelve fractal classes, ranging from the lowest 0-5% to the highest 95-100%, reveals stark contrasts between Delhi and the National averages, highlighting significant economic insights. In the lower fractal classes (0-5%), the rural sector in Delhi exhibits an average MPCE of ₹2,926 (2022-23) and Rs. 3,719 (2023-24), significantly higher than the all-India average of₹1,373 (2022-23) and Rs. 1,677 (2023-24). Similarly, in the urban sector, Delhi's average MPCE stands at ₹2,540 (2022-23) and Rs. 3,332 (2023-24), surpassing the national average of ₹2,001 (2022-23) and Rs. 2,376 (2023-24). Moving to the higher fractal class (95-100%), the rural sector in Delhi reports an impressive average MPCE of ₹14,197, compared to the all-India average of ₹10,501 in 2022-23 while during 2023-24, the MPCE was increased to Rs.17,050 in Delhi. However, at All-India level, it was slightly decreased from Rs. 10,501 to 10,137. In the urban sector, Delhi's average MPCE in 2022-23 was at ₹28,965, significantly higher than the national average of ₹20,824. However, in 2023-24, it was Rs. 26,393 in urban Delhi while at All-India level, the figure was Rs. 20,310.

8.3 AVERAGE MPCE ACROSS HOUSEHOLD TYPES:

8.4 GINI CO-EFFICIENT:

The Gini coefficient is a statistical measure of income distribution within a population. It ranges from 0 to 1, where 0 indicates perfect equality (everyone has the same income) and 1 indicates perfect inequality (one person has all the income, and everyone else has none).

STATEMENT 20.13

Gini coefficient of total consumption expenditure in 2011-12, 2022-23& 2023-24, All-India & Delhi

Sector	Gini coefficient of consumption expenditure(With Imputation)					
	All-India			Delhi		
	2011-12	2022-23	2023-24	2011-12	2022-23	2023-24
Rural	..	0.261	0.230	..	0.211	0.204
Urban	..	0.309	0.279	..	0.336	0.274
	Gini coefficient of consumption expenditure(Without Imputation)					
Rural	0.283	0.266	0.237	0.244	0.211	0.205
Urban	0.363	0.314	0.284	0.349	0.338	0.275

.. : Gini Coefficient of consumption expenditure (with imputation) was not computed in the Centre's Report No. 555"Level andPattern of Consumer Expenditure 2011-12".

When examining the Gini coefficient comparisons between Delhi and All-India, significant insights emerge across rural and urban sectors. During 2022-23, in rural areas, Delhi's Gini coefficient stands at 0.211, noticeably lower than the national level of 0.266 (without imputation). Conversely, in urban areas, Delhi's Gini coefficient of 0.338 remains slightly higher than the national urban average of 0.314 (without imputation). However, a decreasing trend has been observed in Gini coefficient from 2011-12 to 2023-24 both in Delhi and at All-India level.

During 2022-23, the national average Gini coefficient stands at 0.261 for rural areas and
0.309 for urban areas. In rural India, states such as Andhra Pradesh, Assam, Bihar, Chhattisgarh, **Delhi,** Goa, Gujarat, Haryana, Jharkhand, Karnataka, Madhya Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Odisha, Punjab, Sikkim, Tamil Nadu, Telangana, Tripura, Uttar Pradesh, Uttarakhand, West Bengal, Chandigarh, Jammu and Kashmir and Lakshadweep exhibit Gini coefficients below 0.261, indicating relatively lower income inequality. Notably, Tripura stands out with a Gini coefficient of 0.198, approaching a state of near-perfect equality, alongside an average monthly per capita consumption expenditure (MPCE) of Rs.5301. In contrast, the urban sector presents a different picture with a national average Gini coefficient of 0.309. Several states show higher levels of income inequality, with some exceeding a Gini coefficient of 0.309. States such as **Delhi,** Himachal Pradesh, Kerala, Haryana, Odisha and Maharashtra are notable for their higher Gini coefficients, indicating greater income disparity in urban areas.

During 2023-24, the Gini coefficient stands at 0.230 for rural areas and 0.279 for urban areas at All India level. In rural India, states such as Kerala, Rajasthan, Sikkim, Andaman &Nicobar Islands, Ladakh and Lakshadweep have Gini coefficient more than the national average i.e. 0.230. However, in urban India, states like Haryana, Jharkhand, Karnataka, Maharashtra, Chandigarh & Ladakh have Gini coefficient more than the national average i.e. 0.279 which shows higher levels of income inequality.

Further, it is observed that, Gini coefficient in rural and urban Delhi was 0.204 and 0.274 respectively in 2023-24 showing a decreasing trend in comparison to 2022-23. Moreover, when compared at All-India level, Gini coefficient in Delhi was less indicating lower income disparity in rural as well as urban areas during 2023-24.

*For 2023-24: *includes gram #includes purchased cooked meal $ excludes tailoring charges & includes tailoring charges*

In the 2023-24 period, for non-food expenditure, Delhi's rural per capita consumption stands at 59.68%, compared to 52.96% at the National level. This marks a notable increase from 2011-12, where Delhi recorded 58.21% and at All-India level recorded 47.10%, highlighting substantial increase in consumption levels over the years. Focusing on non-food expenditure, there is a consistent rise, indicating improving economic conditions. However, food expenditure shows a decline from 2011-12 to 2022-23 with a little increase in 2023-24 both in Delhi and at All-India level. In Delhi, food expenditure decreased from 41.79% (2011-12) to 40.32% (2023-24), while at the national level, it dropped more significantly from 52.90% (2011-12) to 47.04% (2023-24) in rural areas.

*For 2022-23: *excludes gram #includes purchased cooked meals $ excludes tailoring charges & includes tailoring charges*

*For 2023-24: *includes gram #includes purchased cooked meal $ excludes tailoring charges & includes tailoring charges*

In the urban sector, a comparable decline is observed in food expenditure: from 40.83% (2011-12) to 39.57% (2023-24) for Delhi, and from 42.62% (2011-12) to 39.68% (2023-24) for National level. This trend highlights a significant shift in consumption patterns towards reduced

food expenditure across both rural and urban areas. Conversely, non-food expenditures have shown an increase over time. In Delhi (urban), non-food expenditures rose from 59.16% in 2011-12 to 60.43% in 2023-24, while at All-India level, it reached from 57.38% in 2011-12 to 60.32% in 2023-24.

9. Initiatives for Poverty alleviation

9.1 The Delhi Government is providing subsidies to the citizens of Delhi in the domains of healthcare, education, access to clean drinking water, electricity and women safety. Various welfare Scheme/Programmes are being run by the Govt. for upliftment of poor people. Main schemes/programmes are as under:-

- **Mahila Samridhi Yojana**: To recognize and honour women's unpaid domestic labour, Delhi Government has launched the "Mahila Samridhi Yojana". A budget of Rs. 5,100 crore has been allocated under this scheme, which will provide monthly assistance of Rs. 2,500 to eligible women. This move will help to enhance women's economic independence, decision-making capacity and self-esteem.

- **Sakhi Niwas Yojana** : "Sakhi Niwas Yojana" is being run with the aim of providing safe, secure and affordable housing to women. Under this scheme, safe hostels are being provided for working women and girl students pursuing higher education and day-care facilities for the working women's children.

- **Mukhyamantri Matru Vandana Yojana (MMMVY):** Mukhyamantri Matru Vandana Yojana (MMMVY) is launched for which a provision of Rs. 210 crore has been allocated. Under this scheme, financial assistance of upto Rs. 21,000 and 6 nutrition kits will be provided to 1 lakh beneficiaries.

- **Saksham Anganwadi & Poshan 2.0 scheme:** Saksham Anganwadi & Poshan 2.0 scheme for improving the nutritional and health status of children in the age group of 0-6 years.
- **Shelter for Urban Homeless (SUH):** Ensures the availability and access to permanent 24-hour shelters equipped with essential services like water and sanitation for the urban homeless population.

- **Housing for Economical Weaker Sections (EWS):** The government is involved in the construction of houses for the EWS category under the Delhi Master Plan and the Pradhan Mantri Awas Yojana (Urban).

- **The State Urban Livelihoods Mission (SULM):** The State Urban Livelihoods Mission (SULM), operating under the central government's Deen Dayal Antyodaya Yojana-National Urban Livelihoods Mission (DAY-NULM), is the primary agency for urban poverty reduction through livelihood opportunities.

- **Mukhya Mantri Awas Yojana (MMAY):** Envisions the rehabilitation of 'jhuggi jhopri' (slum) dwellers through the construction of low-cost, subsidized houses.

- **Housing for Economical Weaker Sections (EWS):** The government is involved in the construction of houses for the EWS category under the Delhi Master Plan and the Pradhan Mantri Awas Yojana (Urban).

- **Support to Urban Street Vendors (SUSV):** Aims to address livelihood concerns of street vendors by facilitating access to suitable vending spaces, institutional credit, and social security.

- **Mohalla Clinics** (**Urban Ayushman Arogya Mandir" (UAAM)**): Established Mohalla Clinics to provide accessible and affordable primary healthcare services, including free consultations, medicines, and diagnostic tests, within communities.

- **"Delhi Arogya Kosh" (DAK):** "Delhi Arogya Kosh" (DAK) is a registered society which provides financial assistance to the extent of Rs. 5 lacs to the needy eligible patients for treatment of any illness /disease in Government Hospital.

- To encourage more women to become bus driver in Delhi Transport System, relaxations as 'no experience required' and 'reduced height requirement' have been introduced and also made provisions for free training at Burari Driving Training Institute.

- Financial Assistance to Senior Citizens
- Financial Assistance to Differently- abled Persons
- National Family Benefit Scheme
- Financial Assistance to Women in Distress
- Ladli Yojana
- Financial Assistance to Poor Widows for Performing Marriage of their Daughters and to Orphan Girls for their Marriage
- Reimbursement of Tuition Fee to the Students belonging to SC/ST/OBC studying in Public Schools
- Financial Assistance for Purchase of Stationery and Merit Scholarship for SC/ST/OBC/Minority category students for Class I – XII
- Mukhyamantri Vidhyarathi Pratibha Yojana
- Merit Scholarship to College/Professional Institutions Students belonging to SC/ST/OBC/Minority
- Free supply of text books
- Chief ministers scholarship for meritorious students – scholarship & stipend
- Mid day meal Programme

- PDS
- Subsidy to Consumers through Delhi Jal Board
- Subsidy to Consumers through DISCOMS
- Various welfare schemes run by Delhi Building & Other Construction Welfare Board
- Free/reduced cost treatment in govt. hospitals & Aam Admi Mohalla Clinics
- Free bus services in DTC/Cluster buses for women commuters

9.2 As per the order dated 15.04.2025 by Labour Department, GNCTD; the Government has enhanced the minimum wages in respect of unskilled, semiskilled and skilled categories in all scheduled employment in Delhi as follows:

Category	Rates from 01/04/2025 (Rs.)	
	Per month	Per day
Un-skilled	18456/-	710/-
Semi-skilled	20371/-	784/-
Skilled	22411/-	862/-

The following rates of minimum wages shall be applicable in respect of Clerical and Supervisory Staff in all Scheduled employments:

Category	Rates from 01/04/2025 (Rs.)	
	Per month	Per day
Non-Matriculate	20371/-	784/-
Matriculate but not Graduate	22411/-	862/-
Graduate and above	24356/-	937/-

9.3 **Impact of Subsidies**

- To study the cumulative effect of all subsidies on the socio-economic life of the citizens of Delhi as well as on the local economy, a study of 3450 samples of households was undertaken during March, 2020 by the Centre for Market Research & Social Development Pvt. Ltd. with the help of Planning Department, GNCTD.

- The study observed that in last three months, all the surveyed households have been benefitted for reduced or zero electricity bill, while 76.1% have been benefitted for reduced or zero water bill, 64.7% have been benefitted for free/reduced cost treatment in govt. hospitals, 58% have been benefitted

for free bus ride for women and 43.7% households have been benefitted for free public education.

- Due to all the above subsidies provided to the citizens of Delhi, a household is now saving an average amount of ₹ 2464/- per month. Each month, a household is saving ₹ 715/- for reduced or zero electricity bill, ₹ 693/- for free/reduced cost treatment in govt. hospitals, ₹ 554/- for free public education, ₹ 255/- for reduced or zero water bill and ₹ 247/- for free bus ride.

- The study further observed that though more number of households are benefitted due to reduced or zero electricity bill, but highest amount in a month is saved by a household for free public education (₹1267/-), followed by for free/reduced cost treatment in govt. hospitals (₹1071/-), reduced or zero electricity bill (₹715/-), free bus ride for women (₹426/-) and reduced or zero water bill (₹ 325/-).

- Majority (61.6%) of the households informed that they have already spent the extra money saved due to subsidies; 28.4% have invested the money in FD, Post Office, Insurance, Savings in Bank, property, etc.; 7.2% will going to spend the money in near future and 2.8% have lent the extra money saved due to subsidies.

- The households which have already spent the extra money saved due to subsidies, 50.7% have spent for food and beverages (fruits, vegetable, dal, rice, flour, tea, coffee, snack items etc.), 13.1% have spent for education related purchases (books, stationary, project materials, tuitions), 10.1% have spent/ going to spend for medical treatment and medicines, 7.9% have spent for clothing and accessories (clothes, cosmetics, shoes, goggles, jewellery etc.), 7.3% have spent for appliances/ assets (cell phone, TV, Fridge, Mixie, stove, microwave, cycle, motorcycle etc.), 6.7% for entertainment (movies, concerts, picnic, trips), and 4.5% households have spent for other purposes.

10. Conclusion

The results of the “Study on impact of subsidies of the Delhi Government on the socio-economic status of citizens and the local economy” assessed the various aspects of the impact of the subsidies given under various government services in Delhi and revealed that the subsidies have a significant impact on the savings and expenditure of benefitted households. The benefitted households emphasized that there is nothing inherently bad in providing subsidies under various government services in Delhi. These benefits are provided for the welfare of the society by maintaining the income and providing

basic services for low-income groups. Thus, it is suggested in the study that the subsidies provided for various government services in Delhi may be continued for the socio-economic development of the people living at the bottom of the pyramid.

CHAPTER AT A GLANCE

➢	The poverty line was estimated at ₹1145 for rural and ₹1134 for urban Delhi as against the national level of ₹816 for rural and ₹1000 for urban India respectively.
➢	Persons below poverty level in Delhi fell to the single digit at 8 per cent of the total population in 1999-2000.
➢	During 2011-12, 21.92 per cent of the population of India was under below poverty; while it was 9.91 per cent in Delhi.
➢	Every hundred rupees spent by households in urban Delhi about ₹38.76 were on food items and the remaining ₹61.24 on non-food items. In India, it was ₹42.62 and ₹57.38 for food and non-food items respectively as per National Sample Survey 68th Round of Socio-Economic Survey 2011-12.
➢	As per the reports on "Survey on Household Consumption Expenditure 2022-23" & "Survey on Household Consumption Expenditure 2023-24" released by MoSPI, GoI ; the Monthly Per Capita Expenditure (with imputation) during 2022-23 in Rural Delhi was Rs.2,664.00 on food items and Rs. 3,931.10 on non-food items while in Urban Delhi, the MPCE was Rs. 3,197.77 and Rs.5,052.19 for food & non-food items respectively. However, during 2023-24, the MPCE (with imputation) on food items was Rs.2,998.76 and Rs.4,416.40 on non-food items in Rural Delhi while during the same period, in urban Delhi, the MPCE was Rs. 3,389.59 & Rs. 5,157.95 for food & non-food items respectively.

CHAPTER 21

EMPLOYMENT AND UNEMPLOYMENT

EMPLOYMENT

The unemployment rate is a useful measure of the underutilization of the labour supply. It reflects the inability of an economy to generate employment for those persons who want to work but are not doing so, even though they are available for employment and actively seeking work. Unemployment adversely affects the disposable income of families, erodes purchasing power, diminishes employee morale, and reduces an economy's output. Unemployment tends to have negative psychological consequences, including the loss of identity and self-esteem, increased stress from family and social pressures, along with greater future uncertainty with respect to labour market status. Lower unemployment will reduce government borrowing and help economic growth. If the unemployed gain work, they will increase spending, and this will cause a positive multiplier effect which helps to increase economic growth. Employment contributes to economic growth and development: Workers produce valuable goods and services, and in turn receive a wage, which they can spend on buying the goods produced.

1.1 The various constituents of Employment and Unemployment viz. ‘employed, ‘unemployed’, ‘labour force’ and ‘out of labour force’ are as explained below:

(a) Workers (or employed): Persons who, during the reference period, are engaged in any economic activity or who, despite their attachment to economic activity, have temporarily abstained from work for reasons of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies constitute workers. Unpaid helpers who assist in the operation of an economic activity in the household farm or non-farm activities are also considered as workers. All the workers are assigned one of the detailed activity statuses under the broad activity category 'working or being engaged in economic activity'.

(b) Seeking or available for work (or unemployed): Persons, who, during the reference period, owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing condition of work and remuneration are considered as those who are ‘seeking or available for work’ (or unemployed).

(c) Labour force: Persons who are either 'working' (or employed) or 'seeking or available for work' (or unemployed) during the reference period together constitute the labour force.

(d) Out of labour force: Persons who are neither 'working' and at the same time nor 'seeking or available for work' for various reasons during the reference period are considered to be 'out of labour force'. The persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young or too old persons, prostitutes, etc. and casual labourers not working due to sickness.

1.2 As per Census 2001, the population of Delhi was 138.50 lakh. In 2011 census, the population of Delhi increased to the level of 167.88 lakh which indicate the fact that on an average, the population of Delhi increased at 2.12 per cent per annum during 2001-2011. During the same period the proportion of the working population to the total population in Delhi increased at the rate of 0.46 per cent. The information regarding population, working population and non-workers in India and Delhi during 1981-2011 is presented in Statement 21.1.

STATEMENT 21.1

WORKERS AND NON-WORKERS IN INDIA & DELHI: 1981-2011

(Lakh)

S. No.	Details	1981		1991		2001		2011	
		India	Delhi	India	Delhi	India	Delhi	India	Delhi
1.	Total Workers	2446.04 (35.70)	20.02 (32.19)	3141.30 (37.11)	29.80 (31.63)	4023.60 (39.11)	45.45 (32.82)	4818.90 (39.79)	55.87 (33.28)
2.	Non-workers	4405.81 (64.30)	42.18 (67.81)	5322.61 (62.89)	64.41 (68.37)	6262.51 (60.89)	93.05 (67.18)	7289.7 (60.21)	112.00 (66.72)
3.	Total Population	6851.85 (100.00)	62.20 (100.00)	8463.91 (100.00)	94.21 (100.00)	10286.11 (100.00)	138.50 (100.00)	12108.6 (100.00)	167.87 (100.00)

Source: Census of India, 1981, 1991, 2001 & 2011
Note: Figures in parenthesis relate to percentage to total.

1.3 It may be observed from Statement 21.1 that the work participation rate in Delhi during 1981 was 32.19 per cent, reduced to 31.63 per cent in 1991 and slightly increased at 32.82 per cent in 2001 & now in 2011 is 33.28. The growth of workers in Delhi during 1981-2011 was worked out at 5.96 per cent per annum while non-workers were at 5.51 per cent per annum. This was the same in the case of national level; where the growth of workers outweighs the growth of non-workers and the difference was worked out at 1.05 per cent per annum during the same period. This clearly indicates the fact that the work participation rate has enhanced both in national level

and Delhi. As Delhi is almost a fully urbanized state in the Indian Union, the growth of workers and non-workers were higher than the national level. During the same period the percentage contribution of workers, non-workers in Delhi increased simultaneously with the increase in population. The more details regarding the growth of workers and non-workers in Delhi and India during 1981-2011 are presented in Statement 21.2.

STATEMENT 21.2

Source: Census of India, 1981, 1991, 2001 & 2011

1.4 According to the Census, main workers were those who were engaged in any economically productive activity for 183 days (or six months) or more during the year. While marginal workers were those who worked for less than 183 days (or six months) in a year. Generally, the workers' category includes both main and marginal workers. The classification of workers, i.e main and marginal workers, non-workers and the population of Delhi during the last six censuses is mentioned in Statement. 21.3.

STATEMENT 21.3

WORKERS, NON-WORKERS AND POPULATION IN DELHI: 1961-2011

(Number)

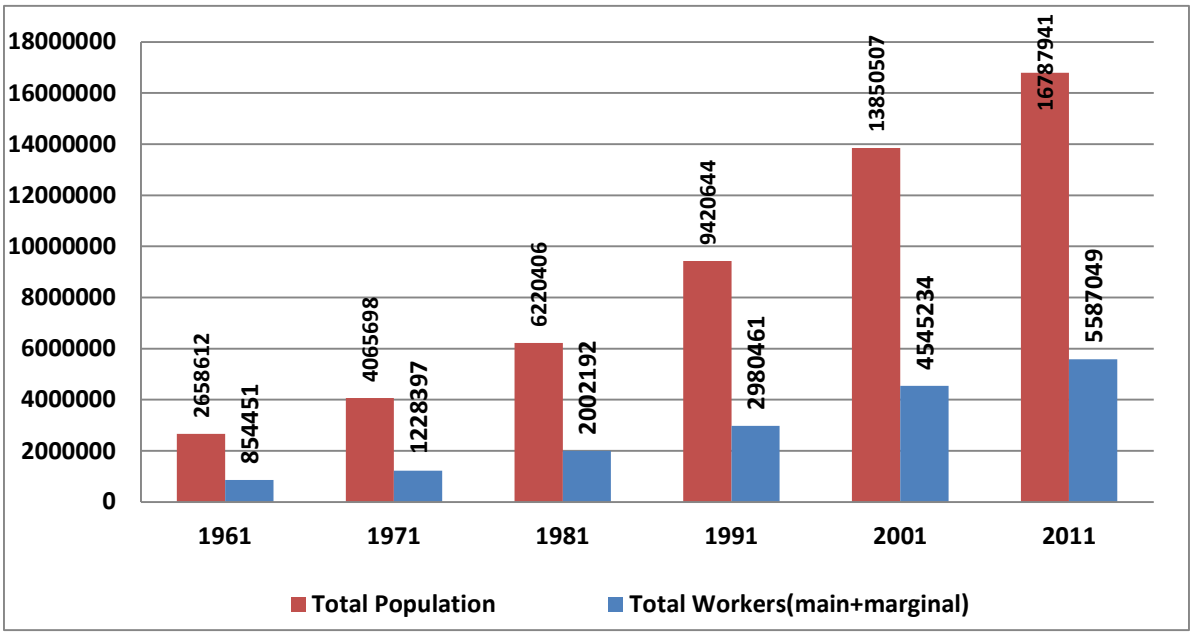

S. No.	Years	Workers			Non-workers	Total Population
		Main	Marginal	Total		
1.	1961	NA	NA	854451 (32.14)	1804161 (67.86)	2658612
2.	1971	NA	NA	1228397 (30.21)	2837301 (69.79)	4065698
3.	1981	1986399 (31.94)	15793 (0.25)	2002192 (32.19)	4218214 (67.81)	6220406
4.	1991	2968377 (31.51)	12084 (0.13)	2980461 (31.64)	6440183 (68.36)	9420644
5.	2001	4317516 (31.17)	227718 (1.65)	4545234 (32.82)	9305273 (67.18)	13850507
6.	2011	5307329 (31.61)	279720 (1.67)	5587049 (33.28)	11200892 (66.72)	16787941

Source: Census of India, 1961, 1971, 1981, 1991, 2001 & 2011
Note: Figures in parenthesis relate to percentage to total population.

1.5 It may be inferred from Statement 21.3 that one third of the total population in Delhi was taking care of the remaining two-thirds of the population. It is generally called the dependency burden of the working class. It is also observed from the above table that during 1961 and 1971 census not provided the information regarding main and marginal workers and mentioned only in the category of workers. The last census showed the highest percentage of marginal workers at 5 per cent of the workers in Delhi. The information regarding workers, non-workers and population in Delhi during 1961-2011 is depicted in Chart 21.1.

CHART 21.1

WORKERS, NON-WORKERS & POPULATION OF DELHI: 1961 - 2011

1.6 The general phenomenon found in most of the urbanized areas is that the percentage of persons engaged in the primary agriculture sector is very low. Delhi is also showing the same way, while the persons employed in the service sector and industrial sectors constitute a major share. The information regarding category-wise workers (including main and marginal workers) in Delhi during 2011 is presented in Statement 21.4.

STATEMENT 21.4

CATEGORY-WISE WORKERS IN DELHI- 2011

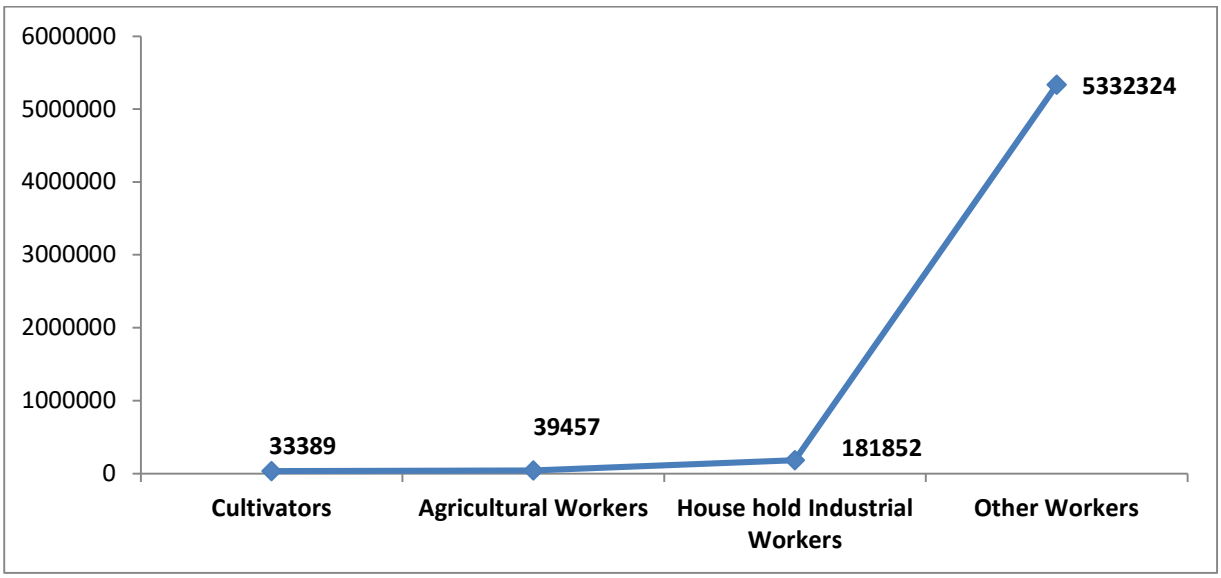

S. No.	Category of Workers	Workers (Number)			% of Total Workers
		Male	Female	Total	
1.	Cultivators	27458	5940	33389	0.60
2.	Agricultural Workers	31352	8123	39457	0.71
3.	House hold Industrial Workers	152758	29094	181852	3.25
4.	Other Workers	4550458	781866	5332324	95.44
5.	Total Workers	4762026	825023	5587049	100.00

Source: Delhi Statistical Hand Book, 2019; Census 2011

1.7 It may be inferred from Statement 21.4 that female workers constitute a less percentage of workers during 2011 and it approximated up to 15 per cent of workers in Delhi. The major shares of workers in Delhi were in the category of other workers, which includes all industrial and tertiary sector activities at it constitutes at 95 per cent. The information regarding category-wise workers in Delhi is depicted in Chart 21.2

CHART 21.2

CATEGORY-WISE WORKERS IN DELHI-2011

2. Employment Surveys in Delhi

2.1 National Sample Survey Office (NSSO) collects the information regarding the characteristics of the labour force both employed as well as unemployed through their various rounds. The information regarding the same in Delhi during various rounds of NSSO is presented in Statement 21.5.

STATEMENT 21.5

EMPLOYMENT IN DELHI: NSS ROUNDS (STATE SAMPLE)

(Lakh)

S. No.	Rounds of NSSO	Estimated Population	Employed Persons	% of Employed persons to total estimated population
1.	55th Round (July 1999-June 2000)	132.98	38.94	29.29
2.	57th Round (July 2001-June 2002)	139.50	41.75	29.93
3.	59th Round (Jan-December 2003)	148.28	45.49	30.68
4.	60th Round (Jan-June 2004)	151.28	48.57	32.11
5.	61st Round (July2004-June 2005)	155.69	50.55	32.47
6.	62nd Round (July2005-June 2006)	160.21	54.26	33.87
7.	64th Round (July 2007-June 2008)	169.55	57.08	33.66
8.	66th Round (July 2009-June 2010)	163.54	52.97	32.39
9.	68th Round (July 2011-June 2012)	170.89	57.06	33.39

Source: Directorate of Economics and Statistics, GNCTD

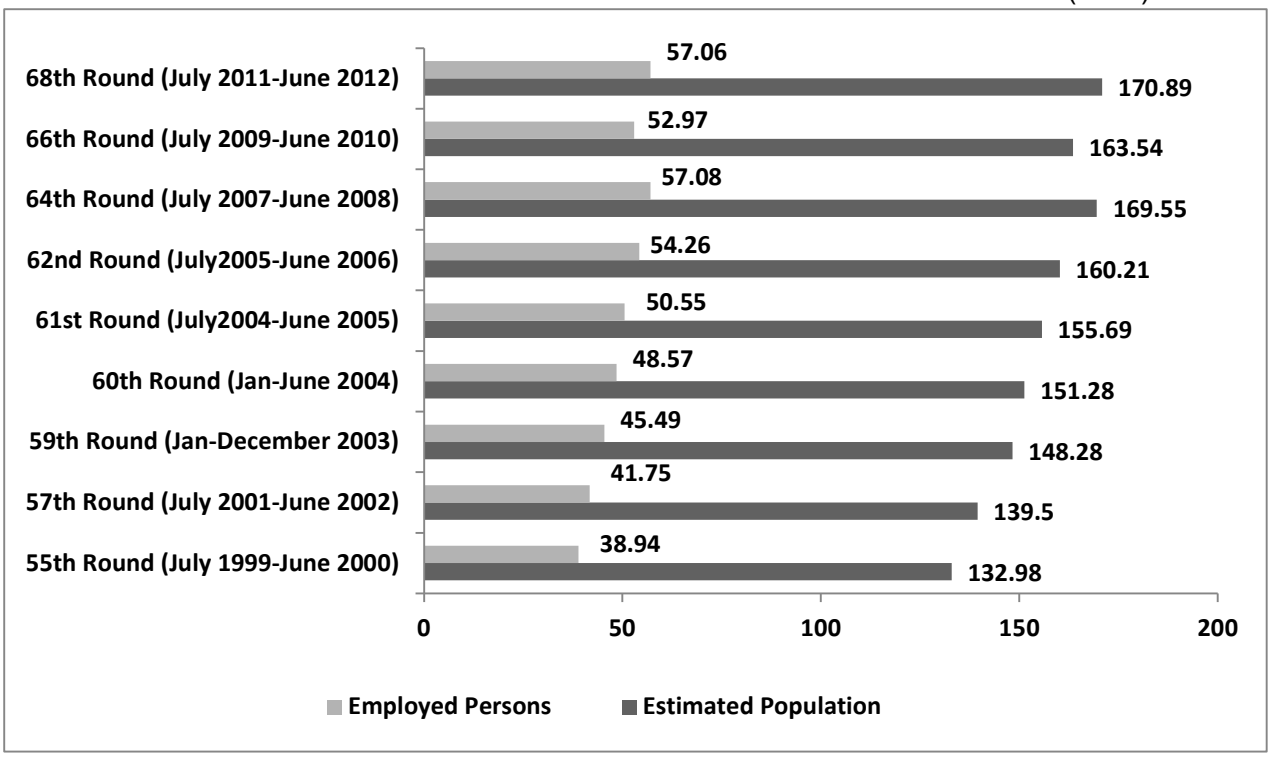

2.2 It may be observed from Statement 21.5 that the estimated employed persons in Delhi increased from 38.94 lakh during the 55th round in 1999-2000 to 57.06 lakh in

the 68th Round during 2011-12. The percentage of employed persons to the total population increased during all rounds of NSSO except during the 64th and 66th Rounds, and the difference was worked out at 0.21 per cent & 1.27 per cent respectively. The information regarding employment in Delhi as per NSSO Rounds is depicted in Chart 21.3

CHART 21.3

2.3 Periodic Labour Force Survey

On the recommendations of National Statistical Commission (NSC) first Periodic Labour Force Survey was conducted during July 2017 to June 2018 and since then, it is being conducted by MoSPI, GoI. The objective of the survey is to measure dynamics in labour force participation and employment status.

The findings of PLFS in terms of Labour Force Participation Rate, Workers Population Ratio & Unemployment rate in Delhi during 2020-21, 2021-22, 2022-23 & 2023-24 respectively are presented below:

STATEMENT 21.6 (a)

ESTIMATED SECTOR WISE LABOUR FORCE PARTICIPATION RATE, WORKERS POPULATION RATIO AND UNEMPLOYMENT RATE ACCORDING TO USUAL STATUS (PS+SS) IN DELHI DURING 2020-21 TO 2023-24 (AGE GROUP -ALL) IN %

S. No.	Year	Gender	Labour Force Participation Rate			Workers population Ratio			Unemployment Rate		
			Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
1.	2020-21	Male	55.8	58.1	58.0	52.3	54.4	54.4	6.3	6.2	6.2
		Female	6.9	10.8	10.7	6.8	10.1	10.0	1.1	6.5	6.4
		Person	34.4	36.0	36.0	32.4	33.8	33.7	5.8	6.3	6.3
2.	2021-22	Male	63.7	57.2	57.5	61.0	54.3	54.5	4.3	5.2	5.1
		Female	6.0	9.5	9.4	6.0	8.9	8.8	0.0	6.2	6.0
		Person	35.6	34.8	34.8	34.2	32.9	33.0	3.9	5.3	5.3
3.	2022-23	Male	57.6	57.0	57.1	51.4	56.1	56.0	10.7	1.6	1.8
		Female	2.9	11.6	11.3	2.9	11.3	11.1	0.0	2.2	2.2
		Person	30.5	35.9	35.7	27.4	35.3	35.0	10.2	1.7	1.9
4.	2023-24	Male	54.7	54.0	54.0	52.8	52.8	52.8	3.6	2.2	2.2
		Female	13.8	14.5	14.5	11.1	14.3	14.2	19.5	1.1	1.5
		Person	37.8	35.9	36.0	35.5	35.2	35.2	6.0	2.0	2.1

Source: Annual Report, PLFS, 2020-21, 2021-22, 2022-23 & 2023-24 MoSPI, GOI.
Reference Period: July to June.

It can be observed from the above table that the Unemployment Rate in Delhi during 2020-21 was 6.3 which have been decreased to 2.1 in 2023-24.

The Percentage distribution of usually working persons (ps+ss) by industry of work (industry sections of NIC-2008) for the year 2021-22 to 2023-24 has been presented in next Statement.

STATEMENT 21.6 (b)

STATEMENT: PERCENTAGE DISTRIBUTION OF USUALLY WORKING PERSONS (ps+ss) BY INDUSTRY OF WORK (INDUSTRY SECTIONS OF NIC-2008) FOR THE YEAR 2021-22, 2022-23 & 2023-24.

Source: Calculated on the basis of Annual Report, PLFS 2021-22, 2022-23 & 2023-24 MoSPI, GoI.

Year	State \ UT	Person (Rural + Urban)			
		Agriculture Sector (Div. 01-03 of NIC 2008)	Secondary Sector (Div. 05-43 of NIC 2008)	Tertiary Sector (Div. 45-99 of NIC 2008)	All
(1)	(2)	(3)	(4)	(5)	(6)
2021-22	Delhi	1.89	32.74	65.35	100.0
	All India	45.46	24.88	29.66	100.0
2022-23	Delhi	0.28	32.76	66.94	100.0
	All India	45.76	25.30	28.93	100.0
2023-24	Delhi	0.27	28.76	70.98	100.00
	All India	46.07	24.19	29.73	100.00

Reference Period: July to June

**No sample was observed for Industry Section U (Division 99) NIC 2008*

Note:

BROAD STRUCTURE

(Sections and Divisions)

NIC – 2008

1. Agriculture Sector: (Division 01 – 03)

- Section A: Agriculture, forestry and fishing (Division 01 – 03)

2. Secondary Sector: (Division 05 – 43)

- Section B: Mining and quarrying (Division 05 – 09)
- Section C: Manufacturing(Division 10 – 33)
- Section D: Electricity, gas, steam and air conditioning supply (Division 35)
- Section E: Water supply; sewerage, waste management and remediation activities (Division 36 – 39)
- Section F: Construction (Division 41 – 43)

3. Tertiary Sector: (Division 45 – 99)

- Section G: Wholesale and retail trade; repair of motor vehicles and motorcycles (Division 45 – 47)
- Section H: Transportation and storage (Division 49 – 53)
- Section I : Accommodation and Food service activities (Division 55 – 56)
- Section J: Information and communication (Division 58 – 63)
- Section K: Financial and insurance activities (Division 64 – 66)
- Section L: Real estate activities (Division 68)
- Section M: Professional, scientific and technical activities (Division 69 – 75)
- Section N: Administrative and support service activities (Division 77 – 82)
- Section O: Public administration and defence; compulsory social security (Division 84)
- Section P: Education (Division 85)
- Section Q: Human health and social work activities (Division 86 – 88)
- Section R: Arts, entertainment and recreation (Division 90 – 93)
- Section S: Other service activities (Division 94 – 96)
- Section T: Activities of households as employers; undifferentiated goods- and services producing activities of households for own use (Division 97 – 98)
- Section U: Activities of extraterritorial organizations and bodies (Division 99)

It has been observed from the above Statement that in Delhi, only 0.27% working persons (ps+ss) were engaged in the Agriculture Sector & 70.98% working persons engaged in Tertiary Sector in 2023-24. However, at the same time, at All India level, 46.07% of working persons were engaged in the Agriculture Sector as well as 29.73% working persons engaged in Tertiary Sector.

Percentage distribution of workers in usual status (ps+ss) by broad status in employment for each State/UT during 2021-22 to 2023-24 has been presented below.

STATEMENT 21.6 (c)

3.3 It may be inferred from Statement 21.7 that employment in the organized sector in Delhi during the last decade showed a positive growth rate at 2.84 per cent per annum. During the same period, employment in the private sector showed positive growth at 8.76 per cent per annum. Employment in the public sector especially the central government, quasi government and local bodies showed a increasing trend, while in the Government of the National Capital Territory of Delhi showed positive growth from 1.27 lakh in 2008-09 to 1.31 lakh in 2018-19, recording a growth rate at

3.14 per cent per annum. The information regarding organized sector in Delhi during 2018-19 is presented in Chart 21.4.

CHART 21.4

EMPLOYMENTS IN ORGANIZED SECTOR IN DELHI- 2018-19

(Lakh)

4. Unemployment Scenario in Delhi

4.1 Generally a person who is able and willing to work but unable to find a suitable job is considered as unemployed. The unemployment rate is the number of unemployed workers divided by the total number of labour which includes both the unemployed and those with jobs (all those willing and able to work for pay) or Unemployment rate refers to the number of persons unemployed per 1000 persons in the labour force. In practice, measuring the number of unemployed workers actually seeking work is notoriously difficult. There are several different methods for measuring the number of unemployed workers. Each method has its own biases and the different systems make comparing unemployment statistics between countries, especially those with different systems, difficult.

4.2 The information regarding the distribution of unemployed persons registered in employment exchanges on the basis of education during 2010-22 is presented in Statement 21.8.

STATEMENT 21.8

EDUCATIONAL DISTRIBUTION OF UNEMPLOYED PERSONS REGISTERED IN EMPLOYMENT EXCHANGES IN DELHI 2011-2023

(As on 31st December)

Table 14.5
CENSUS TOWNS AND INHABITED VILLAGES IN NCT OF DELHI: 1901-2011

S. No.	Years	Number of		Remarks
		Villages	Towns	
1.	1901	--	2	1901 and 1911, there were 2 towns namely Delhi Municipal Committee and Shahdara (Transferred from Meerut District of Uttar Pradesh)
2.	1911	--	2	
3.	1921	314	1	1921, there was only one town namely Delhi Municipal Committee.
4.	1931	307	3	1931, there were 3 towns viz,. 1. Old Delhi which included Municipality, Civil Station Notified Area and Fort of Lal Quila, 2. New Delhi or Imperial Delhi and 3. Shahdra.
5.	1941	305	9	1941 census, Delhi Municipality, Delhi Cantonment, Delhi Civil Lines and Red Fort became separate towns. In addition, Narela, Najafgarh and Mehrauli were also treated as towns for the first time in view of their urban characteristics. Thus the number of towns rose to nine.
6.	1951	304	10	1951 one more town namely, West Delhi was added, thus raising total number of towns to ten.
7.	1961	276	3	Delhi Municipal Corporation (DMC) came into existence in 1958. In 1961, all the towns except NDMC and Delhi Cantonment were brought under Delhi Municipal Corporation. With this, the total number of towns stood reduced to three.
8.	1971	243	3	There was no change in the number of towns.
9.	1981	214	30	1981, the number of statutory towns remained unchanged. The concept of census town was adopted for the first time in 1981 census in Union Territory. Accordingly 27 villages were treated as census towns. With this, the total number of towns rose to 30.
10.	1991	199	32	1991, 6 out of 27 census towns of 1981 were merged to DMC (U) and 2 census towns were declassified. Ten villages were treated as census towns for the first time. The total number of towns thus rose to 32 (Statutory Towns-3, Census Towns- 29)
11.	2001	158	62	2001 census, 3 census towns of 1991 were urbanized and 2 census towns were declassified. For the first time, 35 villages were treated as Census Towns. Then total number of towns thus rose 62 (Statutory Towns-3, Census Towns-59)
12.	2011	105	113	As per Provisional Census 2011, Circular No. 2, there are 112 villages for Census 2011 out of which 105 are inhabited and then on 113 towns in NCT of Delhi out of which 55 are newly created census towns. (Statutory Towns 3, Census Towns- 110)
